

REQUIRED TRAINING

WARRANT OFFICER BASIC COURSE

The Basic School (TBS), Quantico, VA
4-month course from January to May

The Warrant Officer Basic Course trains and educates newly appointed and commissioned warrant officers in the high standards of professional knowledge, esprit de corps, and leadership required to transition from enlisted Marine to officer, with particular emphasis on the duties, responsibilities and warfighting skills required to serve as a platoon commander in a support role.

CBRND BASIC WARRANT OFFICER COURSE

USMC CBRND School, Ft. Leonard Wood, MO
3-month course from June to August

The CBRND Basic Warrant Officer Course provides new warrant officers with the knowledge and skills to function as leaders, coordinators, technical advisers, and special staff officers for their commanding officers.

The school teaches new CBRN Defense officers:

- The tenants of a successful CBRND program
- CBRN hazards
- CBRN threat assessment
- CBRN threat and vulnerability assessment
- CBRN warning and reporting
- Intelligence preparation of the operation environment (IPOE)
- CBRN reconnaissance and surveillance
- Decontamination
- Countering Weapons of Mass Destruction (CWMD) Planning
- CBRN control center operations

WHAT IS A WARRANT OFFICER?

Warrant officers are highly specialized officers. They are self-aware and adaptive combat leaders, trainers, staff officers, and advisors. Warrant officers are competent and confident warriors, innovative integrators of emerging technologies, dynamic teachers, and developers of specialized teams of Marines...”

WHAT IS A 5702?

- Function as supervisors, coordinators, technical advisers, and Special Staff Officers to the Commanding Officer for operational and technical functions associated with CBRN and supporting Combating Weapons of Mass Destruction (C-WMD) related issues within the command.
- Provide technical expertise pertaining to the management, procurement, and distribution of CBRN capabilities.
- Plan, coordinate, and supervise CBRN related training, and prepare plans, annexes, orders, and standard operating procedures relative to CBRN.
- Advise commanders on the vulnerability of their own forces, and work with intelligence, plans and operations, and logistics communities in collecting, evaluating, and dissemination of information concerning enemy/ adversary CBRN capabilities, as well as other information relating to CBRN threats and hazards supporting C-WMD objectives.

NAVMC 1200.1F
