1. Situation. The publication of this Manual synchronizes the Marine Corps Human Resources Development Process. References (a) and (b) are the authoritative guidance used in development of this Manual and policies outlined therein.

2. Cancellation. NAVMC 1200.1F

3. Mission. Update military occupational specialty (MOS) manual to enable the Total Force Structure Management System (TFSMS) and the Marine Corps Total Force System to accurately manage the inventory of Marines trained in the required skills to meet unit mission requirements.

4. Execution

a. Commander's Intent and Concept of Operations

(1) Commander's Intent. Commanding Officers of schools and all personnel associated with the MOS system shall make all MOS changes as summarized in chapters 2 and 4, officer/enlisted conversion guidance, and as further guided by reference (b), and separate implementing communications.

(2) Concept of Operations. This Manual defines occupational specialties found on tables of organization in TFSMS that lead to generation of the authorized strength report containing information enabling the Marine Corps to carry out its assigned mission to organize, recruit, classify, train, assign, and manage the force.

b. Summary of Revision. This revision contains substantive changes. There are new officer MOSs created in occupational fields (OccFld) 73 and 80. There are new enlisted MOSs created in OccFlds 45 and 80. Officer MOSs 0691 and 4602 have been deleted. Enlisted MOSs 0691, 1372, 2612, 2613, and 6077 have been deleted. There are MOS title changes in officer OccFlds 17, 59, 73, and 88; and MOS title changes in enlisted OccFlds 06, 08, 09, 17, 26, and

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

60. There are no grade structure changes in officer OccFlds. There are grade structure changes in enlisted OccFlds 17, 26, and 55. There are other significant requirements and prerequisites changes in officer and enlisted OccFlds: 02, 03, 05, 06, 08, 09, 13, 17, 21, 26, 30, 31, 44, 45, 46, 55, 58, 59, 60, 61, 62, 63, 65, 66, 73, 75, 80, 82, 87, 88, and 89.

c. Subordinate Element Mission. Headquarters, Marine Corps M&RA, Marine Corps Combat Development Command (MCCDC) Director Total Force Structure Division (TFSD), Commanding Officers of schools and all personnel associated with the Marine Corps occupational system must ensure adherence to the policies, updated requirements, and prerequisites in this manual.

d. Coordinating Instructions. Submit all recommended changes or modifications to MOSSs, OccFlds, or policy referenced in this Manual, to the Commanding General (CG), Training and Education Command (C 466), 1019 Elliot Road, Quantico, VA 22134-5001, via the appropriate chain of command.

5. Administration and Logistics. This Manual is published electronically and accessed online via the Marine Corps homepage at <http://www.marinenet.mil>.

6. Command and Signal

a. Command. This Manual is applicable to the Marine Corps Total Force. As directed by reference (b), separate MARADMINs will be published to provide additional implementing guidance.

b. Signal. This Manual is effective the date signed.

0001. PURPOSE. The purpose of this manual is to present the Marine Corps Occupational System. The occupational system identifies and codifies the personnel skill requirements, derived through the Expeditionary Force Development System, the Marine Corps Front-End Analysis Program, and the development of individual training standards as found in training and readiness manuals. The occupational system enables identification and publication of personnel skill requirements and for the HRDP to build and maintain personnel inventory to meet the needs of the force.

0002. COMPOSITION. This manual is comprised of four chapters. Chapters 1 and 2 contain officer MOSs and chapters 3 and 4 contain enlisted MOSs.

0003. APPLICATION. MOSs are created for use by the HRDP to represent organizational skill requirements identified on Tables of Organization in TFSMS, and skill qualifications assigned to personnel in MCTFS as outlined in reference (ce), Assignment, Classification, and Travel System (ACTS) Manual and provisions of this manual.

0004. MAINTENANCE OF THE MANUAL

1. The Marine Corps Occupational System is established and maintained by the Commanding General (CG), Marine Corps Combat Development Command (MCCDC). All recommended changes and modifications to any particular MOS or occupational field, or to policy set forth in this Manual, must be submitted to the CG, MCCDC (C 466), 1019 Elliot Road, Quantico, VA 22134-5001.

2. Information contained in recommendations for changes to the Manual must be in sufficient detail to enable complete staffing to cognizant headquarters staff agencies. Changes to tables of organization, grade structure, mergers of MOSs, often require changes to the Manual. CG MCCDC (C 466) is the single entry portal and point of contact for staffing and coordination of all MOS change issues. See paragraph 3 for more detail on submitting changes. Proposed changes from either major field commands or Deputy Commandants and functional leaders at Headquarters, Marine Corps must include the following enclosures.

a. Enclosure (1) will be a complete occupational description as shown in paragraphs 1101.4 and 3101.2 of this Manual.

b. Enclosure (2) will contain the purpose and justification for the proposed modification in the format shown in figure 0-1 of the Introduction to this Manual presented as a problem/deficiency and recommendation with explanation of how the recommended change will result in a better state.

c. Restrictions

(1) Restricted Officers cannot hold non-primary MOSs and will be limited to PMOS-BMOS matches.

(2) Colonels are MAGTF Officers and, with the exception of lawyers and MOSs 8059/61 Acquisition Management Professionals, will only hold MOSs 8040, 8041, or 8042 as PMOS. Non-PMOSs will not be associated with General Officers and Colonels with the exception of MOSs 822X/824X Foreign Area Officers and Regional Affairs Officers.

(3) MOSs must be required in sufficient numbers as BMOS in TFSMS to be justified. MOSs with no T/O requirement or no inventory are subject to deletion/disapproval.

(4) MOSs must serve an HRDP purpose (establish a skill requirement, manpower planning, manage the forces, manage training, identify special pay billets). MOSs not meeting this criteria will be deemed as nonperforming MOSs and subject to deletion/disapproval.

(5) Billet requirements identified by a MOS must include aa training concept when established that builds an inventory of Marines prepared for assignment to the BMOS. A concept that awards an MOS after successfully serving in a billet is not valid.

3. Change requests are submitted by the respective Deputy Commandants and functional leaders in the annual revision request to CG MCCDC (C466). Commanders of the Operating Forces, Supporting Establishment, and individual Marines are encouraged to recommend changes to the Marine Corps Occupational System by submitting them directly to the Headquarters, U.S. Marine Corps Occupational Field manager at the appropriate Deputy Commandant or functional leader, as defined in reference (c), The Total Force Structure Process, for evaluation. The minimum information to initiate Occupational Field manager consideration is set forth below:

- a. Identity of the OccFld/MOS involved in the change.
- b. Detailed discussion of the problem or deficiency.
- c. Recommended solution.

0005. MARINE CORPS OCCUPATIONAL SYSTEM. This Manual describes the Marine Corps Occupational System. The Commanding General, Marine Corps Combat Development Command, as Deputy Commandant for Combat Development and Integration and owner of the Expeditionary Force Development System, is responsible for developing Marine Corps combat requirements including doctrine, organization, training and personnel. Organizational requirements are set forth in Tables of Organization (T/O) are tabulated with number codes derived from the Marine Corps Occupational System described in this Manual. The codes define the different individual skills required by Marine Corps organizations. The same codes are used by the Deputy Commandant, Manpower and Reserve Affairs to develop and maintain a personnel inventory of skilled Marines for assignment to meet the organizational requirements of the organizations. Exceptional use of MOSs not required by the Human Resource Development Process (HRDP) is carefully controlled. The Occupational System by necessity must be somewhat rigid in its process and categorization to maintain accuracy of the meaning of the number codes. To maintain

flexibility, the Manual will be reviewed and revised regularly, usually annually as outlined in reference (cc). Organization of the Manual and determination of the MOS codes to be assigned rests with the Deputy Commandant for Combat Development and Integration as published in this Manual.

1. General

a. The Marine Corps Occupational System uses a four-digit number code constructed on the concept that occupations with similar skill, knowledge, or functional application requirements are grouped into functional areas, known as occupational fields (OccFlds), and skill-knowledge sets, known as Military Occupational Specialties (MOSs). This provides for management of efficient and effective classification, assignment, and utilization of Marine Corps personnel. The Occupational System identifies Marine Corps personnel, duties, skill-knowledge attributes, and requirements within the specific functional areas.

b. OccFlds are identified by the first two digits of the four-digit code and a descriptive title. The OccFld is a grouping of related MOSs. Criteria to be considered in establishment of an OccFld include the total number of Marines in the OccFld, the number of MOSs (diversity), unity of functional management, and training requirements.

c. The MOS is a four-digit code consisting of the OccFld code completed by two additional digits. It describes a set of related duties and tasks that extend over one or more grades required by units of the Operating Forces and Supporting Establishment.

(1) The MOS is used to identify skill-knowledge requirements of billets in T/Os, to assign Marines with capabilities appropriate to required billets, and to manage the force.

(2) Criteria to be considered in establishment and type (see glossary, table 0-1) of an MOS include the number of Marines required in the specialty, deployment rotation base, training requirements, specialty requirements/prerequisites, career potential, and ability and need for manpower management.

d. MOSs will not be created without corresponding requirements in tables of organization. Requests for MOSs to keep track of skills without valid T/O requirements are referred to other manpower and personnel inventory management systems. MOSs will not be maintained in the Manual when the manpower inventory levels indicate it is no longer in use or needed to manage the force.

2. Certification

a. MOSs are awarded when performance based criteria have been met as set forth in the applicable Training and Readiness (T&R) Manuals. The simulated environment of a formal school and the actual work environment on the job are both suitable for entry-level performance evaluation under controlled evaluations by competent authority. Every effort should be made to train at MOS producing schools so that unit commanders can dedicate their resources to mission oriented objectives.

b. Unless prescribed in the specific MOS entry in this Manual, consistent with references (d) and (e), certification to award an enlisted MOS shall be authorized when any of the following conditions are met:

(1) Marine graduates from formal school using CG TECOM/Training Command approved Program of Instruction (POI) or a CG TECOM/Training Command approved Course Descriptive Data (CDD) in conjunction with an other-service POI equivalent that designates the MOS to be awarded. The entry-level school provides core skill training as set forth in the applicable 1000 level of the 3500 series, Training and Readiness (T&R) Manual.

(2) Nearly all PMOSs are awarded by attending the appropriate formal school, however, unless specifically prohibited elsewhere in this Manual, in those cases where formal school is either not available or the Marine is unable to attend, in the interest of readiness and force utilization an Additional MOS (AMOS) can be awarded by the commanding officer when:

(a) When the criteria for awarding the MOS is specifically described in the MOS Manual under "Requirements" for the MOS

(b) The Marine meets other necessary prerequisites (i.e. citizenship, age, physical, moral, and security).

(c) The Marine holds a billet in the unit for the specific MOS being awarded.

c. All Marines in recruit training are classified to receive MOS training and typically attend the MOS-awarding school before being assigned to a unit. To reduce the time spent for Marines Awaiting Training (MAT), the formal school MOS training requirement can be delayed if a school seat is not available or other circumstance impedes school attendance for an unacceptably long period. In such cases, and only if a school seat is held for a future date within 6 months, the Marine may be assigned to the intended unit for on-the-job training (OJT) while waiting for the scheduled course.

0006. THE DEPARTMENT OF DEFENSE (DOD) REQUIRED REPORT

1. The DoD requires that a report of the following information be submitted at such times as modifications to the occupational system are affected:

a. Copy of new or revised MOS description.

b. Recommended DoD code for each MOS.

2. The CG, MCCDC (C 465) will submit a report of changes to NAVMC 1200.1D to the Defense Manpower Data Center, 1600 Wilson Blvd., Suite 400, Arlington, VA 22209-2593.

3. Report Control Symbol DD-1200-02 (EXTERNAL RCS DD-P&R(AR)959) has been assigned to this report.

0007. Table 0-1. Table 0-1 provides a glossary of definitions relating to the Marine Corps Occupational System.

0008. Symbols.. The following symbols are used throughout the MOS Manual:

1. * - Indicates a Billet designator MOS.

2. # - Indicates there is a note at the end of the MOS.

1. Justification for this proposed modification: (Use additional page if required).

2. Organizational Requirements: The HQMC advocate is responsible to make working copy changes in TFSMS. When creating a new MOS where there is no MOS in TFSMS, an MS Excel spreadsheet will be submitted with the following information indicated. In either case a copy of the T/Os will be submitted as part of the request.

a. List affected T/Os and line item detail.

b. Source of structure.

Glossary and Business Rules

Additional MOS (AMOS)	Any existing MOS awarded to a Marine who already holds a PMOS. Marines are not promoted in an AMOS. Examples: (1) After a lateral move, a Marine's previous PMOS becomes an AMOS; (2) After a skill progression school, a Marine's previous PMOS becomes an AMOS (e.g. 0369 PMOS, previously an 0311); (3) A FMOS or NMOS, in addition to any previously held or newly awarded PMOSs, that now appears in a Marine's record (e.g. Marine being promoted in 0369 (PMOS) with 0311 (previous PMOS prior to promotion) and 0317 (NMOS 03XX) AMOSs).
Basic MOS	Entry-level MOSs required for the P2T2 T/O for entry-level Marines or others not yet qualified by initial skills training. In addition, when a Reserve Component (RC) Marine transfers to a new unit and does not possess the MOS required for the billet filled, he will be assigned a Basic MOS until the completion of required formal school training or is otherwise certified to be MOS qualified.
Billet Designators	An FMOS requirement indicator as a BMOS that can be filled by any Marine appropriate grade that is included in the MOS definition (i.e. MOS 8007 Billet Designator-Unrestricted Ground Officer (I) FMOS). Normally, FMOS as a skill designator cannot be a BMOS in the Total Force Structure Management System (TFSMS).
Categories of MOSs	Occupational Fields 01-79, 80XX, and 90XX.
Core Plus Skills	Tasks that are mission, advanced, rank, or billet Specific. These tasks are taught, executed, and evaluated at the unit. Core plus tasks relate to 2000 level Individual Training Standards in the Ground Training and Readiness (T&R) Manual.
Core Skills	Those basic skills that "make" a Marine and qualify that Marine for an MOS. Core skills comprise the set of core tasks for each MOS as found in the relevant to 1000 level Individual Training Standards in the Ground Training and Readiness (T&R) Manual.
Entry Level Training (ELT)	All formal training courses a Marine attends from the Recruit Depot/Officer Candidate School until that Marine is granted a PMOS or assigned to his or her first permanent duty station. Prior enlisted commissioned officers are considered to be in entry level training until they receive their initial officer PMOS. Warrant officers are considered to be in ELT until they complete Warrant Officer Basic Course (WOBC) and any course that immediately following WOBC that is designated in the MOS Manual.

Exception MOS (EMOS)	Non-PMOS that is generally FMOS, but include exceptions that require a PMOS.
Free MOS (FMOS)	Non-PMOS that can be filled by any Marine regardless of primary MOS. A free MOS requires skill sets unrelated to primary skills.
Human Resource Development Process (HRDP)	The overarching process that makes the manpower side of combat capability through force structure, manpower, and training sub processes. It determines quantity and skills requirements of the operating force units and supporting establishment, and then attains, classifies, trains, assigns, retains, promotes, and otherwise manages an inventory of Marines to meet those requirements. The HRDP owner is Deputy Commandant Manpower and Reserve Affairs who coordinates with Deputy Commandant Combat Development and Integration for identification and integration of force structure requirements and training.
Initial Strength Test	A gender normed assessment intended to ensure each recruit has the requisite physical strength to conduct recruit training. The performance standards for male recruits are: 2 pull-ups, 44 crunches, and 13:30 1.5 mile run. The performance standards for female recruits are: 12 second flexed-arm hang, 44 crunches, and 15:00 1.5 mile run. An enlisted applicant (male or female) seeking a Program Enlisted For (PEF) code associated with the following MOSs: 0311, 0313, 0321, 0331, 0341, 0352, 0811, 0842, 0844, 0847, 0861, 1371, 1812, 1833, 2131, 2141, 2146, 2147, 7212, must meet the following gender neutral standards: 3 pull-ups, 13:30 1.5 mile run, 44 crunches, and 45 ammo can lifts.
Intended MOS	A tool used by Manpower, a primary MOS that the Marine Corps intends to award a Marine, prior to that Marine completing all primary MOS requirements.
MOS Classification Standards	Based on a recruits final CFT and PFT, or an officer's CFT and PFT during the Basic Officer's Course, specific event performance, a gender neutral assessment to validate MOS Classification into the following MOSs: 0302, 0303, 0307, 0311, 0313, 0321, 0331, 0341, 0352, 0802, 0811, 0842, 0844, 0847, 0861, 1302, 1371, 1802, 1803, 1812, 1833, 2131, 2141, 2146, 2147, 7204, and 7212. The standards are: 6 pull-ups, 24:51 3 mile run, 3:12 Maneuver Under Fire Course, 3:26 Movement to Contact Course, and 60 ammo can lifts.

MOS Sponsor	Advocate or proponent that acts as the principal agent with regards to force structure requirements, intended structure changes, and unique operational considerations within an MOS. The MOS sponsor will also review relevant MOS descriptions and requirements in the MOS Manual and request revisions as necessary.
Necessary MOS (NMOS)	A non-PMOS that has a prerequisite of one or more PMOSs. This MOS identifies a particular skill or training that is in addition to a Marine's PMOS, but can only be filled by a Marine with a specific PMOS. When entered as a requirement into the Total Force Structure Management System (TFSMS), a billet bearing a necessary MOS must identify a single associated PMOS even if several PMOSs are acceptable prerequisites.
OccFld 01-79	Occupational fields that contain all types of MOSs related to a specific occupational field.
Prerequisite	Possessing physical, mental, or moral qualities necessary to be assigned to a typical billet for an MOS, or to meet formal school screening requirements.
Primary MOS (PMOS)	Used to identify the primary skills and knowledge of a Marine. Only enlisted Marines, Warrant Officers, Chief Warrant Officers, and Limited Duty Officers are promoted in their primary MOS. Changes to an Active Component Marine's PMOS without approval from CMC (MM) and changes to a RC Marine's PMOS without approval from CMC (RA) are not authorized.
Related Military Skill	Another Marine Corps or other US military occupational specialty (MOS) that the occupational field (OccFld) manager deems similar in duties, description, mission, prerequisites, requirements and/or qualifications. The identification of a related military skill will provide better understanding to those unfamiliar with the MOS. This is an optional field.
Related SOC Classification/SOC Code	The related Standard Occupational Classification/SOC code lists the comparable civilian classification title(s) and code(s) that are presented in the U.S. Department of Labor Standard Occupational Classification (SOC) List.
Requirement	Accomplishments necessary to qualify for an MOS, usually described as graduation from a formal school course approved to award the MOS.

Required Training	Initial Skills training expected to be received by Marines after completion of recruit training, where core skills training is provided, normally at an MOS producing formal school course. While preferred, this does not limit attaining MOS qualification to formal school graduation as the only source of MOS qualifying training in most cases. Career MOS or certification training that may or may not result in a new PMOS. Related to but not exactly overlapping the definition for "requirements" below since some requirements may not be related to training, if a community so chooses.
Skill Enhancement Training	Formal schools or structured training for Marines already holding an MOS. Relates directly to increasing overall skills in the MOS. Usually intended for MOS holders with particular billet requirements. Some Marines within a given MOS may complete Skill Enhancement Training.
Skill Progression Training	Formal schools training for Marines already holding an MOS, but the training relates directly to increasing overall skills and knowledge in the MOS. All holders of the MOS are expected to complete skill progression training and limited career potential may result from failure to do so. All Marines within a given MOS should complete skill progression training.
Types of MOSs	Basic, Primary MOS (PMOS), Necessary MOS (NMOS), Free MOS (FMOS), Exception MOS (EMOS) and Additional MOS (AMOS).
80XX: Miscellaneous Requirement MOSs	These MOSs are MOSs that do not fit into a regular OccFlds but are used on the Marine Corps Table of Organization.

CHAPTER 1
OFFICER OCCUPATIONAL SYSTEM

1001. GENERAL

1. This chapter is divided into two sections. Section 1 contains officer MOS descriptions and section 2 contains the alphabetical listing of officer MOSs.

2. The data in this chapter identifies Marine Corps regular unrestricted officer, career reserve officers, limited duty officers (LDOs), and warrant officer duties, skills, and requirements within specific and miscellaneous OccFlds.

CHAPTER 1

OFFICER OCCUPATIONAL SYSTEM

SECTION 1: OFFICER MOS DESCRIPTIONS

1101. INFORMATION. Officer OccFlds are displayed in numerical sequence and officer MOSs follow in numerical sequence within OccFlds. Basic MOSs exist for each OccFld as listed in the alphabetical listing and are indicated by the last two digits "01" of the MOS code with the exception of MOS 7597-98, Basic Pilot. Officer basic MOS descriptions used as basic OccFld designators before specialized training is received, are not included in this Manual. The following format is used to describe officer MOSs:

1. Title. The MOS code, a narrative description, appropriate officer category and MOS Sponsor.

2. Officer Designation. Officers are generally assigned primary MOSs by their type of commission or appointment.

a. The three groups of MOSs that are assigned as primary MOSs to officers are: Group I MOSs suitable for assignment to unrestricted regular/reserve officers; Group II MOSs suitable for assignment to Limited Duty Officers (LDOs); and Group III MOSs suitable for assignment to regular/reserve warrant officers.

b. A Roman numeral appearing after an MOS title indicates the appropriate officer group for that MOS. MOSs will be assigned as primary MOSs only to officers who are in the designated group.

c. Except for billet designators, MOSs that do not have Roman numeral designations in the title line may be assigned to any qualified officer as an additional MOS or as a Non-PMOS.

3. Women Officer Designation. Women Officer Restrictions: Women Marine officers will be assigned MOSs by the guidelines stated in the preceding paragraph except for assignment restrictions set forth in reference (c), Marine Corps Personnel Assignment Policy.

4. Body. The body of the officer MOS description is organized as follows:

a. Summary

b. Prerequisites

c. Requirements

d. Duties

e. Related SOC Classification/SOC Code. The related Standard Occupational Classification/SOC code lists the comparable civilian classification title(s) and code(s) that are presented in the U.S. Department of Labor Standard Occupational Classification (SOC) List.

f. Related Military Skill. Another Marine Corps or other US military occupational specialty (MOS) that the occupational field (OccFld) manager deems similar in duties, description, mission, prerequisites, requirements, and/or qualifications. The identification of a related military skill will

provide better understanding to those unfamiliar with the MOS. This is an optional field.

1102. OCCUPATIONAL SYSTEM. The Marine Corps Occupational System has been constructed on the concept that occupations of similar skill and knowledge requirements are grouped in functional areas, known as OccFlds, which provide for the most efficient and effective classification, assignment, and utilization of Marine Corps personnel. The Officer Occupational System identifies Marine Corps commissioned and warrant officer duties, skills attributes, and requirements within the specific functional areas. See additional material in paragraph 0005 of the Introduction.

1103. MOS SYSTEM. The MOS system consists of a four-digit number used in conjunction with a descriptive title to identify Marine Corps occupational requirements and personnel skills capability.

1. OccFld. The first two digits of a four-digit number and a descriptive title identify the OccFld. The OccFld is a grouping of related MOSs. Criteria to be considered in establishment of an OccFld include the total number of Marines in the field, the number of MOSs (diversity), Headquarter U.S. Marine Corps sponsorship, and training requirements.

2. MOS

a. The MOS describes a group of skills and related duties that extend over one or more grades. Each MOS consists of a four-digit code and a descriptive title.

b. Criteria to be considered in establishment of an MOS include the number of Marines required in the specialty, training requirements, specialty requirements/prerequisites, and career pattern.

c. MOSs are used to identify skill requirements of billets in T/Os and they are assigned to Marines who meet the qualifications to be awarded an MOS.

3. MOS Types

a. Primary MOSs and Non-Primary MOSs (Non-PMOS) are found in Regular OccFlds and Miscellaneous Requirements MOSs. Non-PMOSs are of three types: Necessary, Free, and Exception. Definitions of the types of MOSs can be found in the glossary of the Introduction to this Manual.

b. Reporting MOSs and billet designators. Definitions of MOSs can be found in the glossary of the Introduction to this Manual.

1104. OCCUPATIONAL FIELD 01, MANPOWER AND ADMINISTRATION1. MOS 0102, Manpower Officer (I) (LtCol to 2ndLt) PMOS, DC M&RA

a. Summary. Manpower Officers plan, coordinate, execute and/or supervise the functions of administration (general administration, operational administration, manpower administration, and personnel administration) in their respective commands and organizations. Manpower Officers coordinate with MOS 0170 Personnel Officers for matters of personnel administration, for which the installation personnel administration center (IPAC) has primary cognizance. Manpower Officers serve as advisors to commanders for administrative matters. Manpower Officers are MAGTF officers, whom support operations with policies and programs affecting service members in areas other than training and logistics. Duties at the company grade level: receiving and routing correspondence, maintaining command files and directives, overseeing forms management programs, personnel strength reporting, processing awards and decorations, providing expertise on performance evaluations, safeguarding classified material, overseeing unit-level legal matters, casualty reporting and supervising unit-level postal functions. Duties at the field grade level include: overseeing the four functional areas of administration, S-1 section, personnel administration section, civilian manpower section, G1 operations section, manpower plans and policy development, and military and civilian manpower planning and staffing. Billets include: Unit S-1 Officer, Manpower Officer, G-1 Operations Officer, G-1 Adjutant, Deputy G-1, and the assistant chief of staff (AC/S G-1) in the operating forces, supporting establishment, and joint assignments.

b. Prerequisites. None.

c. Requirements

(1) Complete the Basic Manpower Officer Course (M03AAF8) conducted at Personnel Administration School, MCB Camp Lejeune, NC.

(2) The following course of instruction is desirable as a skill progression course for MOS 0102: Legal Officer Course (N0101L4, N0201LA) Naval Justice School.

d. Duties. For a complete listing of duties and tasks, refer to reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Administrative Services Managers 11-3011.

f. Related Military Skill. None.

2. MOS 0149, Substance Abuse Control Officer (SACO) (I) (Gen to 2ndLt) FMOS, DC M&RA

a. Summary. Substance Abuse Control Officers (SACOs) provide substance abuse education/prevention, urinalysis/alcohol screening and assistance to the commander on substance abuse related matters. This MOS will be assigned only as FMOS. Authority to issue this additional MOS will remain with the local command delegated to the unit level. This MOS is also held by SNCO SAC Specialist.

b. Prerequisites. None.

c. Requirements. None.

d. Duties. The duties and tasks will be as prescribed and designated in reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Mental Health and Substance Abuse Social Workers 21-1023.

f. Related Military Skill. None.

3. MOS 0160, Postal Officer (III) (CW05 to WO) PMOS, DC M&RA

a. Summary. Postal Officers are Special Staff Officers who manage postal operations and postal services at installations, commands, and while deployed. They act as Installation Official Mail Managers, ensuring that the Official Mail Cost Control Program (OMCCP) works effectively. They represent the commanding officer to the other services, tenant activities, the Department of Defense (DoD), and the U.S. Postal Service (USPS) for all postal and official mail matters.

b. Prerequisites

(1) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, Warrant Officer (WO) and Limited Duty Officer (LDO) accession programs.

(2) Security requirement: secret security clearance eligibility, and have favorable entrance national agency check (ENTNAC) and national agency check (NAC) on file.

(3) Must have experience as a Postal Clerk, MOS 0161, in order to properly supervise postal operations and identify noncompliance, abuse, or depredations.

(4) Have no record of derogatory or unfavorable conduct that casts doubt on the officer's trustworthiness and honesty.

(5) Have no history of psychiatric disorder, alcoholism, or drug abuse unless a medical evaluation determines the condition no longer exists.

(6) Have no convictions by court martial, UCMJ punishment for postal related offenses within the last 3 years, or civilian convictions other than minor traffic violations.

c. Requirements

(1) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(2) Complete the Postal Operation and Supervisors Course (A35A8Q1), Ft Jackson, SC.

d. Duties. For a complete listing of duties and tasks, refer to reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Postmasters and Mail Superintendents 11-9131.

f. Related Military Skill. None.

4. MOS 0170, Personnel Officer (III) (CW05 to WO) PMOS, DC M&RA

a. Summary. Personnel Officers function as special staff advisors to commanders and staffs on all personnel administration functions and operations. They are subject matter experts on all personnel administration disciplines and their application across the spectrum of military operations. They formulate plans, policies, and procedures pertaining to personnel administration operations at all levels of the operating forces and the supporting establishment. As officers in charge (OIC), they are responsible for the discipline, welfare, and effective employment of their unit's Marines. To fulfill these obligations, Personnel Officers must understand the duties, tasks, and responsibilities required for MOSs 0111 and 0171. Personnel Officers function as a supervisor, coordinator, and administrator of the manpower, pay and personnel information reported in the Marine Corps Total Force System (MCTFS) via the Unit Diary/Manpower Integrated Personnel System (UD/MIPS). Personnel Officers must possess knowledge of the Marine Corps' standard word processing and database software packages, and the MCTFS. Personnel Officers provide advice on issues related to personal affairs, benefits, privileges, and entitlements accrued to members of the Armed Forces. Due to the diversity of commands throughout the Marine Corps, the duties and tasks performed by the Personnel Officer may overlap those performed by the Manpower Officer.

b. Prerequisites

(1) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

(2) Must possess an EL score of 110 or higher.

(3) Security requirement: secret security clearance eligibility tier 3.

(4) To be considered for selection as a WO in MOS 0170, applicants should have a minimum of two years' experience in a personnel reporting unit (PAC), stand-alone administrative reporting unit, or I&I at the rank of Sergeant or above.

(5) Completion of the Advanced Administration Specialist Course (M03AAZ8) is encouraged prior to attendance at the Personnel Officer Course (POC) (M03118).

c. Requirements

(1) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(2) Complete the Personnel Officer Course (POC) (M030118) conducted at MCB, Camp Lejeune, NC.

(3) For Personnel Officers in grades CW03 to CW05, it is desirable as a skill progression course to attend the Manpower Officer Course (M03KCH8) conducted at MCB, Camp Lejeune, NC.

(4) Skill enhancement training courses recommended for Personnel Officers:

(a) CPI Level I Practitioner (Green Belt) training course, conducted at various bases and stations.

(b) How to Write an Effective Internal Business Case (COMM01A00), located on MarineNet.

d. Duties. For a complete listing of duties and tasks, refer to reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Human Resources, Training, and Labor Relations Specialists, All Other 13-1079.

(2) Supervisor, Personnel Clerks 209.132-010.

(3) Manager, Personnel 166.117-018.

f. Related Military Skill. None.

1105. OCCUPATIONAL FIELD 02, INTELLIGENCE1. MOS 0202, Intelligence Officer (I) (LtCol to 2ndLt) PMOS, DIR INTEL

a. Summary. Intelligence Officers function as advisors to commanders and staffs on all intelligence functions and operations. They are subject matter experts on all intelligence disciplines and their application across the spectrum of military operations. As commanders or officers in charge (OIC), they are responsible for the discipline, welfare, and effective employment of their unit's Marines. To fulfill these responsibilities, they collect, analyze, and evaluate information; estimate the operational situation; and formulate, coordinate, execute approved intelligence actions, operations, and activities. Additionally, they are responsible for their unit's communications capabilities, logistics, and maintenance.

b. Prerequisites

(1) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation (SSBI)/T5 investigation.

(2) Intelligence MOS Marines are required to have a Defense Language Aptitude Battery (DLAB) test score on file in their official military personnel file (OMPF). Intelligence MOS Marines that score above 100 on the DLAB may be designated to attend formal language training. There is no minimum DLAB score required. Intelligence officers will be administered the DLAB before being assigned the 0202 PMOS.

c. Requirements

(1) For the Active Duty and Reserve Officer, complete the Tactical Intelligence Officer Course (TIOC) (N46CU22), Marine Corps Intelligence Schools (MCIS), Dam Neck, VA. Upon completion of this course and completion of the immediately following of the NMOS course, NMITC personnel will assign this PMOS to the Marine.

(2) All Marine Intelligence Officers are subject to counter intelligence polygraph exams as required by billet or situation.

d. Duties. For a complete listing of duties and tasks, refer to reference (g), Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

2. MOS 0203, Ground Intelligence Officer (I) (LtCol to 2ndLt) NMOS (0202), DIR INTEL

a. Summary. Ground Intelligence Officers serve as commanders and staff officers in the operating forces and are responsible for tactical planning and employment of ground surveillance and reconnaissance units as well as the coordination of a unit's overall intelligence effort. Ground Intelligence Officers analyze and evaluate information; estimate the tactical situation; and formulate, coordinate, execute approved intelligence actions, operations, and activities to include offensive and defensive actions, reconnaissance, and fire support. They command and/or lead ground units in tactical

information gathering operations and activities in support of identified collection requirements. Additionally, they are responsible for manning, training, equipping, sustaining, and maintaining their unit. Through the intelligence officer, they support the overall intelligence effort of the command.

b. Prerequisites

(1) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation (SSBI)/T5 investigation.

(2) Intelligence MOS Marines are required to have a Defense Language Aptitude Battery (DLAB) Test score on file in their official military personnel file (OMPF). Intelligence MOS Marines that score above 100 on the DLAB may be designated to attend formal language training. There is no minimum DLAB score required. Intelligence officers will be administered the DLAB before being assigned the 0203 NMOS.

c. Requirements

(1) Awarding of the MOS requires successful completion of the:

(a) Infantry Officer Course (IOC) (M02RGU4), The Basic School, Quantico, VA.

(b) Scout Sniper Platoon Commander's Course (SSPCC) (M02HFL9), Weapons Training Battalion, Quantico, VA.

(c) Tactical Intelligence Officer Course (TIOC) (N46CU22).

(d) Ground Intelligence Officer's Course (GIOCI) (N46HFM2), Marine Corps Intelligence Schools, Marine Corps Detachment Dam Neck, VA.

(2) Upon completion of this course, NMITC personnel will assign PMOS 0202 and this NMOS to the Marine.

d. Duties. For a complete listing of duties and tasks, refer to reference (g), Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

3. MOS 0204, Counterintelligence/Human Source Intelligence Officer (I) (LtCol to 2ndLt) NMOS (0202), DIR INTEL

a. Summary. CI/HUMINT Officers serve in both counterintelligence and human intelligence billets. They command and/or lead CI/HUMINT units in tactical information gathering operations and activities in support of identified collection requirements. CI/HUMINT Officers command, plan, and direct the employment and execution of CI/HUMINT units and approved operations and activities. CI/HUMINT Officers advise commanders and staffs on information collection efforts and CI/HUMINT operations and activities. Through the Intelligence Officer, they support the overall intelligence effort the command. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber

Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation (SSBI)/T5 investigation.

(2) Intelligence MOS Marines are required to have a Defense Language Aptitude Battery (DLAB) test score on file in their official military personnel file (OMPF). Intelligence MOS Marines that score above 100 on the DLAB may be designated to attend formal language training. There is no minimum DLAB score required before being assigned the 0204 PMOS.

(3) Must submit to a Counterintelligence Scope Polygraph Examination.

(4) Completed the Tactical Intelligence Officer Course (TIOC) (N46CU22).

c. Requirements

(1) Complete the MAGTF Counter Intelligence/Human Intelligence Course (N46HFW2), Marine Corps Intelligence Schools, Marine Corps Detachment Dam Neck, VA.

(2) Complete the MAGTF Counter Intelligence/Human Intelligence Officer Course (CIHIOC) (X46HF02), Marine Corps Intelligence Schools (MCIS), Dam Neck, VA.

(3) Upon completion of this course, NMITC personnel will assign PMOS 0202 and this NMOS to the Marine.

d. Duties. For a complete listing of duties and tasks, refer to reference (g), Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

4. MOS 0205, Intelligence Operations and Fusion Warrant Officer (III) (CW05 to WO) PMOS, DIR INTEL

a. Summary. The Intelligence Operations and Fusion Warrant Officer (0205) is an intelligence operations Subject Matter Expert (SME), specially trained and experienced to advise and assist the Marine Air Ground Task Force (MAGTF) Intelligence Officer (0202), commanders, and staff, when required, in the planning, collection, and implementation and integration of all intelligence disciplines across the spectrum. The Intelligence Operations and Fusion Warrant Officer's role is to direct and execute intelligence processes to support the functions of intelligence responsible to the commander. To do this, the Intelligence Operations and Fusion Warrant Officer develops operational strategies by: applying analytic methods, implementing intelligence doctrine, and leveraging intelligence capabilities to support planning at all levels of the MAGTF. The Intelligence Operations and Fusion Warrant Officer further assists the MAGTF Intelligence Officer in

developing, supervising and overseeing multi-discipline intelligence training plans, which range from individual to collective Training and Readiness (T&R) tasks. Additional duties include involvement in intelligence systems acquisition, integration of emerging technologies and techniques into current and future operations. The Intelligence Operations and Fusion Warrant Officer's strength is their ability to think critically and maintain physical, functional, and virtual linkages between various intelligence disciplines, units, and organizations to maximize organic intelligence assets and available resources across the range of military operations. Intelligence Operations and Fusion Warrant Officer billet assignments include Marine Corps Intelligence Battalions, Marine Expeditionary Units, Marine Expeditionary Forces, and various Major Subordinate Commands, Marine Corps Intelligence Activity, Marine Corps Intelligence Schools, Marine Forces Commands, and Headquarters, United States Marine Corps. Additional assignments may be allocated based on needs of the Marine Corps.

b. Prerequisites

(1) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(2) Must have successfully served two or more years in the operating forces holding one of the following PMOSs: 0231, 0241, 0261, 2629.

(3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the MAGTF Intelligence Analysis Career Course (MIACC) (N46HE12), Marine Corps Intelligence Schools, Marine Corps Detachment Dam Neck, VA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

d. Duties. For a complete listing of duties and tasks, refer to reference (g), Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Military Officer Special and Tactical Operations Leaders/Managers, All Other 55-1019.

f. Related Military Skill. None.

5. MOS 0206, Signals Intelligence/Ground Electronic Warfare Officer (I) (LtCol to 2ndLt) NMOS (0202), DIR INTEL

a. Summary. Signals Intelligence/Ground Electronic Warfare (SIGINT/EW) Officers command and/or lead SIGINT/EW units in tactical information gathering operations and activities in support of identified collection requirements. SIGINT/EW Officers advise commanders and staffs on the employment of SIGINT and EW assets in support of information gathering and information operations and activities. Through the Intelligence Officer, they also support the overall intelligence effort of the command.

b. Prerequisites

(1) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation (SSBI)/T5 investigation.

(2) Intelligence MOS Marines are required to have a Defense Language Aptitude Battery (DLAB) test score on file in their official military personnel file (OMPF). Intelligence MOS Marines that score above 100 on the DLAB may be designated to attend formal language training. There is no minimum DLAB score required. Intelligence officers will be administered the DLAB before being assigned the 0206 PMOS.

(3) Must submit to a Counterintelligence Scope Polygraph Examination.

(4) Completed the Tactical Intelligence Officer Course (TIOC) (N46CU22).

c. Requirements

(1) Complete the Signals Intelligence Officer Course (SIOC) (N46CUK2), Marine Corps Intelligence Schools, Marine Corps Detachment Dam Neck, VA.

(2) Upon completion of this course, NMITC personnel will assign PMOS 0202 and this NMOS to the Marine.

d. Duties. For a complete listing of duties and tasks, refer to reference (g), Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

6. MOS 0207, Air Intelligence Officer (I) (LtCol to 2ndLt) NMOS (0202), DIR INTEL

a. Summary. Air Intelligence Officers serve as the intelligence functional experts at all command levels of the Marine Air Wing (MAW). They develop and execute intelligence plans, policies, and procedures that facilitate operations across the six functions of Marine aviation. They are the advisors to commanders, staffs, and pilots on intelligence activities, operations, and actions as well as the provider of intelligence products to support mission planning and execution. They also support the overall intelligence effort of the parent command or intelligence authority. Billets normally include Targeting Officer, Collections Officer, Dissemination Officer, S-2 Officer of a fixed-wing or rotary wing squadron, and Intelligence Officer at an intelligence battalion.

b. Prerequisites

(1) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation (SSBI)/T5 investigation.

(2) Intelligence MOS Marines are required to have a Defense Language Aptitude Battery (DLAB) test score on file in their official military

personnel file (OMPF). Intelligence MOS Marines that score above 100 on the DLAB may be designated to attend formal language training. There is no minimum DLAB score required. Intelligence officers will be administered the DLAB before being assigned the 0207 PMOS.

(3) Completed the Tactical Intelligence Officer Course (TIOC) (N46CU22).

c. Requirements

1108. OCCUPATIONAL FIELD 05, MARINE AIR GROUND TASK FORCE (MAGTF) PLANS1. MOS 0502, Force Deployment Planning and Execution (FDP&E) Officer (I)
(LtCol to Maj) FMOS, DC PP&O

a. Summary. Force Deployment Planning and Execution Officers are responsible for the development of force deployment plans and oversight during the deployment of units, personnel, equipment and supplies. FDP&E Officers provide a critical linkage between the MAGTF, Combatant Commander and MARFORs during planning and force deployment execution processes, and ensure the commander's force deployment plan is executable and is in accordance with Time Phased Force Deployment Data (TPFDD) guidance. FDP&E Officers serve as staff lead over the MAGTF's Deployment Operations Team (DOT), which involves two primary responsibilities: (1) ensures accurate deployment planning during the MCPP, resulting in a deployment plan that effectively supports the Commander's concept of operations; (2) provides oversight during force deployment execution and ensures accurate force flow during the strategic and operational legs of deployment in order to meet HHQ, and the MAGTF Commander's timelines and priorities. FDP&E Officers are assigned to the MEF and MARFOR level headquarters, and should be assigned within any deploying MAGTF staff above the MEB level.

b. Prerequisites. Security requirement: top secret security clearance eligibility and be eligible for access to SCI.

c. Requirements

(1) Complete the following requirements in order:

(a) Global Force Management Course (GF1101), Joint Deployment Training Center, Ft Eustis, VA.

(b) Serve no less than 6 months in an FDP&E officer billet.

(c) JOPES Action Officer Course (JD2101), Joint Deployment Training Center (JOTC), Ft Eustis, VA.

(2) FMOS 0502 will be awarded after completion of both courses and a minimum of 6 months experience in an FDP&E officer billet.

(3) The recommended skills progression and career enhancement course is: Joint Capabilities Requirements Manager Course (GF1102), Joint Deployment Training Center, Ft Eustis, VA.

d. Duties

(1) Reviews HHQ force deployment guidance, participates in the MCPP as a "core OPT" member and develops force deployment and redeployment plans ISO the MAGTF during exercises, contingency operations, or during contingency planning.

(2) Leads the Deployment Operations Team (DOT) during force deployment/redeployment planning and force deployment execution, and resolves issues related to force deployment.

(3) Represents the command at Combatant Commander, Service and MARFOR levels during force deployment planning conferences, and ensures accurate

force deployment requirements are resident in the Joint Operations Planning and Execution System (JOPES).

(4) See Marine Corps Force Deployment Planning and Execution Manual (reference (ch)) for additional information.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

2. MOS 0505, Operational Planner (I) (LtCol to Maj) FMOS, DC PP&O

a. Summary. Marine Air Ground Task Force (MAGTF) Planners complete an Advanced Education Program (service or joint) that prepares them to leading Operational Planning Teams and conducting actions surrounding complex issues. MAGTF Planner billets will be allocated to CMC-specified priorities on selected Marine Corps staffs in planning and operational billets. Designated billets will be allocated via proportional share with emphasis on Marine Expeditionary Forces (MEFs) and Major Subordinate Commands (MSCs), then to Marine Component Headquarters and the staffs of Deputy Commandants. As a Non-PMOS MOS only, MAGTF Planners will be used to fill appropriate Joint and Marine Corps billets requiring planning expertise and complex problem solving skills during tours later in their careers at the discretion of their primary MOS monitor.

b. Prerequisites. ILS complete (resident or non-resident) or, in the case of MAWS, currently enrolled. MAGTF Planners require top secret/sensitive.

c. Requirements. Complete one of the following schools: Marine Corps School of Advanced Warfighting, Quantico, VA; U.S. Army School of Advanced Military Studies, Ft Leavenworth, KS; U.S. Air Force, School of Advanced Air and Space Studies, Maxwell AFB, AL; Maritime Advanced Warfighting School, Newport, RI; Navy War College Advanced Strategist Program, Newport, RI; or Joint Advanced Warfare School, Norfolk, VA.

d. Duties. Lead planning efforts for major commands. Conduct complex problem solving; create and employ operational art; design and execute campaigns.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

3. MOS 0506, Red Team Member (I) (Col to Capt) FMOS, DC CD&I

a. Summary. Red Team Members provide commanders with an independent capability to fully explore alternatives in plans, operations, and capabilities in the context of the operational environment and from the perspective of both our partners and adversaries. They promote staff self-awareness and help frame problems and questions, manage small groups, integrate staff planning, close communication gaps amongst the staff, and help the staff become aware of potential cognitive biases and logic fallacies. Red Team Members serve at Headquarters Marine Corps, Training and Education Command, Marine Corps University, MAGTF Staff Training Program, MEF

staffs, MEB staffs and the U.S. Army's University of Foreign Military and Cultural Studies.

Additionally, officers with this MOS can be utilized during later tours in their career to fill Operations Officer Billets for higher level staffs, or to fill appropriate joint and service level billets requiring training, planning and operational expertise. This MOS will be assigned as a NMOS only.

b. Prerequisites. Security requirement: secret level clearance.

c. Requirements. Completion of the Tactical MAGTF Integration Course (TMIC) (M09KYD5).

d. Duties. For a complete listing of duties and tasks, refer to reference (cr), Marine Infantry Battalion; and reference (cs), Ground Combat Operations.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill. None.

14. MOS 0588, Electromagnetic Spectrum Operations (EMSO) Planner (I) (LtCol to 2ndLt) FMOS, DC I

a. Summary. Electromagnetic Spectrum Operations (EMSO) Planners plan, integrate, coordinate, supervise, de-conflict, and assess Fleet Marine Force (FMF) actions that exploit, attack, protect, and manage the electromagnetic environment (EME) and Electromagnetic Battlespace in support of Naval and FMF objectives. EMSO Planners advocate for and leverage ground and air offensive, defensive, and EMSO support capabilities in tactical and operational level plans, operations, and activities in support of identified Operations in the Information Environment (OIE) and Electronic Warfare (EW) requirements. Working primarily at the MEF information group (MIG) information command center (ICC) electromagnetic spectrum operations cell (EMSOC), ICC detachment EMSOCs, FMF command elements and major subordinate command levels, EMSO Planners advise commanders and staffs on the employment of EMSO assets that synchronize aspects of intelligence, spectrum management, electronic attack (EA), electronic warfare support (ES), electronic protection (EP) and OIE into the commander's scheme of maneuver. EMSO Planners integrate both offensive and defensive EMSO operations, in both active and passive modes. EMSO Planners maintain relationships with EMSO system subject matter experts (SMEs), as well as joint and coalition capability SMEs and planners. EMSO Planners are also represented within the service headquarters and supporting establishment to support the development and integration of EMSO capabilities into the operating forces.

b. Prerequisites

(1) Security requirement: O-3 and below must have an adjudicated secret clearance and an open single scope background investigation/ T5 investigation.

(2) Security requirement: O-4 and above must have a current single scope background investigation/T5 investigation and eligible for sensitive compartmented information (SCI).

c. Requirements

(1) Complete an approved electronic warfare course of study such as:

(a) EA-6B Pilot Category I FRS Training Course (N26P3G4 or M04P3GB) Whidbey Island, WA; Or

(b) EA-6B ECMO Category I FRS Training Course (N26P4G4 or M04P4GB) Whidbey Island, WA; Or

(c) EA-6B Qualified Course (M04P3GB) MCAS Cherry Point, NC; Or

(d) Signals Intelligence Officer Course (SIOC) (N46CUK2), Navy Marine Corps Intelligence Training Center (NMITC) Dam Neck, VA; Or

(e) Joint Electronic Warfare Theater Operations Course (JEWTOC) (F16ABB5), Lackland AFB, San Antonio, TX; Or

(2) Complete an approved Spectrum Management or Frequency Management course of study, such as the Electromagnetic Spectrum Management Course (F0224L1) Biloxi, MS.

(3) Waivers to any prerequisites or requirements must be submitted to and approved by the 0588 OccFld Manager, HQMC (CD&I CDD CE-IWD).

d. Duties. For a complete listing of duties and tasks, refer to reference (aq), MAGTF Planner's Training and Readiness (T/R) Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill

(1) Strategic Electromagnetic Spectrum Officer, 0640.

(2) Signals Intelligence/Electronic Warfare/Cyberspace Operations Officer, 2602.

1109. OCCUPATIONAL FIELD 06, COMMUNICATIONS1. MOS 0602, Communications Officer (I) (LtCol to 2ndLt) PMOS, DIR C4

a. Summary. Space and Waveform Integration Officers (SWIO), design, engineer, plan, and direct over-the-air (OTA) transport of MAGTF and C/JTF communications networks to include the integration of multiple spectrum dependent platforms in support of DoDIN Operations. SWIOs engineer secure and resilient OTA transport architectures which leverage space capabilities for the MAGTF and C/JTF across the range of military operations. SWIOs must be thoroughly familiar with and trained in military and commercial OTA transport and space systems. SWIOs must be educated and trained in electromagnetic spectrum theory, space policy, space theory, waveform theory, waveform analysis, waveform engineering, waveform integration, and OTA transport security measures. SWIOs determine the effects of waveform compatibility in order to prescribe defensive countermeasure techniques of electromagnetic interference in a contested, degraded, and operationally limited (CDO) environments. SWIOs plan for the effective use and integration of disparate OTA transport platforms and systems into a complex bandwidth constrained operational electromagnetic environment (EME) within the breadth of the space domain. Additionally, they conduct technical analysis required to integrate communications systems in the development of Marine Corps plans and policy for current and future operations.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Security requirement: top secret with sensitive compartmented information access eligibility.

c. Requirements. Complete the Basic Communications Officer Course (M09LC51) at Marine Corps Communications-Electronics School, Twentynine Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.
None.

f. Related Military Skill

(1) Marine Air Ground Task Force Communications Planner, 0603.

(2) Communications Chief, 0699.

(3) Cyberspace Officer, 1702.

2. MOS 0603, Marine Air Ground Task Force (MAGTF) Communications Planner (I) (LtCol to Capt) NMOS (0602), DIR C4

a. Summary. MAGTF Communication Planners serve in selected billets as MAGTF level operations officer billets (MEF, MEB, MEU, SPMAGTF) and the Major Subordinate Command level and above. The focus of effort as a MAGTF Communications Planner is to integrate and coordinate with the plans sections or operations sections of their respective command. MAGTF Communications Planners must identify and clearly translate communications and Department of

Defense Information Network Operations (DODIN Ops) capabilities, limitations, and opportunities in all phases of the planning cycle. They integrate DODIN Ops with Cyberspace Operations, specifically focused on both supporting Defensive Cyberspace Operations, and they direct the planning efforts of the systems planning and engineering cell in their respective unit. The MAGTF Communications Planner will also plan, integrate, and synchronize communications and DODIN ops with other information environment operations related capabilities such as electronic warfare, space operations, and offensive cyberspace operations. Example billets are MEF G-6 (Ops, Plans) MEB G-6 (ops, plans), SPMAGTF (ops, plans), MEU (S-6), communications battalion (S-3), MWCS (S-3), which provide a G-6 with additional sources within the command staff section for the planning, coordination, and monitoring of DoD information network systems. While Major Subordinate Command (MSC) communications/operations sections are common assignments for the MAGTF communications planner, all 0602 Majors and Captains can benefit from this course. Particularly those assigned to the Fleet Marine Force and that regularly advise commanders on communications capabilities, limitations and emerging concepts.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess the PMOS of 0602.
- (3) Security requirement: top secret with sensitive compartmented information access eligibility.

c. Requirements. Complete the MAGTF Communications Planner Course (M09DRX1) Twentynine Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill

- (1) Communications Officer, 0602.
- (2) Communications Chief, 0699.

3. MOS 0605, Cyber Network Operations Officer (II) (LtCol to Capt) PMOS, DIR C4

a. Summary. The Cyber Network Operations Officer plans, synchronizes, and integrates the overall operational and strategic goals of enterprise Marine Corps communications and Department of Defense Information Network Operations (DoDIN Ops). Evaluates and recommends changes to current and future cyberspace operations in support of warfighting functions and mission requirements. They are responsible for the operational integration of Marine Corps information systems including command and control (C2), intelligence, surveillance, and reconnaissance (ISR), and logistics with naval, joint and coalition networks. Responsible for the secure implementation of DoDIN Ops and integration with defensive cyberspace operations (DCO) across the enterprise. They provide the commander with expert advice on cyber risks and

mitigation actions in order to enable assured C2. The duties include providing technical expertise to the commander; serving as a DODIN Ops SME to boards, bureaus, centers, cells, and working groups (B2C2WG); managing command cyber security programs; providing advanced technical support to the development and maintenance of related plans, policies, procurements, and procedures in support of DODIN Ops; coordinating with the (G/J/C)2/3/5 staffs within MAGTF, joint, and coalition environments to synchronize the DoDIN Ops with cyberspace operations.

b. Prerequisites

(1) Security requirement: top secret with sensitive compartmented information access eligibility.

(2) Limited Duty Officers assigned this MOS must have previously served as a Chief Warrant Officer in MOSs: 0620, 0630, or 0670.

(3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the following:

(a) Space and Waveform Integration Officer Course (M09M041).

(b) Network Engineering Officers Course (M09CVM1).

(c) Data Systems Engineering Officers Course (M093861).

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

Additionally, they conduct technical analysis required to integrate communications systems in the development of Marine Corps plans and policy for current and future operations. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Warrant Officers assigned this MOS must have previously served in one of the following related MOSs 0621, 0627, or 0629.

(2) MOS 0621 or 0627 must have completed the Transmissions Supervisor Course located at Pendleton (M10BNPB), Camp Lejeune (M03BNPG), and Okinawa (M22BNP4) at the Regional Communications Training Center.

(3) MOS 0629 must have completed the Transmissions Chief Course (M09BNL1).

(4) Security requirement: secret security clearance eligibility. Some operational billets may require top secret or top secret with sensitive compartmented information eligibility.

(5) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Space and Waveform Integration Officer Course (M09M041), Twenty-nine Palms, CA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(3) CW03:

(a) Complete the Advanced Extremely High Frequency (AEHF) Mission Planning Element Communication Tactical Course (A09DS21) at U.S. Army Signal School, Ft Gordon, GA.

(b) Complete the Joint C4 Planners Course (A09CGH1) at U.S. Army Signal School, Ft Gordon, GA.

(c) Complete the Basic Space Operations Course (Space 200), (F25M013) at the Peterson AFB, CO.

(4) CWO4:

(a) Complete the Joint C4 Planners Course (A09CGH1) at U.S. Army Signal School, Ft Gordon, GA.

(b) Complete the Joint Electronic Warfare Theater Operations Course (F16ABB5) at Lackland AFB, TX.

(c) Complete the National Security Space Institute Space 300 Course (F25M023) at Peterson AFB, CO.

5. MOS 0630, Network Engineering Officer (III) (CWO5 to WO) PMOS, DIR C4

a. Summary. Network Engineering Officers analyze, design, deploy, maintain and manage network infrastructure to enable command and control. The position encompasses both the theoretical and engineering aspects of specifying, designing, implementing and managing enterprise level classified and unclassified networks. Typical duties include mission planning, budgeting, quality control, advanced technical analysis during the planning, installation, operation, maintenance and secure integration of communication network architectures. Critical to this ability is advanced knowledge of routing/switching, Quality of Service (QoS), implementation/management of the cable plan, circuit provisioning, transport, Internet Protocol (IP) management, encryption management, boundary cybersecurity, network monitoring and end to end support of deployed and garrison networks to include external connectivity to Joint, National, and Coalition systems. They provide technical direction informing the overall communications control effort relating to the security, installation and performance of network infrastructure within the MAGTF, Joint, Coalition, garrison, and tactical network environments. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10,

DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Warrant Officers assigned this MOS must have previously served in one of the following related MOSs: 0631, 0639, 0671, or 0679.

(2) MOS 0631 must have completed the Network Supervisor Course located at Camp Pendleton (M10CV1B), Camp Lejeune (M03CV1G), and Okinawa (M22CV14) at the Regional Communications Training Centers.

(3) MOS 0639 must have completed the Network Chief Course (M0923X1).

(4) Security requirement: secret security clearance eligibility. Some operational billets may require top secret or top secret with sensitive compartmented information eligibility.

(5) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Network Engineering Officers Course (M09CVM1), Twenty-nine Palms, CA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

(1) Cyber Network Operations Officer, 0605.

(2) Network Administrator, 0631.

(3) Network Chief, 0639.

6. MOS 0640, Strategic Electromagnetic Spectrum Officer (III) (CWO4 to WO) PMOS, CIR C4

a. Summary. Strategic Electromagnetic Spectrum Officers plan, supervise, manage, and de-conflict the use of the electromagnetic spectrum for all spectrum dependent systems (SDS) in support of the MAGTF, joint, and coalition forces through Electromagnetic spectrum management operations (EMSMO) interrelated functions of: frequency management, host nation coordination, and interference reporting. Through these functions Strategic Electromagnetic Spectrum Planners support Electromagnetic Spectrum Operations (EMSO) by planning and coordinating MAGTF EMS use and enabling all SDS and capabilities while ensuring compatibility and harmonization of EMSO activities throughout the electromagnetic environment (EME). Strategic Electromagnetic Spectrum Officers must be thoroughly familiar with and trained in national, international, DoD, Joint and Service level spectrum

policy, allocations and frequency assignment procedures; spectrum supportability and certification procedures; spectrum analysis and engineering; effects of electromagnetic compatibility (EMC); various waveform employment; coordination of Host Nation Approval (HNA); transmission theory; and determination, mitigation and resolution of electromagnetic interference (EMI) in a denied, degraded, and disrupted EMS operating environment (D3EMSOE). Strategic Electromagnetic Spectrum Planners develop policy and guidance for effective and efficient spectrum use; provide oversight of Marine Corps use of national level and DoD associated spectrum databases; supervise and manage the coordination, de-confliction and integration of spectrum dependent equipment and systems into the electromagnetic operational environment. Strategic Electromagnetic Spectrum Officers must be knowledgeable of all DoD/Service and commercial spectrum dependent equipment and systems to include, but not limited to command and control, communications, intelligence, surveillance and reconnaissance (ISR) assets, aviation platforms, radar and navigation, electronic warfare (EW), munitions and weapons systems, etc.

b. Prerequisites

- (1) Must possess MOS 0648 for a minimum of 2 years.
- (2) Security requirement: top secret with sensitive compartmented information access eligibility.
- (3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

- (1) Complete the Electromagnetic Spectrum Management Course (F0224L1), Biloxi, MS.
- (2) Upon completion of the Strategic Electromagnetic Spectrum Management Course, Warrant Officers must forward a request to HQMC C4 (06xxOccFld) sponsor for approval.
- (3) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.
- (4) CW03: Complete the Joint Electronic Warfare Theater Operators Course (F16ABB5).

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness (T&R) Manual.

7. MOS 0670, Data Systems Engineering Officer (III) (CW05 to WO) PMOS, DIR C4

a. Summary. Data Systems Engineer Officers analyze, design, deploy, maintain and manage services in support of command and control. The position encompasses both the theoretical and engineering aspects of specifying, designing, implementing and managing enterprise level classified and unclassified applications. Typical duties include mission planning, budgeting, quality control, advanced technical analysis during the planning, installation, operation, maintenance and secure integration of data systems to include active directory management, cloud services, disaster recovery, cybersecurity, database management, scripting, hardware/software management, Storage Area Network (SAN), Network Attached Storage (NAS), Virtualization and Messaging in support of deployed and garrison systems and services. They provide technical direction to the subsets of system administration, application development, and Unified Communication (UC) administration in conjunction with the overall communications control effort relating to the security, installation and performance of services within MAGTF, Joint, Coalition, garrison, and tactical network environments. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Warrant Officers assigned this MOS must have previously served in one of the following related MOSs: 0631, 0639, 0671, or 0679.

(2) MOS 0671 must have completed the Data Systems Supervisor Course located at Camp Pendleton (M10385B); Camp Lejeune (M03385G); or Okinawa (M223854) at the Regional Communications Training Centers.

(3) MOS 0679 must have completed the Data Systems Chief Course (M0923W1).

(4) Security requirement: secret security clearance eligibility. Some operational billets may require top secret or top secret with sensitive compartmented information eligibility.

(5) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Data Systems Engineering Officers Course (M09D2M1) at Twentynine Palms, CA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

d. Duties. For a complete listing of duties and tasks refer to reference (i), Communications Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.

- (4) Cyberspace Officer, 1702.
- (5) Defensive Cyberspace Weapons Officer, 1720.

1110. OCCUPATIONAL FIELD 08, FIELD ARTILLERY1. MOS 0802, Field Artillery Officer (I) (LtCol to 2ndLt) PMOS, DC PP&O

a. Summary. Field Artillery Officers command, or assist commanders in directing field artillery units. They direct tactical employment of the field artillery unit in combat, and coordinate unit's fire with other artillery units with mortar, air, and naval surface fire support ships. They evaluate intelligence, plan targeting at all echelons, and direct administration, communication, supply, maintenance, and security activities of artillery units.

b. Prerequisites. Must meet MOS classification standards, as listed in the glossary (pg. xiv) prior to graduating from the Basic School.

c. Requirements. Complete the Marine Artillery Officer Basic Course (A20HP11) Ft Sill, OK.

d. Duties. For a complete listing of duties and tasks, refer to reference (k), Artillery Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Artillery and Missile Officers 55-1014.

f. Related Military Skill. None.

2. MOS 0803, Target Acquisition Officer (III) (CWO5 to WO) PMOS, DC PP&O

a. Summary. Target Acquisition Officers are special staff officers responsible for advising the artillery and supported maneuver commanders on all aspects of the targeting process, target acquisition assets, and related fire support systems. They participate in the conduct of the targeting process, and supervise and evaluate the execution of targeting in accordance with the commander's guidance. They supervise the task organization and employment of the target acquisition assets, specifically survey, acoustic, meteorological, and counter battery radar systems. Target Acquisition Officers are directly responsible for the training and readiness of the target acquisition personnel and equipment.

b. Prerequisites

(1) Must have previously served in one of the following MOSs: 0842, 0844, 0847, 0848, or 0861.

(2) Must have completed one of the following courses:

(a) Marine Artillery Operations Chief Course (MAOCC) (A204801), U.S. Army Field Artillery School, Ft Sill, OK.

(b) Marine Corps Fire Support Chief Course (MCFSCC) (A20ANY1), U.S. Army Field Artillery School, Ft Sill, OK.

(3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Must complete the Target Acquisition Officer Basic Course (A200H51), U.S. Army Field Artillery School, Ft Sill, OK.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

d. Duties. For a complete listing of duties and tasks, refer to reference (k), Artillery Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Artillery and Missile Officers 55-1014.

f. Related Military Skill. None.

3. MOS 0840, Naval Surface Fire Support Planner (I) (Gen to 2ndLt) FMOS, DC PP&O

a. Summary. Naval Surface Fire Support (NSFS) Planners prepare, plan for, and coordinate the execution of NSFS. They perform staff functions to integrate NSFS with other supporting arms in amphibious operations and subsequent operations ashore. They supervise and coordinate shore fire control parties, and naval gunfire spot teams. This MOS will be assigned as a non-PMOS only by the CMC (MM).

b. Prerequisites. None.

c. Requirements. Complete the Naval Gunfire Liaison Officer Course (N300HR1) at EWTGPAC, Coronado, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (k), Artillery Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Artillery and Missile Officers 55-1014.

f. Related Military Skill. None.

1111. OCCUPATIONAL FIELD 09, TRAINING1. MOS 0919, Force Fitness Instructor Officer (I) (LtCol to 2ndLt) FMOS, CG TECOM

a. Summary. Assist COs/OICs in development of unit physical training programs that enable accomplishment of mission essential tasks. This includes injury prevention and physical performance enhancement. Assist individual Marines with physical training programs and provide assistance to sports medicine providers in design and execution of fitness programs for Marines returning to duty from injury or extended periods of limited duty.

b. Prerequisites

(1) Must qualify first class PFT.

(2) Must qualify first class on CFT.

(3) Full duty status: shoulder injury free in previous 2 years, concussion free within the past 6 months and free of contagious diseases of dermatological conditions.

(4) Must have recommendation of reporting senior.

c. Requirements

(1) Complete the Force Fitness Instructor (FFI) Course (M02MN1T or M02MN1M).

(2) Complete the Physical Fitness Test Monitor Certification Course (FFD01PFT02); the Combat Fitness Test Monitor Certification Course (FFD02CFT02); and the Bod Composition Military Appearance Program Monitor Certification Course (FFD03BCP02).

(3) Approval of the commanding officer to whom assigned.

(4) Any Marine officer who completed the Force Fitness Instructor Course identified above, may be awarded this MOS upon presentation of a completion certificate.

d. Duties. For a partial listing of duties and tasks, refer to the Training Military Occupational Specialties Training and Readiness Manual. Otherwise, responsible to manage fitness, MCMAP, and Water Survival Programs, as directed by unit commander.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill. None.

2. MOS 0930, Range Officer (III) (CW05 to WO) PMOS, DC PP&O

a. Summary. MOS 0930 WAS CONVERTED TO MOS 0306 AND WILL NO LONGER BE ASSIGNED. THE MOS WILL REMAIN IN THE MANUAL UNTIL CURRENT 0930 WARRANT OFFICERS CONVERT TO ANOTHER MOS OR SEPARATE. Range Officers supervise marksmanship training programs with small arms and infantry crew-served weapons to include preparation of syllabi and schedules, and obtaining and allocating ranges. Obtain and allocate training aids and devices, and

arrange logistic support for the program being conducted. Emphasis is on the continuing review and implementation of entry level and sustainment small arms training for all Marines. Range Officers are responsible for conduct of Marine Corps marksmanship training programs. They also develop marksmanship training doctrine and techniques. As Range Officers advance in grade, billet descriptions will include: range control/range management; new systems acquisition; research and development of new weapons, ammunition and targetry; and marksmanship doctrinal development responsibilities. Range Officers are normally assigned as Marksmanship Training Officers and officers in charge of small arms competition teams at the post/station level and the Marine Corps shooting teams.

b. Prerequisites. Must have completed the prescribed MOS doctrinal training course and served a minimum of 12 months in one or more of the following MOSs: 0931 or 0932.

c. Requirements. Complete the Range Officer Course conducted at Weapons Training Battalion, MCCDC, Quantico, VA.

d. Duties

(1) Plans layout of training and firing ranges to provide optimum use of terrain and areas available in consideration of factors, such as firing points, impact areas, surface danger zones (SDZ), safety limits, range communication, systems for barriers, warning signals and signs, and storage spaces for ammunition, weapons, and training support equipment.

(2) Organizes and conducts courses of instruction for range coach, marksmanship instructor, and range operating personnel.

(3) Interprets and enforces regulations, applying pertinent regulations to the area and weapons involved and the type training being conducted.

(4) Plans and supervises procedures to evaluate marksmanship skill and performance by individuals and teams, appropriate to the purpose of the firing being conducted and the ranges available.

(5) Ensures that qualification training is conducted following the existing regulations, and that appropriate records are maintained.

(6) Maintains familiarity with targets, target material, firing and training courses, and applies existing courses to the ranges and materials available.

(7) Adapts and devises courses and materials as field expedients when necessary to provide for realistic marksmanship familiarization, training, and evaluation, appropriate to the organization training mission and environment.

(8) Supervises and conducts inspections and checks of small arms weapons and ammunition to determine that weapons to be fired meet serviceability criteria set forth in existing directives and that ammunition to be used for qualification and firing practice is selected per pertinent directives.

(9) Supervises test fire of weapons and ammunition to determine accuracy and serviceability.

(10) Maintains familiarity with military and National Rifle Association and Civilian Marksmanship Program rules, regulations, and procedures for rifle and pistol competitive matches with emphasis on the Marine Corps Competition-in-Arms Program.

(11) Plans, organizes, and conducts competitive matches and maintains liaison with local gun clubs.

(12) Develops, implements and maintains doctrinal publications and courseware material for all Marine Corps Marksmanship Programs.

(13) Plans and operates range complexes to include range control, range scheduling and range management billets.

e. Related Standard Occupational Classification (SOC) Title and Code. Teachers and Instructors, All Other 25-3099.

f. Related Military Skill. None.

3. MOS 0942, Winter Mountain Leader (I) (Col to Capt) FMOS, CG TECOM

a. Summary. The WML performs duties of the unit mountain leader who is the subject matter expert in mountain warfare tactics, techniques, and procedures (such as over-the-snow mobility and avalanche hazard assessment), acts as an advisor to the commander, and is capable of conducting pre-environment training for their units.

b. Prerequisites

(1) Open to operating force MOSs Col through Capt.

(2) Students must complete a first class PFT adjusted for altitude on T-1.

(3) Volunteers are recommended due to the intensity level and demanding nature of this training.

(4) Students must be fit for full duty.

(5) Students must be medically qualified to participate in a demanding physical training program at high altitude (G6PD and sickle cell screened) and be free of chronic or acute orthopedic injuries.

(6) Students must have no personal issues (legal, financial, etc.) as this training center is remote and no time will be provided in the course for such issues.

c. Requirements. Must successfully complete the Winter Mountain Leaders Course (M24M7B1) at the Marine Corps Mountain Warfare Training Center, Bridgeport, CA.

1112. OCCUPATIONAL FIELD 11, UTILITIES1. MOS 1120, Utilities Officer (UO) (III) (CW05 to WO) PMOS, DC I&L

a. Summary. Utilities Officers serve as technical advisers to commanders at all levels within the MAGTF, as well as supporting organizations, on the appropriate employment of utilities personnel and equipment. These WOs analyze and translate commander's operational requirements into an executable utilities support package that enhances mission accomplishment. They plan and direct operations and maintenance of water purification, storage, distribution sites, hygiene and laundry services, tactical power generation, and electrical power distribution systems. They coordinate and manage the installation, maintenance, and repair of environmental control units, refrigeration equipment, as well as repair and perform quality control inspections of the electrical systems of engineer equipment. Additionally, Utilities Officers will plan, direct, and coordinate water quality assurance and water disposal systems. When deployed in support of Humanitarian Assistance/Disaster Relief and CMO, these officer's additional duties may include planning, directing, and coordinating the installation and repair of permanent and semi-permanent plumbing and interior electrical systems as well as liaising with foreign military and government officials in utilities support concerns involving the local populace. When deployed during combat operations, Utilities Officers will plan, direct, and coordinate utilities operations and distribution of equipment and personnel through each phase of operations. As the utilities specialists for the Marine Corps, they continuously liaise with DoD Project Manager Expeditionary Energy & Sustainment Systems, the Marine Corps' Expeditionary Energy Office, DoD services, government agencies, and non-governmental organizations to provide an effective and beneficial interface to address utilities requirements and to ensure the Marine Corps remains on the cutting edge of technology regarding expeditionary utilities support. This MOS is technical in nature and requires years of experience to become proficient. Due to the diversity of commands throughout the Marine Corps, some of the duties and tasks performed by the Utilities Officer may overlap with those of the Engineer Equipment Officer and Motor Transport Operations and Maintenance Officer. Additional duties may include Maintenance Management Officer, formal school faculty, new equipment/systems research and development, new systems acquisition, utilities advocacy at LPE, requirements development as the Utilities Capabilities Integration Officer at CD&I, MAGTF Standards Division at TECOM, and doctrine refinement to support utilities operations.

b. Prerequisites

(1) Must have previously served in one of the following MOSs: 1141, 1142, 1161, 1169, or 1171.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(2) Complete the Utilities Officer Course (M03ACE2), Marine Corps Engineer School, MCB Camp Lejeune, NC.

(3) Must be a graduate of the Utilities Chief Course (M0311E2) and selected as a Warrant Officer, MOS 1120, Utilities Officer.

(4) Any WO who has not previously completed the Utilities Chief (UC) Course (M0311E2) must attend the UC Course prior to attending the Utilities Officer (UO) Course (M03ACE2).

(5) Skill progression schools/courses recommended for Utilities Officers include:

(a) Expeditionary Warfare School, Distance Education, MCI.

(b) USMC Command and Staff College, Distance Education, MCI.

(c) Weapons and Tactics Instructor (WTI) Course (M14P2A1), taught by Marine Aviation Weapons and Tactics Squadron 1, Yuma, AZ.

(d) Ground Safety for Marines Course (M02M8SS, M03M8SS, M10M8SA, M21M8S3, M22M8S3, and M44M8S2), taught at various bases and stations.

(e) Hazardous Material/Hazardous Waste Handling Course (A14TNLM), taught at various bases and stations.

(6) Must complete the Intermediate MAGTF Logistics Operations Course (IMLOC) (M09F2F9) at the Marine Corps Logistics Operations Group (MCLOG), 29 Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) General and Operations Manager 11-1021.

(2) Civil Engineers 17-2051.

f. Related Military Skill

(4) Construction Managers 11-9021.

f. Related Military Skill

(1) Utilities Officer, 1120.

(2) Motor Transport Maintenance Officer, 3510.

3. MOS 1330, Facilities Management Officer (I) (Gen to 2ndLt) FMOS, DC I&L

a. Summary. Facilities Management Officers assist commanders in carrying out their responsibilities to obtain, maintain, and operate facilities needed for mission accomplishment. Responsibilities at the installation level include facilities maintenance planning, budgeting, and execution with billets as facilities maintenance plans officer and facilities maintenance officer (the latter position being the Maintenance Branch Head or equivalent for a Marine Corps installation). Responsibilities at Headquarters Marine Corps include plans and policy formulation for base realignment and closure, real property maintenance activities, and family/bachelor housing. This MOS may be assigned only as a non-PMOS by CMC (MM) upon a request from the individual, with the concurrence of the MOS Manager/OccFld sponsor.

b. Prerequisites. None.

c. Requirements

(1) Completion of the Marine Corps Facilities Management Course (N18EBKM), Civil Engineer Corps Officers School (CECOS), Port Hueneme, CA.

(2) Completion of a minimum of 6 months in a facilities management billet.

d. Duties. None.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Utilities Officer, 1120.
- (2) Combat Engineer Officer, 1302.

4. MOS 1390, Bulk Fuel Officer (III) (CWO5 to WO) PMOS, DC I&L

a. Summary. The Bulk Fuel Officer MOS consists of Technical Warrant Officers who plan, coordinate, and supervise the receipt, storage, transfer, and dispensing of bulk fuel. Frequent coordination with other agencies, both inter-service and internationally, are required to include direct interaction with Joint Petroleum Offices (JPO) and the Defense Logistics Agency Energy (DLA-E). Duties range from developing bulk fuel sites, making recommendations on security plans for Tactical Fuel Systems, to emplacement of a bulk fuel system, to writing the bulk fuel portion of operation orders. Environmental concerns are extremely crucial in any training and operational scenario; therefore, understanding of environmental requirements and limitations is a must. Challenging and interesting billets include battalions within the Marine Logistics Group and Squadrons within the Marine Air Wing, as well as instructor duty with the Marine Corps Detachment, U.S. Army Quartermaster School, assignment as Regional Fuel Officers, and equipment acquisition at Marine Corps Systems Command.

b. Prerequisites

- (1) Must hold MOS 1391.
- (2) Must possess an MM score of 95 or higher.
- (3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

- (1) Complete the Petroleum Officer Course: (A1431H1 (Joint) & A1414Z1 (Marine Specific)), U.S. Army Quartermaster School, Ft Lee, VA.
- (2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.
- (3) Complete the Bulk Fuel Officer Course (A1414Z1), U.S. Army Quartermaster School, Ft Lee, VA.
- (4) Skill progression schools/courses recommended for Bulk Fuel Officers include:
 - (a) Weapons and Tactics Instructor Course (WTI), taught by Marine Aviation Weapons and Tactics Squadron 1, Yuma, AZ. (recommended for all Bulk Fuel Officers serving in the ACE).
 - (b) Ground Safety for Marines Course (M02M8SS, M03M8SS, M10M8SA, M21M8S3, M22M8S3, and M44M8S2) taught at various bases and stations.
 - (c) Hazardous Material/Hazardous Waste Handling Course (A14TNLM), taught at various bases and stations.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line supervisors/Managers of Production and Operating Workers 51-1011.

(2) Petroleum Pump System Operators, Refinery Operators, and Gaugers 51-8093.

(3) First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. Utilities Officer, 1120.

1114. OCCUPATIONAL FIELD 17, CYBERSPACE OPERATIONS1. MOS 1702, Cyberspace Warfare Officer (I) (LtCol to 2ndLt) PMOS, DC I

a. Summary. Cyberspace Warfare Officers command or assist in commanding a cyber-operations unit or element. They plan, supervise, and direct the employment of cyber personnel and weapons systems. They conduct offensive and defensive cyber warfare at the tactical, operational, and strategic levels and possess an understanding of Department of Defense Information Network (DODIN) Operations, Defensive Cyberspace Operations, and Offensive Cyberspace Operations. The Cyberspace Warfare Officer utilizes intelligence products to understand the operational situation and integrate information related capabilities into operational domains and warfighting functions. They are employed throughout the cyber mission force (CMF) and Fleet Marine Forces (FMF) to advise commanders on the employment of cyber personnel, weapons systems, effects, and capabilities in order to obtain the commander's desired end state. Lieutenants typically serve as small unit leaders as planners, evaluators, and managers within the FMF. Captains and above typically serve as mission commanders, team leads, company/battalion commanders, and staff officers in the S-3/G-3 in order to plan, direct, monitor, and assess operations.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Security requirement:

(a) Must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation/T5 investigation.

(b) Must complete SCI pre-screen interview with HQMC SSO for assignment qualification per DoN and HQMC SCI policies and procedures.

(3) Must successfully complete a counter-intelligence scope polygraph examination.

(4) Lateral move additional prerequisites:

(a) Must have accepted career designation.

(b) Must be worldwide deployable at the time SNO is approved for lateral move into the 1702 MOS.

(c) All applicants must be screened and recommended for a lateral move by a screening panel of cyber personnel.

c. Requirements

(1) Must complete the Cyber Operations Officer Course (CyOOC) (A09BN42) at Ft Gordon, GA.

(2) For MOS and career progression, the following course is highly encouraged: Joint Targeting Staff Course (N46HFS3).

d. Duties. For a complete listing of duties and tasks, refer to NAVMC 3500.124, Cyberspace Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.

(1) Signals Intelligence/Electronic Warfare Officer, 0206.

(2) Communications Officer, 0602.

2. MOS 1705, Cyberspace Warfare Development Officer (I) (LtCol to Capt)
PMOS, DC I

a. Summary. The Cyberspace Warfare Development Officer is a senior SME that manages the cyber warfare development lifecycle in order to create, integrate, synchronize, and deliver effects in concert with other warfare domains. They serve as technical directors, providing expertise and advise to commanders on the development, integration, and implementation of cyber warfare technologies, tools, weapon systems, and tactics, techniques, and procedures (TTPs). They establish enduring interagency and intelligence community (IC) partnerships that ensure capability interoperability and de-confliction of cyber effects. The Cyber Warfare Development Officer serves in higher-level capabilities development leadership positions (e.g., Technical Director, Capabilities Branch Head, Team Commander) in order to provide cyber warfare and capabilities development leadership at the component command and/or service levels.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

(3) Limited duty officers assigned this MOS must have previously served in PMOSs 1710 or 1720. This prerequisite may be waived by the Deputy Commandant for Information on a case-by-case basis for applicants from other occupational fields who possesses noteworthy cyber warfare experience and a current or previous successful tour within the US Cyber Command Cyber Mission Force.

(4) Security requirement:

(a) Must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background T5 investigation.

(b) Must complete SCI pre-screen interview with HQMC SSO for assignment qualification per DoN and HQMC SCI policies and procedures.

(5) Must be willing to submit to a counterintelligence scope polygraph examination.

c. Requirements

(1) Achieve selection by the board to Limited Duty Officer.

(2) For MOS and career progression, the following course is highly encouraged: Joint Targeting Staff Course (N46HFS3).

d. Duties. For a complete listing of duties and tasks, refer to NAVMC 3500.124, Cyberspace Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Computer and Information Systems Manager II-3021.

f. Related Military Skill

- (2) Offensive Cyberspace Warfare Operator, 1711.
- (3) Defensive Cyber Weapons Officer, 1720.
- (4) Defensive Cyberspace Warfare Operator, 1721.

3. MOS 1710, Offensive Cyberspace Warfare Officer (III) (CW05 to WO) PMOS, DC I

a. Summary. The Offensive Cyberspace Warfare Officer is a SME in offensive cyberspace operations (OCO). They possess an advanced understanding of the doctrines, policies, and authorities that govern maneuver warfare, the application of force in and through cyberspace, and intelligence procedures. They leverage this knowledge to provide recommendations and advice to commanders to understand second and third-order effects in cyberspace, drive target pairing, conduct weapon engineering, initiate cascading effects into the physical domains, and satisfy collection requirements in cyberspace. Offensive Cyberspace Warfare Officers are technical experts experienced in clandestine and overt offensive cyberspace warfare, the use of intelligence products and data, weapons platform design, and infrastructure utilization that support planning and execution of OCO. These officers are special staff officers employed as the principal technical advisors on all aspects of OCO at the tactical and operational levels. Marines in this MOS may be assigned to a BIC (within their occupational field) that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Security requirement:

(a) Must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(b) Must complete SCI pre-screen interview with HQMC SSO for assignment qualification per DoN and HQMC SCI policies and procedures.

(2) Must successfully complete a counter-intelligence scope polygraph examination.

(3) WOs assigned this MOS must have previously served in one of the following related MOSs for a minimum of three years: 1711, 1721, or 2611.

(4) Must have completed the Joint Cyber Analysis Course (JCAC) (N23CUQ1), Center for Naval Cryptology, Corry Station, NAS Pensacola, FL.

(5) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(2) Marines serving in billets coded with an additional skill designator (ASD), as per the table of organization, must attain the appropriate certification level within 24 months of billet assignment.

(3) Skill progression and career enhancement courses required for Offensive Cyberspace Warfare Officers (CWO4):

(a) Must have completed the Defense Acquisition University (DAU) class CLR 101, Introduction to Joint Capabilities Integration and Development System (JCIDS).

(b) Must have completed the DAU (DAU) class WSS 010, Cyber Training Range.

(4) The following courses of instruction are desirable as skill enhancement courses for MOS 1710 Marines (CWO5 to CWO2).

(a) Cyber Operation Planners Course (A09BN72).

(b) Joint Targeting Staff Course (N46HFS3).

(c) DAU class ACQ 101, Fundamentals of Systems Acquisition Management.

(d) Curriculum Developer (Phase II) Course (M03KHXA).

d. Duties

(1) For a complete listing of duties and tasks, refer to NAVMC 3500.124, Cyberspace Training and Readiness Manual.

(2) Pursue DAWIA certification in order to gain qualifications prior to entering senior billets within the MOS (see MOS 8060 and 8640).

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Mid-level Management Marines (CWO3 to WO) holding mid-level management ranks perform the related duties from the entry level ranks with the following additional classifications:

(a) Computer and Information Systems Manager 11-3021.

(b) Computer Systems Analysts 15-1211.

(c) Computer Occupations, All Other 15-1299.

(2) Senior-Level Management Marines (CWO5 to CWO4) holding senior level management ranks perform the related duties from the previous classifications with the following classifications:

- (a) Computer and Information Research Scientists 15-1221.
- (b) Software Quality Assurance Analysts and Testers 15-1253.
- (c) Data Scientists 15-2051.
- (d) Command and Control Center Officers 55-1015.
- (e) Military Officer Special and Tactical Operations Leaders 55-1019.

f. Related Military Skill

- (1) Operational Advisor, 0571.
- (2) Offensive Cyberspace Warfare Operator, 1711.
- (3) Defensive Cyberspace Warfare Operator, 1721.

4. MOS 1720, Defensive Cyberspace Weapons Officer (III) (CW05 to WO) PMOS, DC I

a. Summary. The Defensive Cyberspace Weapons Officer is a subject matter expert (SME) in Defensive Cyberspace Operations (DCO) with advanced and mastery knowledge of defensive cyber weapons systems and platforms and their employment. They serve as master defensive operators, technical directors, top-level representatives, special staff officers, and principal technical advisors to selected headquarters and staffs. 1720s coordinate with and advise commands conducting, supporting, or assisting in providing critical input and analysis in the development, review, and update of classified and unclassified OPLANS, CONPLANS, cyberspace operations annexes to operations, operational orders, training, exercises, and letters of instruction improving Commander's decision making during planning and execution by integrating DCO capabilities into the development of problem definition and desired end states by identifying friendly and enemy cyber vulnerabilities, challenging assumptions about cyberspace, offering alternative perspectives, and the development of best courses of action at the tactical and operational levels. But most notably, they utilize knowledge and experience in order to outmaneuver adversaries in cyberspace, defend operational missions and associated key terrain in cyberspace, and employ effects to ensure friendly freedom of movement in and through cyberspace while synchronizing and coordinating all defensive cyberspace missions and cyberspace related activities with representatives of other information-related capabilities in peer, higher, and adjacent staff organizations to leverage capabilities, maximize effects, and optimize combat effectiveness in operational domains and across warfighting functions.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Be a high school graduate or possess the service-accepted equivalent as prescribed by current directives.
- (3) Possess one of the following aptitude test scores:

(a) An armed services vocational aptitude battery (ASVAB) electrical composite (EL) standard score of 110 or higher; and general technical composite (GT) standard score of 110 or higher.

(b) A combined math and verbal score of 1000 or higher on the Scholastic Aptitude Test (SAT).

(c) A combined math and English score of 39 or higher on the American College Test (ACT). Applicants submitting SAT or ACT test scores will submit a certified copy of the test report.

(d) A cyber test score of 60 or higher.

(4) Security requirement: Must meet sensitive compartmented information (SCI) eligibility guidelines and complete SCI pre-screen interview with HQMC SSO for assignment qualification per DoN and HQMC SCI policies and procedures based on a single scope background T5 investigation prior to starting the Warrant Officer Basic Course (WOBC) (M02RMN4), The Basic School, Quantico, VA.

(5) Must successfully complete a counter-intelligence scope polygraph examination.

(6) No convictions by court-martial, civilian courts or non-judicial punishment for any cyber/information technology related offense within the last three years.

(7) Must have no record of derogatory information or unfavorable conduct that cast doubt on the Marine's trustworthiness and honesty.

(8) Must have previously held MOS: 0631, 0639, 0671, 0679, 0699, 1711, 1721, 1799, 2611, 2651, 2652, 2653 or 2659. This prerequisite may be waived for extremely qualified applicants from other occupation fields on a case by case basis by HQMC, DC I, Information Maneuver Division.

(9) Evidence of prior achievement as indicated in the following order of desirability:

(a) A strong background in cyberspace operations with evidence of having completed the curriculum of master/advanced training for a defensive cyberspace technician.

(b) Assigned or serving in MOS 1721 for a minimum of 24 months under the purview of, or within, U.S. Cyber Command (e.g. Cyber Mission Force (CMF), Cyber National Mission Force (CNMF), DCO-IDM Companies, or Marine Forces Cyberspace Command).

(c) Have the acknowledgement of a Defensive Cyberspace Weapons Officer (1720); Offensive Cyberspace Warfare Officer (1710); Cyberspace Warfare Development Officer, (1705); Cyberspace Warfare Officer (1702); or Cyberspace Warfare Chief (1799) stating that the individual meets the minimum technical expertise requirements for a Defensive Cyberspace Weapons Officer.

(d) Though desirable attributes, a college degree and certifications do not replace operational experience.

c. Requirements

(1) Defensive Cyberspace Weapons Officers must have an advanced comprehensive and theoretical knowledge of:

- (a) Defensive cyberspace operations.
- (b) Cyberspace policy and doctrine.
- (c) Plans, concepts, strategies, and tactics for development and employment of defensive cyberspace weapons systems.
- (d) The purpose and proper employment of military intelligence.
- (e) The cyberspace environment and environment monitoring.
- (f) The Joint operational planning process and the Marine Corps planning process.
- (g) Cyberspace command and control.
- (h) Cyber Threat Emulation (CTE).
- (i) Classified national systems.
- (j) Cyber related legal considerations.
- (k) Malware analysis.
- (l) Digital forensics.
- (m) Facility-related control systems (FRCS)/industrial control systems (ICS)/platform information technology (PIT)/and supervisory control, and data acquisition (SCADA) systems.
- (n) Use of information and data to conduct cyber analytics.
- (o) Cyber acquisition management.

(2) Mastery knowledge and demonstrated master-level proficiency of the following core competencies, which must be trained to, exercised, and sustained:

- (a) Cyberspace hunt operations.
- (b) Cyberspace incident response (IR) operations.
- (c) Cyberspace threat emulation (CTE) operations.
- (d) Internal defensive measure (IDM) operations.

(3) Must complete the Warrant Officer Basic Course (M02RMN4) within 18 months of appointment to Warrant Officer.

(4) Must successfully complete the first available Cyber Operations Planning Course (COPC) (A09BN72) upon graduation from the Warrant Officer Basic Course (WOBC) (M02RMN4), The Basic School, Quantico, VA.

(5) Skills progression and career enhancement courses required for Defensive Cyberspace Weapons Officers:

(a) Skill progression and career enhancement courses required within the first 30 months of their first assignment for Defensive Cyberspace Weapons Officers (CWO3 to WO1):

1. SANS SEC504: hacker tools, techniques, exploits, and incident handling.

2. CTE Methodology Course.

3. DCI Methodology Course.

(b) Skill progression and career enhancement courses required for Defensive Cyberspace Weapons Officers (CWO4 to CWO3): Joint Operation Planning and Execution System (JOPES), taught at various locations (nine days). Quota Control is HQMC (code POC-30) at DSN 224-2116.

(6) Must obtain and maintain the appropriate IAT Level III and IAM Level III certifications in accordance with DoDD 8140.01.

d. Duties

(1) Execute the operational engineering of defensive cyberspace weapons systems and oversee the employment and effectiveness of maintaining defense of mission critical assets while researching, testing, planning, and employing alternative and creative emerging defensive capabilities to impose cost on adversaries.

(2) Coordinate and liaise with host nation, international and non-governmental personnel, Defense Industrial Base (DIB), interagency, and other cyberspace components of the Armed Forces that are engaged in analytical or evaluation work to exchange technical tradecraft and knowledge building, testing, and refining service tactics, techniques, and procedures (TTPs).

(3) Attend and participate in DoD, DIB, and non-military conferences and events gathering technical tradecraft and knowledge on emerging adversarial TTPs for countering the adversary in cyberspace and imposing cost exercising this tradecraft by planning, organizing, conducting, attending, and participating in hosted competitive cyber events.

(4) Advise on, plan, coordinate, and facilitate military and civilian professional defensive cyberspace development opportunities encompassing all issues relating to training policies, standards, training program development, unit training management/evaluation, and unit training readiness; ensuring that qualification training is conducted following the existing regulations, and that appropriate records are maintained.

(5) Maintain mastery knowledge of and conduct advanced host and network analysis, malware analysis, cyber reverse engineering, cyber analytics, infrastructure utilization, defensive cyberspace weapons platform design and employment, utilization of intelligence data, briefing/debriefing cyber related capabilities and actions on objectives, mission analysis, cyber terrain engagement, collection requirements management, and understanding of doctrine, policies, and authorities that govern threat response, defensive cyberspace operations (DCO), and intelligence procedures.

(6) For a complete listing of duties and tasks, refer to NAVMC 3500.124, Cyberspace Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Computer and Information Systems Managers 11-3021.
- (2) Information Security Analysts 15-1212.
- (3) Computer and Information Research Scientists 15-1220.
- (4) Data Scientists 15-2051.
- (5) Computer Hardware Engineers 17-2061.
- (6) Command and Control Center Officers 55-1015.

(7) Military Officer Special and Tactical Operations Leaders/Managers, All Other 55-1019.

f. Related Military Skill

- (1) Cyberspace Warfare Officer, 1702.
- (2) Cyberspace Warfare Development Officer, 1705.
- (3) Offensive Cyberspace Warfare Operator, 1711.
- (4) Defensive Cyberspace Warfare Operator, 1721.
- (5) Cyberspace Warfare Chief, 1799.

1115. OCCUPATIONAL FIELD 18, TANK, ASSAULT AMPHIBIOUS VEHICLE AND AMPHIBIOUS COMBAT VEHICLE

1. MOS 1802, Tank Officer (I) (LtCol to 2ndLt) PMOS, DC PP&O

a. Summary. Tank Officers command, or assist in commanding tank units. They provide recommendations to the supported unit commander for the tactical employment of tank units. Tank Officers, as maneuver unit leaders, must be able to evaluate intelligence and the operational situation. Additionally, they formulate, coordinate, and execute operation orders.

b. Prerequisites

(1) Must have vision correctable to 20/20.

(2) Must have normal color vision.

(3) Must have a WS-B water survival.

(4) Must meet MOS Classification Standards, as listed in the glossary (pg. xiv) prior to graduating from the Basic School.

c. Requirements. Complete the Armor Officer Basic Course (A03T612); and the Marine Annex to Armor Officer Basic Course (A03T5R2), Ft Benning, GA.

d. Duties. For a complete listing of duties and tasks, refer to reference (m), Tank Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Armored Assault Vehicle Officers 55-1013.

f. Related Military Skill. None.

2. MOS 1803, Assault Amphibious Vehicle (AAV) Officer (I) (LtCol to 2ndLt) PMOS, DC PP&O

a. Summary. Assault Amphibious Vehicle Officers command, or assist in commanding, assault amphibian (AA) units, provide recommendations to the supported unit commander for the tactical employment of AA units. They also direct AA units on maneuvers, tactical problems, and in combat. In conjunction with the U.S. Navy units, they control the ship to shore movement of AAVs. AAV Officers are responsible for the AA unit's personnel and equipment readiness, operational employment, and the identification and coordination of required logistics support.

b. Prerequisites

(1) Must have WS-B(+) water survival qualification.

(2) Must have WS-I water survival qualification.

(3) Must have normal color vision.

(4) Must have visual acuity correctable to 20/20 in both eyes.

(5) Must meet MOS Classification Standards, as listed in the glossary (pg. xiv) prior to graduating from the Basic School.

c. Requirements

(1) Complete the Assault Amphibious Vehicle Officer Course (M1018J3), Camp Pendleton, CA.

(2) Must possess the psychological and physiological qualifications required for licensing as an Ordnance Vehicle Operator (see reference (cz)).

d. Duties. For a complete listing of duties and tasks, refer to reference (n), Assault Amphibious Vehicle Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Armored Assault Vehicle Officers 55-1013.

f. Related Military Skill. None.

1116. OCCUPATIONAL FIELD 21, GROUND ORDNANCE MAINTENANCE1. MOS 2102, Ordnance Officer (II) (LtCol to Capt) PMOS, DC I&L

a. Summary. Ordnance Officers manage ordnance operations in the Marine Forces, MEFs, bases, posts, and stations to include HQMC. They serve as the Ground Ordnance Maintenance Technical Advisor in general staff. They may command or assist in commanding a ground ordnance maintenance unit, or test, evaluate, and advise in a foreign or joint environment.

b. Prerequisites

(1) Must have previously held WO MOSs: 2110, 2120, or 2125.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Achieve selection by the board to Limited Duty Officer (LDO).

(2) Recommended that newly selected LDOs attend the following courses:

(a) Joint Logistics Course (JLC) (A14L232).

(b) Intermediate MAGTF Logistics Operations Course (IMLOC) (M09F2F9).

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Installation, Maintenance and Repair Occupations 49-0000.

f. Related Military Skill. None.

2. MOS 2110, Ordnance Vehicle Maintenance Officer (III) (CW05 to WO) PMOS, DC I&L

a. Summary. Ordnance Vehicle Maintenance Officers manage the equipment readiness, work progress, and maintenance personnel qualification/training. They manage the activities of personnel engaged in the recovery, salvage, and maintenance of weapon systems (ordnance vehicles). They supervise the functional areas of maintenance management, establish field maintenance sites, and procedures for the defense of those sites. They manage command environmental hazardous waste programs, and supervise and provide oversight of disposal, storage, emergency planning for hazardous waste, and ozone depleting substances.

b. Prerequisites

(1) This MOS may only be assigned to WOs previously qualified in MOSs: 2141, 2146, 2147, or 2149.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Ground Ordnance Officer Course (A14RGZ6) at U.S. Army Ordnance Center and School, Ft Lee, VA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4), The Basic School, Quantico, VA; within 18 months of appointment to WO.

(3) The following courses are recommended for skills progression:

(a) Joint Logistics Course (JLC) (A14L232).

(b) Intermediate MAGTF Logistics Operations Course (IMLOC) (M09F2F9).

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

3. MOS 2120, Weapons Repair Officer (III) (CW05 to WO) PMOS, DC I&L

a. Summary. Weapons Repair Officers manage the equipment readiness, work progress, and maintenance personnel qualification/training. They manage the activities of personnel engaged in the recovery, salvage, and maintenance of weapon systems (small arms and artillery). They supervise the functional areas of maintenance management. They manage command environmental and hazardous waste programs. They supervise and provide oversight of disposal, storage, emergency planning for hazardous waste, and ozone depleting substances.

b. Prerequisites

(1) Must have previously served in one of the following MOSs: 2111, 2112, 2131, 2161, 2171, or 2181.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Ground Ordnance Officer Course (A14RGZ6) at U.S. Army Ordnance Center and School, Ft Lee, VA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4), The Basic School, Quantico, VA; within 18 months of appointment to WO.

(3) The following schools/courses are recommended for skills progression:

(a) Joint Logistics Course (JLC) (A14L232).

(b) Intermediate MAGTF Logistics Operations Course (IMLOC) (M09F2F9).

(c) Lean Six Sigma White, Yellow, Green, and/or Black Course.

(d) Any course(s) from Defense Acquisitions University.

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

4. MOS 2125, Electro-Optic Instrument Repair Officer (III) (CW04 to WO) PMOS, DC I&L

a. Summary. Electro-Optic Instrument Repair Officers manage the equipment readiness, work progress, and maintenance personnel qualification/training. They manage the activities of personnel engaged in maintenance on fire control, optical, electro-optical/laser devices, and small missile systems. They supervise the functional areas of maintenance management. They establish maintenance production lines, procedures for inspection, and quality assurance on repaired equipment, field maintenance sites, and procedures for the defense of those sites. They manage command environmental and hazardous waste programs. They supervise and provide oversight of disposal, storage, emergency planning for hazardous waste, and ozone depleting substances.

b. Prerequisites

(1) This MOS may only be assigned to WOs previously qualified in MOS 2171.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Ground Ordnance Officer Course (A14RGZ6) at U.S. Army Ordnance Center and School, Ft Lee, VA.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4), The Basic School, Quantico, VA; within 18 months of appointment to WO.

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

1117. OCCUPATIONAL FIELD 23, AMMUNITION AND EXPLOSIVE ORDNANCE DISPOSAL1. MOS 2305, Explosive Ordnance Disposal Officer (II/III) (LtCol to Capt) and (CWO5 to WO) PMOS, DC I&L

a. Summary. Explosive Ordnance Disposal (EOD) Officers supervise command and control EOD operations and personnel. Additionally, they also serve as special staff officers. EOD Officers are responsible for the EOD function in support of the MAGTF, supporting establishments, homeland defense, and special operations forces by locating, accessing, identifying, rendering safe, neutralizing, and disposing of hazards, both foreign and domestic: chemical, biological, radiological, nuclear, and high-yield explosive (CBRNE), unexploded explosive ordnance (UXO), improvised explosive device (IED), and weapons of mass destruction (WMD) that present a threat to operations, installations, personnel, or materiel.

b. Prerequisites

(1) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

(2) This MOS may only be assigned to WOs who served at least five years in the MOS 2336; having achieved, at a minimum, the Senior EOD Breast Insignia Qualification. This will be documented in a page 11 entry, and/or through MCTFS, and should also be documented within the command endorsement of the WO package and a letter of recommendation from a Marine Corps EOD Officer serving in an EOD Officer billet.

(3) Security requirement: top secret security clearance eligibility.

(4) Must meet all requirements for assignment to a critical position within the Nuclear Weapons Personnel Reliability Program (PRP); refer to reference (j).

(5) Must have normal color vision and no claustrophobic tendencies.

(6) Must meet the medical requirements listed in article 15-107 per reference (ai) for explosive handling and/or explosive driver.

(7) Only MOS 2305 WOs may apply for appointment as a MOS 2305 LDO.

c. Requirements

(1) Complete the Explosive Ordnance Disposal Officer Course (M09B0E1), Twentynine Palms, CA.

(2) Warrant Officers must complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment.

(3) Requirements for continued qualification and progression training: all EOD Officers will be annually screened for continued service in the EOD MOS using NAVMC form 11362. Based on the comprehensive standards covered under NAVMC form 11362, EOD Officers will not be screened using NAVMC form 11386.

(4) The following core competencies must be trained to and sustained by all EOD Officers.

- (a) Render safe of explosive ordnance (EO).
- (b) WMD operations.
- (c) IED defeat operations.
- (d) Disassembly and inerting.
- (e) Post blast investigation.
- (f) Advanced TTPs for EOD tools and equipment.
- (g) Advanced electronics.
- (h) Specialized demolition techniques.
- (i) EOD robotics employment and usage.
- (j) UXO operations.
- (k) Destruction of explosive ordnance.
- (l) Explosive ordnance exploitation.
- (m) Explosive ordnance reconnaissance.
- (n) Homemade explosives (HME) identification and neutralization.

d. Duties. For a complete listing of duties and tasks, refer to reference (by), Explosive Ordnance Disposal Technician/Officer Training and Readiness Manual, and reference (ba), Marine Corps EOD Program.

e. Related Standard Occupational Classification (SOC) Title and Code. Emergency Management Specialists 13-1061.

f. Related Military Skill. None.

2. MOS 2340, Ammunition Officer (II/III) (LtCol to Capt) and (CW05 to WO) PMOS, MCSC

a. Summary. Ammunition Officers supervise and coordinate ammunition supply and renovation functions. These functions include, but are not limited to, procurement, receipt, storage, issue, handling, shipment, salvage, and renovation of ammunition. They also operate ammunition supply points and are responsible for the establishment of field ammunition supply points in forward areas. Ammunition Officers are assigned to billets on the general staff level and are responsible for advising those commanders on matters relating to the development of ammunition allowances for both training and combat operations. Assignments may also include commanding an ammunition company.

b. Prerequisites

(1) This MOS may only be assigned to Warrant Officers who were previously qualified in MOS 2311.

(2) Only MOS 2340 Warrant Officers may apply for appointment as a MOS 2340 Limited Duty Officer (LDO). Warrant Officers applying for MOS 2340 LDO

must have demonstrated ammunition technical qualification through performance of duty as a Warrant Officer in ammunition billets.

(3) Security requirement: secret security clearance eligibility.

(4) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

(5) 2340 LDOs must achieve selection by the board.

c. Requirements

(1) Complete the Ammunition Warrant Officer Managers Course (A14GPY6), U.S. Army Ordnance Missile and Munitions Center and School, Ft Lee, VA.

(2) Warrant Officers must complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment.

d. Duties. For a complete listing of duties and tasks, refer to reference (bz), Ammunition Technician/Officer Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.
None.

f. Related Military Skill. None.

1118. OCCUPATIONAL FIELD 26, SIGNALS INTELLIGENCE/ELECTRONIC WARFARE/
CYBERSPACE OPERATIONS

1. MOS 2602, Signals Intelligence/Electronic Warfare/Cyberspace Operations
Officer (III) (CWO5 to WO) PMOS, DIR INTEL

a. Summary. Signals Intelligence (SIGINT), Electronic Warfare (EW), Cyberspace Operations (CO) Warrant Officers supervise, direct, and provide guidance and technical expertise on all aspects of the employment of SIGINT/EW/CO personnel, systems and facilities. These operations are in support of tactical, strategic, and national level SIGINT/EW/CO missions and include the management, collection, processing, analysis, and reporting of SIGINT and Electronic Warfare Support (ES) derived intelligence and information; directing and supervising Offensive Cyberspace (OCO); planning and directing electronic attack (EA) and ES missions; and other tasks related to security and dissemination of SIGINT/EW/CO derived information. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(2) Must successfully complete a counter-intelligence scope polygraph examination.

(3) Must have previously served in one of the following MOSs: 2611, 2621, 2629, 2631, 2641, or 2651.

(4) Must have completed the Defense Acquisition University class CLR 101, Introduction to Joint Capabilities Integration and Development System (JCIDS).

(5) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) MOS 2602 assigned upon approval of the director of intelligence.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

d. Duties. For a complete listing of duties and tasks, refer reference (p), Signals Intelligence Training & Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Military Officer Special and Tactical Operations Leaders/Managers, All Other 55-1019.

f. Related Military Skill. None.

1119. OCCUPATIONAL FIELD 27, LINGUIST1. MOS 2712, Arabic (Modern Standard) (II/III) (Gen to 2ndLt) and (CW05 to WO) EMOS, DIR INTEL

a. Summary. Linguist MOSs are EMOSs used in conjunction with designated billets that indicate specialized foreign language skills. Linguists supervise and participate in language translation/interpretation activities pertaining primarily to military operational and intelligence activities. The linguist MOSs will be assigned as EMOSs to identify those Marines that have attended formal language training and have achieved qualifying foreign language skills. The titles and MOSs will be used to identify billets in T/Os requiring specific foreign language skills as required by the BMOS or additional skills designator (ASD).

b. Prerequisites. Must be proficient in Arabic (Modern Standard).

c. Requirements

(1) Qualifying DLPT scores alone are not justification for EMOS assignment. Marines must successfully complete the required course of instruction at the Defense Language Institute, Language Training Detachment, or designated government-funded language course and achieve minimum ILR proficiency as required by the appropriate PMOS or NMOS in two modalities of listening, reading or speaking portions of the Defense Language Proficiency Test (DLPT). (Note: By exception, individuals may qualify for this EMOS when language training is not required but Marine meets proficiency requirements and language fulfills PMOS, NMOS or billet requirements).

(2) Maintain minimum ILR proficiency as required by the appropriate Primary MOS, Billet MOS or designated billet in two modalities of listening, reading, or speaking portions of the DLPT.

d. Duties

(1) Conducts bi-directional consecutive interpretation of target language to English and English to target language using phraseology selected to preserve the original intent, meaning, and emphasis.

(2) Phrases ideas to avoid language that is stilted, unnatural, and difficult to understand.

(3) Displays an impartial attitude toward each speaker and to facts and opinions expressed.

(4) Interprets into either English or foreign language statements made by participants in conferences, working parties, and all similar activities.

(5) Interviews friendly non-English speaking civilians such as police, clergymen, and other Citizens to obtain information of military value.

(6) Writes reports, including opinion as to the credibility of the person interviewed, for use by unit commander and for dissemination to lower, adjacent, and higher headquarters.

(7) Translates into either English or the foreign language, written material of both a technical and nontechnical nature.

(8) Establishes a file of language reference materials, English and foreign language dictionaries, and glossaries of military terms.

e. Related Standard Occupational Classification (SOC) Title and Code.
Interpreters and Translators 27-3091.

f. Related Military Skill

2. MOS 2713, Arabic (Egyptian) (II/III) (Gen to 2ndLt) and (CW05 to WO)

3. MOS 2714, Arabic (Syrian) (II/III) (Gen to 2ndLt) and (CW05 to WO) EMOS, DIR INTEL

a. Summary. Linguist MOSs are EMOSs used in conjunction with designated billets that indicate specialized foreign language skills. Linguists supervise and participate in language translation/interpretation activities pertaining primarily to military operational and intelligence activities. The linguist MOSs will be assigned as EMOSs to identify those Marines that have attended formal language training and have achieved qualifying foreign language skills. The titles and MOSs will be used to identify billets in T/Os requiring specific foreign language skills as required by the BMOS or additional skills designator (ASD).

b. Prerequisites. Must be proficient in Arabic (Syrian).

c. Requirements

(1) Qualifying DLPT scores alone are not justification for EMOS assignment. Marines must successfully complete the required course of instruction at the Defense Language Institute, Language Training Detachment, or designated government-funded language course and achieve minimum ILR proficiency as required by the appropriate PMOS or NMOS in two modalities of listening, reading or speaking portions of the Defense Language Proficiency Test (DLPT). (Note: By exception, individuals may qualify for this EMOS when language training is not required but Marine meets proficiency requirements and language fulfills PMOS, NMOS or billet requirements).

(2) Maintain minimum ILR proficiency as required by Free MOS 824X, or the appropriate Primary MOS, Billet MOS or designated billet in two modalities of listening, reading, or speaking portions of the DLPT.

d. Duties

(1) Conducts bi-directional consecutive interpretation of target language to English and English to target language using phraseology selected to preserve the original intent, meaning, and emphasis.

(2) Phrases ideas to avoid language that is stilted, unnatural, and difficult to understand.

(3) Displays an impartial attitude toward each speaker and to facts and opinions expressed.

(4) Interprets into either English or foreign language statements made by participants in conferences, working parties, and all similar activities.

(5) Interviews friendly non-English speaking civilians such as police, clergymen, and other Citizens to obtain information of military value.

(6) Writes reports, including opinion as to the credibility of the person interviewed, for use by unit commander and for dissemination to lower, adjacent, and higher headquarters.

(7) Translates into either English or the foreign language, written material of both a technical and nontechnical nature.

(8) Establishes a file of language reference materials, English and foreign language dictionaries, and glossaries of military terms.

30. MOS 2747, Vietnamese (II/III) (Gen to 2ndLt) and (CWO5 to WO) EMOS, DIR INTEL

a. Summary. Linguist MOSs are EMOSs used in conjunction with designated billets that indicate specialized foreign language skills. Linguists supervise and participate in language translation/interpretation activities pertaining primarily to military operational and intelligence activities. The linguist MOSs will be assigned as EMOSs to identify those Marines that have attended formal language training and have achieved qualifying foreign language skills. The titles and MOSs will be used to identify billets in T/Os requiring specific foreign language skills as required by the BMOS or additional skills designator (ASD).

b. Prerequisites. Must be proficient in Vietnamese.

c. Requirements

(1) Qualifying DLPT scores alone are not justification for EMOS assignment. Marines must successfully complete the required course of instruction at the Defense Language Institute, Language Training Detachment, or designated government-funded language course and achieve minimum ILR proficiency as required by the appropriate PMOS or NMOS in two modalities of listening, reading or speaking portions of the Defense Language Proficiency Test (DLPT). (Note: By exception, individuals may qualify for this EMOS when language training is not required but Marine meets proficiency requirements and language fulfills PMOS, NMOS or billet requirements).

(2) Maintain minimum ILR proficiency as required by the appropriate primary MOS, billet MOS, or designated billet in two modalities of listening, reading, or speaking portions of the DLPT.

d. Duties

(1) Conducts bi-directional consecutive interpretation of target language to English and English to target language using phraseology selected to preserve the original intent, meaning, and emphasis.

(2) Phrases ideas to avoid language that is stilted, unnatural, and difficult to understand.

(3) Displays an impartial attitude toward each speaker and to facts and opinions expressed.

(4) Interprets into either English or foreign language statements made by participants in conferences, working parties, and all similar activities.

(5) Interviews friendly non-English speaking civilians such as police, clergymen, and other Citizens to obtain information of military value.

1121. OCCUPATIONAL FIELD 30, SUPPLY CHAIN MATERIAL MANAGEMENT1. MOS 3002, Ground Supply Officer (I) (LtCol to 2ndLt) PMOS, DC I&L

a. Summary. Ground Supply Officers are a special Staff Officer that supervise the Commanders' Property, Plant, & Equipment (PP&E) and Operating Material & Supplies (OM&S) to ensure data accuracy, existence, and completeness (equipment accountability, visibility, and auditability). They supervise and coordinate ground supply administration and operations for supply activities, units, bases, or stations, to include operating forces and shore station organizations. Ground Supply Officers may direct the activities of a maintenance distribution or industrial type organization. They command or serve in either an operating forces service unit or a non-operating forces activity. Ground Supply Officers supervise the execution of supply chain management policies and procedures pertaining to: procurement; receipt; inventory control; repair; storage; distribution; issue; disposal; and computation and maintenance of stock positioning requirements. They provide supply support insight for operational planning requirements; supervise transportation of supplies and equipment; manage the transmittal of public funds; participate in the budget process, administer, and expend allotted funds; and make necessary recommendations to the commanding officer regarding supply support procedures.

b. Prerequisites. None.

c. Requirements

(1) Complete the Ground Supply Officer Course (M03C0G1), MCB, Camp Lejeune, NC.

(2) Supply Officers are able to compete for MOS 3006 (Operational Contract Support Officer) through the special education program (SEP) board process, which enables Supply Officers to attain a Master of Business Administrations degree in Acquisition and Contract Management. Officers who are not Supply Officers and complete the distance learning program at the Naval Post Graduate School in Contract Management Curriculum may be eligible for the 3006 additional MOS.

d. Duties. For a complete listing of duties and tasks, refer to reference (r), Ground Supply Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Purchasing Managers 11-3061.

(2) Transportation, Storage, and Distribution Managers 11-3071.

f. Related Military Skill. None.

2. MOS 3006, Operational Contract Support (OCS) Officer (I) (LtCol to Capt) NMOS (3002), DC I&L

a. Summary. Contingency Contracting Officers (CKOs) plan, organize and accomplish contracting functions to provide supplies and services essential to Marine Corps daily operations and war-fighting mission. Included are accomplishing contracting system processes, formulating contracting policy and procedures, coordinating contracting activities and directing contracting operations. The contracting system includes effective acquisition planning,

solicitation, cost or price analysis, evaluating offers, source selection, contract award, and contract administration. In accordance with Department of Defense Operational Contract Support concepts, CKOs integrate contract support requirements into the Marine Corps operational decision making process and into the overall unit's spend plan. CKO's provide contract support insight to the commander on OCS requirements and supervise the execution of policies and regulations pertaining to contract support. As a function of OCS, CKOs supervise and coordinate contract integration, contractor management and the contracting support mission. CKOs oversee the management of Contract Specialists, Contracting Officer Representatives and contractor accountability within the scope of their billet. CKOs work closely with the finance and supply communities to ensure proper execution and expenditure of appropriated funds. When appointed as warranted contracting officers, in accordance with the Federal Acquisition Regulations, CKOs have the authority to enter into, administer and terminate contracts. In this capacity, CKOs will evaluate contract requirements, specifications, bids, proposals and subsequent contractor performance and may bind the Government only to the extent of the contracting authority granted to them.

b. Prerequisites

(1) Must possess MOS 3002.

(2) Must be eligible for a secret clearance.

(3) Must be screened and selected on the annual commandants career level education board for the special education program under the contingency contracting discipline or on the Operational Contract Support-Specialist Selection Board (OCS-SSB).

(4) Must be a Captain or be selected for career designation as a First Lieutenant.

c. Requirements. Must possess a master's degree in Acquisition and Contracting Management Curriculum number 815 or the distance learning program in the Contract Management Curriculum number 835 from the Naval Post Graduate School in Monterey, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (r), Ground Supply Training and Readiness Manual.

 - (c) Weapons and Tactics Instructor Course (M14P2A1).
 - (d) Marine Air Traffic Control Maintenance Managers Course (N23KCN2).

d. Duties

- (1) Provide advanced technical analysis during the planning, installation, operation, maintenance and secure integration of TDS network architectures, tactical data link systems, radio communication systems, end-user computers, servers, and system software/firmware.
- (2) Assist in the development of training and employment plans designed to ensure Mission Essential Task compliance.
- (3) Supervise diagnosis, field level repairs, and modifications to communications and data systems.
- (4) Supervises and coordinates the activities of electronic maintenance personnel engaged in the siting, installation, operations, maintenance, and repair of AC2 TDS within the MACCS.
- (5) Informs the Commanding Officer as to the status of equipment, progress of work, and advises on matters pertaining to this equipment.
- (6) Supervises the keeping of maintenance records and collects data for reports.
- (7) Supervises the reporting of failures and the requisitioning, receipt, and allocation of tools, parts, and materials.

(8) Instructs personnel in the mission, function, use, and procedures for operating AC2 TDS.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 4-1011.

(2) Managers, All Others 11-9199.

f. Related Military Skill

(1) Aviation Communication Systems Technician, 5939.

(2) Tactical Data Systems Technician, 5974.

(3) Tactical Air Operations/Air defense Systems Technician, 5979.

5. MOS 5977, Weapons and Tactics Instructor Aviation Command & Control (AC2) Maintenance Officer (II/III) (LtCol to Capt) and (CW05 to CW02) NMOS (5902, 5910, 5950, 5970), DC AVN

a. Summary. Weapons and Tactics Instructor AC2 Maintenance Officers train and evaluate Marine air command and control personnel on aviation sensors and weapons systems in the employment of the Marine Air Command and Control System (MACCS) to support the Marine Air Ground Task Force.

b. Prerequisites. Must hold MOS 5902, 5910, 5950 or 5970.

c. Requirements. Must successfully complete the MAWTS-1 Weapons and Tactics Instructor Course (M149731).

d. Duties

(1) Manage a unit's Weapons and Tactics Training Program.

(2) Perform classroom and operational instruction on various facets of MACCS equipment/weapons systems including integration, employment capabilities and limitations in support of the MAGTF and joint tasking.

(3) Analyze performance and provide corrective guidance.

(4) Instructs on current enemy capabilities and tactics to counter their threat.

(5) Recommend the most qualified personnel for nomination to the Weapons and Tactics Instructor Course and unit instructor qualifications.

(6) Ensures all training adheres to established training standards, safety, and ORM procedures.

1135. OCCUPATIONAL FIELD 60, AIRCRAFT MAINTENANCE1. MOS 6002, Aircraft Maintenance Officer (I) (LtCol to 2ndLt) PMOS, DC AVN

a. Summary. Aircraft Maintenance Officers (AMOs) supervise and coordinate aircraft maintenance and repair activities. To be effective, 6002 AMOs must possess a detailed, working knowledge of all Navy-sponsored aviation maintenance programs and processes governed by CNAFINST 4790.2 series. MOS 6002 AMOs are different from MOS 6004, Aircraft Maintenance Engineer Officers in that they are unrestricted officers whose career paths can lead to the command of a Marine Aviation Logistics Squadron (MALS) or to designation as an Acquisition Professional.

b. Prerequisites. None.

c. Requirements

(1) Officers completing the AMO long course at Whiting Field, FL will be awarded MOS 6002.

(2) Officers who complete the AMO short course at NAS Pensacola, FL, perform at least 36 months of on the job training in an aircraft maintenance billet; and attend the Joint Aviation Supply and Maintenance Material Management Course (N053003); and are recommended by their command may be awarded an additional MOS of 6002.

(3) Complete the Naval Aviation Maintenance Program Management Course (N42P2M2) Milton, FL.

d. Duties

(1) Organizes and supervises the maintenance and repair of aircraft, aircraft components, and aviation support equipment.

(2) Supervises the scheduling of aircraft for inspection.

(3) Informs commanding officers of work progress and advises them on matters pertaining to aircraft maintenance.

(4) Ensures the material condition and mission capability of the weapon systems and the collection and dissemination of maintenance management information.

(5) Directs technical training and establishes safety programs for maintenance personnel.

(6) Establishes maintenance procedures and assigns personnel to key billets.

(7) Directs and monitors requisitioning, receipt, and allocations of materials and tools.

(8) Pursue Defense Acquisition Workforce Improvement (DAWIA) Certification in order to gain qualifications prior to entering senior billets within the MOS. (See MOSs 8057, 8058) The three primary areas of study typically applicable to AVLOG are:

(a) Life Cycle Logistics (LCL).

(b) Program, Quality, Manufacturing (PQM).

(c) Program Management (PM).

e. Related Standard Occupational Classification (SOC) Title and Code.
First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

2. MOS 6004, Aircraft Maintenance Engineer Officer (II/III) (LtCol to Capt) and (CW05 to WO) PMOS, DC AVN

a. Summary. Aircraft Maintenance Engineer Officers (AMEOs) are responsible for management of aircraft maintenance and aeronautical repair matters. To be effective, AMEOs must possess a detailed, working knowledge of all Navy sponsored aviation maintenance programs and processes governed by reference (af). AMEOs must possess skills in managing resources with emphasis on efficient personnel employment, maintaining equipment readiness, and exercise/deployment planning. A high level of technical expertise is required to manage the execution of tasks within aviation maintenance. A small population of AMEO's are placed throughout Marine Corps aviation, complementing the talents of the MOS 6002 population. Unlike the 6002, whose career path and school may lead to command, the 6004 will remain focused on the technical, procedural, planning and managerial details associated with organizational and intermediate level maintenance in support of shore based, sea based, and expeditionary operations. Warrant Officers and Junior Chief Warrant Officers generally serve in flying squadrons while more Senior Chief Warrant Officers generally serve as Division Officers within the Marine Aviation Logistic Squadron (MALS). While the minimum requirements in paragraph (b). serve as a threshold, a range of characteristics indicating management knowledge exist including: training and documented management knowledge/skill. Management experience in organizational and intermediate levels both provide solid backgrounds for this restricted officer MOS as the task of an AMEO is to plan and solve complex management problems and not to have specific knowledge of repairing any one equipment or aircraft type. Applicants with both organizational and intermediate level maintenance experience are considered ideal candidates for appointment to MOS 6004 Limited Duty Officer (LDO). MOS 6004 shall not be assigned as a secondary MOS.

b. Prerequisites

(1) Must hold a feeder MOS of 60XX, 61XX, 62XX, 63XX, 64XX, or 65XX MOSs. Applicants shall hold an additional MOS of 6011, 6012, or 6018 and have served successfully in maintenance control, production control, or quality assurance for a minimum of 18 months. MOS 6004 LDO applicants must possess the 6004 MOS.

(2) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

(3) Limited Duty Officer Program: officers applying to the MOS 6004 LDO program must hold the 6004 MOS as Chief Warrant Officers, and achieve selection by the board to LDO.

c. Requirements

(1) Complete the Naval Aviation Maintenance Program Management Course (N42P2M2) Milton, FL.

(2) Warrant Officers must complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(3) Warrant Officers (III): enlisted Marines applying for selection as 6004 Warrant Officers must meet the prerequisites in paragraph 2.b. and have demonstrated aviation maintenance technical qualifications through sustained superior performance of duties within their MOS. Demonstrated and sustained management skill within a feeder MOS supervisory billet such as work center supervisor and quality assurance or maintenance controller is paramount to any other quality.

(4) Limited Duty Officers (II):

(a) Only 6004 Warrant Officers may apply for appointment as 6004 LDOs.

(b) Applicants for MOS 6004 LDO must have demonstrated aviation maintenance technical qualifications through the superior performance of duties as 6004 Warrant Officers. A successful tour within maintenance control in a flying squadron is a primary indicator for future success as a 6004 LDO.

d. Duties

(1) The following is a summary of duties. For a detailed listing of duties refer to reference (ad) COMNAVFORINST 4790.2 and (bn) NAVMC 4790.1:

(a) Organizes and manages all technical aspects of the maintenance and repair of aircraft, aeronautical components, and aviation equipment.

(b) Ensures compliance with policy documents governing maintenance management, training standards, and occupational safety and health.

(c) Ensures compliance with applicable technical publications through the use of maintenance instruction manuals for the appropriate type/model/series aircraft, associated systems, aviation support equipment, and aeronautical components.

(d) Interfaces with higher level commands, activities, depots, and foreign contractors on all maintenance-related issues.

(e) Coordinate with the Operations Department to ensure alignment of the operations and maintenance plan.

(f) Establish goals and priorities for the maintenance department in order to support operational planning.

(g) Ensures all aircraft and equipment maintenance data is collected and properly disseminated.

(h) Ensures the effective utilization of manpower by working with the appropriate work center supervisor or division officer in order to achieve productivity goals and support unit operational tempo and objectives.

(i) Works closely with the aviation supply officer to ensure necessary materials and tools are available when and where required.

(j) Pursue Defense Acquisition Workforce Improvement (DAWIA) Certification in order to gain qualifications prior to entering senior billets within the MOS. (See MOS 8060) The three primary areas of study typically applicable to aviation logistics are:

1. Life Cycle Logistics (LCL).
2. Program, Quality, Manufacturing (PQM).
3. Program Management (PM).

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

3. MOS 6044, Additive Manufacturing Officer (II) (Maj to 2ndLt) NMOS (0402, 6002, 6004, 6302, 6502, 6602, 6604), DC AVN

a. Summary. Additive Manufacturing Officers provide additive manufacturing capability to the Marine Aviation Logistics Squadron (MALS) units by operating computer aided design software and various types of 3D printing machines. This MOS will be assigned as a NMOS.

b. Prerequisites. Must be designated as one of the following PMOSs: 0402, 6002, 6004, 6302, 6502, 6602, or 6604.

c. Requirements

(1) Complete the T&R level 1000 qualification.

(2) Must be associated with and actively maintaining the T&R qualification requirements to perform AM duties for work center 550 over a period of at least 9 months.

d. Duties

(1) The duties and tasks will be as prescribed and designated in references:

(a) Reference 4790.1: Aviation Maintenance and Supply Training and Readiness Program.

(b) Reference 4790.2: Naval Aviation Maintenance Program.

(c) Reference MCO P4790.1: Maintenance Training and Management Evaluation Program.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Commercial and Industrial Designers 27-1021 design and develop manufactured products.

(2) Computer Occupations, Other 15-1299 computer aided design.

f. Related Military Skill. None.

4. MOS 6077, Weapons and Tactics Instructor (II/III) (LtCol to 2ndLt) and (CW05 to WO) NMOS (6002, 6004, 6302), DC AVN

a. Summary. Weapons and Tactics Instructors train aviation maintenance professionals in the execution of various tasks that are encompassed within a wide spectrum of aviation maintenance and logistics matters. They will (1) Assist their respective unit commanders in conducting a professional Marine Corps Aviation Weapons and Tactics Training Program (WTTP) which includes specific individual MOS training and collective operational unit training; (2) Act as aviation logistics managers and planners with enhanced planning skills and insight into integrating all aviation assets to promote mission success; (3) Coordinate and conduct appropriate supplementary courses applicable to their particular community; (4) Ensure all training conducted under their supervision is properly documented and adheres to established safety procedures; (5) Submit appropriate information, including exercise/deployment reports, to assist MAWTS-1 in updating tactics and instruction.

b. Prerequisites. Must possess Primary MOSs: 6002, 6004, or 6302.

c. Requirements. Complete the Marine Aviation Weapons and Tactics Squadron One Advanced Aircraft Maintenance Officer Course (M14FDG1).

d. Duties

(1) Serves as the aviation logistics and maintenance management standardization representative to the organizational and intermediate level units on all issues relating to training standards, training development, training management, and evaluation.

(2) Provides training and readiness (T&R) guidance and serves as the official signature authority for T&R sign-offs within their assigned scope.

(3) Reviews, investigates, introduces, and evaluates emerging standardization techniques and ensures the broadest dissemination to the fleet.

(4) Coordinates and facilitates professional development opportunities and classroom training for maintenance professionals ensuring standardization in accordance with the most current fleet practices.

(5) Serves as a maintenance operations planning liaison providing expertise to units planning large scale detachments and deployments.

e. Related Standard Occupational Classification (SOC) Title and Code. Teachers and Instructors, All Other, Except Substitute Teachers, 25-3097.

f. Related Military Skill. None.

1136. OCCUPATIONAL FIELD 63, ORGANIZATIONAL AVIONICS MAINTENANCE1. MOS 6302, Avionics Officer (II/III) (LtCol to Capt) and (CW05 to WO) PMOS, DC AVN

a. Summary. Avionics Officers (AVOs) direct the Avionics Department's effort at the organizational and intermediate maintenance levels to provide the maximum support, coordination, and leadership in support of the organizational/intermediate level mission in the respective areas of aircraft maintenance, avionics equipment maintenance, integrated logistics resource management, and professional personnel development. AVOs are the subject matter experts on all avionics related matters and serve as the staff adviser to the Commanding Officer and other Staff Officers throughout the organization. The AVO is directly responsible to the Commanding Officer for the management, administration and control of the Electronic Countermeasures, Aircraft Survivability Equipment and Electronic Key Management System programs.

b. Prerequisites

(1) Security requirement: secret security clearance eligibility.

(2) This MOS may only be assigned to Marines qualified in one of the following MOSs: 63XX or 64XX.

(3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Warrant Officers (III):

(a) Enlisted Marines applying for selection as 6302 Warrant Officers must meet the prerequisites in paragraph 2.b. and have demonstrated aviation maintenance technical qualifications through the sustained superior performance of duties within their MOS. MOS credibility is paramount to any other quality. Proficiency and expertise are typically identified by Quality Assurance Representative, Collateral Duty Inspector, and Collateral Duty Quality Assurance Representative designations (AMOS 6016, 6017, or 6018) Any of these designations are indicators of a Marine's technical expertise within an assigned MOS.

(b) Newly promoted 6302 Warrant Officers must complete The Basic School, Warrant Officer Basic Course (WOBC) (M02RMN4), Quantico, VA. within 18 months of appointment to WO and the first available Naval Aviation Maintenance Program Management Course (N42P2M2) AMO short course at Whiting Field, FL.

(2) Limited Duty Officers (II):

(a) Only 6302 Chief Warrant Officers may apply for appointment as 6302 LDOs.

(b) Applicants for MOS 6302 LDO must have demonstrated aviation maintenance technical qualifications through the superior performance of duties as 6302 Warrant Officers.

d. Duties

(1) Responsible to the commanding officer for the operation of the avionics division/department, to include: operational, technical, and administrative functions, asset utilization, and configuration management of all squadron Avionics assets.

(2) Advise the Maintenance Officer on all division/department matters pertaining to: the ability to support squadron maintenance efforts, training requirements, personnel qualifications, calibration requirements, and current and planned projects within the division/department.

(3) Ensures proper and effective training, supervision, documentation and utilization of personnel in maintenance practices in accordance with appropriate orders and publications.

(4) Directs and monitors all avionics transactions with the supply department, as well as the remainder of aviation maintenance, while evaluating the effectiveness of the avionics department to respond to published flying hour programs.

(5) Ensures all Avionics personnel are trained, certified, and capable of safely repairing aircraft, aeronautical components, and aviation support equipment within the scope of their MOS in accordance with applicable instructions.

(6) Responsible for the proper handling, updating, managing, auditing, and safeguarding of avionics aircraft publications and equipment.

(7) Serves as staff advisor to the commanding officer/staff officers in the chain of command on avionics matters.

(8) Pursue Defense Acquisition Workforce Improvement (DAWIA) Certification in order to gain qualifications prior to entering senior billets within the MOS (see MOS 8060). The three primary areas of study typically applicable to AVLOG are:

(a) Life cycle logistics.

(b) Production, quality, manufacturing.

(c) Program management.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

1137. OCCUPATIONAL FIELD 65, AVIATION ORDNANCE

1. MOS 6502, Aviation Ordnance Officer (II/III) (LtCol to Capt) and (CW05 to WO) PMOS, DC AVN

a. Summary. The Aviation Ordnance Officer manages all aviation ordnance logistics, maintenance, and operations functions, as well as all aircraft weapon systems and Aircraft Armament Systems (AAS).

b. Prerequisites

(1) Must have previously served in one of the following MOSs: 6531, 6541 or 6591.

(2) Security requirement: secret security clearance eligibility (some key billets require top secret security clearance eligibility).

(3) WOs/CWOs must have successfully completed the Aviation Ordnance AO "A" Enlisted Course (N23G3U2), and must have demonstrated aviation ordnance qualification and expertise through substantially documented performance of associated duties and tasks.

(4) LDOs must have previously served as a 6502 CWO, and must have demonstrated aviation ordnance qualification and expertise through substantially documented performance of the associated duties and tasks while serving as a 6502 CWO. LDOs must also achieve selection by the board to LDO.

(5) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Warrant Officers must successfully complete the Aviation Ordnance Managers Career Progression Level I (AOMCP) Course (N42G3N3), NAS Whiting Field, FL.

(2) CW02s, CW03s, and LDO Captains must complete the Aviation Ordnance Managers Career Progression Level II (AOMCP) Course (N42G4N3), NAS Whiting Field, FL.

(3) CW04s, CW05s, LDO Majors, and LtCols must complete the Aviation Ordnance Managers Career Progression Level III Course (N42G4M3), NAS Whiting Field, FL.

(4) Marines serving in billets coded with an additional skill designator (ASD) as per the table of organization must attain the appropriate certification level through the DAU within 24 months of billet assignment.

(5) Warrant Officers must complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

d. Duties

(1) Direct and supervise all personnel engaged in the storage, handling, transportation, inventory, maintenance, issue, and repair of aviation munitions, AAS, and Armament Weapons Support Equipment (AWSE).

(2) Manage the assignment and execution of all work task codes authorized via the personnel qualification/certification program for class V ammunition and explosives.

(3) Evaluate aviation ordnance policies, processes and procedures for accuracy, thoroughness, efficiency, and compliance with higher policy/doctrine and promulgate changes when necessary.

(4) Direct and supervise the aircraft armament system program, ensuring all equipment adheres to associated documentation, repair and provisioning processes and standards.

(5) Direct the command explosives safety program and serve as the command Explosives Safety Officer.

(6) Manage the command class V(A) inventory accuracy and inventory management programs.

(7) Administer the explosive handlers qualification and certification program and serve as the certification board chairperson.

(8) Promulgate and publish command aviation ordnance standard operating procedures and ensure timely submission of all required aviation ordnance reports.

(9) Supervise the allocation, requisitioning, positioning, receipt, status and the ammunition transaction reporting of the command's aviation munitions.

(10) Pursue defense acquisition workforce improvement (DAWIA) certification in order to gain qualifications prior to entering senior billets within the MOS (see MOS 8060). The three primary areas of study typically applicable to AVLOG are:

(a) Life cycle logistics (LCL).

(b) Production quality manufacturing (PQM).

(c) Program management (PM).

e. Related Standard Occupational Classification (SOC) Title and Code. Military Officer Special and Tactical Operations Leaders/Managers, All Other 55-1019.

f. Related Military Skill. None.

2. MOS 6577, Aviation Ordnance Weapons and Tactics Instructor (II/III) (LtCol to Capt) and (CWO5 to WO) NMOS (6502), DC AVN

a. Summary. Ordnance Officer, qualification/certification board chairperson or staff billet are subject matter experts (SME) on the tactical employment of expeditionary aviation ordnance operations. AO WTI Marine Officers support MAGTF and squadron commanders by maintaining safety and operational standards, readiness levels and possess the knowledge required to successfully plan, brief, and execute any technique, tactic or procedure authorized in our warfighting doctrine. They are intimately familiar with all aspects of leading an ordnance division/department in any expeditionary environment or operation. They are experts in forward arming refueling

points/forward operational bases/ distributed aircraft operations and expeditionary advanced based operation concepts.

b. Prerequisites. Must hold a 6502 MOS.

c. Requirements. Must successfully complete the MAWTS-1 Expeditionary Ordnance Course (MEOC) (M14G221).

d. Duties. As an Expeditionary Ordnance Subject Matter Expert they must be able to effectively and accurately articulate current and future capabilities of a unit's ordnance division/department based on current structure, manpower and qualifications. Identify potential problems and solve all issues related to logistical considerations, requirements and capabilities, execution, potential contingencies and retrograde of all weapons and personnel while observing and adhering to all orders and regulations regarding explosive safety. Increase the squadron commander's capability and lethality by creating, providing and briefing innovative solutions and improvements to plans, minimizing risk and increasing combat effectiveness. Responsible for providing the most capable and highest trained ordnance division/department to commanders IOT accomplish any given task.

e. Related Standard Occupational Classification (SOC) Title and Code. Teachers and Instructors, All Other 25-3099.

f. Related Military Skill. None.

1138. OCCUPATIONAL FIELD 66, AVIATION LOGISTICS1. MOS 6602, Aviation Supply Officer (I) (LtCol to 2ndLt) PMOS, DC AVN

a. Summary. Aviation Supply Officers are unrestricted officers who may command, or assist in commanding a Marine Aviation Logistics Squadron. Aviation Supply Officers may also achieve designation as an Acquisition Professional. Aviation Supply Officers are responsible for planning, directing, and controlling the performance and execution of aviation supply functions within Marine Aircraft Wings, Marine Aviation Logistics Squadrons, Marine Corps Air Stations, Naval Expeditionary Vessels, and various TYCOM and SYSCOM staffs. This requires in-depth familiarity and working knowledge sufficient to supervise and control Navy-developed and sponsored aviation logistics information management systems; repairable material management programs; financial management programs; budgeting and accounting functions; aviation inventory management functions; and warehousing operations. Aviation Supply Officers must ensure that aviation supply operations sustain the unit's combat readiness and enhance its ability to perform its mission. They must be able to establish division and department goals and to develop and execute plans to achieve those goals. They must monitor supply management indicators to assist in tracking performance over time and ensure progress towards accomplishment of established goals. Aviation Supply Officers must initiate and maintain liaison with external agencies to provide or obtain support and to report supply management indicators. They must also initiate and maintain liaison with maintenance personnel in the operational squadrons and the Intermediate Maintenance Department so that they have a clear appreciation of the needs of their customers.

b. Prerequisites. Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Marine Aviation Supply Officer Basic Qualification Course (N42C0B3), Milton, FL.

(2) Marines serving in billets coded with an additional skill designator (ASD) as per the table of organization must attain the appropriate certification level through the Defense Acquisition University (DAU) within 24 months of billet assignment.

d. Duties

(1) For a complete listing of duties and tasks, refer to reference (ae), Aviation Logistics Individual Training Standards.

(2) Pursue Defense Acquisition Workforce Improvement (DAWIA) Certification in order to gain qualifications prior to entering senior billets within the MOS. (See MOS 8060) The three primary areas of study typically applicable to AVLOG are:

(a) Life Cycle Logistics (LCL).

(b) Production, Quality, Manufacturing (PQM).

(c) Program Management (PM).

e. Related Standard Occupational Classification (SOC) Title and Code.
Transportation, Storage, and Distribution Managers 11-3071.

f. Related Military Skill. None.

2. MOS 6604, Aviation Supply Operations Officer (III) (CW05 to WO) PMOS, DC AVN

a. Summary. Aviation Supply Operations Officers are responsible for the performance of aviation supply activities within Marine Aviation Logistics Squadrons, Marine Aircraft Wings, Marine Corps Air Stations, and naval expeditionary vessels. A high level of expertise is required to supervise the execution of the various tasks encompassed within the wide spectrum of aviation supply support. To be effective, Aviation Supply Operations Officers must possess detailed and working knowledge of all Navy-developed and sponsored aviation logistics information management systems; repairable management programs; financial management programs; budgeting and accounting functions; aviation inventory management systems and functions; and warehousing operations. They must be skilled in working with a variety of ashore and afloat automated systems such as Relational Supply (R-Supply), the Naval Aviation Logistics Command Management Information Systems (NALCOMIS), F-35 Autonomic Logistics Information System (ALIS), Supply Chain Management (SCM), and other. They must be able to effectively use information extracted from these systems to aid in supervision and control. In addition, Aviation Supply Operations Officers must have detailed knowledge of all applicable Navy Supply documents, forms, and publications; and must be proficient in working with Navy Supply afloat procedures, to include the support of deployed aviation operations. Aviation Supply Operations Officers must ensure that aviation supply operations support and sustain the unit's combat readiness and enhance the unit's ability to perform its mission. They must establish and maintain liaison with external agencies while providing or obtaining support and reporting supply management indicators. A working knowledge in acquisitions, life cycle logistics, and program management is highly desirable for senior 6604 billets.

b. Prerequisites

(1) Security requirement: secret security clearance eligibility.

(2) This MOS may only be assigned to Warrant Officers who were previously qualified in MOS 6672.

(3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

c. Requirements

(1) Complete the Marine Aviation Supply Officer Basic Qualification Course (N42C0B3), Milton, FL.

(2) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment to WO.

(3) Marines serving in billets coded with an additional skill designator (ASD), as per the table of organization, must attain the appropriate certification level through DAU within 24 months of billet assignment.

d. Duties

(1) For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP).

(2) Pursue DAWIA certification in order to gain qualifications prior to entering senior billets within the MOS (see MOS 8060):

(a) CLR 101: Introduction to the Joint Capabilities Integration & Development System.

(b) RQM 110: Core Concepts for Requirement Management.

(c) Acquisition (ACQ).

(d) Life Cycle Logistics (LCL).

(e) Program Management (PM).

(3) Pursue manufacturing skill standards council (MSSC) certification as a Certified Logistics Associate (CLA)/Certified Logistics Technician (CLT).

(4) Pursue American Production and Inventory Control Society (APICS) certification as a Certified Supply Chain Professional (CSCP).

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Transportation, Storage, and Distribution Managers 11-3071.

(2) Logisticians 13-1081.

(3) Financial Analysts and Advisors 13-2050.

(4) Database Administrators 15-1242.

(5) Industrial Engineers 17-2112.

(6) Shipping, Receiving, and Inventory Clerks 43-5071.

(7) Data Entry Clerks 43-9021.

f. Related Military Skill

(1) Ground Supply Operations Officer, 3010.

(2) Financial Management Resource Officer, 3408.

3. MOS 6607, Aviation Logistician (II/III) (LtCol to 2ndLt) and (CW05 to WO) NMOS (6002, 6302, 6502, 6602), DC AVN

a. Summary. Aviation Logisticians are assigned to selected headquarters and staffs. They are trained in aviation logistics (AVLOG) support plan development. The skill set provides headquarters staffs with aviation logistics specific subject matter expertise to support the force deployment planning and execution process, exercise planning, pre-positioning program development execution, and doctrine development.

b. Prerequisites

(1) Must possess as a primary MOS either MOS 6002, Aircraft Maintenance Officer; MOS 6004, Aircraft Maintenance Engineer Officer; MOS 6302, Avionics Officer; MOS 6502, Aviation Ordnance Officer; MOS 6602, Aviation Supply Officer; or MOS 6604, Aviation Supply Operations Officer.

(2) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete at least one of the following courses:

(a) Joint Logistics Course (JLC) Course (A14L232) at the U.S. Army Logistics University (ALU), Ft Lee, VA.

(b) Maritime Prepositioning Force (MPF) Staff Planning (N30L8Q1/377G) at Expeditionary Warfare Training Group Pacific, San Diego, CA.

(c) Joint Operations Planning and Execution System (JOPES) Support Personnel Course (JD1102) at Ft Eustis, VA.

d. Duties

(1) Serve as AVLOG representative for Operational Planning Teams and Crisis Action Teams.

(2) Support the development, review, and update of OPLANS/CONPLANS in support of higher headquarters' directives.

(3) Review/validate Time Phased Force Deployment Data to ensure compliance with guidance and directives.

(4) Develop estimates of supportability and concepts of logistics support.

(5) Support the development and operational orders and letters of instruction for ACE operations and exercises.

e. Related Standard Occupational Classification (SOC) Title and Code. Logisticians 13-1081.

f. Related Military Skill. None.

4. MOS 6608, AIRSpeed Officer (II/III) (LtCol to 2ndLt) and (CW05 to WO) NMOS (6XXX), DC AVN

a. Summary. AIRSpeed Officers are assigned to selected headquarters and staffs. They are trained to institute a culture of self-sustaining, continuous process improvement aligned toward delivering increased readiness at reduced resource cost. AIRSpeed Officers are responsible to provide the planning, training, integration, sustainment, and monitoring of best business practices (Theory of Constraints (TOC), LEAN, and Six Sigma within aviation logistics).

b. Prerequisites

(1) Must possess MOS 6XXX: Aviation Maintenance, Avionics, Aviation Ordnance, or Aviation Supply MOS.

(2) Must be trained and certified as Supply Chain Technical Expert (SCTE).

(3) Must be trained and certified as Supply Chain Design Expert (SCDE).

(4) Must be trained in Jonah.

c. Requirements. Must complete AIRSpeed Black Belt Job Qualification Requirement (JQR) as defined by COMNAVAIRFOR, or equivalent course as approved by HQMC Aviation (ASL).

d. Duties

(1) Coordinate, support, and monitor TOC process designs and deployments.

(2) Coach LEAN events, including Rapid Improvement Events (RIEs), Value Stream Analyses (VSAs), and 5S events.

(3) Act as team leader for complex LEAN Six Sigma (LSS) events or projects where statistical analysis is required.

(4) Ensure all AIRSpeed department core members are Green Belt qualified, at a minimum.

(5) Be responsible for administering and evaluating AIRSpeed events. Function as liaison with external consultants and/or organizations.

1139. OCCUPATIONAL FIELD 68, METEOROLOGY AND OCEANOGRAPHY (METOC)

1. MOS 6802, Meteorology and Oceanography (METOC) Officer (II/III) (LtCol to Capt) and (CWO5 to WO) PMOS, DC AVN

a. Summary. Meteorological and Oceanographic (METOC) Service Officers plan, direct, and lead METOC operations at all levels of the operating forces and the supporting establishment. They are subject matter experts on all aspects of the METOC discipline and the application of it within the decision making process. Operating force billet assignments for this officer include: Marine Forces Pacific; marine expeditionary forces; marine air wings; intelligence battalions; and marine air traffic control detachments within the marine air control squadrons. Non-operating forces billet assignments for this officer include: Deputy Commandant for Aviation and Combat Development and Integration, Headquarters Marine Corps; Chief of Naval Operations staff; Naval Information Warfare Command Pacific; Naval Meteorology and Oceanography Command; Marine Corps air stations; Marine Corps Detachment Keesler AFB; Marine Aviation Weapons & Tactics Squadron One; and Marine Corps Intelligence Schools. METOC Officers require excellent verbal and written communication skills, advanced competency in meteorology and littoral oceanography, and comprehension of geospatial intelligence (GEOINT) concepts.

b. Prerequisites

(1) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(2) Marines applying for selection as 6802 WO must have MOS 6842, the Journeyman METOC Analyst Forecaster designation, and successfully served five or more years in a 6842 billet.

(3) Must meet eligibility and appointment criteria as prescribed in MCO 1040.42B, WO and LDO accession programs.

(4) LDO Program: officers applying to the MOS 6802 LDO program must: hold the 6802 MOS as CWOs, have the NMOS 6877, have a Journeyman METOC Officer (JMO) designation, and achieve selection by the board to LDO.

c. Requirements

(1) METOC Warrant Officers are required to complete the following courses:

(a) Complete the Warrant Officer Basic Course (WOBC) (M02RMN4) within 18 months of appointment.

(b) Complete the METOC Warrant Officer Course (N469752) within 18 months of appointment.

(2) METOC Chief Warrant Officers are required to complete the following courses:

(a) Weapons and Tactics Instructor Course (M14P2A1).

(b) Joint METOC Officers Course (JS-DDGO).

(c) Space 200 Course (F25M013).

(d) Introduction to the Joint Capabilities Integration & Development System (CLR 101).

(e) Core Concepts for Requirements Management (RQM 110).

(f) Fundamentals of Systems Acquisition Management (ACQ 101).

(3) METOC LDO Captains are required to complete the following courses:

(a) Space 300 Course (F25M023).

(b) Fundamentals of Systems Engineering (ENG 101).

(c) Cost Analysis (CLB007).

(d) Introduction to Earned Value Management (CLV 016).

(4) The following courses are desirable as technical skills progression courses:

(a) Advanced Radar Interpretation Course (F02KBK1).

(b) Tropical Weather Analysis and Forecasting Course (F020321).

d. Duties. For a complete list of duties and tasks, refer to MCRP 2-10B.6, MAGTF Meteorological and Oceanographic Operations and NAVMC 3500.38C, Meteorological and Oceanographic Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Atmospheric and Space Scientists 19-2021.

f. Related Military Skill. None.

2. MOS 6877, Weapons and Tactics Instructor (WTI) METOC (II/III) (LtCol to Capt) and (CWO5 to WO) NMOS (6802), DC AVN

a. Summary. Weapons and Tactics Instructors-Meteorology and Oceanography (METOC) Officers train personnel on environmental characterization and effects in relation to aviation operations in support of the MAGTF and aviation ground equipment, sensor, and weapon system performance in relation to enemy threats. WTI-METOC Officers are proficient in the development of environmental sensing plans to characterize the physical environment and operational orders development required for designated staff billets. This MOS is assigned only as an NMOS to qualified METOC Officers and qualifies Chief Warrant Officers for the LDO program.

b. Prerequisites

(1) Must hold MOS 6802.

(2) Must complete aviation career progression model (ACPM) via Marine Net:

(a) MAWTS8000X ACPM-8000 MACCS.

- (b) MAWTS8020X ACPM-8020 ACE.
- (c) MAWTS8040X ACPM-8040 Threat.
- (d) MAWTS8060X ACPM-8060 MAGTF.
- (e) MAWTS8080X ACPM-8080 Joint Air Operations.

(3) Must hold the senior instructor (SI) designation per the MAWTS-1 Command, Control, and Communication (C3) Course Catalog.

(4) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

c. Requirements. Must successfully complete the MAWTS-1 Weapons and Tactics Instructor Course (M149721) Yuma, AZ.

d. Duties

(1) Management of local or subordinate METOC technical training programs.

(2) Identify technical training shortfalls that prevent or hinder the development of METOC products in support of decision makers.

(3) Develop or assist in the development of technical training that improves METOC support to decision makers.

(4) Identify new or emerging METOC doctrinal support methods through Marine Corps Lessons Learned.

(5) Develop or assist in the development of new METOC Tactics, Techniques & Procedures (TTPs) from Marine Corps Lessons Learned.

(6) Develop the Annex H of a MAGTF or MSC operational order or plan to support Marine Corps, Joint, or Coalition operations in support of contingencies.

(7) Develop MAGTF environmental collection plans that integrate with Joint Coalition environmental sensing strategies to support Marine Corps operations in support of contingencies.

(8) Identify METOC sensitivities for MAGTF systems and operations to establish METOC thresholds to support all elements of the MAGTF by understanding the impact of the physical environment.

(9) Identify METOC sensitivities for enemy systems and operations to establish METOC thresholds to determine opportunities for exploitation of the physical environment by friendly forces.

2. MOS 7077, Weapons and Tactics Instructor-Aviation Ground Support (II/III)
(LtCol to 1stLt) and (CWO5 to WO) NMOS (0402, 1302, 7002), DC AVN

a. Summary. Aviation Ground Support-Weapons and Tactics Instructors function as advisors to the commander and coordinate all Marine Air/Ground Task Force (MAGTF) Aviation Ground Support (AGS) requirements. Operating forces billet assignments for this NMOS include: Marine Aircraft Wing, Marine Wing Support Group, Marine Wing Support Squadron, and Marine Wing Support Detachment. Non-operating forces billet assignments for this NMOS include: HQMC APX-10, Marine Aviation and Weapons Tactics Squadron One, Marine Corps Air Station, and Tactical Training Exercise Control Group. The AGS WTI's educational requirements include planning and executing of airfield

and air base construction/repair and services, airfield security operations, airfield damage repair, base recovery after attack, forward arming and refueling point operations, and aircraft salvage/recovery. Additionally, both officers and staff noncommissioned officers with this NMOS can be used to plan, train, and assess AGS for the Marine Aircraft Wing.

b. Prerequisites

- (1) Must hold MOS 0402, 1302, 1310, 1390, 7002.
- (2) MOSs 1310, 1390, or 7002 must be a CWO.
- (3) MOSs 0402 or 1302 must be LtCol to 1stLt.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must have 12 months operating force experience.
- (6) Must be or have served in a MAW, MAG, MWSS or MWSD.

c. Requirements. Must successfully complete the MAWTS-1 Weapons and Tactics Instructor Course (M149731) Yuma, AZ.

d. Duties

- (1) Manages a unit's weapons and tactics training program.
- (2) Plans and executes the Unit Readiness Program.
- (3) Analyzes performance and provides corrective guidance.
- (4) Instructs on current enemy capabilities and tactics to counter their threat.

1141. OCCUPATIONAL FIELD 72, AVIATION COMMAND AND CONTROL OPERATIONS1. MOS 7202, Air Command and Control Officer (I) (LtCol to Maj) PMOS, DC AVN

a. Summary. Air Command and Control Officers plan and coordinate the activities of Marine Air Command and Control Systems (MACCS) agencies. They advise commanders on matters pertaining to integration and joint employment of the MACCS. Air Command and Control Officers are relied upon to execute the decentralized control of assigned aircraft and missiles in the MAGTF Area of Operations (AO). Air Command and Control Officers plan, organize, direct, and manage tactical operations. These include tactical control of aircraft and air traffic control, surface and airborne fires integration, Unmanned Aircraft Integration, Radar Network Management, Tactical Data Link Operations, airspace planning and the employment of Ground Based Air Defense (GBAD). They command or assist in commanding such units. The Joint Air Operations Center Air Command and Control Course (JAOC2C) (F19L2W2); JT-101 Introduction to Multi-Tactical Data Link Network Operations Course (JT-101Intro to MTN OPS); JT-102 Multi-TDL Advanced Joint Interoperability Course (JT-102 MAJIC) (A05L6Z1); JT-201 Multi-TDL Network Planners Course (A05KHY1); JT-301 Joint Interface Control Officers Course (JT-301 JICO) (A05FH21); Military Airspace Management Course (F0273D1); MAWTS-1 Air Command and Control Officers Course (ACCOC) (M1467Q1); MAWTS-1 ACE Battle-Staff Officer Course (ABOC); MAWTS-1 TACC University Course; MAWTS-1 Senior Watch Officer (SWO) Course; and the MAWTS-1 Weapons and Tactics Instructor (WTI) Course (M149731) are available as skills enhancement training for the Air Command and Control Officer.

b. Prerequisites

- (1) Security requirement: secret security clearance eligibility.
- (2) Must have normal color perception.
- (3) Must have 20/20 vision (may be correctable to 20/20 with eyeglasses or contact lenses).
- (4) Hearing loss no greater than 15db between 500-2,000 Hz.
- (5) Must not be less than 5 feet 4 inches in height.

c. Requirements. Unrestricted Officers holding a primary MOS from OccFld 72 will be assigned MOS 7202 upon promotion to the grade of Major.

d. Duties. For a complete listing of duties and tasks, refer to 72XX Aviation Training and Readiness (T&R) Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and control Center Officers 55-1015.

2. MOS 7204, Low Altitude Air Defense Officer (I) (Capt to 2ndLt) PMOS, DC AVN

a. Summary. Low Altitude Air Defense (LAAD) Officers serve as commanders or staff officers within ground based air defense (GBAD) units, with the mission of providing surface to air fires in defense of Marine air ground task force critical assets from threat unmanned aerial systems,

missiles, and fixed and rotary wing aircraft. They coordinate tactical employment of LAAD units through air command and control agencies, sensors, and other air defense weapons. They evaluate intelligence, plan surface to air fires at all echelons, and direct administration, communication, supply, maintenance, and security activities of LAAD units. LAAD Officers also plan tactical employment and command LAAD units conducting airbase ground security operations. The Joint Air Operations Center Air Command and Control Course (JAOC2C) (F19L2W2); JT-101 Introduction to Multi-Tactical Data Link Network Operations Course (JT-101 Intro to MTN OPS) (JKO); JT-102 Multi-TDL Advanced Joint Interoperability Course (JT-102 MAJIC) (A05L6Z1); JT-201 Multi-TDL Network Planners Course (A05KHY1); Antiterrorism Officer Level II Course; MAWTS-1 LAAD Enhancement Training Instructor (LETI) Course; and the MAWTS-1 Weapons and Tactics Instructor (WTI) Course (M149731) are available as skills enhancement training for the Low Altitude Air Defense Officer.

b. Prerequisites

- (1) Security requirement: secret security clearance eligibility.
- (2) Must have normal color perception.
- (3) Cannot be left eye dominate.
- (4) Must have 20/20 vision (may be correctable to 20/20 with eyeglasses or contact lenses).
- (5) Hearing loss no greater than 15 dB between 500 Hz and 2000 Hz.
- (6) At least 64 inches in height.
- (7) Must meet MOS Classification Standards, as listed in the glossary (pg. xiv) prior to graduating from the Basic School.

c. Requirements. Complete the Aviation Command and Control Commons Course (M09C2A1); and the Low Altitude Air Defense (LAAD) Officer Course (M09ANS1) at Marine Corps Air Ground Combat Center (MCAGCC) at Twentynine Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (ag), Aviation Training and Readiness (T&R) Manual, Low Altitude Air Defense.

1142. OCCUPATIONAL FIELD 73, NAVIGATORS AND UNMANNED AIRCRAFT SYSTEM OFFICERS/OPERATORS

1. MOS 7315, Group 3 UAS MAGTF Officer (I) (LtCol to 2ndLt) PMOS, DC AVN

a. Summary. UAS Officers employ a network enabled and digitally interoperable UAS, from a Ground Control Station, to provide reconnaissance, surveillance, targeting and acquisition (RSTA), aviation fires, and electromagnetic support across the full spectrum of combat operations. UAS Officers will advise supported commanders on matters pertaining to UAS integration; and provide information of intelligence value not readily available from normal sources. UAS Officers are the supported commander's subject matter expert on UAS tactics, techniques, and procedures.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Security requirement: eligibility for top secret clearance with sensitive compartmented information (TS/SCI).

(3) Must meet the physical requirements per reference (ai), Manual of the Medical Department, section IV, article 15-100.

(4) Must take the aviation standard test battery (ASTB) and score a four or higher on the academic qualification rating (AQR) and a six or higher on either the pilot flight aptitude rating (PFAR) or the flight officer flight aptitude rating (FOFAR).

c. Requirements

(1) Complete the requirements for Basic Unmanned Qualification IV (BUQ-4) in accordance with CJCSI 3255.01 by any of the following methods:

(a) Complete the USAF Remotely Piloted Aircraft (RPA) Course:

1. Pilot Flight Screening Course (C70RPB1), at USAF Air Education and Training Command, Pueblo, CO.

2. Remotely Piloted Aircraft Instrument Qualification (RIQ) Course (F16RPA4) at USAF 558 FTS, Randolph AFB, TX.

3. Remotely Piloted Aircraft (RPA) Fundamentals Course (RFC) (F16RPC4) at USAF 558 FTS, Randolph AFB, TX.

(b) Complete Student Naval Aviator (SNA) Primary Flight Training (CIN Q-2A-0416 or Q-2A-0417) through the instrument phase.

(c) Complete Student Naval Flight Officer (SNFO) Primary I Training (CIN Q-2D-0162).

(2) Designated Naval Aviators and Naval Flight Officers have met the BUQ-4 requirements.

(3) A BUQ-4 individual will be awarded the MOS 7315 after the completion of the following course: RQ-21A Course (M04TACD) at the RQ-21 FRD, MCAS Cherry Point, NC.

d. Duties

(1) Provides air support through UAS Level 4 (function and control of unmanned aircraft and payload minus takeoff and landing) and/or UAS Level 5 (full function and control of unmanned aircraft and payload) interoperability.

(2) Perform electromagnetic spectrum operations (EMSO) against enemy communications, RADAR, and cyber networks; plans and executes multi-sensor imagery reconnaissance and surveillance over assigned areas; advises, coordinates, and controls supporting arms on behalf of the supported commander; and when directed, destroys targets through kinetic or non-kinetic means.

(3) Performs the duties as a member of the supported commander's Cyber Electronic Warfare Coordination Cell (CEWCC).

(4) Executes offensive and defensive tactics.

(5) Supervises analysis, synthesis, and dissemination of information.

e. Related Standard Occupational Classification (SOC) Title and Code. Military Officer Special and Tactical Operations Leaders/Managers, All Other 55-1019.

2. MOS 7318, VMU MQ-9 Officer (I) (LtCol to 2ndLt) PMOS, DC AVN

a. Summary. MQ-9 Officers employ a network enabled and digitally interoperable UAS, from a Ground Control Station, to provide RSTA, aviation fires, and electromagnetic support across the full spectrum of combat operations. MQ-9 Officers will advise supported commanders on matters regarding UAS integration and provide information of intelligence value not readily available from normal sources.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Security requirement: eligibility for top secret clearance with sensitive compartmented information (TS/SCI).

(3) Must meet the physical requirements per Manual of the Medical Department, section IV, and article 15-100.

(4) Must take the ASTB and score a four or higher on the AQR and a six or higher on either the PFAR or the FOFAR.

c. Requirements

(1) Complete the requirements for the BUQ-4 in accordance with CJCSI 3255.01 by any of the following methods:

(a) Compete the USAF RPA Course:

1. Pilot Flight Screening Course (C70RB1), at USAF Air Education and Training Command, Pueblo, CO.

2. RIQ Course (F16RPA4) at USAF 558 FTS, Randolph AFB, TX.

3. RPA Fundamentals Course (RFC) (F16RPC4) at USAF 558 FTS, Randolph AFB, TX.

(b) Designated Naval Aviators have achieved the BUQ-4 requirements.

(2) A BUQ-4 individual will be awarded the MOS 7318 after the completion of the following course: MQ-9A Officer Initial Qualification Training (IQT) Course (F34H331) at Holloman, AFB.

d. Duties

(1) Provides air support through UAS level 4 (function and control of unmanned aircraft and payload minus takeoff and landing) and/or UAS level 5 (full function and control of unmanned aircraft and payload) interoperability.

(2) Performs EMSO against enemy communications, RADAR, and cyber networks; plans and executes multi sensor imagery reconnaissance and surveillance over assigned areas; advises, coordinates, and controls supporting arms on behalf of the supported commander; and when directed, destroys targets through kinetic or non-kinetic means.

17. MOS 8247, Foreign Area Officer-Europe (Gen to 2ndLt) FMOS, DC PP&O

a. Summary. Foreign Area Officers are officers who have completed graduate-level study of international relations, with an emphasis in regional studies appropriate to a designated region, are proficient in a foreign language and who have extensive in-country experience in a designated region. This MOS may be assigned as a FMOS only. It will be assigned and voided only by the authority of CMC (MM).

b. Prerequisites. Must have broad travel experience in the designated region.

c. Requirements

(1) Security requirement: TS/SCI security clearance eligibility based on a tier 5 background investigation.

(2) Demonstrate proficiency in a foreign language by scoring annually a minimum of Level 2 in all tested areas of the DLPT.

(3) Display extensive knowledge of a designated region to include military forces, culture, history, sociology, economics, politics, and geography.

d. Duties. Performs in operational and strategic-level Marine Corps, Joint, or combined staffs in operations, planning, security cooperation, or intelligence billets; or within the Defense Attaché Systems (DAS).

e. Related Standard Occupational Classification (SOC) Title and Code. Political Scientists 19-3094.

f. Related Military Skill. None.

18. MOS 8248, Foreign Area Officer-Southeast Asia (Gen to 2ndLt) FMOS, DC PP&O

a. Summary. Foreign Area Officers are officers who have completed graduate-level study of international relations, with an emphasis in regional studies appropriate to a designated region, are proficient in a foreign language and who have extensive in-country experience in a designated region. This MOS may be assigned only as a FMOS. It will be assigned and voided only by the authority of CMC (MM).

1146. OCCUPATIONAL FIELD 86, MISCELLANEOUS REQUIREMENT MOS1. MOS 8623, Small Unmanned Aircraft System Specialist (LtCol to 2ndLt)
FMOS, DC AVN

a. Summary. The Small Unmanned Aircraft Systems Specialist is responsible for planning, integrating, and executing small unmanned aircraft system (SUAS) operations in support of the MAGTF. They integrate SUAS capabilities with unit operations IAW mission orders, scheme of maneuver, fire support coordination measures, airspace control measures, frequency assignments, airspace and range regulations. Small Unmanned Aircraft Systems Specialist training and readiness skill progression includes SUAS-operator, SUAS-Instructor, SUAS-Evaluator, and SUAS-Program Manager.

b. Prerequisites

- (1) Must possess a GT score of 90 or higher.
- (2) Security requirement: none.
- (3) Must have normal color vision and depth perception.
- (4) Must be in accordance with reference (ah), para 8.8.1, MANMED 15-85.

c. Requirements. Complete Small Unmanned Aircraft Systems Operator Initial Qualification Training in at least on type of USMC Program of Record (POR) SUAS at the Training and Logistics Support Activity-East (CAMLEJ) or Training and Logistics Support Activity-West (CAMPEN). Once initial qualification is obtained, the 8003 is required to sustain currency in assigned SUAS in accordance with T&R standards reference (h).

d. Duties

(1) For a complete listing of duties and tasks, refer to reference (h), Small Unmanned Aircraft System (SUAS) Training and Readiness Manual. Typical SUAS-O duties include:

- (a) Maintain individual training and proficiency per T&R standards.
- (b) Integrate SUAS capabilities with unit operations in accordance with scheme of maneuver, range regulations, fire support coordination measures, airspace control measures, frequency assignments, airspace regulations and mission orders.
- (c) Perform SUAS missions in accordance with standard operating procedures.
- (d) Report any mishaps to the unit SUAS-PM and Safety Officer.
- (e) Conduct operator level maintenance and repairs on assigned SUAS equipment.
- (f) Provide the Unit SUAS-PM with a copy of all SUAS course graduation certificates.

(g) Maintain a SUAS logbook for each system in which designated. Provide copies to Unit SUAS-PM on a monthly basis for inclusion into the Individual Training Record (ITR).

(h) Track individual training and notify the Unit SUAS-PM via the chain of command if recertification is required.

(i) Be prepared for annual scheduled and unscheduled SUAS evaluations.

e. Related Standard Occupational Classification (SOC) Title and Code.
None.

f. Related Military Skill. None.

2. MOS 8640, Requirements Manager (LtCol to Capt) and (CW05 to CW02) FMOS #, DC CD&I

a. Summary. Requirements managers (RMs) are the front-end of the Marine Corps' acquisition community. They are accountable for taking concepts and capability gaps and turning them into actionable joint capabilities integration and development system documents that result in the deployment of doctrine, training, and equipment. Specific responsibilities include all or part of the following tasks: program initiation, justification, documentation, and validation; cost analysis and estimation; sponsorship through the Program Objective Memorandum (POM) process; test and evaluation; equipment fielding; integrated logistics support; manpower and training evaluation; doctrine and training development; and end-user representation.

b. Prerequisites. None.

c. Requirements

(1) Complete the following Defense Acquisition University courses:

(a) CLR-101 Introduction Joint Capabilities Int & Dev System.

(b) RQM 110-Core Concepts for Requirements Management (Level II).

(2) Additional training: Advanced Resident Training (Level III).

d. Duties. None.

e. Related Standard Occupational Classification (SOC) Title and Code.
None.

f. Related Military Skill. None.

1147. OCCUPATIONAL FIELD 88, MISCELLANEOUS REQUIREMENT MOS1. MOS 8802, Training and Education Officer (LtCol to Capt) FMOS, CG TECOM

a. Summary. Training and Education Officers serve as Systems Approach to Training (SAT)/Instructional Systems Development (ISD) specialists in billets concerned with various training and education programs. These assignments require a knowledge and understanding of educational leadership, educational research and methodologies, education and training administration educational/training instructional technology, curriculum development and evaluation, and management of instruction. This will be assigned a FMOS only by the CMC (MM) to officers who have completed the prescribed course of instruction under the provisions of the Advanced Degree Program (ADP).

b. Prerequisites. This MOS requires a graduate level degree in Education. The proposed curriculum must include coursework in Adult Learning Theory, Curriculum Development, Instructional Development/Design, Assessment and Instructional Technology. These courses are the minimum requirement. Additional courses may be identified, based on billet need, by the OccFld Manager.

c. Requirements. Upon request and approval, this MOS may also be assigned to officers possessing an advanced degree acquired prior to entry into the service or through off-duty educational efforts.

d. Duties

(1) Serves as the service-level representative to the operating forces and supporting establishment on all issues relating to training standards, training program development, unit training management/evaluation, and unit training readiness.

(2) Implements, evaluates and manages the procedures and policies of instructional systems design, and delivery and validation of instruction.

(3) Reviews, investigates, introduces, and evaluates emerging instructional strategies, methodologies, technologies, and techniques.

(4) Coordinate and facilitate professional development opportunities and training for instructors, faculty advisors, trainers, and those that manage Marine Corps Formal Schools.

(5) Reviews and evaluates programmed instructional materials.

(6) Serves as an advisor on military and civilian related education and training programs.

(7) Conducts research in support of training and education plans and programs.

(8) Supervises the training and education testing policy and promulgates pertinent orders.

(9) Serves as a course(s) or school administrator: manages and plans short/long range budget, T/O and T/E, facilities, and Training Input Plan (TIP), for a school.

e. Related Standard Occupational Classification (SOC) Title and Code.
Training and Development Managers 11-3042.

f. Related Military Skill. None.

2. MOS 8803, Leadership Development Specialist (Capt to 1stLt) FMOS, DC CD&I

a. Summary. Leadership Development Specialists serve initially as Company Officers at the United States Naval Academy. This MOS will be assigned as a FMOS only by CMC.

b. Prerequisites. None.

c. Requirements. Complete the prescribed course of instruction at the United States Naval Academy.

d. Duties

(1) Act as a Company Officer at the United States Naval Academy.

(2) Implement the fundamental principles of leadership and management in military organizations.

e. Related Standard Occupational Classification (SOC) Title and Code.
Training and Development Managers 11-3042.

f. Related Military Skill. None.

3. MOS 8820, Aeronautical Engineer (Maj to Capt) FMOS, CG TECOM

a. Summary. Aeronautical Engineers supervise and coordinate design, development, testing, procurement, overhaul, modification, and repair of aircraft subsystems.

b. Prerequisites

(1) Open to aviation officers (MOS 75XX) only.

(2) Prior physics preparation required.

c. Requirements. Complete the Aeronautical Engineering curriculum number 610 at the Naval Postgraduate School, Monterey, CA, or equivalent postgraduate degree program at comparable accredited institution.

d. Duties

(1) Supervises and coordinates research, design, development, and testing of aircraft and aircraft subsystems.

(2) Plans and supervises execution of development programs for aircraft and aircraft subsystems.

(3) Coordinates activities associated with development and procurement plans and programs for aircraft and aircraft subsystems.

(4) Establishes and maintains liaison with other components of the Armed Forces to exchange pertinent data.

e. Related Standard Occupational Classification (SOC) Title and Code.
Aerospace Engineers 17-2011.

f. Related Military Skill. None.

4. MOS 8824, Electronics Engineer (Maj to Capt) FMOS, MCSC

a. Summary. Electronics Engineers supervise and coordinate design, development, testing, procurement, modification, improvement, and repair of electronics equipment.

b. Prerequisites. None.

c. Requirements

(1) Complete the Electronic Systems Engineering Curriculum number 590 at Naval Postgraduate School, Monterey, CA, or equivalent postgraduate degree program at an accredited university.

(2) Subjects covered in the core courses of either institution should include linear algebra, differential equations, complex variables, numerical methods, applied probability, vector analysis, modern physics, circuit theory, communication theory, control theory, electronics engineering, linear and communications integrated circuits, computer programming, digital logic circuits and microprocessors, and electromagnetic wave theory.

(3) The graduate core of courses should include courses in the subject areas of digital signal processing, analysis of random signals, radiation, scattering and propagation, and micro-processing based system design.

(4) A cohesive sequence in one of the following areas is allowed to complete degree requirements: guidance, navigation and control systems; radar, electro-optics and electronic warfare systems; and computer systems.

d. Duties

(1) Supervises and coordinates research, design, development, and testing of electronics equipment, including radar, data systems, electronic warfare devices, and certain electronic components of missile weapons systems.

(2) Plans and supervises execution of development programs pertaining to electronics equipment and systems.

(3) Collects, evaluates, and prepares reports on foreign and domestic equipment.

(4) Coordinates activities of development and procurement agencies with those responsible for supply and maintenance.

(5) Prepares procurement plans and programs for electronics equipment.

(6) Tests new or experimental equipment.

(7) Designs modifications and improvements to electronics equipment.

(8) Designs maintenance and repair equipment and recommends repair procedures.

(9) Establishes and maintains liaison with other components of the Armed Forces to exchange pertinent data.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Electronics Engineers, Except Computer 17-2072.

(2) Electrical Engineers 17-2071.

f. Related Military Skill. None.

5. MOS 8825, Modeling and Simulation Officer (LtCol to Capt) FMOS, DC CD&I

a. Summary. Modeling and Simulation (M&S) Officers are the Marine Corps subject matter experts (SME) across the four pillars of USMC M&S: acquisition, analysis, experimentation, and training. As both managerial and technical SMEs, their recommendations to key decision makers can have service-and national-level impacts. The M&S Officer is the indispensable translator between the commander's mission requirements and the details of the enabling critical technologies. They provide a wide range of M&S SME input to key decision makers on topics such as operational, functional, and technical requirements; conceptual model design; statistically-based data analysis; analysis of alternatives; net-centric software/hardware implementation; verification, validation, & accreditation (VV&A) of M&S solutions; defense systems acquisition activities of program management and sustainment; and joint capabilities integration and development system (JCIDS) processes. Fundamentally, the M&S officer maintains a level of understanding of how simulations are designed to represent the operational environment, internally operate at the source code level, and ultimately have mission or training/education utility to Marines. As practitioners of M&S-supported missions, they possess the skills to operate existing USMC simulations in support of mission requirements through all phases: planning, preparation, execution, and analysis. M&S Officers use requirements-based model selection, modify simulation parametric data, explain results, facilitate after-action reviews, and conduct analysis. As future innovators with evolving technical capabilities, M&S Officers can design and build simulations that are based on a complete understanding of live-virtual-constructive environments, physics-based models, real-time graphics, terrain databases, calculus-based algorithms, and advanced artificial intelligence techniques. The M&S Officer is the Marine Corps' liaison across government, academia, and industry, providing Marine Corps decision makers with key insights on M&S theories, approaches, and applications to ensure the Service is best positioned to realize a modern force that exploits innovative concepts and approaches.

b. Prerequisites. None.

c. Requirements

(1) Complete the Modeling and Simulation curriculum number 399 (Modeling, Virtual Environments, and Simulation) curriculum at the Naval Postgraduate School, Monterey, CA; or equivalent postgraduate degree from an accredited university. M&S Officers must have current knowledge of DOD, USN, and USMC M&S policy and doctrine, comprehensive theoretical understanding of

simulation in live-virtual-constructive environments, practical experience with USMC simulations, and a comprehensive awareness of current capabilities/limitations of M&S technologies.

(2) The officer must have earned/completed the following:

(a) Master's degree in modeling and simulation or a related field.

(b) Technical thesis on a topic relating to USMC or DOD modeling and simulation.

(3) In addition, the following are mandatory minimum course requirements to be completed by those Marines who have not graduated from Naval Postgraduate School, Monterey, CA:

(a) Simulation capabilities and limitations for live, virtual, and constructive domains with a focus on virtual reality, augmented reality, and mixed reality.

(b) Cyber security considerations for isolated and networked simulations.

(c) Verification of software, validation of models, and accreditation of simulations.

(d) Artificial intelligence fundamentals, capabilities, and limitations (agent-based simulations, human behavior modeling).

(e) Mathematical modeling (physics-based models, combat models, stochastic and deterministic modeling techniques).

(f) Probability theories and statistically-based data analysis.

(g) Stand-alone and distributed interactive M&S techniques to plan, prepare, execute, and analyze events and studies using applications in isolated and networked environments.

(h) Discrete event simulation techniques.

(i) Network architectures and computer communication (distributed simulation, OSI 7 layers, interoperability with C4I systems, and federation of simulations).

(j) Simulation standards for simulation data and communication (technical details, development processes, open source, open standards, and software licenses).

(k) Program management basics, including software acquisition management.

(l) Design of experiments, simulations in support of training/education, and use of simulation in data analysis (including elements specific to staff coordination through C4I systems).

d. Duties

(1) Assist in coordinating Marine Corps participation in the development, acquisition, operation, management, and evolution of M&S concepts in support of Marine Corps missions.

(2) Function as a SME on the capabilities of M&S technologies and provide this information to Marine Corps decision makers in the support of tasks relating to all pillars of DOD modeling and simulation.

(3) Assist the Marine Corps M&S Management Office in the development and coordination of Marine Corps M&S policy and strategy.

(4) Assist the relevant advocates in the development of doctrine to guide the use of M&S applications in Marine Corps operations and training/education.

(5) Coordinate development and translation of applicable operational and training/education needs into M&S technical requirements.

(6) Ensure the Marine Corps, in conjunction with the Navy, coordinates and collaborates with other DOD organizations concerning research and development that support Marine Corps requirements.

(7) Assist in the development of education about M&S capabilities and assist in the integration of M&S as an educational tool within the Marine Corps.

(8) Plan, prepare, execute, and analyze events using stand-alone and distributed interactive simulations in isolated and networked environments.

(9) Maintain current market research in order to evaluate and recommend solutions for program of record simulations systems that will correct deficiencies and incorporate emerging technologies.

(10) Evaluate and recommend appropriate uses of M&S concepts to solve current USMC science and technology objectives.

(11) Develop, modify, or maintain M&S software tools as required.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Operations Research Analysts 15-2031.

(2) Computer and Information Research Scientist 15-1221.

f. Related Military Skill. None.

6. MOS 8826, Ordnance Systems Engineer (LtCol to Capt) FMOS, DC CD&I

a. Summary. Ordnance Systems Engineers participate in the research development and acquisition of Marine Corps ground and/or air weapons systems.

b. Prerequisites. None.

c. Requirements

(1) Graduate level education in computer science and real-time computer systems, electrical engineering with emphasis on control systems, technology of explosives and propellants, material science with emphasis on mechanical behavior, and failure modes of material.

(2) Completion of the Weapons System Engineering curriculum number 530 at the Naval Postgraduate School, Monterey, CA, or equivalent postgraduate degree program at a comparable accredited institution is desirable but not essential.

d. Duties

(1) Participates in the research, development, test, evaluation, and acquisition of ground and/or air weapons systems for the Marine Corps through coordination with Marine Corps, civilian, and other military service agencies.

(2) Programs, budgets, and supervises projects; evaluating proposals and approaches of a highly technical nature; and recommends appropriate courses of action to satisfy Marine Corps material requirements.

(3) Participates in product improvement and/or modifications of weapons systems or components in addition to research and development.

(4) Acts as technical advisor in matters concerning ordnance equipment within the Marine Corps and serves in a technical support capacity to Marine Corps organizations in dealing with agencies external to the Marine Corps.

e. Related Standard Occupational Classification (SOC) Title and Code.
Engineers, All Other 17-2199.

f. Related Military Skill. None.

7. MOS 8831, Environmental Engineering Management Officer (LtCol to 1stLt)
FMOS, DC I&L

a. Summary. Environmental Engineering Management Officers help protect the Marine Corps' mission by interpreting and complying with international agreements and Federal, State, local, and DoD environmental regulations. They act as an advisor to their commander on environmental requirements and provide an operational perspective to environmental staff. They develop and apply a variety of skills and techniques to address engineering, science, management, and policy-level issues to ensure optimum management of their programs to balance environmental regulations with operational requirements. They manage staff's which conduct and guide studies, analyses, and projects assessing both qualitative and quantitative aspects of environmental; compliance, pollution prevention, and conservation for Marine Corps Installations and major commands.

b. Prerequisites. Must possess a master's degree from the Air Force Institute of Technology (AFIT) course of study in graduate environmental engineering and science (GES), or graduate engineering management (GEM), or possess a master's or bachelor's degree in a related discipline from an accredited institution.

c. Requirements

(1) If pursuing the GEM course of instruction at AFIT, only two environmentally focused sequences within the curriculum will meet the requirement of MOS 8831: applied environmental sciences or environmental systems analysis and management sequences.

(2) Subjects covered in the core courses of the programs listed above should include environmental systems engineering, environmental policy, environmental law, and sustainable development.

(3) Officers who possess a bachelor's degree in environmental engineering, science, or management, or related degree and who have a strong desire to participate in the Marine Corps environmental program may be awarded the 8831 FMOS.

(4) Officers who have 6 months of applicable environmental management experience, and who have a strong desire to participate in the Marine Corps environmental program, may be awarded the 8831 FMOS dependent on the 8831 occupational field sponsor approval.

d. Duties

(1) Monitor installations' and major commands' compliance with applicable environmental agreements, laws, regulations, and directives such as U.S. laws and executive orders, code of federal regulation and department of defense policies.

(2) Advise commander on environmental management priorities and influence decision-making practices at installations and major commands. Ensure that environmental concerns are addressed and that environmental considerations are integrated into both daily and long-term planning processes.

(3) Provide an operational perspective to environmental staff to balance environmental requirements with the installation's/major command's mission.

(4) Manage a civilian environmental staff of scientists and engineers to; determine and validate environmental risks, develop corrective action plans, program and advocate for resources, and oversee the execution of resources to achieve environmental compliance.

(5) Acts as a technical environmental liaison at the international, federal, state, and local levels.

(6) Manage environmental impact studies and analyses that address the consequences of military installations and major commands operations on the natural environment.

(7) Analyze environmental impacts and health effects associated with a variety of activities and substances (e.g. fuel storage, drinking water, hazardous waste disposal, asbestos, pesticides, and endangered species).

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Compliance Officers 13-1041.

(2) Environmental Scientists and Geoscientists 19-2040.

(3) Environmental Science and Geoscience Technicians 19-4040.

f. Related Military Skill. None.

8. MOS 8832, Nuclear Engineer (Maj) FMOS, DC AVN

a. Summary. Nuclear Engineers function as consultants to Senior Marine Corps Officers in matters relating to nuclear technology and weapons capabilities and are the primary points of contact and advisors for actions pertaining to tactical and strategic nuclear force policies.

b. Prerequisites. None.

c. Requirements

(1) Completion of the Armed Forces Institute of Technology course of study in Nuclear Engineering or advanced education in Nuclear Engineering from a comparable accredited institution is required.

(2) A master's degree is desirable but not essential.

(3) Course work should be keyed to military use of nuclear engineering and should include atomic physics, nuclear physics, and nuclear instrumentation.

(4) Other advanced engineering degrees with nuclear engineering experience are acceptable.

d. Duties

(1) Conducts research on nuclear engineering problems or apply principles and theory of nuclear science to problems concerned with release, control, and utilization of nuclear energy.

(2) Influences the joint nuclear stockpile planning such as determination of requirements, deployment policy, and allocation of assets.

(3) Supervises the security of nuclear weapons, access, denial, weapon emergency disablement/destruction, treaties and agreements that impact on nuclear weapons, and nuclear readiness/training.

e. Related Standard Occupational Classification (SOC) Title and Code.
Nuclear Engineers 17-2161.

f. Related Military Skill. None.

9. MOS 8834, Technical Information Operations Officer (LtCol to 2ndLt) FMOS, DC I

a. Summary. Technical Information Operations (IO) Officers identify, describe, and apply concepts, theories, and practices associated with the employment of operations in the information environment (OIE) assets and methods across the range of military operations. These officers develop OIE DOTMLPF solutions as part of the requirements or acquisitions process. Officers will also plan, coordinate, execute and assess IO on MAGTFs.

b. Prerequisites. Security requirement: TS/SCI security clearance eligibility.

c. Requirements

(1) Complete the Information Warfare (IW) curriculum, number 595 at the Naval Postgraduate School, Monterey, CA. In accomplishing this, the officer must have:

(a) Earned a master's degree in information warfare systems engineering.

(b) Completed a thesis on a topic relating to information operations.

(2) Graduate must have a solid understanding of the Marine Corps planning process in order to participate in technical IO planning as part of the MAGTF Command Element (CE) staff.

d. Duties

(1) Plans, supervises, coordinates and executes research, design, development, and testing of operations in the information environment (OIE) concepts, and OIE related systems and equipment.

(2) Monitors technological developments in the OIE field to ensure planning reflects future OIE systems development and prepares procurement plans and programs for OIE and OIE related systems and equipment.

(3) Assists in the development of OIE policy to guide commands in the development of strategy, doctrine, and systems procurement.

(4) Develops OIE doctrine that allows for the development of plans, education and training in the conduct of OIE.

(5) Advises the commanding officer, operations officer, and the OIE working group lead on the technical aspects of OIE in order to provide integrated, synchronized, and coordinated effects in the information environment to achieve an operational advantage for the commander.

(6) Serve as a subject matter expert and staff planner for MAGTF OIE working groups in the fields of electronic warfare and information operations.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Electronics Engineers, Except Computer 17-2072.

(2) Electrical Engineers 17-2071.

f. Related Military Skill

(1) Basic Information Operations Staff Officer, 0510.

(2) Advanced Information Operations Planner, 0550.

(3) Special Technical Operations Officer, 8016.

10. MOS 8840, Manpower Management Officer (LtCol to Capt) FMOS, DC M&RA

a. Summary. Manpower Management Officers conduct and participate in manpower-related studies to ensure that sound management techniques are used at all levels of manpower management.

b. Prerequisites. None.

c. Requirements

(1) Complete the Manpower, Personnel and Training Analysis curriculum number 847 at the Naval Postgraduate School, Monterey, CA, or equivalent postgraduate degree from an accredited institution.

(2) The following are mandatory minimum course requirements to be completed by those Marines not graduated from the Naval Postgraduate School, Monterey, CA:

- (a) Multivariate Data Analysis.
- (b) Personal Testing and Selection.
- (c) Job Analysis and Personal Training.
- (d) Manpower Economics I and II.
- (e) Manpower/Personnel Policy Analysis.
- (f) Manpower and Personnel Models.
- (g) Manpower Requirements Determination.

d. Duties

(1) Assists the commander in developing management policy and implementing management techniques throughout the command; studies, surveys, and analyzes objectives, policies, procedures, organization, and administrative actions within the command to assess the effect of management policy.

(2) Seeks to uncover areas in need of revised management techniques.

(3) Uses statistical data, economic theory, and mathematical techniques to establish the comparative factors and alternatives available to managers for decision making.

(4) Analyzes the management process for potential increased efficiency and work simplification through the application of automatic data processing techniques and quantitative techniques; i.e., systems analysis, management engineering principles, and operations research techniques.

(5) Participates in those management actions that support the command's budget requests and in the resource allocation efforts subsequent to budget approval.

(6) Applies knowledge of management control, human relations, personnel principles, and social implications of defense management to

personnel research projects, such as OccFld structuring, retention objectives, and force management.

e. Related Standard Occupational Classification (SOC) Title and Code.
Management Analysts 13-1111.

f. Related Military Skill. None.

11. MOS 8844, Financial Management Specialist (LtCol to Capt) FMOS, DC P&R

a. Summary. Financial Management Specialists have a graduate degree in financial management and are assigned to Budget Officer Billets with a billet MOS of 8844 or to Financial Management Billets within the Washington, DC area. Financial Management Specialists assigned to field 8844 billets should have a primary MOS of 3404. Most Financial Management Specialist Billets are within the Washington, DC area. Typical duties of such a Washington, DC assignment include budget analyst, cost analyst, or section head for a resource management office.

b. Prerequisites. None.

c. Requirements

(1) Complete Financial Management curriculum 837 at Naval Postgraduate School, Monterey, CA or equivalent postgraduate degree program at a comparable accredited institution.

(2) Unrestricted officers with primary MOS 3404 are preferred; however, unrestricted officers with other primary MOSs may apply.

d. Duties. For a complete listing of duties and tasks, refer to reference (an), Individual Training Standards for Financial Management.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Accountants and Auditors 13-2011.

(2) Budget Analysts 13-2031.

f. Related Military Skill. None.

12. MOS 8846, Data Systems Specialist (LtCol to 2ndLt) FMOS, DIR C4

a. Summary. Data Systems Specialists manage the operation of a data systems activity that encompasses systems for recording, collecting, controlling, verifying, interpreting, and presenting data used in planning and directing automated Marine Corps data systems. Develop methodology and concepts for optimum utilization of automatic data processing equipment (ADPE). Develop ADPE requirements in coordination with users by assisting in the preparation of formal data automation requirements. Monitor the design and development of software/hardware (including modification to existing programs and ADP systems) to ensure compatibility with operational requirements. Monitor systems development programs to ensure that advances in computer sciences technology and ADPE capabilities and limitations are identified and employed.

b. Prerequisites. Must be an unrestricted officer.

c. Requirements. Complete the Computer Science Curriculum number 368 at the Naval Postgraduate School, Monterey, CA; or equivalent postgraduate degree from an accredited university.

d. Duties

(1) Assists the commander in determining policy for installing and operating ADP systems.

(2) Formulates data processing policies and procedures to provide systematic flow of automated data.

(3) Establishes organizational structure, operational procedures, training, budget, and coordination for data processing activities.

(4) Analyzes ADP requirements and recommends appropriate ADPE to efficiently and effectively support approved systems.

(5) Determines and specifies requirements for transmission and receipt of data via communication networks.

(6) Evaluates results of analysis data to provide a basis for improving and/or revising programs or procedures to optimize ADPE utilization.

(7) Participates in information and tactical data systems studies to determine the impact of employing alternative configurations of ADPE to support present and future information and tactical data systems.

(8) Provides technical knowledge and assistance for studies that relate to ADPE configuration and employment.

(9) Analyzes and reviews documentation required to support and justify proposed or revised information or tactical data systems.

(10) Maintains direct and frequent contact with functional managers concerning ADP systems development or maintenance problems that impact on approved ADPE configuration.

(11) Coordinates the interface/compatibility of communications/electronic equipment required to support remote or deployed commands.

e. Related Standard Occupational Classification (SOC) Title and Code. Computer and Information Systems Managers 11-3021.

f. Related Military Skill. None.

13. MOS 8848, Management, Data Systems Officer (LtCol to 2ndLt) FMOS, DIR C4

a. Summary. Management, Data Systems Officers, manage system development activities, including assessment of feasibility, detailed system design, testing, conversion, implementation, and post-implementation review.

b. Prerequisites. Must be an unrestricted officer.

c. Requirements. Complete the Information Technology Management curriculum number 370 at the Naval Postgraduate School, Monterey, CA; or equivalent postgraduate degree from an accredited institution.

d. Duties

(1) Participates in the evaluation of system development documentation to ensure economic and operational viability of the system, integrity of system design, and understanding of the system by both functional managers and the technical systems staff.

(2) Determines the need for the integration of existing and developing systems.

(3) Coordinates the development of measurable objectives for system performance that form the baseline for the measurement of system effectiveness.

(4) Determines management strategy, policy, and doctrine for system development, documentation, and information processing management standards.

(5) Conducts evaluation of existing information systems with regard to throughput performance, utilization of input/output media, and overall user satisfaction.

(6) Specifies and coordinates current hardware, software, and project management practices for both the technical and user systems development staff.

(7) Coordinates ADP management policy with technical management, functional management, and senior ADP policy officials.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Computer and Information Systems Managers 11-3021.

(2) Computer Hardware Engineers 17-2061.

f. Related Military Skill. None.

14. MOS 8850, Operations Analyst (Col to 2ndLt) FMOS, DC CD&I

a. Summary. Operations analysts participate in studies and analyses of military operations, weapon systems, or organizations utilizing a variety of methodologies and automated tools in support of research and development activities, major headquarters staffs in the supporting establishment and operating forces, and the Joint Staff/Commands.

b. Prerequisites. Prior mathematics background required.

c. Requirements. Complete the Operations Analysis curriculum number 360 at the Naval Postgraduate School or equivalent postgraduate degree program at a comparable accredited institution.

d. Duties

(1) Participates in the following: construction of models, manual or computer, for analysis or comparison of military activities, operations, weapons systems, and force structures; the gathering of empirical data used in support of analysis, comparison, or war gaming of military activities, weapons systems and plans; and cost effectiveness studies to analyze weapons systems, operational concepts, and resource allocation.

(2) Conducts or participates in war gaming or simulation activities, including preparation of rules or flow charts, conduct of gaming or simulation, assessment of game moves or simulation steps, evaluation of results, and determination of measures of effectiveness.

(3) Develops and utilizes spreadsheet models in support of optimization, decision analysis, resource allocation, or other operational or management problem-solving efforts.

(4) Develops and administers surveys using manual or automated instruments and analyzes and presents results.

(5) Retrieves data from diverse official databases, reduces and analyzes the data using automated tools in order to provide support for studies or satisfy the information requirements of the organization.

(6) Designs and conducts experiments and analyzes results using statistical tests and tools.

(7) Performs time series and trend analysis based on existing data to produce forecasts of future resources or requirements.

(8) Applies cost analysis techniques to perform cost comparison of alternatives.

(9) Performs technical liaison between military organizations and activities engaged in analytical or evaluation work and technical assistance to contractors supporting the military activity.

(10) Performs any or all of the above duties and tasks at research and development activities, management activities, or with operational units of the FMF.

e. Related Standard Occupational Classification (SOC) Title and Code.
Operations Research Analyst 15-2031.

f. Related Military Skill. None.

15. MOS 8852, Defense Systems Analyst (LtCol to Capt) FMOS, DC P&R

a. Summary. The Defense Systems Analyst participates in studies and analyses of force structures, weapon system mixes, and cost effectiveness comparisons that support resource allocation decisions in programming and analysis sections located at top management levels and research and development activities.

b. Prerequisites. Security requirement: secret security clearance eligibility.

c. Requirements. Complete the Defense Systems Analysis curriculum number 817 at Naval Postgraduate School or equivalent postgraduate degree at a comparable accredited institution.

d. Duties

(1) Participates in studies and analysis of material requirements and military force structures, comparisons of weapon systems, and weapon system mixes.

(2) Uses empirical data, economic theory, organizational theory, decision analysis, and mathematical and statistical techniques to establish the comparative factors and alternatives available to the decision maker.

(3) Provides technical support to associated staff sections in the review and evaluation of studies and analyses completed by other agencies.

(4) Reviews and evaluates systems cost estimates to include developmental, production, and life cycle costs.

(5) Assists the decision maker in defining problems, identifying alternatives, and formulating recommendations.

(6) Performs cost effectiveness and cost benefit analysis to support resource allocation decisions.

(7) Performs technical liaison with other military and governmental agencies that conduct analytical or evaluation studies.

(8) Performs any or all of the above duties and tasks in programming and analysis sections located at top management levels and research and development activities.

e. Related Standard Occupational Classification (SOC) Title and Code.
Management Analysts 13-1111.

f. Related Military Skill. None.

16. MOS 8858, Command, Control, Communications, Computers and Intelligence (C4I) Officer (LtCol to 2ndLt) FMOS, DIR C4

a. Summary. C4I Systems Officers coordinate the design, development, testing, evaluation, and operation of C4I systems.

b. Prerequisites. Must be an unrestricted officer.

c. Requirements. Complete the Joint C4I Systems Technology Curriculum number 365 at the Naval Postgraduate School, Monterey, CA; or equivalent postgraduate degree program at a comparable accredited institution.

d. Duties

(1) Supervises and coordinates design, development, testing, and evaluation of computerized C4I systems.

(2) Participates in development programs for C4I hardware and software elements.

(3) Prepares engineering data and documentation necessary for interfacing tactical command and control systems with allied or worldwide, joint C4I systems.

(4) Conducts design reviews necessary to upgrade and improve C4I systems.

(5) Develops test and evaluation criteria, including comprehensive test plans for C4I systems.

(6) Supervises, or participates in, the operation of C4I systems in the joint or military service environment.

(7) Evaluates the EW threat against C4I systems and develops procedures or system elements which minimize the potential impact of EW.

e. Related Standard Occupational Classification (SOC) Title and Code.
Command and Control Center Officers 55-1015.

f. Related Military Skill. None.

17. MOS 8862, Materiel Management Officer (LtCol to Capt) FMOS, DC I&L

a. Summary. Material Management Officers analyze, review, and seek to improve operations and project management, business modeling for decision making, and inventory management systems as they relate to Marine Corps logistic functions. Provide a comprehensive background in quantitative problem-solving methods, operations management, behavioral and management science, economic analysis, and financial management, as applicable to logistic systems and processes in the Marine Corps.

b. Prerequisites. None.

c. Requirements. Complete the Material Logistics Support Management curriculum number 827 at Naval Postgraduate School, Monterey, CA, or equivalent postgraduate degree at a comparable accredited institution.

d. Duties

(1) Monitors the status of logistic management information.

(2) Provides expertise on the principal means of accumulating, transmitting, processing, storing, and applying such information to management systems.

(3) Coordinates the design and control of logistic management information systems with present technological capabilities.

(4) Applies state-of-the-art logistics concepts, tools, and methodologies from public management and business to solve relevant supply chain management problems and to achieve cost-effective operational readiness.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Management Analysts 13-1111.

(2) Logisticians 13-1081.

f. Related Military Skill. None.

18. MOS 8866, Space Operations Officer (I) (LtCol to 2ndLt) FMOS, DC I

a. Summary. Space Operations Officers are tasked with representing the Marine Corps' interest in National Security Space matters, to include participating in the development of space plans, policy, doctrine, and requirements. Space Operations Officers will be expected to make recommendations to decisions makers regarding the employment of space systems

in support of operational plans, the acquisition of space systems, and the development of space architectures to support Marine Corps' needs.

b. Prerequisites. Security requirement: SCI security clearance eligibility. Must have a current Single Scope Background Investigation/T5 Investigation and adjudicated for Sensitive Compartmented Information (SCI) eligibility.

c. Requirements

(1) Complete the Space Systems Operations curriculum number 366 (Space Systems Operations) or curriculum number 591 (Space Systems Engineering) at the Naval Postgraduate School, Monterey, California. Additional, approved sources of education include curriculums GSS (Graduate Space Systems) and GA (Graduate Astronautical Engineering) from the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio.

(a) Earned a Master's Degree in Space Systems Operations, Astronautical Engineering, or a related field.

(b) Completed a thesis on a topic relating to space operations.

(2) Space operations officers must have a comprehensive practical and theoretical knowledge of space policy and doctrine, the space environment, and space relevant technologies. Further, they must have specific detailed knowledge of:

(a) Military space operations and associated capabilities to include: Space Situational Awareness; Space Control; Position, Navigation, and Timing; Intelligence, Surveillance, and Reconnaissance; Satellite Communications; Environmental Monitoring; Missile Warning; Nuclear Detonation Detection; Space Lift and Launch; and Satellite Operations.

(b) Joint doctrine for space operations.

(c) Plans, concepts, strategies, and tactics for employment of space systems.

(d) The Joint operational planning process.

(e) Mission requirements that drive spacecraft design requirements.

(f) Simulation and modeling.

(g) Orbital mechanics.

(h) Acquisition management.

(i) Organization and responsibilities of National Security Space to include the Department of Defense and the Intelligence Community.

(j) Integration and coordination of Space Operations into Information Environment Operations.

(k) Classified national systems.

d. Duties

- (1) Develop service space operations policy, strategy, and doctrine.
- (2) Conduct operational plans analysis at the MARFOR/MEF level, to include vulnerabilities, mitigation options, and risk recommendations. Incorporate analysis and target development into operational plans annexes and other space operations planning documents to support operations, contingencies, training, and exercises.
- (3) Coordinate and define operational requirements and develop operational concepts related to space operations. Provide space operations-related input into the capability based assessment (CBA) process (gap list).
- (4) Provide subject matter expertise on space-based capabilities and space-related systems and architectures to support capability development via the joint capabilities integration and development system (JCIDS) process.
- (5) Provide subject matter expertise on the capabilities of national systems; provide this information to the commander and staff in support of deliberate and crisis action planning.
- (6) Participate in working groups and provide input to DoD, joint staff, inter service, and IC, on the development of space operations requirements, strategy, doctrine, and training to support service equities.
- (7) Assist in the development and execution of exercises, experiments, and wargames involving space operations and related activities.
- (8) Provide input and coordination to space-related education and training across the Marine Corps, to include support to formal training and education. Provide professional development of and mentorship to the space operations community of interest.
- (9) Develop and support training in a denied, degraded, or disrupted space operating environment (D3SOE).
- (10) Integrate space operations into the MAGTF targeting process. Integrate MAGTF requirements in the development and execution of space-related targets via the targeting enterprise.
- (11) Provide oversight on the planning and execution of space control and space control electronic warfare.
- (12) Supervise or support other space operations Marines. Maintain understanding of all MOS 0540 requirements; assist with tasks as required.

e. Related Standard Occupational Classification (SOC) Title and Code.
Atmospheric and Space Scientists 19-2021.

f. Related Military Skill. MOS 0540 Space Operations Staff Officer.

19. MOS 8870, Special Operations Strategic Planner (LtCol to Capt) FMOS, DC PP&O

a. Summary. The Special Operations Analyst participates in studies and analyses of strategy/policy and complexities within, dynamics of inter/intra state conflict, historical and comparative perspectives of special

operations, WMD proliferation and counter-proliferation, special operations doctrine, concepts, and institutions, crisis management and the contingent use of military power, terrorism, social revolution, and unconventional warfare.

b. Prerequisites

(1) Possess the MOS of 0370.

(2) Security requirement: Eligibility for TS/SCI security clearance and a special background investigation (SBI) completed within the last five years.

(3) Possess a bachelor's degree from a college or university that is institutionally accredited by one of the six regional accrediting agencies.

(4) Possess a minimum academic profile code (APC) of 265.

c. Requirements

(1) Conduct a successful operational deployment in a SOF billet.

(2) Complete one of the following: Naval Postgraduate School (NPS), Defense Analysis, Special Operations and Irregular Warfare (SO/IW) 699 Curriculum, National Defense University (NDU) Joint Special Operations Master of Arts (JSOMA) or a graduate degree with course material relevant to Special Operations, Low-intensity Conflict, National Security and International Security.

d. Duties

(1) Participates in strategic analysis of past operations, and applies historical lessons to future joint and combined operations, in order to discern the relationship between a nation's political interests and goals and the ways military power may be used to achieve them.

(2) Uses knowledge of political, ethnic, and cultural dynamics that explain the outbreak of war between and within modern States.

(3) Uses analytical methods and their application to military modeling, simulations, and gaming.

(4) Provides detailed and conceptual understanding of the development of doctrine for special operations.

(5) Provides detailed understanding of the problems of domestic and international terrorism, social revolution, and other forms of irregular conflict.

(6) Provides understanding of the political role played by military power in operations short of war, the problems of military crisis management, and the contingent use of force in support of local U.S. policy objectives.

(7) Provides understanding of the ways in which the proliferation of new and emerging technologies is changing the shape of modern warfare.

(8) Provides understanding of the likely and potential implications of information warfare on future special operations.

(9) Reviews the historical use of Special Operations Forces, to include how these and similar forces have been organized, trained, equipped, directed, and employed.

(10) Reviews historical and contemporary "small wars" and other forms of low-intensity conflict in Latin America, Asia, and the Middle East.

(11) Performs operational liaison for MAGTF-SOF integration, and with other military and government agencies that conduct Special Operations.

(12) Performs any or all of the above duties and tasks in the realm of Special Operations analysis at top management levels, and research and development activities.

e. Related Standard Occupational Classification (SOC) Title and Code.
Management Analysts XX-XXXX.

f. Related Military Skill. None.

20. MOS 8878, Historian (LtCol to 2ndLt) FMOS, CG TECOM

a. Summary. Marine Corps Historians function as coordinators of historical activities and participate in a military historical writing program of military historical institutions.

b. Prerequisites. None.

c. Requirements. Must possess a master's degree in history from an accredited university.

d. Duties

(1) Researches and writes official histories of Marine Corps activities.

(2) Supervises, as required, the preparation of such histories with background in historical references, libraries, and archives.

(3) Participates as researcher, interviewer, and editor in oral history interviews with senior officers and key participants in-significant Marine Corps activities.

(4) Monitors the conduct of oral history interviews by field organizations.

(5) Instructs or may instruct in military history, with emphasis on amphibious warfare, at officer schools.

(6) Prepares lesson plans and supporting instructional material.

(7) Advises commanding officers on historical matters.

(8) Instructs or may instruct in naval service educational institutions such as Command and Staff Colleges or the U.S. -service academies.

e. Related Standard Occupational Classification (SOC) Title and Code.
Historians 19-3093.

f. Related Military Skill. None.

1148. OCCUPATIONAL FIELD 97, REPORTING MOS1. MOS 9701, Joint Specialty Officer Nominee (Col to Capt) FMOS, DC M&RA

a. Summary. Joint Specialty Officer (JSO) Nominees are officers that do not fully qualify for the 9702 Joint MOS.

b. Prerequisites

(1) Must be a senior captain or be serving in the grade of major or above.

(2) Must be identified as a JSO by the Secretary of Defense.

c. Requirements. Complete Professional Joint Education (PJE) Phase I, or serve in a critical occupational specialty (COS), (0302, 0802, 1302, 1802, 72XX, or 75XX) on an initial joint duty assignment (JDA).

d. Duties. The duties will be as prescribed and designated by the command or activity to which assigned.

e. Related Standard Occupational Classification (SOC) Title and Code. Officer Military Training/Reporting/Special Duty Code (no related SOC) 00-0002.

f. Related Military Skill. None.

2. MOS 9702, Joint Specialty Officer (JSO) (Col to Maj) FMOS, DC M&RA

a. Summary. Joint Specialty Officers (JSO) are officers normally in the grade of Major and above who have been awarded the JSO designation by the Secretary of Defense per Chapter 38 of reference (ao). This MOS appears in the special information block on the master brief sheet on the basic individual record. This MOS will never appear as a primary or additional.

b. Prerequisites. Must be serving in the grade of Major or above.

c. Requirements

(1) The Joint MOS will be assigned only by the Commandant of the Marine Corps and will be used primarily for assignment purposes.

(2) After 1 October 1989, an officer must normally have completed JPME Phases I and II followed by a full JDA.

Note: During the transition period from 1 October 1986 until 1 October 1989, Title X allowed some flexibility in qualifying officers for the JSO designation. Officers awarded the JSO designation during this period had to meet less stringent requirements.

d. Duties. The duties will be as prescribed and designated by the command or activity to which assigned.

e. Related Standard Occupational Classification (SOC) Title and Code. Officer Military Training/Reporting/Special Duty Code (no related SOC) 00-0002.

f. Related Military Skill. None.

CHAPTER 2

OFFICER CONVERSION GUIDANCE

2001. IMPLEMENTATION OF MOS CONVERSION1. Deputy Commandant, Manpower and Reserve Affairs

a. Director, Manpower Plans (DC M&RA (MP)). Modify models to reflect MOS changes shown in figure 2-1.

b. Director, Personnel Management Division (DC M&RA (MM)). Modify models and other supporting information systems to reflect MOS changes shown in figure 2-1. The Type Transaction Code (TTC) conversion for the Marine Corps Total Force System (MCTFS) will convert MOSs (BMOS and PMOS) and add requisite Non-PMOS (as applicable). Action will be accomplished by the DC M&RA (MM) on 1 October 2021 to convert the present MOS codes being revised as listed in the table of MOSs to the new MOS codes listed (refer to figure 2-1).

c. Director, Management Information Systems Division (DC M&RA (MI)). Update the MCTFS MOS Tables prior to the DC M&RA (MM, RA) submission of the TTC conversions that will occur on 1 October 2021.

2. Commanding General, Marine Corps Recruiting Command (CG MCRC (R)). Ensure MOS conversions are entered into the Marine Corps Recruit Information Support System (MCRISS) on 30 April 2021.

3. Commanding General, Training and Education Command (CG TECOM) MAGTF Training and Education Standards Division (C 466). Conduct a final coordination meeting and then release an advisory to Marine forces, which will announce revision of this Manual and serve as the source document on 30 April 2021.

4. Director, Total Force Structure Division (DC CD&I (TFS)). Update the Total Force Structure Management System (TFSMS) to reflect the MOS conversions contained in figure 2-1 in or about February 2021.

5. Marine Corps Reserve

a. DC M&RA (RA). Coordinate retraining of Prior Service MOS Retraining Program (PSMRP) Marines and Active Reserve (AR) Marines as required for MOS conversion, subject to the availability of funds.

b. The Commander, Marine Forces Reserve (COMMARFORRES). Coordinate retraining of SMCR Marines as required for MOS conversion, subject to the availability of funds.

c. The Commanding General (CG), Marine Individual Reserve Support Organization (MIRSO). Make appropriate OQR entries for Individual Mobilization Augmentees, Individual Ready Reservists, and Standby Reservists using as authority the DC M&RA (MM) conversion action appearing on the RUC's DFR with an origin of "HQ".

2002. COMMANDING OFFICER'S RESPONSIBILITIES

1. Active component units verify appropriate conversion actions appearing on the RUC's Diary Feedback Report (DFR) with an origin code of "HQ".

2. Commanding Officers will ensure that no unit diary entries are submitted based on the revisions of this Manual until after the 1 October 2021 batch change performed by DC M&RA (MM). Omissions from the batch changes should be coordinated with DC M&RA (MM) before changes are submitted by the unit.

3. Directors of Marine Corps formal schools and commanders of training detachments will award current MOSs until directed by MARADMIN to implement new conversions (usually coinciding with new fiscal year).

CHAPTER 3

ENLISTED OCCUPATIONAL SYSTEM

3001. GENERAL

1. This chapter is divided into two sections. Section 1 contains Enlisted MOS Occupational Systems and section 2 contains the alphabetical listing of enlisted MOSs.

2. The data in this chapter identifies Marine Corps enlisted skills for requirements within specific functional areas. With the exception of the restrictions set forth in reference (e), Marine Corps Personnel Assignment Policy, female Marines may be assigned in all OccFlds.

CHAPTER 3

ENLISTED OCCUPATIONAL SYSTEM

SECTION 1: ENLISTED MOS DESCRIPTIONS

3101. INFORMATION. The enlisted OccFlds are displayed in numerical sequence and the enlisted MOS follow in numerical sequence within the OccFlds. Each OccFld has an introduction on the range of functional duty areas; knowledge, skill, and ability; and the basic MOS descriptions for the OccFld. Each enlisted OccFld provides a line flow diagram depicting promotional progression and formal school training. The following format is utilized to describe enlisted MOSs:

3102. Title. The MOS code, a narrative description, the grade(s), and MOS Sponsor.

3103. Body

1. Summary

2. Prerequisites

3. Requirements

4. Duties

5. Related SOC Classification/SOC Code. The related Standard Occupational Classification/SOC code lists the comparable civilian classification title(s) and code(s) that are presented in the U.S. Department of Labor Standard Occupational Classification (SOC) List.

6. Related Military Skill. Another Marine Corps or other US military occupational specialty (MOS) that the occupational field (OccFld) manager deems similar in duties, description, mission, prerequisites, requirements, and/or qualifications. The identification of a related military skill will provide better understanding to those unfamiliar with the MOS. This is an optional field.

7. Non-PMOS (as appropriate)

3104. OCCUPATIONAL SYSTEM. The Marine Corps Occupational System has been constructed on the concept that similar skill and knowledge requirements are grouped in functional areas, known as OccFlds, which provide for the most efficient and effective classification, assignment, promotion, and utilization of Marine Corps personnel.

3105. MOS SYSTEM

1. OccFld. The OccFld is identified by the first two digits of a four-digit number and a descriptive title. The OccFld is a grouping of related MOSs. Criteria to be considered in establishment of an OccFld include the total number of Marines in the field, the number of MOSs (diversity), combat or combat support requirements, rotation base, training requirements, promotion opportunity, and the self-renewing characteristics of the field.

2. MOS

a. An MOS code has four digits and a descriptive title. The MOS describes a group of related duties and task that extend over one or more grades. Duties and tasks are identified by grade since the Marine Corps MOS system is predicated on the fact that increased duties and tasks accompany promotion to higher grade. The first two digits designate the OccFld and the last two digits identify the promotional channel and specialty within the OccFld.

b. Criteria to be considered in establishment of an MOS include the number of Marines required in the specialty, combat or combat support relationship, rotation base, training requirements, specialty requirements/prerequisites, promotion opportunity, and career pattern.

c. The MOS is used to identify skill requirements of billets in T/Os.

3106. BASIC MOSs. Each OccFld contains a basic MOS; e.g., MOS 0100, Basic Personnel and Administration Marine. A basic MOS represents the entry-level learner in an OccFld. It is assigned as a specific MOS in that field or upon being assigned for retraining; a Marine's primary MOS (Gunnery Sergeant through Private grades) will be changed to the basic MOS in the OccFld while in a retraining status. Basic MOSs will be assigned as primary per reference (b), ACTS Manual, chapter 1.

3107. OTHER CATEGORIES OF MOSs

1. Primary MOSs (PMOS) and non-Primary MOSs (Non-PMOS) are found in Regular OccFlds and Miscellaneous Requirements MOSs. Non-PMOSs are of three types: Necessary, Free, and Exception. Definitions of the types of MOS can be found in the glossary of the Introduction to the Manual.

2. Reporting MOSs and Billet Designators. Definitions of these MOSs can be found in the glossary of the Introduction to the Manual.

3. NOTE: The following symbols are used throughout the MOS Manual:

* - indicates Billet Designator MOSs.

- indicates a note at the end of the MOS.

3108. OCCUPATIONAL FIELD 01, MANPOWER AND ADMINISTRATION

1. Introduction. The Manpower Administration and Retention OccFld include the operation and management of administrative and clerical functions in the areas of general administration, personnel administration, operational administration, manpower administration, and postal service. Qualifications required include basic clerical skills, and communication abilities. The duties involve administrative, managerial, and technical skills. Administrative Specialists are required to learn clerical and administrative procedures and processes, office management, personal computer skills (personnel and pay database retrieval and word processing), preparation and use of military publications and correspondence, preparation of orders and directives, and the use of filing systems and record keeping. Formal schooling is provided to Marines entering this OccFld. Types of entry-level jobs available include work as an Administrative Specialist and Postal Clerk. There are a wide variety of billets available in this OccFld assignment ranging from duty at the staff level in the operational, garrison, and joint duty assignments to the opportunity to serve on independent duty in support of the Selected Marine Corps Reserve. Marines entering this OccFld will receive MOS 0100 and will participate in routine personnel and administrative functions while training for 0111 MOS within the OccFld. The mission essential task list is used by formal schools and unit commanders to determine proficiency, evaluate individual training, and maintain quality control.

2. MOS 0111, Administrative Specialist (MGySgt to Pvt) PMOS, DC M&RA

a. Summary. Administrative Specialist responsibilities include the management of administrative and clerical functions in the areas of general administration, personnel administration, operational administration, and manpower administration. The required qualifications include basic clerical and communication skills. Administrative Specialists are required to learn administrative procedures and processes, pay and personnel information, preparation of orders and directives, correspondence, and the use and maintenance of filing systems. There are a wide variety of billets available in this MOS ranging from duty at the staff level in the operational, garrison, joint duty assignments and the opportunity to serve on independent duty in support of the Selected Marine Corps Reserve (SMCR).

b. Prerequisites

- (1) Must possess a CL score of 100 or higher.
- (2) Must be a U.S. citizen.
- (3) Security requirement: secret security clearance eligibility Tier

3.

c. Requirements. Complete the Administrative Specialist Course (M03AAX8) conducted at Camp Lejeune, NC. MOS 0111 is assigned upon completion of the Administration Specialist Course.

d. Duties. For a complete listing of duties and tasks, refer to reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Human Resources Assistants, Except Payroll and Timekeeping, 43-4161.

(2) Office Specialist, General 43-9061.

f. Related Military Skill. None.

3. MOS 0147, Equal Opportunity Advisor (EOA) (MGySgt to SSgt) FMOS, DC M&RA

a. Summary. The primary mission of Equal Opportunity Advisors (EOA) is to provide advice to supported commanders. They attend the Equal Opportunity Advisor course (EOAC) at the Defense Equal Opportunity Management Institute (DEOMI), Patrick AFB, FL. The EOAC is an initial skills training course designed to develop a base of knowledge and skills that will allow graduates to assess human relations climates in the organizations they serve. EOAs provide advice and assistance to commanders to prevent, reduce, or eliminate prohibited activities and conduct. Graduates are certified to serve as full-time EOA (Tier II "B" Billet). The curriculum is a combination of general DoD curriculum and specific Marine Corps policy guidance. Upon graduation, EOAs serve as Program Managers responsible for managing command compliance with program requirements. They act as subject matter experts on investigations into allegations of discrimination, harassment (to include sexual harassment), hazing, bullying, and other prohibited activities, as directed by cognizant authority; advise commanders and military personnel on complaint resolution procedures; conduct inspections of command level MEO programs, as directed by cognizant authority; assist in unit DEOCS climate assessment, as directed by cognizant authority; assist the command's EO representatives with unit EO training, cultural events or celebrations on those days set aside for recognition of contributions of various groups; and provide input into policies and programs for supported commands. EOAs assist commanders, at all levels with monitoring organizational EO climate, identifying trends and areas of concern, and suggesting methods for improving command climate. EOAs conduct trainings and seminars on a variety of human relations topics, and serve as the command point of contact for MEO training resources and materials.

b. Prerequisites. Must meet the prerequisites prescribed in reference (b).

c. Requirements. Must meet the requirements prescribed in reference (b).

d. Duties. For a complete listing of duties and tasks, refer to NAVMC 3500.3B Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Human Resources, Training, and Labor Relations Specialists, All Other 13-1079.

f. Related Military Skill. None.

4. MOS 0149, Substance Abuse Control Specialist (MGySgt to SSgt) FMOS, DC M&RA

a. Summary. Substance Abuse Control Specialists provide substance abuse education/prevention, urinalysis/alcohol screening and assistance to the commander on substance abuse related matters.

b. Prerequisites. None.

c. Requirements. This MOS will be assigned only as a FMOS. Authority to issue this FMOS will remain with the local command delegated to the unit level.

d. Duties. For a complete listing of duties and tasks, refer to reference (b), Equal Opportunity Advisor.

e. Related Standard Occupational Classification (SOC) Title and Code. Mental Health and Substance Abuse Social Workers 21-1023.

f. Related Military Skill. None.

5. MOS 0161, Postal Clerk (MGySgt to Pvt) PMOS, DC M&RA

a. Summary. Postal Clerks perform all duties necessary to the efficient operation of a Marine Corps Post Office. Mail handling duties can include, but are not limited to accepting, sorting, manifesting and dispatching all types of mail, to include official mail. Postal Clerks also issue and cash USPS money orders, sell stamps, apply postage to, and mail out parcels. They perform any other duties in connection with the proper running of a postal operation. Only Postal Marines receiving formal training as listed in the prerequisites and assigned to a military postal facility, may be given this MOS. Postal Clerks will not be assigned to unit mailrooms to conduct mail clerk/orderly functions.

b. Prerequisites

(1) Must possess a CL score of 100 or higher.

(2) Security requirement: secret security clearance eligibility.

(3) Must have no record of derogatory information or unfavorable conduct that casts doubt on the Marine's trustworthiness and honesty.

(4) No history of psychiatric disorder, alcoholism, or drug abuse unless a medical evaluation determines the conditions no longer exist.

(5) No convictions by court martial, UCMJ punishment for postal related offenses within the last 3 years or civilian convictions other than minor traffic violations.

c. Requirements. Complete the Postal Operations Course (A350151), Ft Jackson, SC; or complete 6 months OJT to standard for grade per the individual training standards.

d. Duties. For a complete listing of duties and tasks, refer to reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Post Office Clerk 243.367-014.

(2) Supervisor, Mails 243.137-010.

f. Related Military Skill. None.

6. MOS 0171, Manpower Information Systems (MIS) Analyst (MGySgt to Cpl) NMOS (0111), DC M&RA

a. Summary. Manpower Information System Analysts serve as the functional managers of specific, fielded Manpower Information Systems in a regional jurisdiction. These Marines serve as critical management supervisors for the Marines Corps Total Force System (MCTFS) which impacts all active, reserve and retired personnel. MIS Analysts provide procedural assistance in the preparation, submission, retrieval and audit of records and reports within the MCTFS, the Unit Diary/Manpower Integrated Personnel System (UD/MIPS), the On-line Diary System (OLDS), SABRS Manpower Analytical Retrieval Tool System (SMARTS), and other automated manpower information systems. Typical duties of MIS Analyst include research, procedural or system problem solving for reporting units, monitoring completion of class I systems cyclic updates, Marine Online (MOL) issues, and conducting educational/training contact visits to both active and reserve reporting units within the regional jurisdiction. Duties of this magnitude require that they typically support over 100 reporting units and anywhere from 20,000 to 70,000 Marines within their respective geographical region. MOS 0171 can only be assigned upon completion of 12 months OJT in a Manpower Information System Support Office (MISSO) with approval of the Officer in Charge of MISSO and Director, Manpower Information Systems Support Activity (MISSO). MOS 0171 should be considered more extensive than MOS 0111 requirements due to the broad spectrum of functional areas covered. This MOS will be assigned a NMOS only.

b. Prerequisites. Must possess MOS 0111.

c. Requirements

(1) Demonstrate qualification through performance during a 12 month tour in MISSA/MISSO.

(2) Assignments are made to qualified Marines who:

(a) Demonstrate advanced proficiency of a window working environment.

(b) Demonstrate advanced proficiency of the Marine Corps standard word processing and database software.

(c) Demonstrate advanced knowledge of Local Area Network (LAN), Wide Area Network (WAN), and Deployed Local Area Network (DLAN).

(d) Demonstrate advanced knowledge and capabilities of Marine Corps Total Force System (MCTFS).

(e) Demonstrate advanced knowledge and capabilities of Unit Diary/Manpower Integrated Personal System (UD/MIPS).

(f) Demonstrate advanced knowledge of Terminal Areas Security Officer (TASO) responsibilities/duties.

(g) Demonstrate advanced knowledge of the Automated Pay System.

d. Duties. For a complete listing of duties and tasks, refer to reference (d), Personnel and Administration Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Computer Systems Analysts 15-1051.

f. Related Military Skill. Administrative Specialist, 0111.

3109. OCCUPATIONAL FIELD 02, INTELLIGENCE

1. Introduction. The Intelligence OccFld conducts the collection, processing, and dissemination of intelligence. The specialties within the Intelligence OccFld are analysis, counterintelligence, imagery intelligence, geospatial intelligence and human intelligence. Basic qualification requirements include clerical, communication, and computer skills. Intelligence Specialists are required to learn and master a variety of analytical and technical skills. Formal schooling is mandatory for assignment of an intelligence MOS. Entry-level Marines enter the field in MOS 0231(Intelligence Specialist), MOS 0241 Imagery Analyst), or MOS 0261 (Geospatial Intelligence Specialist). Entry into MOS 0211, Counterintelligence/Human Source (CI/ HUMINT) Specialist is accomplished by lateral move. Duty assignments vary widely from all levels of the Operating Forces to Joint Staffs, to Unified Commands. Intelligence Marines also have the opportunity to serve in billets such as drill instructor, recruiter, and Marine Security Guard duty. Marines entering the OccFld will receive MOS 0200, Basic Intelligence Marine, while participating in on-the job training (if required) and/or attending formal school. All Marines assigned an intelligence MOS must submit a Single Scope Background Investigation (SSBI) prior to attending formal school. Intelligence MOS Marines must have an adjudicated SSBI to qualify for assignment of one of the primary intelligence MOSs. Intelligence MOS Marines are required to have a Defense Language Aptitude Battery (DLAB) test score on file in their official military personnel file (OMPF). There is no minimum DLAB score required before being assigned as 02XX PMOS. Intelligence MOSs are assigned and voided only by the Commandant of the Marine Corps (MM) in coordination with the OccFld specialist's recommendations.

2. MOS 0211, Counterintelligence/Human Intelligence (CI/HUMINT) Specialist (MSgt to Cpl) PMOS, DIR INTEL

a. Summary. CI/HUMINT Specialists are involved in all facets of planning and conducting CI and HUMINT operations and activities. CI activities are concerned with identifying and counteracting the threat to friendly forces by hostile intelligence organizations, or by persons engaged in espionage, sabotage, subversion or terrorism. HUMINT activities are designed to obtain intelligence information where the human being is the primary collection instrument. CI/HUMINT specialists are expected to possess a working knowledge of the organization, operations, and techniques employed by foreign intelligence services and terrorist organizations. CI/HUMINT Marines obtaining a qualifying DLAB score can receive language training. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Must be a volunteer Corporal, Sergeant, or Staff Sergeant of any MOS. Lance Corporals may be screened for lateral move on a case-by-case basis, provided they are within their FTAP cohort year. If successfully screened and selected, Lance Corporals will not receive the 0211 MOS until successful completion of the Marine Air Ground Task Force Counterintelligence/Human Intelligence Course and successfully achieving the rank of Corporal.

(2) Must be interviewed and recommended for a lateral move by a panel of only Marine Corps CI/HUMINT personnel.

(3) Must be a U.S. citizen.

(4) Must possess a GT score of 110 or higher (may be waived).

(5) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation/T5 investigation.

(6) Must be 21 years of age prior to graduation from the MAGTF CI/HUMINT Course (N46HFW2).

(7) Must have 60 months obligated service upon LATMOVE approval to the PMOS 0211.

(8) Must submit to a Counterintelligence Scope Polygraph Examination.

(9) Must possess a valid U.S. driver's license.

(10) Must complete the HQMC (I) approved pre-resident training prior to attending the MAGTF CI/HUMINT Course (N46HFW2).

(11) Must be worldwide deployable when approved for lateral move into the 0211 MOS.

c. Requirements

(1) Marines must complete the MAGTF CI/HUMINT Course (N46HFW2), Marine Corps Intelligence Schools (MCIS), Dam Neck, VA. Failure to attend and pass the MAGTF CI/HUMINT Course will result in an MOS reclassification or separation per current MMEA guideline and applicable MCOs.

(2) Marines must attend the MAGTF CI/HUMINT Course within 6 months of reporting to a command offering PRT.

(3) Marines who complete Marine Corps approved language training and achieve Defense Language Proficiency Test (DLPT) scores of 1+/1+ or higher will be assigned an EMOS 27XX in the appropriate language. Marines assigned an EMOS of 27XX shall maintain a minimum proficiency of 1+/1+ on the DLPT in their assigned 27XX language.

(4) Marines may be assigned to specialized billets requiring advanced training. Requirements and selection for this training will be managed in coordination with subordinate Marine Corps units by HQMC (I). Training in excess of 120 days will incur time in service obligation. Prior to assignment the Marine must obtain 36 months of obligated service. Marines failing to meet the obligated service requirements will not be assigned to a specialized billet.

d. Duties. For a complete listing of duties and tasks, refer to reference (g), Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

3. MOS 0212, Technical Surveillance Countermeasures (TSCM) Specialist (MSgt to Sgt) NMOS (0211), DIR INTEL

a. Summary. Technical Surveillance Countermeasures Specialists are involved in all facets of planning and conducting tactical, strategic, and joint TSCM operations and activities. These activities are designed to detect and neutralize a wide variety of hostile technical surveillance technologies designed to obtain unauthorized access to classified and sensitive information. TSCM Specialists are expected to possess a working knowledge of the techniques and equipment employed by foreign intelligence entities (FIE) and terrorist organizations to obtain information from controlled facilities through technical means. TSCM Specialists normally perform as members of a Marine Corps TSCM team and may also serve with other Service or Joint TSCM teams, as TSCM instructors, or as TSCM representatives to Department of Defense (DoD) and National-level agencies. This MOS is to be assigned only as a NMOS and will be assigned and voided only by the authority of the CMC (MM).

b. Prerequisites

- (1) Must hold primary MOS 0211.
- (2) Must be a Sergeant or above.
- (3) Prior to entry into TSCM training, must have 36 months of remaining obligated service upon graduation from training.
- (4) Must be interviewed and recommended for training as a TSCM Specialist by a board of Marine TSCM personnel, per reference (cu).

18. MOS 0372, Critical Skills Operator (MGySgt to Sgt) PMOS, DC PP&O #

a. Summary. Critical Skills Operators (CSO) are Marines trained to execute missions in the Special Operations Core Activities of Foreign Internal Defense (FID)/Security Force Assistance (SFA), Direct Action (DA), Special Reconnaissance (SR), Counter-Terrorism (CT), support to Information Operations (IO), support to Unconventional Warfare (UW), and support to Countering Weapons of Mass Destruction (CWMD) as part of the Marine Corps component to USSOCOM. CSO Marines possess high levels of maturity, experience, judgment and the ability to rapidly apply critical thought to operational objectives. They are able to quickly achieve a commander's intent through mission orders and the effective application of these traits. CSO Marines are team-oriented, but are trained and ready to operate independently or as members of an element, team, company, battalion or regiment. They are capable of operations across the entire spectrum of special operations, from employment in isolated and austere locales with little-to-no conventional support to operations as fully integrated units in a variety of joint task organized configurations. CSO's possess a naval expeditionary character, and as such provide maximum versatility for Geographical Combatant Commanders. CSOs operate as cross-cultural diplomats and global scouts, with the unique ability to exert influence in areas and situations that are absent authority. They may also possess advanced language capabilities and cultural familiarity, and are adept at working by, with and through partner nation forces in pursuit of strategic goals and objectives. CSO's are capable of independent employment or rapid integration and interoperability with joint forces.

(2) Must attend a Psychological Operations Screening and Assessment and receive a recommendation for lateral move from the MOS Specialist.

(3) Must possess a GT score of 100 or higher.

(4) Security requirement: secret security clearance eligibility.

(5) Must have a first class physical fitness test (PFT) and combat fitness test (CFT) (accomplished during the PSYOP screening and assessment process).

(6) Must obligate to 48 months of service when approved for lateral move into the 0521 PMOS.

(7) Must be worldwide deployable when approved for lateral move into the 0521 PMOS.

c. Requirements

(1) Complete the Psychological Operations Specialists Course (A05M301) at the John F Kennedy Special Warfare Center and School, Ft Bragg, NC.

(2) Complete the Intermediate MAGTF Information Operations Practitioner Course (I-MIOPC) (N03F2G1) at Expeditionary Warfare Training Group-Atlantic.

d. Duties

(1) Develop MISO plans and advise the commander and staff on the conduct of MISO for all operations, contingencies and exercises.

(2) Analyze target audiences and evaluate effects of MISO operations; apply MISO techniques and methodology.

(3) Design and develop MISO products.

(4) Coordinate with Joint, interagency, and other personnel to meet mission requirements.

(5) Conduct MISO as directed by the commander during all phases of operations as a member of an Expeditionary MISO Team, Expeditionary MISO Detachment, IO Support Team, MISO Planning Team, or while serving in a MISO billet on a staff.

3113. OCCUPATIONAL FIELD 06, COMMUNICATIONS

1. Introduction. The Communications Occupational Field (OccFld) includes the design, installation, interconnection, operation and defense of networks in support of data systems to provide secure, non-secure, and coalition information exchange requirements in a tactical or garrison environment. Additional responsibilities include to operate and perform preventive maintenance on both hardware and software systems; including radio, telephone, cryptographic, network and data systems, which are essential links in the overall functions of communication and command and control. Marines serving in the communications field face the challenge of operating in a technological innovative environment where emerging capabilities and requirements demand highly skilled operators. Qualifications to work in this field include manual dexterity and language skills, must be eligible to hold a security clearance, able to master complex communication systems, computer networks, computer/cybersecurity related concepts, theory and troubleshooting. Marines entering the OccFld will receive MOS 0600, Basic Communications Marine, and will attend a basic communications course before entering a specialized MOS. Formal schooling is mandatory for assignment of a communications MOS. Types of entry-level jobs include work as a Transmissions System Operator, Troposcatter Transmissions Systems Operator, Satellite Transmissions System Operator, Network Administrator, and Data Systems Administrator. Lateral move opportunities are available in the following fields, Defensive Cyberspace Operations, and Information Security. The opportunity to participate in the Northern Virginia Community (NOVA) College advanced standing credit program in order to achieve a Cybersecurity Associate of Applied Science degree is available in some MOSs within OccFld 0600. Additionally, some MOSs within the 0600 OccFld qualify for apprenticeship or certification credentials provided by the Department of Labor Apprenticeship or the Marine Corps Cool program. Detailed information on tasks and training objectives can be found in reference (i), the Communications Training and Readiness Manual.

2. MOS 0621, Transmissions System Operator (Sgt to Pvt) PMOS, DIR C4

a. Summary. Transmissions System Operators employ transmissions systems to enable command and control. Typical duties include the operation and maintenance of the Very Small Aperture Terminal-Expeditionary (VSAT-E), High Frequency (HF), Very High Frequency (VHF), Super High Frequency (SHF) and Ultra High Frequency (UHF) vehicular or man pack radio sets, including antennas and power sources, establishing contact with distant stations, processing and logging of messages, conducting frequency changes or cryptographic codes and maintaining equipment at the first echelon. Additional skills include planning, coordinating, executing operations while utilizing program of record equipment and field-expedient antennas to integrate communication networks. Operators will be familiar with spectrum analyzing tools, specialized computer hardware/software programs, transmission security (TRANSEC), and communications security (COMSEC). Skill progression training for Staff Sergeant through Corporal is the Transmissions Supervisor Course located at Camp Pendleton (M10BNPB), Camp Lejeune (M03BNPG), and Okinawa (M22BNP4) at the Regional Communications Training Centers. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 105 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Complete the Basic Communications Course, (M09KJT1).

c. Requirements. Complete the Tactical Transmission Operator Course (M0925U1) at Marine Corps Communications-Electronics School, at Twentynine Palms, CA.

4. MOS 0627, Satellite Transmissions System Operator (Sgt to Pvt) PMOS, DIR C4

a. Summary. Satellite Transmissions System Operators install, operate and maintain various wideband satellite communication terminals operating in the AEHF, KU, KA, X, and L bands. Marines will be trained to operate complex satellite systems to integrate communication networks and enable command and control. Operators will be familiar with spectrum analyzing tools, specialized computer hardware/software programs, transmission security (TRANSEC), and communications security (COMSEC). Skill progression training for Staff Sergeant through Corporal is the Transmissions Supervisor Course located at Camp Pendleton (M10BNPB), Camp Lejeune (M03BNPG), and Okinawa (M22BNP4) at the Regional Communications Training Centers.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 105 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Complete the Basic Communications Course (M09KJT1).

(6) Complete the Tactical Transmission Operator Course (M0925U1) at Marine Corps Communications-Electronics School, Twentynine Palms, CA.

c. Requirements. Complete the Satellite Communications Operator Course (A09P9H1) at the U.S. Army Signal School, Ft Gordon, GA.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

- (1) Space Planning and Waveform Integration Officer, 0620.
- (2) Transmissions System Operator, 0621.
- (3) Transmissions Chief, 0629.
- (4) Spectrum Manager, 0648.
- (5) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.

5. MOS 0629, Transmissions Chief (GySgt to SSgt) PMOS, DIR C4

a. Summary. Transmissions Chiefs install, operate, maintain, and supervise advanced transmissions operations; develop site plans for Line of Site (LOS), troposcatter and satellite communications systems, coordinates the development of the Communications Electronic Operating Instruction (CEOI). The Transmissions Chief is responsible for training, security

measures, employment of transmission equipment, systems integration with networks for all elements of transmission, data communications, wireless architecture and cybersecurity. Additionally, Transmissions Chiefs must be thoroughly familiar with frequency management, spectrum requirements, programming and planning tools, maintenance procedures, budgeting, and administration processes. Recommendation: Transmissions Chiefs plan, manage installation, operate, maintain, and supervise advanced transmissions operations; develop site plans for Line of Site (LOS), troposcatter and satellite communications systems, coordinates the development of the Communications Electronic Operating Instruction (CEOI). The Transmissions Chief is responsible for training, security measures, employment of transmission equipment, systems integration with networks for all elements of transmission, data communications, wireless architecture and cybersecurity. Additionally, Transmissions Chiefs must be thoroughly familiar with frequency management (planning for and managing frequency requirements, request process, time lines, and use of allocated spectrum) spectrum requirements, programming and planning tools, maintenance procedures budgeting, and administration processes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 105 or higher.
- (3) Must possess MOS 0621 or 0627.
- (4) Security requirement: secret security clearance eligibility. Some operational billets may require top secret.
- (5) Complete the Transmissions Supervisor Course at a regional Communications Training Center: Camp Pendleton (M10BNPB); Camp Lejeune (M03BNPG); or Okinawa (M22BNP4).

c. Requirements. Complete the Transmissions Chief Course (M09BNL1) at Marine Corps Communications-Electronics School, Twentynine Palms, CA.

- (7) Aviation Communication Systems Technician, 5939.

(8) Air Traffic Control Communications Technician, 5954.

6. MOS 0631, Network Administrator (Sgt to Pvt) PMOS, DIR C4

a. Summary. Network Administrators install operate and maintain local area networks (LAN) and wide area networks (WAN) to enable command and control. Typical duties include routing/switching configuration, cybersecurity, premise wiring, installation of network components. They establish technical control sites, conduct fault analysis, circuit testing and end to end troubleshooting. Additional responsibilities include, network monitoring and quality of service (QOS) to maintain adequate bandwidth utilization in of communication networks and data services. Network Administrators will maintain records on activation/deactivation of communications links and maintenance actions performed. Marines will be familiar with routing protocols, virtual private networks (VPN), internet protocol security (IPSEC), subnetting, traffic monitoring and cybersecurity. Skill progression training for Staff Sergeant through Corporal is the Network Supervisor Course located at Camp Pendleton (M10BNPB), Camp Lejeune (M03BNPG), and Okinawa (M22BNP4) at the Regional Communications Training Centers. Marines in this MOS may be assigned to a BIC within their occupational field that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.

- (5) Tactical Data Systems Technician, 5974.

7. MOS 0633, Network Transport Technician (Sgt to Pvt) NMOS (0631), DIR C4

a. Summary. Network Transport Technicians are responsible for performing duties in commercial outside plant, cable distribution systems, install and maintain fiber optic, copper, and coaxial cable according to safety regulations and standards. Typical duties include planning and integrating cable distribution systems with host nation systems, operating specialized construction equipment (line trucks, trenchers, and rock saws), installing structured cabling systems in buildings, emplacing underground conduit distribution systems and conducting aerial cable installation.

b. Prerequisites. Must possess MOS 0631.

c. Requirements. Complete the Communications Cable and Antenna Systems Apprentice Course (F03BNB1) Sheppard AFB, TX.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

8. MOS 0639, Network Chief (GySgt to SSgt) PMOS, DIR C4

a. Summary. Network Chiefs install, operate, maintain, and supervise local area networks (LAN) and wide area networks (WAN) to enable command and control. The Network Chief is responsible for training, advanced routing/switching, cybersecurity, locating and correcting faults, quality of service (QOS), implementation/management of the cable plan, long haul transport, internet (IP) management, encryption management, network monitoring, end to end systems integration and troubleshooting. Additionally, Network Chiefs must be thoroughly familiar with security, programming and planning tools, maintenance procedures, budgeting, and administration processes. Network Chiefs also supervise the establishment of the technical control sites. Marines in this MOS may be assigned to a BIC within their occupational field that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

9. MOS 0648, Electromagnetic Spectrum Management Chief (MSgt to Sgt) NMOS (0621, 0627, 0629, 0699), DIR C4

a. Summary. spectrum Manager coordinates, manages, and de-conflicts the use of electromagnetic spectrum (EMS) and spectrum dependent systems (SDS) ISO Marine Air Ground Task Force (MAGTF), joint, and coalition forces. Electromagnetic Spectrum Management Chiefs support Electromagnetic Spectrum Operations (EMSO) by conducting and providing input from the Electromagnetic Spectrum Management Operations interrelated functions of frequency management, host nation coordination, and interference reporting. Electromagnetic Spectrum Management Chiefs must be thoroughly familiar with and trained in international, national, DOD, Joint and Service level spectrum policy, allocations and frequency assignment procedures; spectrum supportability and certification procedures; coordination of Host Nation Approval (HNA); radio theory; spectrum analysis and engineering effects of electromagnetic compatibility (EMC); and determination, mitigation and resolution of electromagnetic interference (EMI). Electromagnetic Spectrum Management Chiefs implement policy and guidance for the effective and efficient use of the electromagnetic spectrum; administer and manage the MAGTF's use of national level and DOD associated spectrum databases; and coordinates the development of the Command and Control (C2) Communications Instructions (Currently-CEOI) and Joint Restricted Frequency List (JRFL) and ensures requirements are implemented into the EMSO Plan. Electromagnetic Spectrum Management Chiefs must be knowledgeable of the spectrum management process supporting all DOD/Service and commercial SDS.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 105 or higher and CL score of 105 or higher.

(3) Must have obtained the rank of Sergeant or above in one of the following MOSs: 0621, 0627, 0629, 0699, or 5948; 06XX Sgt's must have completed the Transmissions Supervisor Course located at Camp Pendleton (M10BNPB); Camp Lejeune (M03BNPG); or Okinawa (M22BNP4) at the Regional Communications Training Centers.

(4) Security requirement: top secret with sensitive compartmented information access eligibility.

c. Requirements

(1) Complete the Electromagnetic Spectrum Management Course (F0224L1) Biloxi, MS.

(2) Active duty Marines must have 24 months obligated service remaining upon graduation from the MOS producing school.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

(5) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.

10. MOS 0671, Data Systems Administrator (Sgt to Pvt) PMOS, DIR C4

a. Summary. Data Systems Administrators support a myriad of computer and Network Operating Systems (NOS) to include versions of Linux, Microsoft, and Unix, to enable command and control. Typical duties include active directory administration, Domain Name Service (DNS) Public Key Infrastructure (PKI), Warfighting Systems, cybersecurity, Database administration and Unified Communications. Marines will be familiar with command line interface and tools (CLI), performance monitoring, client/server configuration, voice and video services, storage administration, virtualization, collaborative tools, and troubleshooting of hardware/software. Skill progression training for Staff Sergeant through Corporal is the Data Systems Supervisor Course. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

11. MOS 0673, Applications Developer (GySgt to Sgt) NMOS (0671, 0679), DIR C4

a. Summary. Applications Developer encompass a broad spectrum of computer programming, web development, scripting, database querying, application development within an accredited Software Development Kit (SDK) to enable command and control. Marines will be able to analyze and evaluate system output; design and manipulate database information; work with application and software programs in order to access and manage data stored in the computer's memory or database file(s). Additional responsibilities will include developing software solutions to enhance information exchange requirements. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites. Must possess MOS 0671 or 0679.

c. Requirements. None.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

- (6) Aviation Logistics Information Management System Specialist, 6694.

13. MOS 0681, Information Security Technician (MGySgt to SSgt) PMOS, DIR C4

a. Summary. Information Security Technicians (IST) serves as the Marine Corps' primary functional proponent for the Department of the Navy's (DoN) Communications Security (COMSEC) and Cryptographic Key Management. These Marines provide day-to-day operation of the DoN's COMSEC Material Control System (CMCS). The duties include: coordinate for the provisioning of symmetric and asymmetric key products to support C4 systems in collaboration with communications planners for the development of communications instructions and support for elements of the Marine Air Ground Task Force (MAGTF) or other authorized elements requiring authorized support, provide information regarding new or revised COMSEC policies and procedures and their impact on the command, train and inspect COMSEC users within the command, monitors and maintains the command COMSEC material allowances performs spot checks of users to assess adherence to prescribed instructions. Also may serve as a Central Office of Record (COR) Auditor for COMSEC account inspections. Lateral move into this MOS may be from any MOS at the grade of Staff Sergeant. This MOS will be awarded to Marines approved for lateral move upon completion of one of the listed approved courses in subparagraph (c) below. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 100 or higher.
- (3) Must have attained the rank of Staff Sergeant and not having been passed twice in current MOS.
- (4) Security requirement: top secret security clearance eligibility.

c. Requirements

- (1) Complete one of the following courses:
 - (a) Key Management Infrastructure (KMI) (M10DR2B) Camp Pendleton, CA.
 - (b) Key Management Infrastructure (KMI) (M03DR2G) Camp Lejeune, NC.
 - (c) Key Management Infrastructure (KMI) (M22DR24) Camp Butler, Okinawa, Japan (Note: Marines desiring to attend a DoN run KMI Course of Instruction (COI) must coordinate that training with one of the USMC schoolhouses listed above).
- (2) Active component must have 24 months obligated service remaining upon graduation from the MOS producing school.
- (3) In accordance with the Key Management Infrastructure (KMI), Management Client (MGC), operational system security doctrine (OSSD) IOT fulfill the Client Platform Administrator (CPA) role for a COMSEC account,

the 0681 will need to meet the minimum certification/qualification per the OSD.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual. Marine Corps Electronic Key Management System (EKMS) Policy (MCO 2281.1A), and Electronic Key Management System (EKMS) Policy and Procedures for Navy EKMS Tiers 2 & 3, (EKMS-1B).

14. MOS 0699, Communications Chief (MGySgt to MSgt) PMOS, DIR C4

a. Summary. Communications Chief must possess thorough understanding of equipment capabilities and system integration for all elements of transmissions, networks, data systems, cybersecurity, information and communications security management. They are trained to evaluate technical supportability and limitations of communications equipment, draft systems architecture, communications plans, and coordinate technical interface and restoration issues with higher, adjacent, and subordinate commands. Additionally, they are responsible for manpower management, training, equipment accountability, and operational readiness. The Communications Chief can serve as the Senior Enlisted Advisor (SEA) to the Director of Command, Control, Communications and Computers (C4), Headquarters Marine Corps and at the Marine Corps Cyberspace Operations Group (MCCOG), Occupational Field Specialist on the staff of HQMC C4, and as Communications Chiefs for Communication Training Battalion, at the MARFOR level, and in all levels of the Marine Air-Ground Task Force (MAGTF). The duties of the Communications Chief encompass providing assistance and advice to MAGTF Commanders AC/S G-6, Commanders of Communication Battalions, and other designated commands concerning plans, policies, procedures and emerging communications requirement and capabilities led by HQMC C4 and other proponents and advocates. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess a EL score of 105 or higher.

(3) Must possess MOS: 0629, 0639, 0679.

(4) Security requirement: secret security clearance eligibility. Some operational billets may require top secret or top secret with sensitive compartmented information eligibility.

c. Requirements. Complete the Communications Chief Course (M09CHN1) at Twentynine Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (i), Communications Training and Readiness Manual.

- (4) Network Chief, 0639.
- (5) Data Systems Chief, 0679.
- (6) Air Traffic Control Systems Maintenance Chief, 5959.
- (7) Electronics Maintenance Chief (Aviation (C2)), 5993.

3114. OCCUPATIONAL FIELD 08, FIELD ARTILLERY

1. Introduction. The Field Artillery OccFld is divided among three functional areas: firing battery, field artillery operations, and field artillery observation/liaison. Qualifications include ability and learned skills to operate and maintain artillery equipment; basic technical and mathematical skills for computing, communicating, and executing fire commands; ability and attitudes supporting life and close work with others in a field environment; and performing duties involving hard technical skills as well as administrative and managerial skills. The duties that must be learned vary by functional area. Firing battery includes moving, emplacing, loading, firing, protecting, and maintaining field artillery cannon weapons systems. Field artillery operations involve moving, emplacing, operating, protecting, and maintaining equipment which acquires targets; provides, relates, and evaluates gun and target survey information, meteorological data, weapon system performance; and integrating these factors into orders and communicating these orders to the firing battery. Field artillery observation and liaison include checking and analyzing combat plans and communicating appropriate advice, planning and operating information to coordinate the fires of field artillery and naval guns with infantry and armor combat maneuvers; observing and reporting targets and other battlefield information; and adjusting observed fires on targets. Types of entry-level jobs include work as Field Artillery Cannoneer, Radar Operator, Fire Control Man, Sensor Support Marine, and as a Fire Support Man, spotting fires of artillery and naval gunfire. Formal schooling or field skills training is provided to Marines entering the OccFld. Because field artillery is the primary supporting arm for Marine Infantry and Armor, most of its billets are in FMF ground organizations. The Marine Artilleryman finds most assignment opportunities similar to the wide variety of billets available to those in other combat and combat support fields at all staff levels of the division and in various free billets. Marines entering this OccFld receive MOS 0800, Basic Field Artillery Marine, and under instruction and close supervision, perform routine duties incident to the firing, operation, and maintenance of field artillery pieces and related equipment. These Marines are trained for one of the MOSs in the field artillery OccFld and participate in routine functioning and tactical employment of the unit to which attached.

2. MOS 0811, Field Artillery Cannoneer (SSgt to Pvt) PMOS, DC PP&O

a. Summary. As a member of a Field Artillery Howitzer Battery, Cannoneers prepare artillery pieces and equipment for movement, combat, and firing. They inspect and prepare ammunition for firing, and perform the various jobs incident to firing such as, laying for elevation and deflection, loading the piece, and handling ammunition. Field Artillery Cannoneers perform preventive maintenance and clean artillery pieces and equipment. They make routine tests and authorize repairs to equipment. Camouflage position, protect equipment from chemical warfare agents, and construct field fortifications.

b. Prerequisites

(1) Must possess a GT score of 90 or higher.

(2) Must meet initial strength test standards associated with PEF assignments as listed in the glossary (pg. xiv) prior to shipping to recruit training.

(3) Must meet MOS classification standards as listed in the glossary (pg. xiv) prior to graduating from recruit training.

c. Requirements. Complete the Marine Corps Cannoneer Course (A200821), Ft Sill, OK. Demonstrate qualification through performance for MOS 0811; or completion of the appropriate MCI courses and demonstrate qualification through MOJT.

d. Duties. For a complete listing of duties and tasks, refer to reference (k), Artillery Training and Readiness (T&R) Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors/Managers of Weapon Specialists/Crewmembers 55-2012.

(2) Artillery and Missile Crewmember 55-3014.

f. Related Military Skill. None.

3. MOS 0814, High Mobility Artillery Rocket System (HIMARS) Operator (MGySgt to PVT) NMOS (0811, 0869), DC PP&O

a. Summary. As a member of a HIMARS Battery, Operators prepare the HIMARS for movement, combat, and firing. They inspect and prepare the launcher system for employment to include movement to and from concealment positions and firing positions, operate the fire control systems, and handle multiple launch rocket system (MLRS) family of munitions (MFOM). HIMARS Operators perform preventative maintenance and clean system components. They make routine tests and authorized repairs to HIMARS. They provide security, camouflage positions, and protect HIMARS from chemical warfare agents. This MOS will be assigned by the CMC (MM).

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess a GT score of 90 or higher.

(3) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Must be assigned the primary MOS 0811 through either completing the Marine Corps Cannoneer Course (A200821) or completion of the appropriate MCI courses and demonstrate qualification through MOJT.

(2) Complete the High Mobility Artillery Rocket System (HIMARS) Operator (USMC) Course (A20AN51) Ft Sill, Ok. Demonstrate qualification through performance for MOS 0814; or demonstrated qualification through MOJT.

d. Duties. For a complete listing of duties and tasks, refer to reference (k), Artillery Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors/Managers of Weapon Specialist/Crewmembers 55-2012.

(2) Artillery and Missile Crewmember 55-3014.

f. Related Military Skill. None.

4. MOS 0842, Field Artillery Radar Operator (Sgt to Pvt) PMOS, DC PP&O

a. Summary. Field Artillery Radar Operators perform the duties required to emplace, operate, and displace counterfire radar systems. Other duties include operating military vehicles, generator assets, communications equipment, establishing radio networks for voice and digital communications, and performing hasty survey techniques. Radar Operators also work in the artillery target processing centers. These duties include operating fire support systems that process counterfire/artillery target intelligence and manage radar assets in the field.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess a GT score of 105 or higher.

(3) Security requirement: secret security clearance eligibility.

(4) Must meet initial strength test standards associated with PEF assignments as listed in the glossary (pg. xiv) prior to shipping to recruit training.

(5) Must meet MOS classification standards as listed in the glossary (pg. xiv) prior to graduating from recruit training.

c. Requirements

(1) Complete the Marine Artillery Radar Operator Course (A20ANE1), Ft Sill, OK.

(2) This MOS will be retained as an additional MOS upon promotion to Staff Sergeant in MOS 0848.

d. Duties. For a complete listing of duties and tasks, refer to reference (k), Artillery Training and Readiness (T&R) Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Radar and Sonar Technicians 55-3017.

f. Related Military Skill. None.

5. MOS 0844, Field Artillery Fire Control Marine (Sgt to Pvt) PMOS, DC PP&O

a. Summary. Field Artillery Fire Control Marine perform duties essential to the delivery of accurate artillery fire. Typical duties include preparation of fire control equipment for movement and operation, performance of preventive maintenance, routine testing, authorized minor repairs and fire control equipment, and operation of field communications equipment. Fire control computation includes the use of computer equipment systems, plotting survey data on firing charts, determination of target coordinates, and the conversion to target coordinates and observer's reports into firing data and commands. MOS 0844 is assigned upon completion of formal school. Upon

promotion to Staff Sergeant and the appropriate formal school, the 0844 will be designated MOS 0848.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 105 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Must meet initial strength test standards associated with PEF assignments as listed in the glossary (pg. xiv) prior to shipping to recruit training.
- (5) Must meet MOS classification standards as listed in the glossary (pg. xiv) prior to graduating from recruit training.

c. Requirements

- (1) Complete the Field Artillery Fire Control Marine Course (A200811), Ft Sill, OK.
- (2) This MOS will be retained as an additional MOS upon promotion to staff sergeant in MOS 0848.

(2) Involvement in the research, service, and professional development in areas of competency to support training and education programs.

(3) Participate in various committees, CCRBs, Curriculum Review Boards (CRB), and working groups that deal with academic matters and academic policy issues, thereby creating an atmosphere of shared governance.

(4) Provide input into the decision-making and policy-making aspects of the training and education continuum.

(5) Focus on developing and delivering curricula, lecturing, instructing, facilitating discussions, seminars, as well as conducting scholarly research and publishing.

(6) Engage in reviewing works of others and other academic activities.

(7) Meet regularly with students to guide them in both professional and academic endeavors.

(8) Advise students in various capacities on their academic progress, projects, graduate theses, and professional development.

(9) Collaborate and share professional and academic experiences to enhance student learning.

(10) Arrange conferences and guest speakers, planning staff rides, and updating the learning management system.

(11) Develop and deliver curricula that will enhance students' ability to achieve these particular abilities and other relevant outcomes.

(12) Write measurable learning objectives and student learning outcomes, assess students' achievement of those objectives/outcomes, and seek continual improvement of their curricula based on the assessment of student learning.

(13) Comply with the policies and procedures related to these processes and the policies of applicable accrediting bodies, such as for MCU the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) and the Process for Accreditation of Joint Education (PAJE).

(14) Attend periodic faculty meetings and participate in academic processions, graduation, and professional development opportunities and events.

e. Related Standard Occupational Classification (SOC) Title and Code.
Teachers and Instructors, All Other 25-3099.

f. Related Military Skill

(1) Drill Instructor, 0911.

(2) Marine Combat Instructor, 0913.

3116. OCCUPATIONAL FIELD 11, UTILITIES

1. Introduction. The Utilities OccFld is responsible for planning and providing tactical utilities support to all elements of the MAGTF. Utilities support includes planning, operation, maintenance, and repair of electric power generation systems and power distribution systems; water purification, storage, and distribution sites; shower and laundry facilities; and environmental control (heating, ventilation, air conditioning), and refrigeration systems. In addition to maintaining and repairing their own equipment at the organizational and intermediate levels, Marines in this OccFld troubleshoot and repair water and fuel pumps, air conditioning systems on ground equipment, and the electrical systems on engineer and general supply equipment.

2. MOS 1141, Electrician (SSgt to Pvt) PMOS, DC I&L

a. Summary. Using knowledge of electrical theory and concepts, electricians install, operate, maintain, and repair underground, above ground, and tactical electrical power distribution systems. Additionally, electricians perform preventive maintenance checks and service and operate electrical power generation and power distribution equipment, load banks, and floodlight sets. Electricians also install and repair interior wiring. Corporals through Staff Sergeants are afforded the opportunity to attend a skill progression course. The Advanced Electrician Course provides in-depth instruction on code requirements and planning electrical support to include determining demand, phase balancing, and voltage drops. An apprenticeship program, leading to U.S. Department of Labor certification as a Journeyman Electrician, is available to electricians under the United Services Military Apprenticeship Program (USMAP).

b. Prerequisites

(1) Must possess an EL score of 90 or higher.

(2) Must have normal color vision.

c. Requirements

(1) Complete the Basic Electrician Course (M0311B2), Marine Corps Engineer School, Camp Lejeune, NC.

(2) Skill progression course for Electricians (Cpl to SSgt) is the Advanced Electrician Course (M0311K2).

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Electricians 47-2111.

(2) Electrical Power-Line Installers and Repairers 49-9051.

(3) Power Distributors and Dispatchers 51-8012.

f. Related Military Skill. None.

3. MOS 1142, Engineer Equipment Electrical Systems Technician (SSgt to Pvt)
PMOS, DC I&L

a. Summary. Engineer Equipment Electrical Systems Technicians use knowledge of electrical theory and concepts and electronic fundamentals to troubleshoot and repair electric motors, electronic modules, electrical circuits, and electrical systems on engineer and general supply equipment. Duties include diagnosing problems and making repairs utilizing manuals, schematic diagrams, wiring diagrams, and other specifications, using hand tools, power tools, and electrical and electronic test equipment. Repairs include soldering connections and replacing wires, malfunctioning components, including some faulty mechanical parts on equipment. Corporals through Staff Sergeants are afforded the opportunity to attend a skill progression course. The Advanced Engineer Equipment Electrical Systems Technician Course provides in-depth instruction on the electrical systems for engineer equipment. An apprenticeship program, leading to U.S. Department of Labor certification as a Journeyman, is available to Engineer Equipment Electrical Systems Technicians under the United Services Military Apprenticeship program (USMAP).

b. Prerequisites

- (1) Must possess an MM score of 105 or higher.
- (2) Must possess an EL score of 100 or higher.
- (3) Must have normal color vision.

c. Requirements

(1) Complete the Basic Engineer Equipment Electrical Systems Technician Course (M03UAA2), Marine Corps Engineer School, Camp Lejeune, NC.

(2) Skill progression course for Engineer Equipment Electrical Systems Technician (Cpl to SSgt) is the Advanced Engineer Equipment Electrical Systems Technician Course (M03A212).

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Electrical and Electronics Repairers, Powerhouse, Substation and Relay 49-2095.

(2) Electric Motor, Power Tool, and Related Repairers 49-2092.

(3) Stationary Engineers and Boiler Operators 51-8021.

f. Related Military Skill

(1) Fuel and Electrical Systems Technician, 3524.

(2) Support Equipment Electrician/Refrigeration and Engine/Gas Turbine Technician , 6073.

4. MOS 1161, Refrigeration and Air Conditioning Technician (SSgt to Pvt)
PMOS, DC I&L

a. Summary. Refrigeration and Air Conditioning Technicians must be certified by the Environmental Protection Agency (EPA) to handle Hydro Chlorofluorocarbons (HCFCs) and Chlorofluorocarbons (CFC). They install, operate, and perform organizational and intermediate level repairs on field refrigeration and environmental control units for ground equipment. These duties include installing refrigeration systems, recovery of specified gases or fluids from systems, dismantling and testing malfunctioning systems using electrical and mechanical testing equipment, and repairing systems by replacing or repairing defective parts. An apprenticeship program, leading to U.S. Department of Labor certification as a Journeyman, is available to Refrigeration and Air Conditioning Technicians under the United Services Military Apprenticeship Program (USMAP).

b. Prerequisites

(1) Must possess an MM score of 105 or higher.

(2) Must have normal color vision.

c. Requirements. Complete the Basic Refrigeration and Air Conditioning Technician Course (M0311D2) at Marine Corps Engineer School, Camp Lejeune, NC.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Heating, Air Conditioning, and Refrigeration Mechanics and Installers 49-9021.

(2) Cooling and Freezing Equipment Operators 51-9193.

f. Related Military Skill. Support Equipment Electrician/Refrigeration and Engine/Gas Turbine Technician, 6073.

5. MOS 1169, Utilities Chief (MGySgt to GySgt) PMOS, DC I&L

a. Summary. The Utilities Chief is responsible to the commander and assists in the planning, training, deployment and employment of all utilities capabilities. They supervise and coordinate the assignment of personnel and equipment in accordance with the Table of Organization and Equipment. They plan, supervise, and coordinate the installation, operation, and maintenance of utilities assets. This MOS is technical in nature and requires years of experience to become proficient. Due to the diversity of commands throughout the Marine Corps, some of the duties and tasks performed by the Utilities Chief may overlap with those of the Engineer Equipment Chief, Motor Transport Maintenance Chief, and Motor Transport Operations Chief. They may also be assigned to the staff of a Marine Air-Ground Task Force command element, ground combat element, air combat element, and logistics combat element advising utilities support. Additional duties may include formal schools faculty, new equipment/systems research and development, and new systems

acquisition. This MOS will only be assigned to graduates of the resident Utilities Chief Course.

b. Prerequisites. Must hold MOS 1141, 1142, 1161, or 1171.

c. Requirements. Must complete the resident Utilities Chief Course (M0311E2), Marine Corps Engineer School, Camp Lejeune, NC, in order to receive MOS 1169.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors/Managers of Mechanics, Installers and Repairers 49-1011.

(2) First-Line Supervisors of Construction Trades and Extraction Workers 47-1011.

f. Related Military Skill. None.

6. MOS 1171, Water Support Technician (SSgt to Pvt) PMOS, DC I&L

a. Summary. Water Support Technicians install, operate, inspect, and perform preventive and corrective maintenance on pumps, water purification equipment, water storage/distribution systems, and laundry and shower facilities. They conduct and evaluate water surveys, water reconnaissance, and water quality analysis as well as establish and maintain water disposal systems. These technicians also plan, install, and repair the plumbing systems of structures. Corporals through Staff Sergeants are afforded the opportunity to attend a skill progression course. The Advanced Water Support Technician Course (M03UAC2) provides in-depth instruction on code requirements, water reconnaissance, planning water support, designing plumbing systems, and diagnosing electrical malfunctions on water support equipment. An apprenticeship program, leading to U.S. Department of Labor certification as a Journeyman, is available to Water Support Technicians under the United Services Military Apprenticeship Program (USMAP).

b. Prerequisites

(1) Must possess an MM score of 95 or higher.

(2) Must have normal color vision.

c. Requirements

(1) Complete the Basic Water Support Technician Course (M031102), Marine Corps Engineer School, Camp Lejeune, NC.

(2) Skill progression course for the Water Support Technician (SSgt to Cpl) is the Advanced Water Support Technician Course (M03UAC2).

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

- e. Related Standard Occupational Classification (SOC) Title and Code
- (1) Water and Wastewater Treatment Plant and System Operators 51-8031.
- (2) Laundry and Dry-Cleaning Workers 51-6011.
- (3) Plumbers, Pipefitters, and Steamfitters 47-2152.
- f. Related Military Skill. None.

3117. OCCUPATIONAL FIELD 13, ENGINEER, CONSTRUCTION, FACILITIES, AND EQUIPMENT

1. Introduction. The Engineer, Construction, Facilities, and Equipment OccFld comprises Marines whose duties include metalworking and welding; repair, maintenance, and operation of engineer heavy equipment such as cranes and bulldozers; construction and repair of military structures and facilities; clearing and emplacing obstacles such as minefields; construction of standard and nonstandard bridging; and emplacing and detonating explosives for construction and demolition projects. Also, some Marines in the field work with the storage and distribution of bulk fuel products. Marines entering the field receive MOS 1300, Basic Engineer, Construction, and Equipment Marine. The basic engineer may be assigned a variety of MOSs and may be sent to a variety of formal schools. The MOSs that is initially available is Metal Workers, Engineer Equipment Mechanics, Engineer Equipment Operators, Combat Engineers, Engineer Assistants, and Bulk Fuel Specialists. The opportunity to participate in a formal apprenticeship program leading to receipt of a Department of Labor Certificate of Apprenticeship Completion may be available in some MOSs within OccFld 13. There are a variety of challenging and interesting billets available in OccFld 13, ranging from inspector-instructor duty, to duty with operating forces (in division, Marine Logistics Group, or Marine Air Wing) or the supporting establishment.

2. MOS 1316, Metal Worker (SSgt to Pvt) PMOS, DC I&L

a. Summary. Metal Workers examine drawings and work orders; determine sequence of operations, materials, tools, equipment, time, and personnel required. Duties include selection of proper stock, and set up of work on welding equipment to include the automated Water Jet cutting system. The control of quality and accuracy is met by the welder's use of Non-destructive inspection techniques that include liquid penetrant testing and magnetic particle testing. They also perform installation, operation, maintenance and repair of metalworking, and welding equipment and material.

b. Prerequisites

- (1) Must possess an MM score of 95 or higher.
- (2) Meet the physical requirements of reference (ax).
- (3) Normal color perception test w/PIP (12 out of 14 correct) or Farnsworth Lantern (FALANT).

c. Requirements. Complete the Basic Metal Workers Course (A141326) Marine Corps Detachment, U.S. Army Ordnance School, Ft Lee, VA.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Welders, Cutters, Solders, and Brazers Workers 51-4121.
- (2) Sheet Metal Workers 47-2211.
- (3) First-Line Supervisors/Managers of Construction Trades and Extraction Workers 47-1011.

(4) Welding, Soldering and Brazing Workers 51-4120.

f. Related Military Skill. Aircraft Welder, 6043.

3. MOS 1341, Engineer Equipment Mechanic (SSgt to Pvt) PMOS, DC I&L

a. Summary. Engineer Equipment Mechanics perform preventive maintenance and perform repairs to diesel engines and gasoline and diesel driven construction equipment such as material handling equipment, earth moving equipment, construction equipment and other engine driven or towed equipment.

b. Prerequisites

(1) Must possess an MM score of 95 or higher.

(2) Meet the physical requirements of reference (ax).

(3) Must have normal color vision.

(4) Height requirement of 59 inches.

c. Requirements

(1) Complete the Construction Equipment Repairer Course (A1613B1) Marine Corps Detachment, U.S. Army Engineer School, Ft Leonard Wood, MO.

(2) Noncommissioned Officers must complete the Engineer Equipment Mechanic NCO Course (A16ACU1) prior to promotion to SSgt.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Bus and Truck Mechanics and Diesel Engine Specialists 49-3031.

(2) First-Line Supervisors/Managers of Construction Trades and Extraction Workers 47-1011.

(3) First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

(4) Mobile Heavy Equipment Mechanics, Except Engines 49-3042.

(5) Maintenance Workers, Machinery 49-9043.

(6) First-Line Supervisors/Managers of Transportation and Material-Moving Machine and Vehicle Operators 53-1031.

f. Related Military Skill

(1) Automotive Maintenance Technician, 3521.

(2) Main Battle Tank Repairer/Technician, 2146.

4. MOS 1342, Small Craft Mechanic (SSgt to LCpl) NMOS (1341), DC I&L

a. Summary. Small Craft Mechanics perform preventive maintenance and repairs to bridge erection boats and rubber-hulled vessels; repair diesel engines, outboard engines and hydro jet propulsion systems; and repair small craft trailers and cradle systems.

b. Prerequisites. Must be qualified in MOS 1341.

c. Requirements. Complete the Small Craft Mechanic Course (M03EAW2) Marine Corps Engineer School, Camp Lejeune, NC.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Motorboat Mechanic 49-3051.

(2) Outdoor Power Equipment and other Small Engine Mechanics 49-3053.

(3) Maintenance Workers, Machinery 49-9043.

f. Related Military Skill. Engineer Equipment Mechanic, 1341.

5. MOS 1345, Engineer Equipment Operator (SSgt to Pvt) PMOS, DC I&L

a. Summary. Engineer Equipment Operators operate gasoline or diesel engine equipment used in material handling and earthmoving operations, to include all equipment accessories.

b. Prerequisites

(1) Must possess an MM score of 95 or higher.

(2) Must meet the licensing requirements of reference (ax).

(3) Height requirement of 66 inches.

(4) Normal color perception.

(5) Vision correctable to 20/20, and normal depth perception.

c. Requirements

(1) Complete the Engineer Equipment Operator Course (A1613F1) at Marine Corps Detachment, U.S. Army Engineer School, Ft Leonard Wood, MO.

(2) Noncommissioned Officers must complete the Engineer Equipment Operators NCO Course (A16ACX1) prior to promotion to SSgt.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors/Managers of Construction Trades and Extraction Workers 47-1011.

(2) First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

(3) Bus and Truck Mechanics and Diesel Engine Specialists 49-3031.

(4) Mobile Heavy Equipment Mechanics, Except Engines 49-3042.

(5) Maintenance Workers, Machinery 49-9043.

(6) First-Line Supervisors/Managers of Transportation and Material-Moving Machine and Vehicle Operators 53-1031.

f. Related Military Skill. Engineer Equipment Mechanic, 1341.

6. MOS 1349, Engineer Equipment Chief (MGySgt to GySgt) PMOS, DC I&L

a. Summary. Engineer Equipment Chiefs coordinate and manage the maintenance and employment of engineer equipment in both horizontal construction and material handling operations. Through soil analysis, expedient drainage, production estimations and logistical requirements Engineer Equipment Chiefs employ engineer equipment to support general engineering operations. They manage equipment licensing, certification of tactical ground load lifting equipment, equipment repairs, and related metal working in support of mobility, counter-mobility, general, combat engineering and logistics operations in any environment. Additionally, manage and coordinate ground maintenance, maintenance management policy, programs, procedures, functions, maintenance automated information systems (MAIS) requirements, and the support of equipment Total Lifecycle Systems Management efforts. They manage and develop Marines in the eight functional areas of maintenance and 48 sub-functional areas. They assist in establishing field maintenance and equipment staging sites, and the protocol for its defenses in support of MAGTF operations. Additionally, Engineer Equipment Chiefs perform duties of battalion staff and general staff level, providing advice in equipment employment and staging, material readiness, and qualification/training. This MOS will be assigned only by the authority of the CMC (MM).

b. Prerequisites

(1) Must possess an MM score of 95 or higher.

(2) Possess experience in either MOS 1316, 1341, or 1345.

c. Requirements. The Engineer Equipment Chief's Course (A1613E1) is not an MOS producing course and therefore completion of the course is not required to be assigned MOS 1349 as a primary MOS. Upon promotion to Gunnery Sergeant MOS 1349 as a primary MOS will be granted and reported in MCTFS via a unit diary entry. However, Marines holding MOS 1349 are required to attend the Engineer Equipment Chief's Course (A1613E1) prior to promotion to Master Sergeant.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors/Managers of Construction Trades and Extraction Workers 47-1011.

(2) First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

(3) First-Line Supervisors/Managers of Transportation and Material-Moving Machine and Vehicle Operators 53-1031.

(4) First-Line Supervisors/Managers of All Other Tactical Operations Specialist 55-2013.

f. Related Military Skill

(1) Ordnance Vehicle Maintenance Chief, 2149.

(2) Motor Transport Maintenance Chief, 3529.

7. MOS 1361, Engineer Assistant (GySgt to Pvt) PMOS, DC I&L

a. Summary. Engineer Assistants perform various duties incidental to construction design, planning, estimating, and management. Personnel assigned this MOS are trained to use optical reading/electronic total station survey instruments to establish the horizontal and vertical alignment/layout for construction projects. In addition, they are trained to use manual/computer aided drafting (CAD) methods of preparing architectural/mechanical/civil drawings, to include computations for bills of material/earthwork volumes.

b. Prerequisites

(1) Must possess a GT score of 100.

(2) Must possess an EL score of 100 (non-waiverable).

c. Requirements

(1) Complete the Technical Engineering Course (A1614D1), U.S. Army Engineer School Ft Leonard Wood, MO.

(2) Upon promotion to Master Sergeant, Engineer Assistants are assigned MOS 1371. As such, completion of the Engineer Operations Chief Course (M0313G2) at Camp Lejeune, NC. is required within one year after selection to the grade of Master Sergeant; unless assigned outside the supporting establishment in a B billet, such as recruiting/MSG duty. In these cases, after reassignment to a billet requiring MOS 1371, Marines will attend this course within six months.

d. Duties. For a complete listing of duties and tasks, refer to reference (1) Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Architectural and Civil Drafters 17-3011.

(2) Surveying and Mapping Technicians 17-3031.

(3) Surveyors 17-1022.

f. Related Military Skill

(1) Geographic Intelligence Specialist, 0261.

(2) Combat Engineer, 1371.

8. MOS 1371, Combat Engineer (MGySgt to Pvt) PMOS, DC I&L

a. Summary. Combat Engineers conduct engineer reconnaissance; emplace obstacle systems; conduct breaching operations; reduce explosive obstacles/hazards conduct mine/countermine operations; employ demolitions and military explosives; conduct urban breaching; conduct route and area clearance; provide assault bridging, tactical bridging and non-standard bridging/repair; construct and maintain combat roads and trails; construct expedient roads and airfield/landing zones; design and construct survivability positions; perform expedient vertical and horizontal construction; design, construct and maintain base camps/forward operating bases and combat outposts; and fight as provisional infantry.

b. Prerequisites

(1) Must possess an MM score of 95 or higher.

(2) Must meet initial strength test standards associated with PEF assignments as listed in the glossary (pg. xiv) prior to shipping to recruit training.

(3) Must meet MOS classification standards as listed in the glossary (pg. xiv) prior to graduating from recruit training.

(4) WS-B(+) water survival qualification.

(5) Pass the normal color perception test w/PIP (12 out of 14 correct) or FALANT.

(6) Must meet MOS physical standards, as listed in NAVMC 3500.12 prior to graduating from MOS school.

(7) Must undergo computerized neurocognitive assessment testing at Marine Corps Engineer School (MCES) using the Automated Neuropsychological Assessment Metrics (ANAM) Test prior to beginning training.

c. Requirements

(1) Complete the Basic Combat Engineer Course (M031302), Marine Corps Engineer School, Camp Lejeune, NC.

(2) Complete the Engineer Operations Chief Course (M0313G2), Marine Corps Engineer School, Camp Lejeune, NC is required upon promotion to MSgt.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Explosives Workers, Ordnance Handling Experts, and Blasters 47-5031.

(2) Cement Masons and Concrete Finishers 47-2051.

(3) Brick Masons and Block Masons 47-2021.

(4) Carpenters 47-2031.

f. Related Military Skill. Engineer Assistant, 1361.

9. MOS 1391, Bulk Fuel Specialist (MGySgt to Pvt) PMOS, DC I&L

a. Summary. Bulk Fuel Specialists install, operate and employ a family of Tactical Fuel Systems (TFS) and accessory equipment, tailoring fuel equipment in modular sets to address mission needs in support of both ground and Aviation Operations. This includes the setup and operation of fuel systems in support to installations, Forward Operating Bases (FOBs) and Forward Arming and Refueling Points (FARPS). While utilizing the tactical fuel systems the bulk fuel specialist can receive, store and dispense various petroleum products in support of tactical operations. Additionally, bulk fuel specialists are responsible for overseeing the quality surveillance procedures of fuel dispensed from TFS.

b. Prerequisites. Must possess an MM score of 95 or higher.

c. Requirements

(1) Complete the Bulk Fuel Specialist Course (A141351), Marine Corps Detachment, U.S. Army Quartermaster School, Ft Lee, VA.

(2) Completion of the Bulk Fuel Advance Course (A14ECC1), conducted at Marine Detachment, U.S. Army Quartermaster School, Ft Lee, VA is required before promotion to Master Sergeant.

d. Duties. For a complete listing of duties and tasks, refer to reference (1), Marine Corps Engineer and Utilities Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Pump Operators, Except Wellhead Pumpers 53-7072.

(2) Petroleum Pump System Operators, Refinery Operators, and Gaugers 51-8093.

f. Related Military Skill. None.

10. MOS 1392, Petroleum Quality Assurance and Additization Specialist (SSgt to LCpl) NMOS (1391), DC I&L

a. Summary. A Petroleum Quality Assurance Specialist is responsible to oversee, maintain and manage a bulk fuel unit's quality assurance/surveillance responsibilities. Additionally, they are primarily responsible for operating the Petroleum Quality Analysis System Enhanced (PQAS-E) and establishing internal procedures to properly use field testing kits for both

ground and aviation units. Furthermore, 1392s are responsible for the employment of the Expeditionary Mobile Fuel Additization Capability (EMFAC). This MOS will be assigned as a NMOS only.

b. Prerequisites

- (1) Must hold 1391 as a primary MOS.
- (2) Sampling requirements computer based training provided by DLA-E.

c. Requirements

- (1) Complete both phases of the Petroleum Laboratory Course (USMC):
 - (a) (A1413H1) Petroleum Laboratory Specialist, U.S. Army Quartermaster School, Ft Lee, VA.
 - (b) (A1414Y1) Petroleum Laboratory Specialist (USMC), U.S. Army Quartermaster School, Ft Lee, VA.

d. Duties. For a complete listing of duties and tasks, consult reference (i), Engineer Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Inspectors, testers, sorters, samplers, and weighers 51-9061.
- (2) Petroleum Pump System Operators, Refinery Operators, and Gaugers 51-8093.00.

f. Related Military Skill. Bulk Fuel Specialist, 1391.

3118. OCCUPATIONAL FIELD 17, CYBERSPACE OPERATIONS

1. Introduction. The Cyberspace Operations OccFld includes the employment of offensive cyberspace operations (OCO) and defensive cyberspace operations (DCO). Marines in this field maneuver in and through cyberspace in order to defend the network and create effects in support of operations. Marines in the cyberspace operations field will be required to monitor network operations, identify, respond to, and mitigate network attacks, conduct analysis of cyberspace environment to allow for follow-on actions, and operate the hardware and software required to create cyberspace effects in support of operations. Duty assignments include, marine corps forces cyberspace command, defensive cyberspace operations- internal defensive measures companies, marine cryptologic support battalion, radio battalions, and staff sections at all levels of the MAGTF.

2. MOS 1711, Offensive Cyberspace Warfare Operator (GySgt to Pvt) PMOS, DC I

a. Summary. The Offensive Cyberspace Warfare Operator employs tools, tactics, techniques, procedures and integrates offensive cyber operations into the six warfighting functions at the tactical, operational, and strategic levels. They identify first-order impacts of those actions and advise on potential courses of actions (COA). They identify key terrain in adversarial and neutral cyberspace. These operators coordinate with external and internal entities to execute integrated USCC or MAGTF cyber warfare plans and operations. They conduct detailed cyber operations planning and analysis of targets of interest in support of cyber requirements. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 110 or higher.
- (3) Accession Marines must possess a cyber test score of 60 or higher.
- (4) Security requirement:
 - (a) Must have a current single scope background T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.
 - (b) Must complete SCI pre-screen interview with HQMC SSO for assignment qualification per DoN and HQMC SCI policies and procedures.
- (5) Must successfully complete a counter-intelligence scope polygraph examination.
- (6) Lateral move additional requirements:
 - (a) Must complete NAVMC 11665.
 - (b) Cyber test score is not required for lateral move.

(c) Must be worldwide deployable at the time SNM is approved for lateral move into 1711 MOS.

c. Requirements

(1) Complete Joint Cyber Analysis Course (N23CUQ1), Pensacola, FL.

(2) For MOS and career progression, the Offensive Cyber Operations Analysis Course (A09BN62) is highly encouraged.

(3) These requirements can be waived by the Deputy Commandant for Information upon examination of cyber workforce experience.

d. Duties. For a complete listing of duties and tasks, refer to NAVMC 3500.124, Cyberspace Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill. Defensive Cyberspace Warfare Operator, 1721.

3. MOS 1721, Defensive Cyberspace Warfare Operator (GySgt to Pvt) PMOS, DC I

a. Summary. Defensive Cyberspace Warfare Operators identify, clear, fix, and neutralize adversaries in friendly cyberspace. They ensure the Commander's freedom of action while defending key terrain in cyberspace and critical infrastructure. Defensive Cyberspace Warfare Operators leverage intelligence reporting and conduct clearing operations within friendly cyberspace in order to detect and counter adversary activity. Defensive Cyberspace Warfare Operators work in concert with offensive cyber elements to execute integrated USCC or MAGTF cyber warfare plans and operations. They perform mission-based, threat focused assessments to advise Commanders on the defensive posture of their networks. Marines in this MOS may be assigned to a BIC within their occupational field that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess a GT score of 110 or higher.

(3) Accession Marines must possess a cyber test score of 60 or higher.

(4) Security requirement:

(a) Must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background T5 investigation.

(b) Must complete SCI Pre-Screen Interview with HQMC SSO for assignment qualification per DoN and HQMC SCI policies and procedures.

(5) Must successfully complete a counter-intelligence scope polygraph examination.

(6) Lateral move additional requirements:

(a) Must complete NAVMC 11665.

a. Summary. Ground Ordnance Vehicle Maintenance Chiefs supervise the maintenance, repair, and inspection of ground ordnance vehicles and support equipment. Additionally, Ordnance Vehicle Maintenance Chiefs supervise and manage the administration of ordnance vehicle related maintenance programs

and facilities. The Ordnance Vehicle Maintenance Chief is technically proficient in the following areas: organizational, maintenance, and resource management; specifically in the areas of: training, records and reporting via Major Automated Information Systems, preventive and corrective maintenance, equipment availability, publications control, supply support, and the oversight of command environmental and hazardous waste programs. The Ground Ordnance Vehicle Maintenance Chief also serves as a Licensing Officer for Ground Ordnance Maintenance Vehicle Operators and supervises the recovery of ground ordnance vehicles. The Ground Ordnance Vehicle Maintenance Chief assists the Ground Ordnance Vehicle Maintenance Officer in execution of their duties.

b. Prerequisites. Must hold PMOS 2141, 2146, or 2147.

c. Requirements

(1) Achieve promotion to Master Sergeant.

(2) It is highly recommended that the Marine complete the Ground Ordnance Managers Course (A14GBS6) before promotion to MSgt. However, non-completion of the course is not a disqualifier from achieving the MOS.

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. Ground Ordnance Weapons Chief, 2181.

9. MOS 2161, Machinist (GySgt to Pvt) PMOS, DC I&L

a. Summary. Machinists perform various duties incident to fabrication, repair or modification of engineer, motor transport, weapons, and accessories. Duties include selection of proper stock and set up of work on lathes, shapes, milling machines, internal and external grinders, drill presses, saws and cylinder, or line-boring machines. Machinists work from sketches, diagrams, blueprints, written specifications, or oral instructions. The control of quality and accuracy is met by the machinists' use of precision measuring devices to include micrometers, vernier gauges, and various other gauges and the subsequent adjustment of machine tool controls. Fabrication of metals is also followed by welding with all standard welding equipment. Maintenance of all shop equipment is performed to ensure that serviceability is sustained. Coordination with other repair shops, reporting of work completion, and the shop administrative functions are requirements to be effected by machinists.

b. Prerequisites

(1) Must possess an MM score of 105 or higher.

(2) Must have normal color vision.

c. Requirements

(1) Complete the Basic Machinist Course (A142156), U.S. Army Ordnance School, Ft Lee, VA.

(2) Complete the Machinist Technician Course (A14GMM6) by Sergeant through Gunnery Sergeant with 12 months remaining on active duty upon completion of the course.

(3) Sergeant through Gunnery Sergeant will complete the Ground Ordnance Managers Course (A14GBS6) and must remain on active duty for 12 months upon completion of the course.

d. Duties. For a complete listing of duties and tasks, refer reference (au), Ground Ordnance Maintenance Training and Readiness.

e. Related Standard Occupational Classification (SOC) Title and Code. Computer-Controlled machine Tool Operators, Metal and Plastic 51-4011.

f. Related Military Skill. None.

10. MOS 2171, Electro-Optical Ordnance Repairer (GySgt to Pvt) PMOS, DC I&L

a. Summary. The Electro-Optical Ordnance Repairer performs electro-optical maintenance and repair to ground ordnance laser and night vision devices, small missiles systems, and other fire control equipment. Duties also include performing mechanical, mechanical-optical and electrical repairs to include inspecting, troubleshooting and adjusting fire control instruments and systems. The Electro-Optical Ordnance Repairer, grades Private through Corporal, also completes basic shop administrative forms and records using technical publications. At the grades of Sergeant and above, the Electro-Optical Ordnance Repairer trains, supervises, and performs various duties and tasks incident to the management of an Electro-Optical Ordnance Repair shop or facility.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess an MM score of 105 or higher.

(3) Must possess an EL score of 115 or higher.

(4) Must have a National Agency Check, Local Agency Check, and Credit Check (NACLC) resident within the Joint Personnel Adjudication System (JPAS).

(5) Must have normal color vision.

(6) Security requirement: secret security clearance eligible.

(7) Must pass the Command Arms Ammunition and Explosive (AA&E) screening.

(8) No conviction by court-martial, civilian court, or non-judicial punishment of any act involving larceny, theft, or drugs.

c. Requirements

(1) Complete the Electro-Optical Ordnance Repairer Course (A1457L6), U.S. Army Ordnance Center and School, Ft Lee, VA.

(2) Sergeant through Gunnery Sergeant will complete the Ground Ordnance Managers Course (A14GBS6) and must remain on active duty for 12 months upon completion of the course.

(3) ENTNAC or NAC completed with favorable results.

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness.

e. Related Standard Occupational Classification (SOC) Title and Code. Precision Instrument and Equipment Repairers, All Other 49-9069.

f. Related Military Skill. None.

11. MOS 2181, Ground Ordnance Weapons Chief (MGySgt to MSgt) PMOS, DC I&L

a. Summary. Ground Ordnance Weapons Chief supervise the maintenance, repair, and inspection of all small arms weapons and towed artillery howitzers and direct the activities of assigned enlisted personnel in a small arms or towed artillery repair shop or facility. They supervise and manage the administration of small arms or towed artillery maintenance facilities and offices. The Ground Ordnance Weapons Chief is proficient in the organization, management, operation and conduct of technical inspections of small arms weapons, and towed artillery howitzers, all equipment, and maintenance shops or facilities for maintaining small arms or towed artillery howitzers. The Ground Ordnance Weapons Chief assists the Weapons Repair Officer in all duties and tasks. They manage command environmental and hazardous waste programs. They supervise and provide oversight of disposal, storage, emergency planning for hazardous waste, and ozone depleting substances. 2181 Marines possess a comprehensive knowledge of environmental and hazardous waste programs, disposal, storage, emergency planning for hazardous waste, and ozone depleting substances. 2181 Marines possess a comprehensive understanding of maintenance procedures for small arms weapons, and towed artillery howitzers, repair shop management and operations, maintenance and supply procedures.

b. Prerequisites. Hold PMOSs 2111, 2131, 2161, or 2171.

c. Requirements

(1) Achieve promotion to Master Sergeant.

(2) It is highly recommended that the Marine complete the Ground Ordnance Managers Course (A14GBS6) before promotion to MSgt. However, non-completion of the course is not a disqualifier from achieving the MOS.

d. Duties. For a complete listing of duties and tasks, refer to reference (au), Ground Ordnance Maintenance Training and Readiness.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. Ordnance Vehicle Maintenance Chief, 2149.

3121. OCCUPATIONAL FIELD 23, AMMUNITION AND EXPLOSIVE ORDNANCE DISPOSAL

1. Introduction. The ammunition and EOD OccFld includes planning, operations, and management related to a very hazardous group of materiel. These MOSs require personnel who are mature, mentally sound, and have evidenced a willingness and capability to perform their assigned duties in a reliable manner. The duties MOSs in this field are as follows: the ammunition technician handles, transports, and stores all type of ammunition, explosives, missiles, inspects materiel to determine serviceability and need for repair or destruction; the EOD technician provides the commander with the capability to neutralize hazards associated with conventional explosive ordnance, weapons of mass destruction (WMD) and improvised explosive devices (IED); and conducts ordnance technical intelligence and dynamic explosive entry.

2. MOS 2311, Ammunition Technician (MGySgt to Pvt) PMOS, MCSC

a. Summary. Ammunition Technicians work in every facet of the ammunition field, including receipt, storage, issue, and handling of ammunition and toxic chemicals.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 100 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Must have normal color vision.
- (5) No convictions by court martial, civilian courts, or non-judicial punishment of any type involving larceny, theft, or trafficking of any controlled substances.

c. Requirements

- (1) Complete the Ammunition Specialist Course (A14GPM6); and the Ammunition Technician Course (A1423C6), Ft Lee, VA.
- (2) Marines who handle ammunition and explosives must meet the criteria to be qualified and certified in accordance with reference (ay).
- (3) Marines who are assigned MOS 2311 as their primary duties must be capable of meeting the command screening requirements in reference (bj).

d. Duties. For a complete listing of duties and tasks, refer to reference (bz), Ammunition Technician/Officer Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Explosives Workers, Ordnance Handling Experts, and Blasters 47-5031.

f. Related Military Skill. Aviation Ordnance Chief, 6591.

3. MOS 2336, Explosive Ordnance Disposal (EOD) Technician (MGySgt to Sgt)
PMOS, DC I&L

a. Summary. Explosive Ordnance Disposal (EOD) Technicians perform various duties may include locating, accessing, identifying, rendering safe, neutralizing, and disposing of hazards from foreign and domestic, chemical biological radiological nuclear and high-yield explosive (CBRNE), unexploded explosive ordnance (UXO), improvised explosive device (IED), and weapons of mass destruction (WMD) that present a threat to operations, installations, personal, or material.

b. Prerequisites

- (1) Must be a U.S. citizen; cannot be a dual citizen.
- (2) Must possess a GT score of 110 or higher.
- (3) Security requirement: must be eligible for a top-secret security clearance based on a completed single scope background investigation (SSBI). Applications for the SSBI must be submitted prior to attendance of EOD School, Eglin AFB, FL.
- (4) Must meet all requirements for assignment to a critical position within the Nuclear Weapons Personnel Reliability Program (PRP); refer to reference (j).
- (5) Must be screened per NAVMC Form 11361, Explosive Ordnance Disposal (EOD) Lateral Move Screening Checklist.
- (6) Must have a first class physical fitness test (PFT) and combat fitness test (CFT) (accomplished during the EOD screening process).
- (7) Be a volunteer in the grade of Sergeant or Corporal in any MOS. Sergeants requesting a lateral move to EOD must not be selected for Staff Sergeant in their current MOS.
- (8) Must have normal color vision and no claustrophobic tendencies (bomb suit agility test will be administered during the EOD screening).
- (9) Must meet the medical requirements listed in article 15-107 of reference (aj) for explosive handling and/or explosive driver.
- (10) Prior to entry into EOD School, Marines must have sufficient obligated service to allow 36 months remaining upon graduation.
- (11) Must undergo computerized neurocognitive assessment testing at NAVSCOLEOD using the automated neuropsychological assessment metrics (ANAM) test prior to beginning training.

c. Requirements

- (1) Complete the DOD Joint Explosive Ordnance Disposal Basic (Common Core) Course (N56GPX1) at Eglin AFB, FL.
- (2) Requirements for continued qualification and progression training are:

(a) All EOD Technicians will be annually screened for continued service in the EOD MOS using NAVMC Form 11362. Based on the comprehensive standards covered under NAVMC 11362, EOD technicians will not be screened using NAVMC Form 11386.

(b) The following core competencies must be trained to sustained by all EOD technicians:

1. Render safe of explosive ordnance (EO)
2. WMD operations.
3. IED defeat operations.
4. Disassembly and inerting.
5. Post blast investigation.
6. Advanced TTPs for EOD tools and equipment.
7. Advanced electronics.
8. Specialized demolition techniques.
9. EOD robotics employment and usage.
10. UXO operations.
11. Destruction of explosive ordnance.
12. Explosive ordnance exploitation.
13. Explosive ordnance reconnaissance.
14. Homemade explosive (HME) ID and neutralization.

d. Duties. For a complete listing of duties and tasks, refer to reference (by), Explosive Ordnance Disposal Technician/Officer Training and Readiness Manual and reference (ba), Marine Corps EOD Program.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Specialists 55-3015.

f. Related Military Skill. None.

3122. OCCUPATIONAL FIELD 26, SIGNALS INTELLIGENCE/ELECTRONIC WARFARE/
CYBERSPACE OPERATIONS

1. Introduction. The Signals Intelligence (SIGINT), Electronic Warfare (EW) OccFld includes the employment of SIGINT, EW, and cyber intelligence, surveillance, and reconnaissance (ISR) systems engineering capabilities. Marines in this field conduct collection, analysis, production, and dissemination of collected data and intelligence. 26 OccFld Marines are responsible for providing support to the planning for and execution of electronic attack (EA) and intelligence support to cyber operations. Marines in this field are required to set up and operate collection and communications electronic equipment, manage intelligence data, prepare EW and intelligence reports, extend and mesh intelligence services, conduct preventive maintenance on assigned equipment, execute EA and OCO fires, and assist in the operational control and management of SIGINT/EW/CO personnel, equipment, and facilities. Entry-level jobs include Communications Intelligence/Electronic Warfare Operator, Signals Intelligence/Electronic Warfare Analyst, Intelligence Surveillance Reconnaissance Systems Engineer, and Cryptologic Language Analyst. Marines can LATMOV into the 26 OccFld at the grade of Corporal or Sergeant. Sergeants requesting LATMOV into the 26 OccFld must have no more than 1 year time in grade. Duty assignments include Marine Special Operations Command, Marine Forces Cyber Command, marine cryptologic support battalion, radio battalions, intelligence battalions, and the staff sections of the MEF information groups, Marine divisions, Marine logistics groups, and Marine aviation wings.

2. MOS 2611, Cryptologic Cyberspace Analyst (SSgt to LCpl) NMOS (2621, 2629, 2631, 2641, 2651) DIR INTEL

a. Summary. Cryptologic Cyberspace Analysts are involved in all facets of planning and conduct of digital network collection and analysis. Operators must perform digital signals search missions; measure, evaluate and classify digital network signals. Operators must be familiar with computer hardware and software programs to include network operating systems. The duties for MOS 2611 encompass digital network analysis, product reporting, and information warfare planning support. Marines must be familiar with the conduct of SIGINT, EW, and cyber operations in support of the Marine Air Ground Task Force (MAGTF) at both team and battalion levels and be prepared to contribute to each as deemed necessary by the unit commander. Marines holding this NMOS may be assigned to a BIC within their occupational field that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must currently hold PMOS of: 2621, 2629, 2631, 2641, 2651.
- (3) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.
- (4) Must successfully complete a counter-intelligence scope polygraph examination.

c. Requirements. Complete the Joint Cyber Analysis (JCAC) Course (N23CUQ1), Pensacola, FL.

d. Duties. For a complete listing of duties and tasks, refer to reference (p), Signal Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. No civilian equivalent.

f. Related Military Skill

- (1) Offensive Cyberspace Warfare Operator, 1711.
- (2) COMINT/EW Operator, 2621.
- (3) SIGINT/EW/CO Technician, 2629.
- (4) SIGINT/EW Analyst, 2631.
- (5) Cryptologic Language Analyst, 2641.
- (6) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.
- (7) SIGINT/EW/CO Chief, 2691.

3. MOS 2621, Communications Intelligence/Electronic Warfare Operator (Sgt to Pvt) PMOS, DIR INTEL

a. Summary. Communications Intelligence (COMINT)/Electronic Warfare (EW) Operators exploit every phase of communications signals and digital network systems by engaging in collection, processing, exploitation, and analysis. Additional skills include planning, coordinating, and executing signals intelligence (SIGINT) and electronic warfare (EW) operations from start to finish while utilizing both program of record equipment as well as commercially acquired equipment. Operators must perform communications electronic signals search missions, record intercepts of signals using electronic means, and measure, classify, and evaluate signals. Operators must be familiar with communications intercept receivers, specialized computer hardware and software programs, and wideband converters used in the process of collecting, recording, analyzing, and reporting on a wide variety of intercepted communications signals. Operators will conduct and support full spectrum EW operations encompassing electronic warfare support, electronic attack, and the correct reporting thereof. Marines must be familiar with the conduct of SIGINT, EW, and cyber operations in support of the Marine Air Ground Task Force (MAGTF) at both team and battalion levels and be prepared to contribute to each as deemed necessary by the unit commander. MOS 2629, SIGINT/EW/CO Technician, is assigned upon promotion to staff sergeant.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 110 or higher.

(3) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(4) No hearing defects.

(5) Must successfully complete a counter-intelligence scope polygraph examination.

c. Requirements

(1) Complete the Tactical SIGINT Operators Course (TSOC) (F07CVT1), San Angelo, TX.

(2) Complete the Apprentice Communications Signals Intelligence Analyst (ACSIAC) (F070981), San Angelo, TX.

d. Duties. For a complete listing of duties and tasks, refer to reference (p), Signals Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Specialists 55-3015.

f. Related Military Skill

(1) SIGINT/EW/CO Technician, 2629.

(2) SIGINT/EW Analyst, 2631.

(3) Cryptologic Language Analyst, 2641.

(4) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.

(5) SIGINT/EW/CO Chief, 2691.

4. MOS 2623, Radio Reconnaissance Marine (MGySgt to Pvt) NMOS (2621, 2629, 2631, 2641, 2651, 2659, 2691), DIR INTEL

a. Summary. This is an NMOS that requires formal training in cyberspace operations (CO), electronic warfare (EW) and signals intelligence (SIGINT) collection, identification, analysis, and reporting, in support of reconnaissance operations. Radio Reconnaissance Marines must be able to extend and enable the national enterprise, conduct full spectrum surveys of the signals environment, provide front end analysis, and facilitate specific SIGINT/EW/CO missions. Specific skills include planning, coordinating and executing tactical SIGINT/EW/CO operations. Radio Reconnaissance Marines will prepare and issue reports to include, translation summaries, intelligence reports, and technical EW and CO reports as needed. In addition, Radio Reconnaissance Marines possess proficiency in scout swimming, small boat operations, patrolling, and long range communication skills. Radio Reconnaissance Marines are trained in specialized insertion and extraction such as high altitude parachute and combatant dive operations.

b. Prerequisites

(1) Must currently hold PMOS: 2621, 2629, 2631, 2641, 2651, 2659, or 2691.

(2) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(3) No hearing defects.

(4) Must be a U.S. citizen.

(5) Must possess a WSA water survival qualification to enter the Basic Reconnaissance Course (BRC) (M10AHK2).

(6) Must possess a WSI water survival qualification to enter the Reconnaissance Training Assessment Program (RTAP) (M100Z22).

(7) Must obtain a 2nd class score of 215 or higher on the physical fitness test (PFT) to enter RTAP (M100Z22). During RTAP the Marine will be required to attain a 1st class score of 225 or higher on the PFT.

(8) Must obtain a 1st class score of 225 on the physical fitness test (PFT) to enter BRC and a 1st class score of 260 on the combat fitness test (CFT) (accomplished as part of RTAP). During BRC the student will be required to attain a 1st class score of 250 on the physical fitness test and a 1st class score of 270 on the combat fitness test.

(9) Must be medically qualified to perform high altitude parachuting and combatant dive qualifications in accordance with inter-service requirements established in reference (ai), NAVMED P-117; and reference (at), Standards of Medical Fitness. The completed NSW/SO physical must be reviewed and countersigned by an Undersea Medical Officer.

(10) Must be a volunteer.

(11) Must successfully complete a counter-intelligence scope polygraph examination.

c. Requirements

(1) Complete the Tactical SIGINT Operators Course (TSOC) (F07CVT1), San Angelo, TX.

(2) Complete the Reconnaissance Training Assessment Program (M100Z22), Camp Pendleton, CA.

(3) Complete the Basic Reconnaissance Course (BRC) (M10AHK2), Camp Pendleton, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (r), Signals Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Command and Control Center Specialists 55-3015.

(2) Special Forces 55-3018.

f. Related Military Skill

(1) Reconnaissance Marine, 0321.

- (2) COMINT/EW Operator, 2621.
- (3) SIGINT/EW/CO Technician, 2629.
- (4) SIGINT/EW Analyst, 2631.
- (5) Cryptologic Language Analyst, 2641.
- (6) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.
- (7) SIGINT/EW/CO Chief, 2691.
- (8) Parachutist, 8023.
- (9) Combatant Diver Marine, 8024.

5. MOS 2629, Signals Intelligence/Electronic Warfare/Cyberspace Operations Technician (GySgt to SSgt) PMOS, DIR INTEL

a. Summary. This is a PMOS that requires signals intelligence (SIGINT), Electronic Warfare (EW), and Cyberspace Operations (CO) training focused on collection management, operational planning and coordination, analysis, reporting, and dissemination in support of the six warfighting functions. Duties encompass the supervision of tasking, collection, processing, exploitation, and dissemination of products related to the three disciplines of SIGINT: Communications Intelligence (COMINT), Electronic Intelligence (ELINT), and Foreign Instrumentation Signals Intelligence (FISINT). EW duties encompass the planning, coordination, and execution of full spectrum MAGTF EW Operations including Electronic Warfare Support (ES), Electronic Protect (EP), and Electronic Attack (EA). Provides intelligence support to full spectrum CO defined as Offensive Cyberspace Operations (OCO), Defensive Cyberspace Operations (DCO), and DOD Information Network Operations (DODIN). Technicians develop and maintain records on technical aspects of target emitters, develop and maintain communications order of battle files, situation maps, and other related SIGINT/EW/CO files. Technicians prepare and issue reports to include intelligence reports, technical reports, and summaries. Technicians are required to perform SIGINT/EW/CO briefings. This MOS is career progression for MOSs: 2621, 2631, and 2641. MOS 2629 is assigned upon promotion to SSgt. Marines who are assigned an EMOS of 2712 through 2796 shall take the Defense Language Proficiency Test (DLPT) annually and shall maintain a minimum proficiency of L2/R2 on the Defense Language Proficiency Test (DLPT) in their assigned 27XX language(s), in accordance with reference (bb). Preferred target for assignment to career progression training is at the 5-8 years' time in service (TIS) mark. MOS 2691, SIGINT/EW Chief, is assigned upon promotion to Master Sergeant and completion of required training.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must currently hold PMOS: 2621, 2631, 2641.
- (3) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(4) Must have a current, successfully completed CI polygraph.

c. Requirements. Attain promotion to Staff Sergeant.

d. Duties. For a complete listing of duties and tasks, refer to reference (p), Signals Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Specialists 55-3015.

f. Related Military Skill

(1) COMINT/EW Operator, 2621.

(2) SIGINT/EW Analyst, 2631.

(3) Cryptologic Language Analyst, 2641.

(4) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.

(5) SIGINT/EW/CO Chief, 2691.

6. MOS 2631, Electronic Intelligence/Electronic Warfare Analyst (Sgt to Pvt) PMOS, DIR INTEL

a. Summary. Analyst duties encompass all facets of Electronic Intelligence (ELINT); and electronic warfare (EW) analysis including installation, operation, and preventive maintenance of associated equipment. Analysts perform signals analysis, prepare electronic order of battle appraisals, and map overlays. They operate signals intelligence (SIGINT) support equipment, to include systems setup, operations reporting, computer processing of tape recordings, issuing necessary EW reports, assisting in air crew training/briefings, and performing routine preventive maintenance. Analysts are trained in the use of the integrated broadcast receiver/systems and analytic programs such as GALELite. Marines must be familiar with the conduct of SIGINT, EW, and Cyber Operations in support of the Marine Air Ground Task Force (MAGTF) at both team and battalion levels and be prepared to contribute to each as deemed necessary by the Unit Commander. MOS 2629, SIGINT/EW/CO Technician, is assigned upon promotion to Staff Sergeant. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess a GT score of 110 or higher.

(3) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility. Must successfully complete a counter-intelligence scope polygraph examination.

c. Requirements

(1) Complete the Tactical SIGINT Operators Course (TSOC) (F07CVT1), San Angelo, TX.

(2) Complete the Apprentice Electronic Signals Intelligence Analyst (AESIAC) Course (F070991), San Angelo, TX.

d. Duties. For a complete listing of duties and tasks, refer to reference (p), Signals Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Specialists 55-3015.

f. Related Military Skill

(1) COMINT/EW Operator, 2621.

(2) SIGINT/EW/CO Technician, 2629.

(3) Cryptologic Language Analyst, 2641.

(4) Intelligence Surveillance Reconnaissance (ISR) Systems Engineer, 2651.

(5) SIGINT/EW/CO Chief, 2691.

7. MOS 2641, Cryptologic Language Analyst (Sgt to Pvt) PMOS, DIR INTEL

a. Summary. Cryptologic Language Analysts (CLA) monitor, transcribe, and translate intercepted target foreign communications; exploit every phase of designated foreign communications by engaging in collection, processing, exploitation, analysis, and reporting; and install, operate, and perform preventive maintenance of program of record as well as commercially acquired intercept equipment. Duties encompass all facets of signals intelligence (SIGINT), electronic warfare (EW) and cyber operations in support of the MAGTF at both team and battalion levels and must be prepared to contribute to each as deemed necessary by the unit commander. Marines shall annually retake the defense language proficiency test (DLPT) and shall maintain a minimum proficiency of Listening 2/Reading (L2/R2) DLPT in their assigned 27XX language(s), in accordance with reference (bb). Formal intermediate and advanced language training is available. Per DoDI 3300.07, CLAs will engage, during normal duty hours, a minimum of 160 hours of formal language training every 24 months. MOS 2629, SIGINT/ EW/CO Technician, is assigned upon promotion to Staff Sergeant and completion of Marine Analysis and Reporting Course (F074141). Marines shall maintain language proficiency in their assigned 27XX language(s) upon assignment of MOS 2629.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess a GT score of 105 or higher.

(3) Demonstrated proficiency in an appropriate language by achieving minimum level 2 proficiency on the listening and reading portions of the Defense Language Proficiency Test in accordance with reference (bb), or a minimum score of 110 or higher on the Defense Language Aptitude Battery

(DLAB). The DLAB score may be waived on a case by case basis if significant foreign language experience is demonstrated and if such a waiver is requested by the Recruit Screening Office at the applicable Marine Corps Recruiting Depot and approved by Headquarters Marine Corps, Director of Intelligence. For Marines executing a lateral move into this MOS, the waiver request will originate with the Marine's Career Planner and will be approved by the Director of Intelligence.

(4) Must meet the requirements for EMOS 2712 to 2796.

(5) Must take the Defense Language Proficiency Test (DLPT) annually in the Marine's assigned 27XX language(s) and maintain a minimum proficiency of L2/R2 in accordance with reference (bb).

(6) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(7) No speech or hearing defects.

(8) Must successfully complete a counter-intelligence scope polygraph examination.

c. Requirements

(1) Complete the requirements for assignment of an EMOS 2712-2796.

(2) Complete the Tactical SIGINT Operators Course (F07CVT1).

(3) Complete one of the following Cryptologic Language requirements for the associated 27XX EMOS:

(a) Marines assigned EMOS 2712 through 2717 and 2728 through 2731 must complete the Middle East Cryptologic Linguist-Arabic Course (F072911).

(b) Marines assigned EMOS 2736 through 2737 must complete the Apprentice Cryptologic Analyst-Chinese Course (F072931).

(c) Marines assigned EMOS 2741 must complete the Asian-Pacific Cryptologic Linguist-Korean Course (F072971).

(d) Marines assigned EMOS 2791 must complete Central Asian Cryptologic Linguist-Russian Course (F0729A1).

(e) Marines assigned EMOS 2768 must complete the European Cryptologic Linguist-Spanish Course (F0729C1).

(f) Marines assigned EMOS 2773 must complete the Voice Interceptor Persian-Farsi Course (F07CXF1).

(g) Marines assigned EMOS 2772 must complete the Pashto Supplemental Cryptologic Language Course (F07RHQ1).

(h) Marines assigned any EMOS 2712 through 2796 not listed in paragraphs (a) through (g) must complete the Apprentice Cryptologic Linguist Specialist Non-Target Course (F07CXE1).

d. Duties. For a complete listing of duties and tasks, refer to reference (p), Signals Intelligence Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Interpreters and Translators 27-3091.

8. MOS 2642, Advanced Cryptologic Language Analyst (MGySgt to Pvt) NMOS (2629, 2641, 2691), DIR INTEL

a. Summary. Advanced Cryptologic Language Analysts monitor, transcribe, and translate intercepted target foreign communications; exploit every phase of designated foreign communications by engaging in collection, processing, exploitation, analysis, reporting, and quality control; and install, operate, and perform preventive maintenance of program of record as well as commercially acquired intercept equipment. Due to their advanced language skills, these Marines are uniquely qualified to perform quality control, serve as foreign language mentors and teachers, and fill higher Interagency Language Roundtable (ILR) level foreign language billets. Advanced language training is available. 2629, 2641 and 2691 Marines with EMOS 2712 through 2796 who obtain in their assigned 27XX language a minimum Listening 3/Reading 3 (L3/R3) score on the Defense Language Proficiency Test (DLPT) are eligible for NMOS 2642. DoDI 3300.07 states the proficiency standards for fully qualified professional-level cryptologic language analysts assigned to perform Signals Intelligence (SIGINT) operational language analysis is L3/R3. Advanced Cryptologic Language Analysts are encouraged to take advantage of language training events to maintain and surpass this L3/R3 goal. Marines shall maintain a minimum proficiency of L3/R3 on the Defense Language Proficiency Test (DLPT) in their assigned 27XX language). Billet assignments for these Marines may include such duties as Language Chief, Military Language Instructor, Cryptologic Language Instructor, MOS specialist. This NMOS will be assigned and voided by the Director of Intelligence only.

b. Prerequisites

- (1) Must currently hold PMOS 2629, 2641, or 2691.
- (2) Must meet the requirements for EMOS 2712-2796.
- (3) Must achieve in the assigned 27XX EMOS language a minimum proficiency of L3/R3 on the Defense Language Proficiency Test (DLPT), in accordance with reference (bb).

c. Requirements

- (1) Complete the requirements for assignment of an EMOS 2712-2796.
- (2) Must maintain a minimum L3/R3 score in the assigned 27XX EMOS language on the DLPT.

9. MOS 2651, Intelligence Surveillance Reconnaissance (ISR) Systems Engineer (GySgt to Pvt) PMOS, DIR INTEL

a. Summary. ISR Systems Engineers' duties encompass all-inclusive encrypted communications with tactical radio platforms, satellite platforms, and data network services from local-level to enterprise-level designs which include but not limited to specialized communications equipment, unit-unique intelligence repositories and computer information technology, and the integration of enterprise services, automated services, cloud computing, converging and emerging technologies, and national-to-tactical reach back capabilities. This duty also maintains connectivity into the Marine Corps ISR enterprise for data standardization, enterprise support and services, network and data redundancy, and disaster recovery. Additionally, Marines assigned this MOS will receive training in computer hardware fundamentals, common operating systems, network security, information assurance, database and data flow management, radio frequency theory, satellite communications, basic, intermediate and advanced networking, network and data science philosophies, information warfare, and cyber security policies. This MOS will be assigned and voided only by the authority of the CMC (MM). Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 110 or higher.
- (3) Must possess a GT score of 110 or higher.
- (4) Must successfully complete a Counter-Intelligence Scope Polygraph Examination.
- (5) Security requirement: must meet sensitive compartmented information (SCI) eligibility guidelines based on a single scope background investigation/T5 investigation.

c. Requirements

- (1) Complete the Tactical SIGINT Operators Course (F07CVT1), San Angelo, TX.

(2) Complete the Intelligence Surveillance and Reconnaissance Engineer Course (F07DZZ1), San Angelo, TX.

d. Duties. For a complete listing of duties and tasks, refer to reference (p), Signals Intelligence Training and Readiness Manual.

10. MOS 2652, Intelligence Data Engineer (MGySgt to LCpl) NMOS (2651, 2659), DIR INTEL

a. Summary. 2652 Intelligence Data Engineer's duties encompass direct support to the Marine Corps Intelligence Surveillance Reconnaissance Enterprise by enabling methods of Vocabulary, Taxonomy, and Ontology (VTO) structures, organized meta-tagging for intelligence data, managing local repositories, and connecting to external data and cloud services. Marines will work with multiple types of databases to capture and process live, streaming, and distributed data, to include designing and developing customized data collection, management, and search-and-retrieval systems to support the collection, processing, exploitation, analysis, and dissemination of big and complex datasets. Marines will employ modern methods such as the use of machine and deep learning tools for conflating, coalescing, and extrapolating data. Additionally, Marines assigned this NMOS will receive training in SQL, MySQL, and Oracle databases with focus on scripting and programming languages such as PowerShell, Python, R and HTML.

b. Prerequisites

(1) Must hold the MOS 2651.

(2) Security requirement: must have a current single scope background investigation/TS investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

c. Requirements

(1) Complete listed prerequisites and associated certification standards endorsed by Intelligence Department, Headquarters Marines Corps.

11. MOS 2653, Intelligence Software/Security Engineer (MGySgt to LCpl) NMOS (2651, 2659), DIR INTEL

a. Summary. Intelligence Software Engineer's duties encompass direct support to the Marine Corps Intelligence Surveillance Reconnaissance Enterprise by designing, developing, and enabling software-based solutions to intelligence challenges across the enterprise, to include knowledge management, skill management, instructional aids, user applications and research, advanced data and cybersecurity strategies, such as the ability to develop, adapt, or and/or apply a secure coding standard, national intelligence policy, across multiple classification domains. Marines will work with several programming languages to address user-specific visualization needs that accelerate intelligence data processing for immediate-to-instant intelligence services. Marines assigned this NMOS will receive training in C, C++, Java, JavaScript, and HTML programming languages, including the use of vendor specific, authorized Software Development Kits (SDK) based on associated network domain and classification platforms, as well as secure coding practices. This MOS will be assigned and voided only by the authority of the CMC (MM).

b. Prerequisites

(1) Must hold the MOS 2651.

(2) Must have a current single scope background investigation/TS investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

12. MOS 2659, Intelligence Technology and Data Chief (MGySgt to MSgt) PMOS, DIR INTEL

a. Summary. The Intelligence Technology and Data Chief role encompasses data science and technology management, national intelligence enterprise services, and Marine Corps ISR Enterprise (MCISRE) architectural design. Marines are employed as subject matter experts to the strategic and operational planning of senior staff by facilitating direct integration of external, higher, partnered, adjacent and organic resources, while managing the seamless integration of systems, software, and data within the Enterprise. Intelligence Technology and Data Chiefs must be thoroughly familiar with data security, access controls, national intelligence community policy and guidelines, and Marine Corps intelligence specific operational equipment, and how each resource contributes to activity-based intelligence from intelligence and non-intelligence sources. Additional responsibilities include the familiarization of planning, cultivating, training, and the deployment of machine learning tools, neural networks, and artificial intelligence capabilities to include but not limited to artificial intelligence poisoning and machine deception in an operational environment. Marines are assigned as MCISRE architects and function as senior advisors to

the Chief Technology Officer Headquarters Marine Corps, the intelligence staff at the MEF and COCOM level, and in all levels of the Marine Air-Ground Task Force (MAGTF).

b. Prerequisites

(1) Must hold the MOS 2651.

(2) Security requirement: must have a current single scope background investigation/TS investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

c. Requirements

(1) Complete listed prerequisites and associated certification standards endorsed by Intelligence Department, Headquarters Marines Corps.

13. MOS 2691, Signals Intelligence/Electronic Warfare/Cyberspace Operations Chief (MGySgt to MSgt) PMOS, DIR INTEL

a. Summary. Duties encompass signals intelligence (SIGINT), electronic warfare (EW), and cyberspace operations (CO) planning, personnel and asset management, collection management, analysis, dissemination efforts, and ensuring national-to-tactical SIGINT/EW/CO integration. SIGINT/EW/CO Chiefs also supervise the activities of personnel performing communications intercept, electronic reconnaissance, radio direction finding, analysis and reporting functions, CO, and EW operations. They may also be assigned to the intelligence staff of a Marine Air-Ground Task Force, division, or aircraft wing supervising special security and special intelligence support functions. Additionally, they serve in staff billets as operational advisors designated by the commander or cognizant staff officer. Marines in this MOS may be assigned to a BIC within their occupational field that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional

training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must hold the MOS 2629.

(3) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

(4) Must successfully complete a counter-intelligence scope polygraph examination.

3123. OCCUPATIONAL FIELD 27, LINGUIST

1. Introduction. The linguist OccFld contains EMOSs used to identify specific foreign language skills. Qualifications require that Marines attend a formal language school or designated language dialect course and obtain and maintain a minimum proficiency as required by the primary PMOS, NMOS or FMOS in two modalities (listening, reading, or speaking) on the Defense Language Proficiency Test (DLPT). The DLPT is the current Department of Defense standard to determine foreign language proficiency and maintain quality control. Duties involve participation in activities requiring foreign language skills in support of the full range of military operations and intelligence matters encountered during contingencies, operations, and exercises. Formal schooling is provided to those Marines entering this OccFld as a part of the comprehensive training program for designated billets. These EMOSs will be assigned and voided by the Director of Intelligence only.

2. MOS 2712, Arabic (Modern Standard) (MGySgt to Pvt) EMOS (2629, 2641, 2691), DIR INTEL

a. Summary. Linguist MOSs are EMOSs used in conjunction with the 2629, 2641 and 2691 Primary MOSs or Necessary MOS 2642 that indicate specialized foreign language skills. Linguists supervise and participate in language translation/interpretation activities pertaining primarily to military operational and intelligence activities. The linguist MOSs will be assigned as EMOSs to identify those Marines with qualifying foreign language skills. The titles and MOSs will be used to identify billets in T/Os requiring specific foreign language skills as required by the billet MOS (BMOS) or additional skills designator (ASD). This EMOS will be assigned and voided by the Director of Intelligence only.

b. Prerequisites. Must be proficient in Arabic (Modern Standard).

c. Requirements

(1) Qualifying DLPT scores alone are not justification for EMOS assignment. Marines must successfully complete the required course of instruction at the Defense Language Institute, Language Training Detachment, or designated government-funded language course and achieve minimum ILR proficiency as required by the appropriate PMOS or NMOS in two modalities of listening, reading or speaking portions of the Defense Language Proficiency Test (DLPT). (Note: By exception, individuals may qualify for this EMOS when language training is not required, but Marine meets proficiency requirements and language fulfills PMOS, NMOS or billet requirements. In these instances, requests for EMOS assignment must be submitted to Director of Intelligence for eligibility determination).

(2) Maintain minimum ILR level proficiency with as required by the appropriate PMOS or NMOS in two modalities of listening, reading, or speaking portions of the DLPT.

d. Duties

(1) Conducts interpretation and translation of foreign language to English and English to foreign language using phraseology selected to preserve the original intent, meaning, and emphasis.

(2) Phrases ideas to avoid language that is stilted, unnatural, or difficult to understand.

(3) Displays an impartial attitude toward each speaker as to facts and opinions expressed.

(4) Interprets into either English or foreign language statements made by participants in meetings, working parties, or similar non-technical activities.

(5) Interviews friendly non-English speaking civilians such as police, clergymen, and other Citizens to obtain information of military value.

(6) May be required to assist in the writing of reports, including opinion as to the credibility of the person interviewed, for use by unit commander and for dissemination to lower, adjacent, and higher headquarters.

(7) Translates into either English or the foreign language, written material of a non-technical nature.

(8) Establishes an archive file of language reference materials and lexical aids such as English to foreign language and foreign language to English dictionaries, cultural dictionaries, and glossaries of military terms.

e. Related Standard Occupational Classification (SOC) Title and Code. Interpreters and Translators 27-3091.

f. Related Military Skill. None.

68. MOS 2795, Hindi (MGySgt to Pvt) EMOS (2629, 2641, 2691), DIR INTEL

a. Summary. Linguist MOSs are EMOSs used in conjunction with the 2629, 2641 and 2691 Primary MOSs or Necessary MOS 2642 that indicate specialized foreign language skills. Linguists supervise and participate in language translation/interpretation activities pertaining primarily to military operational and intelligence activities. The linguist MOSs will be assigned as EMOSs to identify those Marines with qualifying foreign language skills. The titles and MOSs will be used to identify billets in T/Os requiring

specific foreign language skills as required by the billet MOS (BMOS) or additional skills designator (ASD). This EMOS will be assigned and voided by the Director of Intelligence only.

b. Prerequisites. Must be proficient in Hindi.

c. Requirements

(1) Qualifying DLPT scores alone are not justification for EMOS assignment. Marines must successfully complete the required course of instruction at the Defense Language Institute, Language Training Detachment, or designated government-funded language course and achieve minimum ILR proficiency as required by the appropriate PMOS or NMOS in two modalities of listening, reading or speaking portions of the Defense Language Proficiency Test (DLPT). (Note: By exception, individuals may qualify for this EMOS when language training is not required, but Marine meets proficiency requirements and language fulfills PMOS, NMOS or billet requirements. In these instances, requests for EMOS assignment must be submitted to Director of Intelligence for eligibility determination).

(2) Maintain minimum ILR level proficiency with as required by the appropriate PMOS or NMOS in two modalities of listening, reading, or speaking portions of the DLPT.

d. Duties

3124. OCCUPATIONAL FIELD 28, GROUND ELECTRONICS MAINTENANCE

1. Introduction. The Ground Electronics Maintenance Occupational Field includes the installation; inspection and classification; servicing, adjustment, and tuning; repair; modification; recovery and evacuation; overhauling and rebuilding; and testing and calibration of electronic equipment and systems used by Marine Corps Ground Forces. The equipment includes various types of communications transmission systems, information technology systems, intelligence processing systems, tactical sensor systems, cryptographic devices, artillery electronics systems, digital fire control systems, unmanned aerial vehicle electronics, miscellaneous non-communication systems, electronic jamming systems, and a wide range of test equipment and calibration devices. Qualifications to work in this field include manual dexterity, normal color vision, be eligible to hold a secret security clearance, the ability to understand highly technical material, and to comprehend complex mathematical and logic principles. Types of entry-level jobs available include work as a Ground Electronics Transmission Systems Maintainer, Ground Electronics Telecommunications and Information Technology Systems Maintainer, Calibration Technician, Artillery Electronics Technician, and Technical Controllers. Formal schooling is provided to all Marines entering this field. In general, entry-level training consists of basic electronics, electronic systems fundamentals, and an equipment-oriented phase at either a Marine Corps school or other service school. Career progression training will involve either related supervisory/technical level training or lateral move to another MOS within the field. Skill progression, skill enhancement and skill sustainment training is provided via on the job and Electronics Maintenance Personnel through distributed learning and formal schooling. Billets for Ground are found throughout the Marine Corps, but are concentrated within units having specific electronic or service support mission. Marines in this field may serve within GCE, ACE, MLG, MIG units or supporting establishments. Instructor billets are found at the formal schools. Marines entering this field will be assigned MOS 2800, Basic Ground Electronics Maintenance Marine.

2. MOS 2800, Basic Ground Electronics Maintenance Marine (GySgt to Pvt) BMOS

- a. Summary. None.
- b. Prerequisites. None.
- c. Requirements. None.
- d. Duties. None.
- e. Related Standard Occupational Classification (SOC) Title and Code. None.
- f. Related Military Skill. None.

3. MOS 2831, Digital Wideband Systems Maintainer (Sgt to Pvt) PMOS, DIR C4

a. Summary. Digital Wideband Systems Maintainers are trained to install, diagnose, modify, and perform field level maintenance on digital wideband communications equipment used for high capacity, and satellite link communications. Typical duties include tuning and aligning systems, adjusting audio or data levels, using test equipment to make checks on circuit quality, diagnose equipment faults to the component level, and

replace faulty parts or components at an organizational unit or intermediate maintenance activity. These Marines also requisition parts, complete service requests, and assist in the installation of Digital Wideband Systems. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 115 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must have completed one year of high school algebra.

c. Requirements

(1) Complete the Basic Electronics Course (M092721); and the Digital Wideband Equipment Repair Course (M09D3C1) at MCCES 29 Palms, CA.

(2) Marines must have 36 months obligated service remaining upon graduation from the Digital Wideband Equipment Repair Course. This obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the course.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Radio Mechanics 49-2021.
- (2) Telecommunications Equipment Installers and Repairers, Except Line Installers 49-2022.

f. Related Military Skill. None.

4. MOS 2832, AN/TRC-170 Technician (GySgt to LCpl) NMOS (2831, 2862), DIR C4

a. Summary. AN/TRC-170 Technicians are qualified to install, test, and repair super high frequency (SHF) troposcatter multi-channel communications equipment used for high capacity, point-to-point communications. Typical duties include tuning and aligning systems, adjusting audio or data levels, using test equipment to make checks on circuit quality, diagnosing equipment faults to the component level, and replacing faulty parts or components. They are also trained in the employment and installation of the terminals to complement their working knowledge of hardware capabilities.

b. Prerequisites. Security requirement: secret security clearance eligibility.

c. Requirements. Complete the Troposcatter Terminal Repair Course (TTRC) (M09DR11) at MCCES 29 Palms, CA.

d. Duties. For a complete list of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Radio Mechanics 49-2021.

(2) Telecommunications Equipment Installers and Repairers, Except Line Installers 49-2022.

f. Related Military Skill

(1) Digital Wideband Systems Maintainer, 2831.

(2) Ground Electronics Systems Maintenance Technician, 2862.

5. MOS 2841, Ground Electronics Transmission Systems Maintainer (Sgt to Pvt) PMOS, DIR C4

a. Summary. Ground Electronics Transmission Systems Maintainers are trained to install, diagnose, modify, and perform field level maintenance on ground common transmission systems, digital fires situational awareness systems, vehicle intercommunications systems, vehicle electronics equipment, related electronic equipment, electronic jamming systems, and miscellaneous non-communication systems. Typical duties include the troubleshooting and repair of ground common radio systems, Ground Common Tactical Wideband Transmission Systems and related electronic equipment at an organizational unit or intermediate maintenance activity. These Marines also requisition parts, complete service requests, and to assist in the installation of Ground Electronics Transmission Systems. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must possess an EL score of 115 or higher.

(3) Security requirement: secret security clearance eligibility.

(4) Must have normal color vision.

(5) Must have completed 1 year of high school algebra.

c. Requirements

(1) Complete the Basic Electronics Course (M092721); and the Ground Transmission Systems Repair Course (M09E3K1) at MCCES, 29 Palms, CA.

(2) Marines must have 36 months of obligated service remaining upon graduation from the Ground Transmission Systems Repair Course. This

obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the course.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Radio Mechanic 49-2021.

f. Related Military Skill. None.

6. MOS 2847, Ground Electronics Telecommunications and Information Technology Systems Maintainer (Sgt to Pvt) PMOS, DIR C4

a. Summary. Ground Electronics Telecommunications and Information Technology Systems Maintainers are trained to install, diagnose, modify, and perform field level repairs on repairs on Marine Corps Common Hardware Suite (MCHS) systems, intelligence processing systems, information technology systems, unmanned systems/robotics, telephone switching systems, and related equipment. Typical duties include the repair and alignment to ground common telephone and switching equipment, intelligence processing equipment, data distribution systems, and information technology end user devices (e.g. computers, printers, or plotters), and associated peripheral devices. These Marines also requisition parts, complete service requests, and assist in the installation of Information Technology Systems. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 115 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must have completed one year of high school algebra.

c. Requirements

(1) Complete the Basic Electronics Course (M092721); and the Telephone System/Personal Computer Repair Course (M09DSE1), at MCCES 29 Palms, CA.

(2) Marines must have 36 months obligated service remaining upon graduation from the Telephone System/Personal Computer Repair Course. This obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the course.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

49-2022.

f. Related Military Skill. None.

7. MOS 2848, Tactical Remote Sensor System (TRSS) Maintainer (SSgt to LCpl)
NMOS (2841, 2862), DIR C4

a. Summary. Tactical Remote Sensor System (TRSS) Maintainers are trained to inspect, maintain and repair TRSS equipment up to the field level. TRSS Maintainers are also trained to provide technical assistance during the installation and operation of the TRSS. This MOS will only be assigned to Marines holding primary MOS 2841 or 2862.

b. Prerequisites. Security requirement: secret security clearance eligibility.

c. Requirements. Complete the Tactical Remote Sensor System (TRSS) Maintenance Course (M09DRP1) at MCCES 29 Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.
Radio Mechanics 49-2021.

f. Related Military Skill

(1) Ground Electronics Transmission Systems Maintainer, 2841.

(2) Ground Electronics Systems Maintenance Technician, 2862.

8. MOS 2862, Ground Electronics Systems Maintenance Technician (GySgt to SSgt)
PMOS, DIR C4

a. Summary. Ground Electronics Systems Maintenance Technicians are qualified to perform complex diagnosis, field level repairs, and modifications to ground electronics systems. These technicians supervise ground electronics systems maintenance activities and instruct in the use and maintenance of ground electronics communications systems. Typical duties include complex field level repairs and modifications to ground electronics systems, supervision of a maintenance section or shop, coordination of equipment evacuation for repair with other maintenance activities, requisitioning of parts, and monitoring maintenance reports. These technicians also provide technical assistance during the employment and installation of data/radio communication systems. This MOS is career progression for MOSs 2831, 2841 and 2847. MOS 2862 is assigned upon completion of the Electronics Maintenance Technician Course. MOS 2891, Electronics Maintenance Chief, is assigned upon promotion to Master Sergeant and completion of required training. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 115 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must have completed one year of high school algebra.

c. Requirements

(1) Complete the Advanced Electronics Course (M09DSK1); and the Electronics Maintenance Technician Course (M09DSJ1) at MCCES 29 Palms, CA.

(2) Marines must have 24 months obligated service remaining upon graduation from the Electronics Maintenance Technician Course. This obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the attend training.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Radio Mechanics 49-2021.

f. Related Military Skill. None.

9. MOS 2871, Calibration Technician (Sgt to Pvt) PMOS, DIR C4

a. Summary. Calibration Technicians are qualified to perform calibration of high density, low complexity test measurement and diagnostic equipment (TMDE). Additionally, they are also qualified to repair and modify electrical/electronic TMDE. Typical duties include the calibration of high density, low complexity TMDE and the repair and modification of electrical/electronic TMDE as necessary to include associated maintenance management and metrology documentation. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 115 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must have completed one year of high school algebra.

c. Requirements

(1) Must complete the Calibration Technician Course (M3028T1) at Keesler AFB, MS.

(2) Marines must have 36 months obligated service remaining upon graduation from the Calibration Technician Course. This obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the course.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Precision Instrument and Equipment Installers and Repairers, All Others 49-9069.

f. Related Military Skill. None.

10. MOS 2874, Metrology Technician (MGySgt to Sgt) PMOS, DIR C4

a. Summary. Metrology Technicians are qualified to calibrate precision electronic, mechanical, physical, optical, infrared, and laser Test Measurement and Diagnostic Equipment (TMDE) through use of higher order measurement standards. Typical duties include supervising the operation of a calibration and TMDE maintenance facility to include such tasks as safeguarding and reporting of calibration results, maintaining accurate traceability to a higher echelon laboratory, and preparing and receiving shipments of delicate TMDE. Duties also include the determination of calibration levels required based on equipment capabilities and user requirements, technical evaluation of calibration procedures, monitoring the capability of requirements of facility standards and submission of change requests, and the training of users in the proper care and operations of TMDE. This MOS is a career progression for MOS 2871. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have an EL score of 115 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility
- (5) Must have completed one year high school algebra.

c. Requirements

(1) Must complete the Metrology Technician Course (M30DSG1) at Keesler AFB, MS.

(2) Marines must have 24 months obligated service remaining upon graduation from the Metrology Technician Course. This obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the course.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Precision Instrument and Equipment Repairers, All Other 49-9069.

f. Related Military Skill. Aviation Precision Measurement Equipment (PME) Calibration/Repair Technician, IMA, 6492

11. MOS 2887, Artillery Electronics Technician (GySgt to Pvt) PMOS, DIR C4

a. Summary. Artillery Electronics Technicians are training to operate and maintain Counter Mortar Radar Systems, Meteorological Measuring Systems, Chronograph Systems, and Ancillary Ground Radar Systems. Tasks include the siting, installing, inspecting, testing, and repairing of the systems with emphasis on inspection. Artillery Electronics Technicians maintain necessary records on maintenance performed, hours of operation, and systems or component tests. MOS 2891, Electronics Maintenance Chief is assigned upon promotion to Master Sergeant and completion of required training. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have an EL score of 115 or higher.
- (3) Must have normal color vision.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must have completed one year of high school algebra.

c. Requirements

(1) Complete the Basic Electronic Course (M092721), at MCCES 29 Palms, CA; and Marine Artillery Electronics Maintenance Course (A20DSH1), at Ft Sill, OK.

(2) Marines must have 36 months obligated service remaining upon graduation from the Marine Artillery Electronics Maintenance Course. This obligated service must be obtained prior to execution of PCS (DUINS) or PCA (DUINS) orders to the course.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.
Electrical and Electronics Repairers, Commercial and Industrial Equipment 49-2094.

f. Related Military Skill. None.

12. MOS 2891, Ground Electronics Systems Maintenance Chief (MGySgt to MSgt)
PMOS, DIR C4

a. Summary. Ground Electronics Systems Maintenance Chiefs perform staff duties in formulating and implementing maintenance plans to support tactical logistics IAW MCTP 3-40B. These Maintenance Chiefs will develop policies and procedures for ground electronics systems maintainers to perform inspection and classification; servicing, adjustment, and tuning; repair; modification; recovery and evacuation; overhauling and rebuilding; and testing and calibration of Ground Electronics Systems Equipment and miscellaneous electronics systems used by Marine Corps Ground Forces. As a Senior Staff Noncommissioned Officer in a highly technical field, the Electronics Maintenance Chief is qualified to manage the activities of ground electronics maintenance personnel from diverse maintenance specialties within the MAGTF. Duties may include teaching electronics theory and maintenance best practices, supervising a maintenance shop, writing evaluation test plans, and inspecting units performing electronics maintenance. This MOS is a career progression for Gunnery Sergeants with MOSs 2862 and 2887. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites. Security requirement: secret security clearance eligibility.

c. Requirements. Must complete the Electronics Maintenance Supervisors Course (M09DRN1) at MCCES 29 Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (q), 2800 Ground Electronics Maintenance Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code.
First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. Electronics Maintenance Chief, 5993.

3125. OCCUPATIONAL FIELD 30, SUPPLY CHAIN MATERIAL MANAGEMENT

1. Introduction. The Supply Chain Materiel Management OccFld includes personnel in the areas of ground supply chain management operations, inventory management, preservation and packaging, hazardous materials storage and handling operations, fiscal accounting and purchasing, and contracting procedures pursuant to the Federal Acquisition Regulations. Duties involve administrative procedures, familiarization with state, Federal, and Department of Defense regulations, and the use of material handling equipment in the movement and storage of materiel and equipment. In all MOSs within the OccFld, technical skills are required regarding military and commercial specifications on materiel and equipment being procured, stored, and maintained. These skills and duties must be performed in garrison, afloat, expeditionary and combat environments. These Marines are required to have an operational understanding in executing supply chain functions and programs, some of which are unique to the service and Department of Defense as well as provide for effective and efficient end-to-end materiel support in the area of materiel management. Marines assigned to the occupational field are trained to utilize data scanning, and retrieval devices; office and inventory management procedures; automated information data entry and external systems interface procedures; asset accounting functions; financial budget formulation; management and analysis; and the proper handling, storage, and disposal of hazardous material. Formal schooling is provided to Marines entering the OccFld. Types of entry-level billets such as automated information services supply stock control clerk (retail and intermediate), inventory clerk, shipping/receiving clerk, packaging specialist, fiscal/budget clerk, contract specialist and automated information systems user.

2. MOS 3043, Supply Chain and Materiel Management Specialist (MGySgt to Pvt) PMOS, DC I&L

a. Summary. Supply Chain and Materiel Management Specialist perform and monitor management and procedural application of manual or automated inventory control actions. These Marines must be able to design, plan, execute, control, and monitor supply chain activities with the objective of leveraging worldwide logistics, synchronizing supply with demand, measuring performance and facilitating accountability in retail and intermediate inventory activities and units. Additionally, these Marines prepare, maintain and control essential supporting documentation to document major events in capital asset's lifecycle from acquisition, transference, sub-custody, and final disposition and/or disposal in support of existence and completeness. Advise and provide recommendations to the Supply Officer on all supply matters.

b. Prerequisites

(1) Must possess a CL score of 105 or higher.

(2) No convictions by court-martial, civilian courts, or non-judicial punishment of any act involving larceny or theft.

(3) Must possess a favorably adjudicated national agency check with local agency check and credit checks (NACLC) personnel security investigation.

c. Requirements. Complete the Enlisted Supply Basic Course (M0330V1), MCSSS Camp Lejeune, NC.

d. Duties

(1) The following are the related duties the specialty is most likely to perform in general at the following assigned activities. For a complete listing of duties and tasks, refer to reference (t), Supply Chain and Materiel Management Training and Readiness Manual.

(2) Retail Consumer Level Activities and Units. Executes the production, acquisition, receipt, storage, issues, and distribution of equipment, repair parts, and general supplies. Prepares, maintains, and controls organizational key supporting documents. Maintains, manages, administers, and operates supply systems and activities. Formulates, manages, and expends budgetary execution goals. Computes requirement, determines allowance, researches and identifies supplies and equipment requirements. Inspects completed work for accuracy and compliance with established procedures. Coordinates supply activities. Reviews changes to unit material condition status. Post transactions to organizational and installation property records and supporting transaction files.

(3) Retail Intermediate Level Activities and Units. Determine customer demand patterns and anticipate future requirements of repair parts and general supplies. Distributes newly fielded weapon systems and equipment according to established fielding plans. Process requisitions, issues, and inventory adjustments in accordance to established procedures and policies. Provides support to retail consumer and intermediate maintenance activities. Coordinates with maintenance activities on repairable component actions and component exchange, and bills of material in support of maintenance. Accounts for all items contained in mobility readiness spares packages for exercises, deployments, contingencies and operations.

(4) Wholesale Activities and Units. Act as an agent or advising agent in the acquisition of inventory, materiel, equipment, and products for subsequent resale to retail consumer and/or retail intermediate activities and units. Act as a liaison between the Marine Corps and Defense Logistics Agency.

(5) Formal Training Schools. This occupational specialty draws upon its own experience and expertise of mid-level management to train entry-level Marines in the duties they will perform. Marines from this occupational specialty assigned to formal schools apply adult learning techniques in knowledge transference to the student utilizing the systems approach to training modeled after the analysis, design, development, implementation, evaluation process of training development. Marines assigned to formal schools and/or curriculum developers are performing an additional related standard occupational classification of 13-1151, Training and Development Specialists.

(6) Supply Chain Management and Material Management Analyst. Marines from mid to senior level management assigned from this occupational specialty to the duties of inspecting and analyzing retail level activities in the compliance of DoD and Marine Corps policy and procedures are performing an additional related standard occupational classification of 13-1041, Compliance Officers.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Entry level Marines (Sgt to Pvt) holding entry level ranks perform the duties and tasks comparable to the following classifications:

- (a) Stock Clerks and Order Fillers 43-5081.
- (b) Wholesale and Retail Buyers 13-1041.
- (c) Logisticians 13-1081.
- (d) Financial Managers 11-3031.

(2) Mid-level Management Marines (GySgt to SSgt) holding mid-level management ranks perform the related duties from the entry level ranks with the following additional classifications:

- (a) First-Line Supervisors of Office and Administrative Support Workers 43-1011.
- (b) Sales Managers 11-2022.

3134. OCCUPATIONAL FIELD 55, MUSIC

1. Introduction. Marines in the Music OccFld provide music to support military ceremonies, official functions, community relations, personnel procurement programs, theater security cooperation, and troop "esprit de corps". In combat, musical units continue musical functions and augment security on a temporary basis during periods of heightened combat intensity when use of the band in its primary role is impractical. Marines entering this OccFld will receive MOS 5500, Basic Musician. All OccFld 5500 MOSs are assigned and voided by authority of the CMC (MM). Marines enlisting under the Musician Enlisted Option Program (MEOP) U2 may be required to attend the Basic Music Course at the Naval School of Music (NSOM) after having completed recruit training and Marine Combat Training (MCT). Assignment to a Marine Corps Band follows successful completion of the Music Basic Course. Career Marine Musicians may return to the NSOM for advanced technical training or complete the Instrument Repair Course provided through a civilian school. The opportunity to participate in a formal apprenticeship program leading to receipt of Department of Labor Certification of Apprenticeship may be available in some MOSs within OccFld 55.

9. MOS 5959, Air Traffic Control Systems Maintenance Chief (MGySgt to MSgt) PMOS, DC AVN

a. Summary. Air Traffic Control Systems Maintenance Chiefs supervise, coordinate, and instruct enlisted personnel in the performance of air traffic control maintenance functions. Provide information concerning the capabilities, limitations, and reliability of air traffic control systems and equipment. Instruct operation and maintenance of air traffic control systems. Perform staff support duties in formulating and implementing maintenance and supply plans, provisioning air traffic control systems, and preparing publications and training materials. Supervises surveying, siting, installation, modification, and maintenance tasks. Supervise Air Traffic Control Maintenance Personnel in MOSs 5951, 5952, 5953, and 5954. Must possess a working knowledge of applicable Marine Corps Ground Equipment and Naval Aviation Maintenance Programs.

b. Prerequisites

(1) Must have previously held MOSs 5951, 5952, 5953, or 5954.

(2) Security requirement: secret security clearance eligibility. Some operational billets may require top secret or top secret with sensitive compartmented information eligibility.

c. Requirements

(1) This MOS is career progression for MOSs: 5951, 5952, 5953, and 5954.

(2) Successfully complete the MATC Maintenance Managers Course (MMC) (N23KCN2) at NATTC Pensacola, FL to receive the Intended MOS (IMOS) of 5959I.

(3) After the completion of the MATC Maintenance Managers Course and upon promotion to the rank of Master Sergeant, the MOS 5959 will be granted and reported in MCTFS.

(4) Master Gunnery Sergeants in this MOS are highly encouraged to attend the MACCS Maintenance Course (M0968K1), at Marine Corps Communications and Electronics School, Twentynine Palms, Ca when appropriate space permits.

d. Duties

(1) MGySgt and MSgt:

(a) Supervises personnel in the performance of air traffic control maintenance functions.

(b) Inspects and schedules maintenance for air traffic control maintenance personnel.

(c) Instructs personnel in operation and maintenance of air traffic control systems and equipment.

(d) Supervises and assists maintenance personnel in requisitioning parts and supplies from the Marine Corps and Navy supply system.

(e) Supervises surveying, siting, installation, or maintenance tasks on air traffic control systems.

(f) Ensures system/equipment performance evaluation and qualification, problem identification, and to measure improvement efforts.

(2) MGySgt:

(a) Provides staff support in planning and implementing the maintenance management of air traffic control systems and equipment.

(b) Assists the Maintenance Officer in the determination of air traffic control maintenance policy and the inventory management program of air traffic control systems.

e. Related Standard Occupational Classification (SOC) Title and Code.
First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill

- (1) Communications Chief, 0699.
- (2) Ground Electronics Systems Maintenance Chief, 2891.
- (3) Electronics Maintenance Chief, 5993.

10. MOS 5974, Tactical Data Systems Technician (GySgt to Pvt) PMOS, DC AVN

a. Summary. Tactical Data Systems Technicians are qualified to perform/supervise diagnosis, field level repairs, and modifications to communications data systems found within selected units of the Marine Air Control Group. Typical duties include installation, operation, configuration, troubleshooting, and repair of fiber optic cables, switched local area networks and devices, end-user computers, servers, virtual systems and servers, and system software/firmware for equipment used within the Marine Air Command and Control Systems (MACCS). Additional duties include supervision of a maintenance section/shop, coordination of equipment evacuation for repair with other maintenance activities, requisitioning of parts, and monitoring maintenance reports. These technicians also provide technical expertise in the planning, employment, and installation of aviation command and control systems. Marines in this MOS may be assigned to a BIC [within their occupational field] that has been coded with one or more DoD Cyber Workforce Framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with these work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 115 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Must have a minimum one year of high school algebra.
- (5) Must have normal color vision.

c. Requirements

(1) Complete the 5900 Commons Course (M091J31), Twentynine Palms, CA.

(2) Complete the Tactical Data Systems Administrators Course (M09DZC1), Marine Corps Communications and Electronics School, Twentynine Palms, CA.

d. Duties. For a complete list of duties and tasks, refer to reference (bm), Tactical Air Command Center (TACC) Maintenance Training and Readiness Manual, Tactical Air Operations Center (TAOC) Training and Readiness Manual, and the Direct Air Support Center (DASC) Training and Readiness Manual.

3138. OCCUPATIONAL FIELD 60, AIRCRAFT MAINTENANCE

1. Introduction. The Aircraft Maintenance OccFlds includes direct and indirect support of the total airframes and power plant package of all aviation aircraft weapons systems. While there is similarity in the skills required to provide this support, the systems being supported are diverse. The following examples are provided: direct support-repair and servicing at the organizational maintenance activity which is normally accomplished on aircraft, e.g., preflight and servicing of aircraft and their systems; indirect support-repair of components at the intermediate maintenance activity which is normally accomplished off aircraft, e.g., hydraulic actuators, servos, and accumulators, aircraft engines, and transmissions. Marines entering these fields receive MOS 6000, Basic Aircraft Maintenance Marine, and then progress through specific hard skill MOSs. After completion of formal training, Marines are qualified to maintain airframes and aircraft components. The opportunity to participate in a formal apprenticeship program leading to receipt of a Department of Labor Certification of Apprenticeship Completion maybe available in some MOSs within OccFlds 60/61/62. As the Marine progresses, repair and administrative requirements for multiple systems take on an equal importance until the Marine is placed in a management/supervisory position. Billets for both repair and administration are varied and extend from the squadron level to staff positions at the wing, force commander, and Headquarters U.S. Marine Corps level.

2. MOS 6011, Aviation Production Controller (MSgt to Sgt) NMOS (any PMOS from 60/61/62/63/64/65), DC AVN

a. Summary. Aviation Production Controllers (PC) are responsible for planning, directing, and controlling scheduled and unscheduled maintenance functions at the Intermediate Maintenance Activities (IMA) in direct support of tiltrotor, rotary and fixed-wing aircraft, unmanned aerial systems, and transient squadrons. They supervise the IMA in repairing and requisitioning of aeronautical components, consumables, tools and equipment, cryogenics, ground support equipment, airborne armament equipment, and assist with forecasting and managing the fiscal year logistical expenditures. They must be able to establish and effectively communicate goals across the Maintenance, Avionics, and Ordnance Departments. They are responsible with ensuring the maintenance efforts are efficient, while maintaining constant communication across all three departments, Supply and the Organizational Maintenance Activities Maintenance Controllers. Prepare or supervise the preparation of reports, correspondence, schedules, and rosters pertaining to maintenance and repair. A high level of expertise is required to supervise the execution of various tasks that are encompassed within a wide spectrum of aviation maintenance and logistical matters. They must possess a detailed, working knowledge of Naval Aviation Logistics Command Management Information Systems (NALCOMIS), Relational Supply (R-Supply) and all NAMP and processes governed by reference (bs). Strong written and verbal communication, and computer skills are needed in the performance of their duties.

b. Prerequisites. Must possess a primary MOS from any of the following OccFlds: 60/61/62-Aircraft Maintenance; 63/64-Avionics; or 65-Ordnance.

c. Requirements

(1) Must complete all 5000 level task lists in the Production Control I-Level Training and Readiness Syllabus. Shall be designated for a minimum

of 6 months and have attended the following courses in order to be awarded the MOS:

(a) Intermediate Maintenance Activity (IMA) Production Control Procedures Course (C-555-0043); or the Intermediate Maintenance Activity (IMA) Power Plants Production Control (PC) Course (C-555-2021).

(b) Intermediate Maintenance Activity (IMA) Work Center (Optimized) Course (C-555-0041).

d. Duties

(1) For a listing of duties and tasks, refer to reference (bo), Aviation Training and Readiness Manual.

(2) Upon meeting all eligibility listed for the certification of this MOS, the individual recipient shall coordinate with their unit administration department to ensure this MOS is added to their official Military personnel file (OMPF) in order to accurately reflect the corresponding aviation qualification/designation within their permanent record.

e. Related Standard Occupational Classification (SOC) Title and Code. Production, Planning, and Expediting Clerks 43-5061.

f. Related Military Skill. None.

3. MOS 6012, Aviation Maintenance Controller (MSgt to Sgt) NMOS (any PMOS from 60/61/62/63/64/65), DC AVN

a. Summary. Aviation Maintenance Controllers are responsible for the efficient attainment of aircraft and equipment readiness in support of operational objectives. Maintenance Control will manage all action to retain or restore material or equipment to a serviceable condition with a minimum of expenditure of resources. They also supervise and manage the material control center to ensure effective coordination with the Aviation Supply Department (ASD) for all required indirect materials. A high level of management abilities and aviation maintenance experience is required to supervise the execution of the various tasks encompassed within the wide spectrum of aviation maintenance matters. They must possess a detailed, working knowledge of reference (ad) COMNAVAIRFORINST 4790.2. In addition, Aviation Maintenance Controllers must have detailed knowledge of the Optimized Organizational Maintenance Activity Naval Aviation Logistics Command Management Information Systems (OOMA/NALCOMIS). They must also possess a detailed, working knowledge of Naval Aviation Logistics Command Management Information Systems (NALCOMIS), Relational Supply (R-Supply) and all NAMP and processes governed by reference (bs). Strong written and verbal communication, and computer skills are needed in the performance of their duties.

b. Prerequisites. Must possess a primary MOS from any of the following OccFlds: 60/61/62-Aircraft Maintenance; 63/64-Avionics; 65-Aviation Ordnance.

c. Requirements

(1) Must complete the following:

(a) Naval Aviation Maintenance Control Management for Optimized Organizational Maintenance Activity (OOMA) (C-555-0053).

(b) All required "Safe-For-Flight" (SFF) training in accordance with reference (ad) COMNAVFORINST 4790.2 and (bn) NAVMC 4790.1.

(c) Be SFF designated for a minimum of 6 months.

d. Duties

(1) The following is a summary of duties. For a complete listing of duties and tasks, refer to reference (ad) COMNAVAIRFORINST 4790.2 and (bn) NAVMC 4790.1:

(a) Assist the Aircraft Maintenance Engineer Officer in the day to day management of the maintenance department.

(b) Coordinate with the operations department to ensure alignment of the operations and maintenance plan.

(c) Establish long and short term goals and priorities for the maintenance department in order to support operational planning.

(d) Plan, direct, communicate, and manage all scheduled and unscheduled maintenance actions for aircraft and support equipment for the entire maintenance department.

(e) Assign aircraft to the daily flight schedule, ensuring operational subsystems are capable of executing the assigned mission.

(f) Ensure all maintenance actions are properly documented.

(g) Ensure all maintenance actions requiring Functional Check Flight (FCF) are properly annotated.

(h) Ensure all FCFs are performed prior to assignment of aircraft to the flight schedule.

(i) Certify aircraft "Safe-For-Flight" prior to all flights.

(j) Screen all material requests from work centers prior to forwarding to aviation supply.

(k) Ensure effective utilization of personnel by working with the appropriate work center supervisor.

(l) Strong written and verbal communications skills and managerial skills are required.

(m) Basic computer skills and familiarity of Microsoft Office products are required.

(n) Utilize various information management systems.

(2) Upon meeting all eligibility listed for the certification of this MOS, the individual recipient shall coordinate with their unit administration department to ensure this MOS is added to their Official Military Personnel File (OMPF) in order to accurately reflect the corresponding aviation qualification/designation within their permanent record.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Production, Planning, and Expediting Clerks 43-5061.

(2) First-Line Supervisors of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. Aviation Production Control, 6011.

4. MOS 6016, Collateral Duty Inspector (MGySgt to LCpl) NMOS (any PMOS from 60/61/62/63/64/65), DC AVN

a. Summary. Collateral Duty Inspector(s) (CDI), are experienced aviation maintenance personnel assigned Quality Assurance (QA) duties, and are the direct representative of the Commanding Officer for ensuring the quality of aircraft, engines, components, and equipment. CDIs are assigned to production work centers where they supervise and inspect all work and comply with the required QA inspections during all maintenance actions performed by their respective work centers. CDIs are not authorized to perform Quality Assurance Representative level inspections. CDIs are responsible to the QA Officer when performing QA functions. In addition to inspection duties, CDIs serve as trainers and mentors in their areas of expertise. CDIs must possess the highest standards of professional integrity.

b. Prerequisites. Completion of the 4000 Level Training and Readiness Syllabus.

c. Requirements. Designation by the Commanding Officer or Maintenance Officer.

d. Duties

(1) The following is a summary of duties. For a complete listing of duties and tasks, refer to reference (ad) COMNAVFORINST 4790.2 and (bn) NAVMC 4790.1:

(a) Assist their work center supervisor in managing all program requirements in accordance with reference (ad) COMNAVFORINST 4790.2 as applicable to their work center.

(b) Assist their work center's shift supervisor by ensuring all tasks and priorities passed by maintenance control are accomplished in a safe, efficient, and effective manner.

(c) Ensure all processes as followed per reference (ad) COMNAVFORINST 4790.2 and other applicable directives/standard operation procedures (SOP).

(d) Skilled in researching, reading, and interpreting drawings, maintenance technical manuals, directives and data.

(e) Lead and manage small groups of personnel assigned to a task/job.

(f) Ensure all maintenance actions are performed in accordance with applicable maintenance instructions.

(g) Supervise and inspect all maintenance actions and related activities in progress for their respective work centers.

(h) Ensure all maintenance actions are correctly documented in accordance with reference (ad) COMNAVFORINST 4790.2.

(i) Verify the accuracy of all required material requests prior to forwarding to maintenance control.

(j) Keep their work center supervisor/shift supervisor apprised of all maintenance actions and related activities in progress.

(k) Ensure work center supervisor/shift supervisor understands pertinent information that must be passed to maintenance control, quality assurance, or other work center(s).

(l) Train and mentor other personnel in all programmatic, maintenance, administrative, and training aspects within their specific areas of expertise.

(m) Ensure all training is correctly documented in accordance with reference(s) (ad) COMNAVFORINST 4790.2 and (bn) NAVMC 4790.1.

(n) Utilize a variety of information systems in the performance of their duties.

(o) Basic computer skills are required.

(p) Be familiar with Microsoft Office Suite.

(q) Must be able think critically in order to solve complex problems.

(2) Upon meeting all eligibility listed for the certification of this MOS, the individual recipient shall coordinate with their unit administration department to ensure this MOS is added to their Official Military Personnel File (OMPF) in order to accurately reflect the corresponding aviation qualification/designation within their permanent record.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors of Mechanics, Installers, and Repairers 49-1011.

(2) Fixed-Wing Aircraft Safety Equipment Mechanic, KC-130, 6286.

(3) Fixed-Wing Aircraft Safety Equipment Mechanic, F/A-18, 6287.

(4) Fixed-Wing Aircraft Safety Equipment Mechanic, F-35B, 6288.

16. MOS 6049, Aviation Data Analyst (MGySgt to Sgt) NMOS (6046), DC AVN

a. Summary. Aviation Data Analyst performs data analysis and trend interpretation. They provide qualitative and quantitative analytical information to the Maintenance Department allowing a continuous review of the management practices. They establish, monitor, control, and apply the maintenance data system or configuration management within the activity. They serve as a contact point between work centers and the SPAWAR Systems Center Atlantic and is responsible for the management of all aspects of the MDS to include NALCOMIS reports/inquiries at the activity level. They have full working knowledge of the principles of foundation, mid, and top tier data replication and information available in the aviation data warehouse (ADW). They provide management with data, in graphic and narrative form, necessary to make qualitative decisions about aircraft, equipment, test bench, support equipment, material condition, readiness, utilization, maintenance workload, or failure trends. They ensure joint deficiency reporting system, baseline trouble shooting report, baseline change report and daily summary of changes reports are reviewed and appropriate changes are made to ensure the database is kept current. Additional functions include management of computer Information Systems, verification of database integrity, control of user access to designated activity servers, monitoring and ensuring system accuracy, supporting network system functions, accuracy of database tables. The Aviation Data Analyst is the acting authority for the integrity and validity of all aviation readiness reporting data.

b. Prerequisites

(1) Must be skill qualified as an Aircraft Maintenance Administration Specialist (MOS 6046).

(2) Must have a satisfactory performance in primary MOS duties for a period of 12 months.

(3) Must have a minimum of 24 months service remaining.

c. Requirements

(1) Upon initial assignment to an IMA or OMA billet, complete one of the NALCOMIS Aviation Information Systems Administrator/Analyst training tracks:

(a) NALCOMIS Aviation Maintenance IMA System Administrator/Analyst Pipeline Course (N23WTJ2) at NATTC Pensacola, FL.

(b) NALCOMIS Aviation Maintenance OMA System Administrator/Analyst Pipeline Course (N23WTH2) at NATTC Pensacola, FL.

(c) Complete the Security Plus Certification Course (M03D3RG, M10D3RB, or M22D3R4).

(d) Complete the Network Plus Certification Course (M03KZ7G, M10KZ7B, or M22KZ74).

(2) Personnel reassigned to a different OMA/IMA billet after completing one of the training tracks above must attend one of the following strands:

(a) NALCOMIS Aviation Maintenance IMA Database Administrator/Analyst Strand Course (N23WTK2) at NATTC Pensacola.

(b) NALCOMIS Aviation Maintenance OMA Database Administrator/Analyst Strand Course (N23WTL2) at NATTC Pensacola.

d. Duties. For a complete listing of duties and tasks, refer to reference (ad) COMNAVFORINST 4790.2 and (bn) NAVMC 4790.1.

18. MOS 6062, Aircraft Intermediate Level Hydraulic/Pneumatic Mechanic
(GySgt to Pvt) PMOS, DC AVN

a. Summary. Aircraft Intermediate Level Hydraulic/Pneumatic Mechanics inspect, maintain, and repair aircraft intermediate level hydraulic/pneumatic system components.

b. Prerequisites

- (1) Must possess an MM score of 105 or higher.
- (2) Must have normal color perception.

c. Requirements

- (1) Must complete the following courses:
 - (a) Aviation Structural Mechanic Core Course (N23WSG2).
 - (b) Aircraft Hydraulic Components Intermediate Maintenance Course (N25WRR1).

d. Duties

- (1) For a complete listing of duties and tasks, refer to reference (ad) COMNAVAIRFORINST 4790.2, (bn) NAVMC 4790.1, and (bo) NAVMC 3500.14:
 - (a) Employ operational risk management principles.
 - (b) Perform ground maintenance tasks and repairs on aircraft and mission systems components.
 - (c) Interpret technical manual/correspondence (i.e. instructions, drawings, diagrams).
 - (d) Identify and diagnosis aircraft and mission systems malfunctions.
 - (e) Document all inspections, maintenance, and repairs in a maintenance management database system.
 - (f) Order parts and materials needed for maintenance/repairs.
 - (g) Provide training via self-paced readings, labs, and on-the-job training to individuals in the performance ground maintenance duties.
 - (h) Basic computer skills.
 - (i) Be familiar with Microsoft Office Suite.
 - (j) Strong written and verbal communications skills are necessary in the performance of duties.
 - (k) Utilize a multitude of information management systems.
 - (l) Utilize maintenance training management database systems, to track maintenance training progression and qualifications.

(m) Planning/scheduling/management of personnel and assets to varying degrees which increases with each promotion in rank:

1. Sergeant and below-job/task leader.

2. SSgt-shift supervisor.

3. Gunnery Sergeant-work center supervisor/division chief.

Implement and manage a training plan for the career progression of Marines and sustainment of required maintenance skills/qualifications and all Marine Corps required training.

(n) For career progression Marines should seek to hold the following billets and obtain the corresponding qualifications:

1. Cpl-Collateral Duty Inspector.

2. Sgt-Collateral Duty Inspector.

(2) In addition to the above qualifications/billets, the ranks of SSgt and GySgt should hold a minimum qualification of Collateral Duty Inspector. Additionally, they should seek to hold the following billets/qualifications: Quality Assurance (Quality Assurance Representative), Production Control

e. Related Standard Occupational Classification (SOC) Title and Code. Aircraft Mechanics and Service Technicians 49-3011.

f. Related Military Skill. None.

19. MOS 6073, Support Equipment Electrician/Refrigeration and Engine/Gas Turbine Technician (GySgt to Pvt) PMOS, DC AVN

a. Summary. Support Equipment Electrician/Refrigeration and Engine/Gas Turbine Technicians inspect, test, maintain, and repair aircraft support equipment (SE), electrical/refrigeration and engine/gas turbine systems and systems components. Perform duties related to the operation of support equipment. Perform duties related to the licensing of aircraft maintenance personnel in the operation of support/special support equipment.

b. Prerequisites

(1) Must possess an MM score of 105 or higher.

(2) Must have normal color perception.

c. Requirements

(1) Must complete the following courses:

(a) Aviation Support Equipment Technical Class A1 Course (N236482).

(b) Support Equipment Electrical/Refrigeration Intermediate Maintenance Course (N28WPU7 or N37WPU2).

d. Duties

NMOS (6173, 6174, 6176, 6276, 7372), DC AVN

a. Summary. Weapons and Tactics Instructors (WTI) are the senior instructors, for all Crew Chiefs (CCs) and Aerial Observers (AOs) within their squadron. They are familiarized with Marine Air Ground Task Force (MAGTF) concepts, planning, and operations, with a focus on the integration of their specific type model series (TMS) aircraft during operations in all environmental and threat conditions. They are familiarized with adult learning theory and various learning taxonomies e.g. Blooms, Finks, SOLO, etc. They instruct everything from basic level aircraft, weapons, and mission's systems knowledge and employment, to advanced level tactics, techniques, and procedures, for their specific TMS along with MAGTF concepts and integration. They train and evaluate Marines for basic instructor qualifications and prepare them for advanced instructor qualifications evaluated by Marine Aviation Weapon and Tactics Squadron One (MAWTS-1). WTIs are capable of creating and executing a full spectrum training plan to ensure the squadron's readiness level for the accomplishment of their assigned mission essential task list (METL). As such, any WTI is able to be assigned as the Enlisted Aircrew Training Manager (EATM) for the squadron. The squadron Maintenance chief with the help of the line division chief and senior ranking WTI Crew Chief will assign an EATM to the operations department where they will report directly to the operations officer.

a. Summary. Fixed-Wing Aircraft Flight Engineers, KC-130; monitor all aircraft systems and operate the flight engineer's panel during flight operations. Assist the pilot/copilot in preflight and post flight inspections of the aircraft, supervise servicing functions and record all discrepancies upon completion of flight.

b. Prerequisites

(1) Must be designated as, PMOS 6276, Fixed-Wing Aircraft Loadmaster, KC-130.

(2) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete training requirements for the KC-130 Flight Engineer designation, in accordance with the KC-130 Loadmaster Training and Readiness Manual, per reference (bo) NAVMC 3500.14.

(2) Designated as a KC-130 Flight Engineer by the commanding officer, in accordance with the KC-130 Loadmaster Training and Readiness Manual, per reference (bo) NAVMC 3500.14.

d. Duties

(1) For a complete listing of duties and tasks, refer to reference (ad) COMVANFORINST 4790.2, (bn) NAVMC 4790.1, and (bo) NAVMC 3500.14:

- (a) Operate aircraft/mission/weapon systems.
- (b) Calculate performance data.
- (c) Assist in aircraft navigation.
- (d) Perform fuel management.
- (e) Perform flight checks.
- (f) Assist in functional check flights.
- (g) Assist in emergency procedures.
- (h) Understand maintenance concepts.
- (i) Supervise and conduct servicing functions.
- (j) Understand theory and operation of aircraft/mission/weapons.
- (k) In-flight and ground troubleshooting of aircraft/mission/weapons.

(1) Perform a multitude of ground handling duties in support of flight/maintenance operations (e.g. marshalling of aircraft, ground refueling, and securing/un-securing of aircraft for flight etc.).

(m) When away from home station:

1. Repair aircraft and related systems.
2. Document aircraft discrepancies.
3. Perform aircraft inspections and repairs.
4. Requisition required parts/items needed for maintenance.

(n) Basic computer skills.

(o) Be familiar with Microsoft Office Suite.

(p) Utilize various information management systems:

1. Advanced skills management (ASM).
2. NALCOMIS OMA.
3. MSHARP.

(q) Strong written and verbal communication skills are needed.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Aircraft Mechanics and Service Technicians 49-3011.
- (2) Aircraft Structure, Surfaces, Rigging, and Systems Assemblers 51-2011.
- (3) Airline Pilots, Copilots, and Flight Engineers 53-2011.

f. Related Military Skill

- (1) Helicopter Crew Chief, CH-53, 6173.
- (2) Helicopter Crew Chief, UH-1, 6174.
- (3) Tiltrotor Crew Chief, MV-22, 6176.

11. MOS 6246, Fixed-Wing Transport Aircraft Specialist, C-20 (MGySgt to LCpl) NMOS (any PMOS from 60/61/62/63/64), DC AVN

a. Summary. Ground Maintenance Technicians and Enlisted Aircrews are responsible to perform duties incident to the maintenance and operation of Marine C-20 Fixed-Wing Transport Aircraft at VR-1. This MOS will be assigned as a NMOS only.

b. Prerequisites

(1) Must have skill qualified in a primary MOS from any of the following OccFlds: 60/61/62, Aircraft Maintenance; 63/64, Avionics.

(2) Must volunteer for aircrew training.

c. Requirements

(1) Satisfactory performance in primary MOS duties for the initial six months of assignment to VMR-1.

(2) Meet the requirements of reference (ah), and (ai), the USN Manual of the Medical Department.

(3) Complete all requirement contained in appropriate NATOPS manual or syllabi peculiar to the C-20 Fixed-Wing Transport Aircraft.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Maintenance Training Management and Evaluation Programs (MATMEP) for MOS 6246.

e. Related Standard Occupational Classification (SOC) Title and Code.
Air Crew Members 55-3011.

f. Related Military Skill

(1) Fixed-Wing Aircraft Mechanic, KC-130, 6216.

(2) Fixed-Wing Aircraft Mechanic, F/A-18, 6217.

(3) Fixed-Wing Aircraft Mechanic, F-35B, 6218.

(4) Fixed-Wing Aircraft Crew Master, KC-130, 6276.

12. MOS 6251, Fixed-Wing Aircraft Airframe Mechanic-Trainee (SSgt to Pvt)
Basic MOS, DC AVN

a. Summary. Fixed-Wing Aircraft Airframe Mechanic Trainees, under instruction or close supervision, train for one of the Aircraft Airframe Systems Technician MOSs.

b. Prerequisites

(1) Must possess an MM score of 105 or higher.

(2) Must have normal color perception.

(3) Complete respirator physical.

c. Requirements

(1) Must complete the Recruit Training Master (Male) Course (M088085 or M068083); or the Recruit Training (Female) Course (M068093).

(2) Must complete the Marine Combat Training (MCT) Course (M03M924 or M10M922).

d. Duties. Performs duties under instruction.

e. Related Standard Occupational Classification (SOC) Title and Code.
Enlisted Military Training/Reporting/Special Duty Code (no related SOC) 00-0001.

f. Related Military Skill. None.

13. MOS 6252, Fixed-Wing Aircraft Airframe Mechanic, AV-8/TAV-8 (GySgt to Pvt) PMOS, DC AVN

a. Summary. Fixed-Wing Aircraft Airframe Mechanics, AV-8/TAV-8; inspect, service, maintain, and repair aircraft airframe structures, composite material, hydraulic systems, pneumatic systems, and landing gear systems.

b. Prerequisites

(1) Must have a MM score of 105 or higher on ASVAB (max 3-point waiver).

(2) Must pass the normal color perception test (no waivers).

(3) Must have a five year term of enlistment.

c. Requirements

(1) Must complete the following course(s):

(a) Aviation Structural Mechanic Core Course (N23WSG2).

(b) AV-8B Airframes Organizational Maintenance Course (M046956).

d. Duties

(1) For a complete listing of duties and tasks, refer to reference(s): (ad) COMNAVAIRFORINST 4790.2 and (bn) NAVMC 4790.1:

(a) Assist in pre-flight/post flight inspection of the aircraft.

(b) Assist in start-up/shut down of the aircraft.

(c) Employ operational resource management principles.

(d) Perform a multitude of ground handling duties such as, but not limited to, taxi directing of aircraft, towing of aircraft, refueling of aircraft, securing/un-securing of aircraft, etc.

(e) Perform ground maintenance tasks and repairs on aircraft and mission systems.

(f) Perform aircraft cleaning.

(g) Interpret technical manual/correspondence (i.e. instructions, drawings, and/or diagrams).

(h) Identify and diagnosis aircraft and mission systems malfunctions.

(i) Document all aircraft inspections, maintenance, and repairs in a maintenance management database system.

(j) Order parts and materials needed for maintenance/repairs.

(k) Provide training via self-paced readings, labs, and on-the-job training to individuals in the performance ground maintenance duties.

(l) Basic computer skills.

(m) Be familiar with Microsoft Office Suite.

(n) Strong written and verbal communications skills are necessary in the performance of duties.

(o) Utilize a multitude of information management systems.

(p) Utilize maintenance training management database systems, to track maintenance training progression and qualifications.

(q) Planning/scheduling/management of personnel and assets to varying degrees which increases with each promotion in rank.

1. Sergeant and below-job/task leader.

2. SSgt-shift supervisor.

3. Gunnery Sergeant-work center supervisor/division chief. Create and manage a training plan for the career progression of Marines and sustainment of required maintenance skills/qualifications and all Marine Corps required training.

(r) For career progression Marines should seek to hold the following billets/qualifications:

1. LCpl-Plane Captain.

2. Cpl-Collateral Duty Inspector.

3. Sgt-Collateral Duty Inspector.

(2) In addition to the above qualifications/billets, the ranks of SSgt and GySgt should hold a minimum qualification of Collateral Duty Inspector (ready to be a Collateral Duty Quality Assurance Representative as required by squadron needs). Additionally, they should seek to hold the following billets/qualifications: quality assurance (quality assurance representative), maintenance control (safe-for-flight qualified).

e. Related Standard Occupational Classification (SOC) Title and Code

(1) First-Line Supervisors of Mechanics, Installers, and Repairers 49-1011.

(2) Aircraft Mechanics and Service Technicians 49-3011.

(3) Cleaners of Vehicles and Equipment 53-7061.

f. Related Military Skill

(1) Helicopter Airframe Mechanic, CH-53, 6153.

(2) Helicopter Airframe Mechanic, UH/AH-1, 6154.

(3) Tiltrotor Airframe Mechanic, MV-22, 6156.

(4) Fixed-Wing Aircraft Airframe Mechanic, KC-130, 6256.

(5) Fixed-Wing Aircraft Airframe Mechanic, F/A-18, 6257.

(6) Fixed-Wing Aircraft Airframe Mechanic, F-36, 6258.

14. MOS 6253, Fixed-Wing Aircraft Airframe Mechanic, EA-6 (GySgt to Pvt)
PMOS, DC AVN

a. Summary. Fixed-Wing Aircraft Airframe Mechanics, EA-6; inspect, maintain, and repair aircraft hydraulic/pneumatic and structure systems.

b. Prerequisites

(1) Must possess an MM score of 105 or higher.

(2) Must have normal color perception.

c. Requirements

(1) Complete the appropriate formal "A" school, Aviation Structural Mechanic Core and Aviation Structural Mechanic Organizational Level Strand at NATTC, NAS Pensacola, FL.

(2) Complete the appropriate formal "C" school, EA-6B Hydraulic/Structures Systems (initial) Organizational Maintenance Course (N2692J2) at CNATT, NAS Whidbey Island, WA.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Maintenance Training Management and Evaluation Programs (MATMEP) for MOS 6253.

e. Related Standard Occupational Classification (SOC) Title and Code. Aircraft Mechanics and Service Technicians 49-3011.

3141. OCCUPATIONAL FIELD 63, ORGANIZATIONAL AVIONICS MAINTENANCE

1. Introduction. The avionics OccFld includes direct and indirect support of all aviation weapon systems. While there is a large similarity in the skills required to provide this support, the systems being supported are diverse. The following examples are provided: direct support repair accomplished at the organizational maintenance activity (OMA) which is normally accomplished on aircraft, e.g., replacement of the radar antenna on the aircraft; indirect support-repair accomplished at the intermediate maintenance activity (IMA) which is normally accomplished off aircraft, e.g., radar system module repair, and repair/calibration of the radar support equipment. Marines entering the OccFld receive MOS 6300, Basic Avionics Marine, and then progress through specific hard skill MOSs and ultimately are assigned MOS 6391, Avionics Chief. Qualifications initially include technical proficiency in the repair of one or more electronic systems after completion of formal training. As the Marine is promoted, repair and administrative requirements for multiple systems take on an equal importance until the Marine is ultimately placed in a supervisory position. Billets for both repair and administration are varied and extend from the squadron level to staff positions at the Wing and force commander, and Headquarters U.S. Marine Corps level.

2. MOS 6313, Aircraft Communications/Navigation/Radar Systems Technician, EA-6 (GySgt to Pvt) PMOS, DC AVN

a. Summary. Aircraft Communications/Navigation/Radar Systems Technicians, EA-6, install, remove, inspect, test, maintain, and repair systems, components, and ancillary equipment of installed Aircraft Communications/Navigation/Electrical/Radar Systems to include Deceptive Electronic Countermeasures (DECM) Systems at the OMA level.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception.
- (3) Must possess an EL score of 105 or higher.
- (4) Security requirement: secret security clearance eligibility.

c. Requirements

- (1) Complete the Avionics Technician O Level Class A1 Course (N23A962) at NATTC NAS Pensacola, FL.
- (2) Complete the EA-6B ICAP 2/Block 86 COMM/NAV/RADAR/ECM Systems Organization Maintenance Course (N2694B2) at CNATT Unit Whidbey Island, WA.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6313.

e. Related Standard Occupational Classification (SOC) Title and Code. Avionics Technicians 49-2091.

f. Related Military Skill. None.

3. MOS 6314, Avionics/Maintenance Technician, Unmanned Aircraft System (UAS)
(GySgt to Pvt) PMOS, DC AVN

a. Summary. Avionics/Maintenance Technician, Unmanned Aircraft System (UAS) install, remove, inspect, test, maintain, and repair systems, components, and ancillary equipment. These Marines also perform launch, recovery, and other flight line operations at the organizational maintenance level.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception
- (3) Must possess an EL score of 105 or higher.
- (4) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Avionics Technician O Level Class A1 Course (N23A962) at NATTC NAS Pensacola, FL.

(2) Complete the Unmanned Aircraft System Repairer Course (M04TAE6) at CNATT Mar Unit Cherry Point, NC.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6314.

15. MOS 6391, Avionics Chief (MGySgt to MSgt) PMOS, DC AVN

a. Summary. Avionics Chiefs, as Staff Noncommissioned Officers in charge of the avionics department supervise the maintenance and repair of aircraft avionics systems, equipment and components at the IMA/OMA levels. At the intermediate maintenance activity (MALS), the Avionics Chief (MGySgt) serves as the OccFld sponsor for all 63/6400 MOS within the MAG. At the organizational maintenance activity, the Avionics Chief holds the responsibility of managing the tier III EKMS account/assets as well as manages avionics manpower within the unit.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess an EL score of 105 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Must have normal color perception.

c. Requirements. Must satisfy the requirements for one of the PMOSs within the 63 or 64 OccFlds.

d. Duties

- (1) MGySgt and MSgt:

- (a) Provides subject matter expertise to appropriate 63XX and 64XX lower level MOSs and input on career progression of all Marines in their charge.

- (b) Demonstrates a thorough working knowledge of COMNAVAIRFORINST 4790.2 and 3M procedures.

(c) Ensures facilities are organized to support the maintenance and repair of avionics systems, equipment, or components at the IMA/OMA levels.

(d) Supervise the requisition of spare/replacement parts and necessary work center supplies and equipment using publications and supply documents.

(e) Maintains appropriate records of all maintenance and inspection actions performed, technical training conducted, and organic equipment assigned to the avionics department.

(f) Possesses a thorough understanding and working knowledge of sound management principles, work center supervision, proper methods of training personnel, and accepted and approved avionics maintenance procedures.

(g) Pursues Defense Acquisition Workforce Improvement (DAWIA) Certification in order to gain qualifications prior to entering senior billets within the MOS. Marines serving in billets coded with an additional skill designator (ASD) MOS 8060 as per the table of organization must attain the appropriate certification level through the Defense Acquisition University (DAU) within 24 months of billet assignment. The three primary areas of study typically applicable to AVLOG are:

1. Life Cycle Logistics (LCL).
2. Production, Quality, Manufacturing (PQM).
3. Program Management (PM).

(2) MGySgt:

(a) Possesses a thorough understanding and working knowledge of Marine Corps administrative procedures including the format, preparation, and submission of naval messages.

(b) Demonstrates a thorough understanding of Marine Corps aviation staff organization and functioning of the Marine Aviation Logistic Squadron, Marine Aircraft Wing, and FMF Headquarters levels.

e. Related Standard Occupational Classification (SOC) Title and Code. First-line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

3142. OCCUPATIONAL FIELD 64, INTERMEDIATE AVIONICS MAINTENANCE

1. Introduction. The avionics OccFld includes direct and indirect support of all aviation weapon systems. While there is a large similarity in the skills required to provide this support, the systems being supported are diverse. The following examples are provided: direct support repair accomplished at the organizational maintenance activity (OMA) which is normally accomplished on aircraft, e.g., replacement of the radar antenna on the aircraft; indirect support-repair accomplished at the intermediate maintenance activity (IMA) which is normally accomplished off aircraft, e.g., radar system module repair, and repair/calibration of the radar support equipment. Marines entering the OccFld receive MOS 6300, Basic Avionics Marine, and then progress through specific hard skill MOSs and ultimately are assigned MOS 6391, Avionics Chief. Qualifications initially include technical proficiency in the repair of one or more electronic systems after completion of formal training. As the Marine is promoted, repair and administrative requirements for multiple systems take on an equal importance until the Marine is ultimately placed in a supervisory position. Billets for both repair and administration are varied and extend from the squadron level to staff positions at the Wing and force commander, and Headquarters U.S. Marine Corps level.

2. MOS 6423, Aviation Electronic Micro/Miniature Component and Cable Repair Technician, IMA (GySgt to Pvt) PMOS, DC AVN

a. Summary. Aviation Electronic Micro/Miniature Component and Cable Repair Technicians, at the IMA level, inspect, test, maintain, and repair modules, cards, printed-circuit boards, cables, and miniature and micro-miniature components. They also perform appropriate level of corrosion control.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception.
- (3) Must possess an EL score of 105 or higher.
- (4) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Aviation Electrician's Mate Course Class A1 (N23A972), at NATTC NAS Pensacola, FL.

(2) Complete the Miniature Electronics Repair Course IMA (N016241) at CNATT Det San Diego, CA; or the Miniature Electronics Repair Course IMA (N026241) at Fleet Training Center, Norfolk, VA; or the Miniature Electronics Repair Course IMA (N076244) at NAMTRAGRU Det NS Mayport, FL.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6423.

e. Related Standard Occupational Classification (SOC) Title and Code. Avionics Technicians 49-2091.

f. Related Military Skill. None.

3. MOS 6432, Aircraft Electrical/Instrument/Flight Control Systems Technician, IMA (GySgt to Pvt) PMOS, DC AVN

a. Summary. Aircraft Electrical/Instrument/Flight Control Systems Technicians, at the IMA level, inspect, test, maintain, and repair components, assemblies, subassemblies, modules, cards, printed circuit boards, and ancillary equipment whose aggregate constitutes a complete aircraft electrical/flight control system or subsystem.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception.
- (3) Must possess an EL score of 105 or higher.
- (4) Security requirement: secret security eligibility.

c. Requirements

(1) Complete the Aviation Electricians Mate Course Strand Class A1 (N23A972), at NATTC NAS Pensacola, FL.

(2) Complete the Rotary Wing Avionics Maintenance System IMA Course (M23A9X1), at CNATT Unit Camp Pendleton, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6432.

e. Related Standard Occupational Classification (SOC) Title and Code. Avionics Technicians 49-2091.

f. Related Military Skill. None.

4. MOS 6469, Reconfigurable Transportable Consolidated Automated Support System (RTCASS) Technician, IMA (GySgt to Pvt) PMOS, DC AVN

a. Summary. Reconfigurable Transportable Consolidated Automated Support System (RTCASS) Technicians, at the IMA, inspect, test, maintain, repair, and analyze airborne weapon replaceable assemblies, shop replaceable assemblies, automatic test equipment, and ancillary equipment failures, beyond normal fault isolation procedures.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception.
- (3) Must possess an EL score of 105 or higher.
- (4) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Avionics Technician I Level Class A1 Course (N23A952) at NATTC, Pensacola, FL.

(2) Complete the USMC CASS High Power Configuration Operator/Maintainer Technician Course (N25A725) at CNATTU NAS Oceana, VA; or (M17A728) at CNATTU Miramar, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6469.

e. Related Standard Occupational Classification (SOC) Title and Code. First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

5. MOS 6483, Communication/Navigation/Cryptographic/Countermeasures Systems Technician, IMA (GySgt to Pvt) PMOS, DC AVN

a. Summary. Aircraft Electronic Communication/Navigation/Cryptographic/Countermeasures System Technicians, at the IMA inspect, test, maintain, and repair airborne weapon replaceable assemblies, shop replaceable assemblies and ancillary equipment whose aggregate constitutes a complete aircraft communications, navigation, cryptographic, countermeasures system or subsystem beyond normal fault isolation procedures.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must have normal color perception.

(3) Must possess an EL score of 105 or higher.

(4) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Avionics Technician I Level Class A1 Course (N23A952) at NATTC Pensacola, FL.

(2) Complete the Aircraft Communication/Navigation/Cryptographic/Countermeasures Course (M04A286) at CNATT Mar Unit Cherry Point, NC.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Maintenance Training Management and Evaluation Program (MATMEP) for MOS 6483.

e. Related Standard Occupational Classification (SOC) Title and Code. Avionics Technicians 49-2091.

f. Related Military Skill. None.

6. MOS 6492, Aviation Precision Measurement Equipment (PME) Calibration/Repair Technician, IMA (GySgt to Pvt) PMOS, DC AVN

a. Summary. Aviation Precision Measurement Equipment (PME) Calibration/Repair Technicians test, maintain, calibrate and repair aviation precision measurement and automatic test equipment.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception.
- (3) Must possess an EL score of 110 or higher.
- (4) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Avionics Technician I Level Class A1 Course (N23A952), NATTC, NAS Pensacola, FL.

(2) Complete the Aviation Basic Calibration Technician Pipeline Course (N61A621) at CNATT Unit Keesler, AFB, Biloxi, MS.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6492.

e. Related Standard Occupational Classification (SOC) Title and Code. Precision Instrument and Equipment Repairers, All Other 49-9069.

f. Related Military Skill. None.

7. MOS 6499, Mobile Facility Technician (GySgt to Pvt) PMOS, DC AVN

a. Summary. Mobile Facility Technicians inspect, service, maintain and repair mobile facilities and associated environmental control units, generators, and all other electrical and ancillary equipment.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must have normal color perception.
- (3) Must possess an EL score of 105 or higher.
- (4) Security requirement: secret security clearance eligibility.

c. Requirements

(1) Complete the Aviation Electricians Mate Course Strand Class A1 (N23A972), at NATTC NAS Pensacola, FL.

(2) Complete the Mobile Maintenance Facilities Program Course (N28T5U7) at CNATT Unit North Island, CA; or (N37T5U2) at CNATT Unit Jacksonville, FL.

d. Duties. For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP) for MOS 6499.

e. Related Standard Occupational Classification (SOC) Title and Code. Heating, Air Conditioning, and Refrigeration Mechanics and Installers 49-9021.

f. Related Military Skill. None.

3143. OCCUPATIONAL FIELD 65, AVIATION ORDNANCE

1. Introduction. Aviation Ordnance MOSs handle Class V(A) ammunition issues from safety to procurement, storage, buildup, delivery, and subsequent aircraft loading and downloading. The OccFld includes both organizational and intermediate maintenance of aircraft weapon systems, aircraft guns, gun pods, aircraft crew-served weapons, bomb racks, missile launchers, and Armament Weapons Support Equipment (AWSE). Aviation Ordnance Marines are qualified and certified to handle Class V(A) munitions under current directives. Formal schooling is provided to Marines entering the OccFld. A wide variety of billet assignments are available as shown in the figure later in this entry. Marines entering the OccFld receive MOS 6500, Basic Aviation Ordnance Marine, and attend Aviation Ordnance, Class AO A1 School (N23G3U2) at Pensacola, Fl., with follow-on training at one of several CNATT AO(C) courses, dependent upon anticipated fleet assignment. Upon completion of the applicable AO(C) course, they are designated as either MOS 6531 Aircraft Ordnance Technician or MOS 6541 Aviation Ordnance Systems Technician and are assigned to a T/M/S flying squadron in the case of MOS 6531 or a Marine Aviation Logistics Squadron (MALS)/Station Weapons in the case of MOS 6541.

2. MOS 6516, Ordnance Quality Assurance/Safety Observer (MGySgt to Cpl) NMOS (6531, 6541, 6591), DC AVN

a. Summary. Ordnance Quality Assurance/Safety Observers (QASO's) assigned to Organizational, Intermediate level work centers, Station Weapons, and Marine Training Units (schoolhouses) shall monitor and enforce safe handling of explosives and adherence to established procedures during all ordnance evolutions. QASO's are responsible to the Commanding Officer and are qualified/certified by the designated Ordnance Officer via By Direction authority. At the Organizational level, QASO's supervise weapons inspections, loading, downloading, and storage of ancillary explosive components as well as the build-up of electronic countermeasures related to the T/M/S of their assigned unit. At the Intermediate level and Station Weapons, QASO's supervise the breakout, buildup/ assembly, testing & programming, delivery & receipt, storage, and logistical efforts for all weapons associated with the T/M/S flying squadrons they support.

b. Prerequisites. MOS 65xx formal schools training, Explosive Handlers Physical, Arms, Ammunition & Explosives screening.

c. Requirements. Previously qualified and certified as a team leader, successfully complete the applicable QASO qualification/certification syllabus, and designated as a QASO by the qualification/certification board chairman upon the successful completion of a qualification/certification board.

d. Duties. For a listing of duties and tasks, refer to reference (bo), Aviation Training and Readiness Program Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill. None.

3. MOS 6531, Aircraft Ordnance Technician (SSgt to Pvt) PMOS, DC AVN

a. Summary. This MOS encompasses duties incident to the inspection, maintenance and repair of armament equipment and loading of aviation ordnance on Marine Corps aircraft. The Aircraft Ordnance Technician performs a variety of duties and tasks such as inspecting ammunition, testing aircraft systems, performing preventive maintenance and effecting repairs, loading and fusing ammunition and arming/de-arming aircraft.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 105 or higher.
- (3) Must have normal color perception.
- (4) Security requirement: secret security clearance eligibility.
- (5) Must possess a valid state driver's license.
- (6) Must meet the medical requirements for Explosive Handlers and Explosive Vehicle Operators contained in reference (ai), Article 15-107.
- (7) Marines who handle explosives must meet the criteria to be qualified and certified as per reference (ay).

c. Requirements

- (1) Complete the Aviation Ordnance 'A' School Course (N23G3U2).
- (2) Complete one of the below listed CNATT AO (C) Courses appropriate for the intended initial aircraft assignment:
 - (a) The AV-8B Armament Organizational System Maintenance Course (M04G3Q6) at MCAS Cherry Point, NC.
 - (b) Complete the H-1Y/Z Ordnance Maintenance System Organizational Pipeline Course (M2368V1) at MCAS Camp Pendleton, CA.
 - (c) The F-35 Aircraft Ordnance System Technician Course (N56G3X2) at Eglin AFB, FL.
 - (d) The F18 Armament System Organizational Maintenance Course (N25G3L5) at NAS Oceana, VA.
- (3) Must obtain GSE licenses appropriate for the aircraft assigned.
- (4) Must obtain Incidental Motor Vehicle operator licensing for High Mobility Multi-Wheeled Vehicle (HMMWV Tactical Vehicle).

d. Duties

- (1) SSgt to Pvt:
 - (a) Employs appropriate safety precautions, security procedures, and record-keeping techniques for ordnance.

(b) Operates and performs maintenance on armament weapons support equipment and aircraft armament systems (aircraft armament equipment and aircraft gun systems).

(c) Loads and unloads airborne weapons and stores aboard aircraft to include reconfiguration and functional testing of aircraft weapons release and control, missile, and guns systems.

(d) Removes, maintains, services, installs, and loads aircraft guns.

(e) Arms and de-arms aircraft.

(f) Perform inventory management tasks associated with airborne weapons information system (AWIS) web-based application.

(g) Supports and actively participates in comprehensive weapons systems, safety and training programs.

(2) SSgt to Cpl:

(a) Conducts functional tests of racks, launchers, adapters and electrical components, aircraft armament circuits and maintains them in an operational status by appropriate preventive maintenance.

(b) Configures or reconfigures assigned aircraft for carriage of any aviation ammunition within the capability of the aircraft by installing or removing racks, launchers, adapters, and electrical components.

(c) Maintains and installs aerial target towing equipment; maintains and operates associated support equipment.

(d) Conducts functional tests of aircraft armament electrical fusing, firing, and release circuits and maintains them in an operational status.

(3) SSgt to Sgt:

(a) Applies bore sight procedures and techniques as applicable to aircraft sights and weapons systems.

(b) Procures supplies, maintains records, prepares reports, and utilizes publications pertinent to aviation ordnance and aircraft armament systems.

(c) Performs quality control of work accomplished by the ordnance section on aircraft assigned.

(d) Prepares and submits unsatisfactory equipment reports as outlined in reference (br).

(e) Trains aircraft ordnance technicians in all phases of squadron level aviation ordnance.

(f) Applies administrative procedures necessary to establish and operate a squadron ordnance section.

(g) Conducts administrative and material inspections of squadron ordnance sections.

(h) Prepares conventional ordnance deficiency reports, explosive mishap reports, explosive event reports, technical publication deficiency reports, missile fire reports, product quality deficiency reports, missing lost stolen/recovered ammunition reports, and engineering investigation requests, when appropriate.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Maintenance and Repair Workers, General 49-9042.

(2) Explosive Workers, Ordnance Handling Experts, and Blasters 47-5031.

f. Related Military Skill. Aviation Ordnance Equipment Repair Technician, 6541.

4. MOS 6541, Aviation Ordnance Systems Technician (SSgt to Pvt) PMOS, DC AVN

a. Summary. Aviation Ordnance Systems Technicians perform duties incident to the accounting, stowage, breakout, testing, maintenance, assembly, and transportation of aircraft armament systems, munitions handling equipment, air launched missiles, and conventional munitions. At the IMA level, Aviation Ordnance System Technicians perform required inspections, tests, checks, adjustments, preventive maintenance, and repair on Armament Weapons Support Equipment (AWSE), missile launching equipment, multiple ejection/triple ejection bomb racks, aircraft guns, turrets, aircraft crew-served weapons, aerial targets, and a wide variety of highly technical aircraft armament weapon systems in addition to performing quality assurance, safety, and maintenance management duties.

b. Prerequisites

(1) Must be a U.S. citizen.

(2) Must have a GT score of 105 or higher.

(3) Must have normal color perception.

(4) Security requirement: secret security clearance eligibility.

(5) Must possess a valid state driver's license.

(6) Must meet the medical requirements for Explosives Handlers and Explosives Vehicle Operators contained in Article 15-107 of reference (ai).

c. Requirements

(1) Complete AO A1 Aviation Ordnance Course (N23G3U2); and the CNATT AO (C) Course (M04G3M6 or M04G4C6) at CNATT MARU, Cherry Point, NC.

(2) Must obtain appropriate support equipment and/or material handling licensing upon initial unit assignment (Sgt to Pvt).

(3) Marines who handle explosives must meet the criteria to be qualified and certified as per reference (ay).

(4) Must obtain incidental motor vehicle operator licensing for tactical vehicles up to 7-ton MTRV (or equivalent).

(5) Complete Naval Motor Vehicle and Railcar Inspection Course (AMMO-51) (A403611).

(6) Must complete incidental motor vehicle licensing for HMMWV tactical vehicle.

(7) Complete the Technical Transportation of Hazardous Materials (AMMO-62) Course (A40C042); and obtain dash 2 certification.

d. Duties

(1) SSgt to Pvt:

(a) Performs IMA level maintenance on armament weapons support equipment (AWSE).

(b) Assembles and performs maintenance on air-launched missiles, and conventional munitions, as authorized.

(c) Performs IMA level maintenance on aircraft armament systems (aircraft armament equipment and aircraft gun systems).

(d) Identifies munitions by type, nomenclature, and explosive hazard. Identifies the hazard present and appropriate emergency response procedures for each type of munitions handled.

(e) Transports explosives utilizing assigned handling and transportation equipment.

(f) Employs appropriate safety precautions, security procedures, and record keeping practices for munitions.

(g) Conducts ammunition inventories and maintains stock records of lots/serial numbers.

(h) Performs operator tasks associated with Ordnance Information System (OIS) Ammunition Accounting and Management System.

(i) Perform IMA level maintenance on aircraft guns.

(j) Performs inventory management tasks associated with the All Weapons Information System (AWIS) website.

(k) Prepares, packages and certifies hazardous materiel for shipment.

(l) Certifies vehicles for transport of hazardous materiel.

(2) SSgt to Cpl:

(a) Maintains records and distinguishes the different modifications on all models of missiles and conventional munitions assigned.

(b) Utilizes available technical and supply publications to obtain accurate and complete data for supply purposes.

(c) Perform inspections on the maintenance, storage, and shipment of explosives.

(d) Using ammunition stock and allowance lists/publications, prepares and edits ammunition requisitions and takes requisition follow-up actions.

(e) Makes ammunition issues, prepares invoices, and custody records.

(f) Maintains files, prepares naval messages, and submits ammunition transactions.

(g) Performs the System Administrator tasks associated with Ordnance Information System (OIS) Ammunition Accounting and Management System.

(3) SSgt and Sgt:

(a) Establishes a training program for aviation ordnance technicians.

(b) Perform functions in the establishment operations of a conventional munitions storage area, advance base ammunition storage point, ready storage areas and Forward Arming and Refueling Points (FARP).

(c) Prepares Conventional/Ordnance Deficiency Reports, Explosive Event Reports, Explosive Mishap Reports, Technical Publication Deficiency reports, Product Quality Deficiency Reports, Missing Lost Stolen/ Recovered Ammunition Reports, and Engineering Investigation Requests, when appropriate.

(d) Perform Ammunition Stock Recording Section functions/tasks utilizing the Ordnance Information System (OIS).

(e) Determine the serviceability of ammunition and perform ammunition sentencing functions.

(f) Establish and supervise the operation of a Forward Arming and Refueling Point (FARP).

(g) Supervise operations in an ammunition assembly area.

(4) SSgt:

(a) Utilizes aviation ordnance administrative procedures necessary to establish and operate an IMA.

(b) Conducts administrative and material inspections of IMA activities.

(c) Prepares naval messages, orders, instructions, SOPs, and safety precautions.

(d) Manage the Ammunition Stock Recording System (ASRS).

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Explosive Workers, Ordnance Handling Experts, and Blasters 47-5031.

(2) Maintenance and Repair Workers, General 49-9042.

f. Related Military Skill. Aircraft Ordnance Technician, 6531.

5. MOS 6542, Ammunition Inventory Management Specialist (SSgt to LCpl) NMOS (6541), DC AVN

a. Summary. Ammunition Inventory Management Specialists are responsible for inventory management, requisitioning, issue and receipt reporting, asset maintenance, excess and disposal processing, preparation of transaction reporting (either Ammunition Transaction Reporting (ATR) or Transaction Item Reporting (TIR)), inspection and compliance with directives and reports applicable to Notice of Ammunition Reclassifications (NAR) and Ammunition Information Notices (AIN), preparation of shipping documents and shipping labels, bar code processing, space management including Net Explosive Weight (NEW) management for explosive arc and compatibility management, Load Plan management, and preparation of and management of Non-Combat Expenditure Allocations (NCEA) and augment requests. System Administrators and operators perform all of the aforementioned tasks utilizing the Ordnance Information System (OIS) Ammunition Accounting and Management System. They must possess a detailed, working knowledge of all required references and processes pertaining to Class V(A) ammunition accountability and management duties.

b. Prerequisites

(1) Security requirement: secret security eligibility.

(2) Completion of the 4000-level 6542 T&R syllabus in ASM.

(3) Recommended by Marine Aircraft Group or Station Aviation Ordnance Chief.

(4) Minimum 12 months experience in Ordnance accountability and administration.

(5) Complete the Ammunition Supply Administration Course (US Navy CIN A-041-0040) (if possible); or receive Naval Ammunition Logistics Center (NALC) Ordnance Information System-Retail (OIS-R) Mobile Fleet Support Team/Logistics Ammunition Officer (MFST/LAO) training.

(6) Items (1), (2), and (3) must be achieved, along with either (4) or (5) (or a combination of both) in order to be granted the MOS.

c. Requirements. None.

d. Duties. For a complete listing of duties and tasks, refer to references (br), (dj), and (bo), Aviation Training and Readiness Program Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. None.

f. Related Military Skill. Aviation Ordnance Systems Technician, 6541.

6. MOS 6577, Aviation Ordnance Weapons and Tactics Instructor (MGySgt to Sgt) NMOS (6531, 6541, 6591), DC AVN

a. Summary. Ordnance Chief, quality assurance safety observer and/or collateral duty inspector assigned to an organizational, intermediate level work center or staff billet are subject matter experts (SME) on the tactical employment of expeditionary aviation ordnance operations. AO WTI Marines support MAGTF and squadron commanders by maintaining safety and operational standards, readiness levels and possess the knowledge required to successfully plan, brief, and execute any technique, tactic or procedure authorized in our warfighting doctrine. They are intimately familiar with all aspects of employing an ordnance division/department in any expeditionary environment or operation. They are experts in forward arming refueling points/forward operational bases/distributed aircraft operations and expeditionary advanced based operation concepts

b. Prerequisites

(1) Must obtain one of the following:

(a) Must hold a 6591 MOS.

(b) Or, must be a sergeant or above with a 6531 or 6541 MOS and must possess, or have previously held, the MCO 8023 qualification/certification of Quality Assurance/Safety Observer (QA/SO).

c. Requirements

(1) Must successfully complete the MAWTS-1 Expeditionary Ordnance Course (MEOC) (M14G221).

(2) Must be certified and approved by squadron commanding officer.

d. Duties. As an Expeditionary Ordnance Subject Matter Expert they must be able to effectively and accurately articulate current and future capabilities of a unit's ordnance division/department based on current structure, manpower and qualifications. Identify potential problems and solve all issues related to logistical considerations, requirements and capabilities, execution, potential contingencies and retrograde of all weapons and personnel while observing and adhering to all orders and regulations regarding explosive safety. Increase the squadron commander's capability and lethality by creating, providing, and briefing innovative solutions and improvements to plans, minimizing risk and increasing combat effectiveness. Responsible for providing the most capable and highest trained ordnance division/department to commanders IOT accomplish any given task.

e. Related Standard Occupational Classification (SOC) Title and Code. Teachers and Instructors, All Other 25-3099.

f. Related Military Skill. None.

7. MOS 6591, Aviation Ordnance Chief (MGySgt to GySgt) PMOS, DC AVN

a. Summary. The Aviation Ordnance Chief supervises the establishment and functions of aviation ordnance activities. The Aviation Ordnance Chief assists the Aviation Ordnance Officer with the daily planning, conduct, and execution of the ordnance section, division, or department. They also serve

as Staff Action Officers at the MARFOR, MEF, Wing, and HQMC levels, as well as select naval and joint aviation logistics/acquisition billets.

b. Prerequisites

(1) Security requirement: secret security clearance eligibility (certain key billets require top secret security clearance eligibility).

(2) Must meet the medical requirements for Explosives Handlers and Explosives Vehicle Operators contained in reference (ai), Article 15-107.

c. Requirements

(1) Upon promotion to the rank of Gunnery Sergeant the 6591 MOS will be assigned, in order to be eligible for promotion consideration to the rank of Master Sergeant the Marine is required to attend and successfully complete the Aviation Ordnance Managers Career Progression, Level I Course (formerly known as Aviation Ordnance Officer Career Progression (AOCOP)) (N42G3N3)) at NAS Whiting Field, FL. (reserve & active reserve component Marines are exempt from this requirement).

(2) Marines who handle explosives must meet the criteria to be qualified and certified as per reference (ay).

(3) Upon promotion to the rank of Master Sergeant, should attend and successfully complete the Aviation Ordnance Managers Career Progression Level II Course (N42G4N3) at NAS Whiting Field, FL.

(4) Upon promotion to the rank of Master Gunnery Sergeant, should attend and successfully complete the Aviation Ordnance Managers Career Progression Level III Course (N42G4M3) at NAS Whiting Field, FL.

(5) Marines serving in billets coded with an Additional Skill Designator (ASD) as per the Table of Organization must attain the appropriate certification level through the Defense Acquisition University (DAU) within 24 months of billet assignment.

d. Duties

(1) Assists the aviation ordnance officer in managing the activities of aviation ordnance personnel in their duties and tasks.

(2) Continues supporting the enlisted Marines, 6502 Warrant Officers and Limited Duty Officers to reinforce the officer/enlisted team by providing leadership, instruction, training and mentorship in all matters pertaining to Aviation Ordnance, career progression and core values.

(3) Prepares orders, naval messages, instructions and SOPs, and safety precautions.

(4) Provides subject matter expertise in planning and implementing aviation ordnance functions.

(5) Provides authoritative representation and advocacy on joint/service staffs for aviation ordnance logistics and acquisition support.

(6) Manages and monitors all matters pertaining to weapons, maintenance, support equipment, and aircraft type/model/series within your purview.

(7) At the Master Gunnery Sergeant level, functions as the Marine Aviation Logistics Squadron and Marine Air Group Ordnance Chief simultaneously.

(8) At the Master Gunnery Sergeant level, plays an integral part in overall MOS manpower management. Key billet holders at the Wing/MARFORs will act as voting board members on the enlisted Executive Steering Committee in regards to slating Master Sergeant and Master Gunnery Sergeant billets.

(9) Pursue Defense Acquisition Workforce Improvement (DAWIA) Certification in order to gain qualifications prior to entering senior billets within the MOS. (See MOS 8060) The three primary areas of study typically applicable to AVLOG are:

(a) Life Cycle Logistics (LCL).

(b) Production Quality Manufacturing (PQM).

(c) Program Management (PM).

e. Related Standard Occupational Classification (SOC) Title and Code.
First-Line Supervisors/Managers of Mechanics, Installers, and Repairers 49-1011.

f. Related Military Skill. None.

3144. OCCUPATIONAL FIELD 66, AVIATION LOGISTICS

1. Introduction. The Aviation Logistics OccFld includes personnel in the areas of aviation supply, aviation information systems, and aviation logistics planning. Qualifications required include operating various information technology systems; understanding and utilizing related publications, possessing distinct communicative and writing skills, and the ability to work independently and closely with additional logistical functional areas. The duties involve administration and operational procedures, office and warehouse management procedures; preparation and use of military publications and the preparation of accounting documents. Formal schooling is provided to Marines entering the Aviation Supply Specialist and Aviation Information Systems Specialist MOSs. Types of entry-level jobs include work as Aviation Supply logistics and AIS. There are a wide variety of billets available in the OccFld ranging from duty at all level of the Marine Aircraft Wing/Marine Aviation Logistics Squadron to various Non-FMF billets such as HMX-1 and instructor duty. Aviation Logisticians are primarily aviation supply, aviation maintenance, aviation ordnance, and avionics personnel on higher headquarters staffs that coordinate/conduct aviation logistics planning in support of OPLANS/CONPLANS. In addition to a thorough understanding of their primary MOS, these personnel are involved with the Marine Aviation Logistics Support Program (MALSP), the Marine Corps Planning Process, the Joint operations Planning and Execution System (JOPES), Maritime Prepositioning Force (MPF) operations, and employment of the aviation logistics ship (TAVB). The Aviation Logistics OccFld has been expanded to include principal responsibility in the management and execution of CNO and CMC-directed strategies for continuous process improvement.

2. MOS 6617, Enlisted Aviation Logistician (MGySgt to GySgt) NMOS (6019, 6042, 6391, 6591, 6672), DC AVN

a. Summary. Aviation Logisticians are assigned to selected headquarters and staffs. They are trained in Aviation Logistics (AVLOG) Support Plan Development. The skill set provides headquarters staffs with aviation logistics specific subject matter expertise to support the force deployment planning and execution process, exercise planning, pre-positioning program development and execution, and doctrine development.

b. Prerequisites

(1) Security requirement: secret security clearance eligibility.

(2) Must possess MOS 6019, Aircraft Maintenance Chief; MOS 6042, Individual Material Readiness List (IMRL) Asset Manager; MOS 6391, Avionics Chief; MOS 6591, Aviation Ordnance Chief; or MOS 6672, Aviation Supply Specialist.

c. Requirements

(1) Complete the Maritime Prepositioning Force (MPF) Staff Planning Course, covered by the Expeditionary Warfare Training Group, at one of the listed locations:

(a) (N03L8Q1) NAB Little Creek, VA.

(b) (N30L8Q1) NAB Coronado, CA.

(2) Complete at least one of the following courses:

(a) Unit Movement Officer Deployment Planning Course (A14M7T7).

(b) Joint Course on Logistics (JCL) (A14L232) at the U.S. Army Logistics Management College (ALMC), Ft Lee, VA.

(c) Joint Operations Planning and Execution System (JOPES) Action Officer Course (JD2101) at Ft Eustis, VA.

(d) Joint Operations Planning and Execution System (JOPES) Support Personnel Course (JD101) at Ft Eustis, VA.

(3) Upon assignment by occupation field manager.

d. Duties

(1) Serve as AVLOV representative for Operational Planning Teams (OPT) and Crisis Action Teams (CAT).

(2) Support the development, review, and update of OPLANS/CONPLANS in support of higher headquarters' directives.

(3) Review/validate time phased force deployment data to ensure compliance with guidance and directives.

(4) Develop estimates of supportability and concepts of logistics support.

(5) Support the development and operational orders and letters of instruction for ACE operations and exercises.

e. Related Standard Occupational Classification (SOC) Title and Code

(1) General and Operations Managers 11-1021.

(2) Administrative Services Managers 11-3011.

(3) Transportation, Storage, and Distribution Managers 11-3071.

(4) Logisticians 13-1081.

(5) Operations Research Analysts 15-2031.

f. Related Military Skill. None.

3. MOS 6618, Enlisted AIRSpeed Coordinator (MGySgt to Sgt) NMOS (6019, 6062, 6073, 6391, 6469, 6672), DC AVN

a. Summary. AIRSpeed Enlisted Personnel are assigned to the AIRSpeed office of selected headquarters and staffs. They are trained to institute a culture of self-sustaining, continuous process improvement aligned toward delivering increased readiness and reduced resource cost. AIRSpeed Enlisted Personnel are responsible to provide the planning, training, integration sustainment and monitoring of the best business practices, Theory of Constraints, LEAN, and Six Sigma within Aviation Logistics.

b. Prerequisites

- (1) Must hold MOS 6019, 6062, 6073, 6391, 6469, or 6672.
- (2) Must be trained and certified as a Supply Chain Technical Expert.
- (3) Must be trained and certified as a Supply Chain Design Expert (SCDE).

c. Requirements. Must complete AIRSpeed Black Belt Job Qualification Requirement (JQR) as defined by COMNAVAIRFOR, or equivalent course as approved by HQMC Aviation (ASL).

d. Duties

- (1) Coordinate, support, and monitor TOC process designs and developments.
- (2) Coach LEAN events to include Rapid Improvement Events (RIEs) and Value Stream Analysis.
- (3) Act as team leader for complex LEAN Six Sigma (LSS) events or projects where statistical analysis is required.
- (4) Be responsible for administering and evaluating AIRSpeed events. Function as liaison with external consultants and/or organizations.
- (5) Ensure improvement events are sustained through follow-ups and refresher training.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Training and Development Managers 11-3131.
- (2) Training and Development Specialists 13-1151.
- (3) Operations Research Analysts 15-2031.

f. Related Military Skill. None.

4. MOS 6672, Aviation Supply Specialist (MGySgt to Pvt) PMOS, DC AVN

a. Summary. Aviation Supply Specialists are required to perform those functions unique to aviation necessary to provide logistical support to naval aviation activities. Aviation Supply Specialist prime objective is to satisfy customer requirements. They perform all functions related to aviation logistics, to include customer service support, requisitioning procedures, financial management, inventory management, materiel management, facilities and storage management, and personnel staffing. In addition, Aviation Supply Specialists must have thorough knowledge of all applicable Naval Supply documents, forms, and publications applicable to billet assignment; and must be able to gain proficiency working with Navy Supply afloat procedures, to include the support of deployed aviation operations in a disaggregated operations environment. Duties include validation of customer requirements, processing requisitions, submitting requisitions, initiating appropriate follow-up actions, and processing and delivering material in accordance with all governing policies, regulations and procedures. In addition, Aviation Supply Specialists have an understanding

of acquisition procedures, provisioning and requirements determination, material handling procedures, and fiscal accounting and purchasing procedures in accordance with federal acquisition regulations.

b. Prerequisites

- (1) Must be a U.S citizen.
- (2) Must possess an CL score of 100 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Meet the requirements to obtain a state drivers license.

c. Requirements

- (1) Must have a basic understanding of PC operations/applications.
- (2) Complete the Marine Aviation Supply Specialist Course (N3330B1), Meridian, MS.
- (3) Marines serving in billets coded with an additional skill designator (ASD) as per the table of organization must attain the appropriate certification level through the Defense Acquisition University (DAU) within 24 months of billet assignment.

d. Duties

(1) For a complete listing of duties and tasks, refer to reference (bn), Aviation Maintenance and Supply Training and Readiness Program (AMSTRP).

(2) Pursue defense acquisition workforce improvement (DAWIA) certification in order to gain qualifications prior to entering senior billets within the MOS (see MOS 8060). The three primary areas of study typically applicable to AVLOG are:

- (a) Life cycle logistics (LCL).
- (b) Production, quality, manufacturing (PQM).
- (c) Program management (PM).

e. Related Standard Occupational Classification (SOC) Title and Code

(1) Entry level Marines (Pvt to Sgt) holding entry level ranks perform the duties and tasks comparable to the following classifications:

- (a) Logisticians 13-1081.
- (b) Accountants and Auditors 13-2011.
- (c) Database Administrators 15-1141.
- (d) Customer Service Representatives 43-4051.
- (e) Cargo and Freight Agents 43-5011.
- (f) Production, Planning, and Expediting Clerks 43-5061.

- (g) Shipping, Receiving, and Traffic Clerks 43-5071.
- (h) Stock Clerks and Order Fillers 43-5081.
- (i) Data Entry Keyers 43-9021.
- (j) Light Truck or Delivery Services Drivers 53-3033.
- (k) Laborers and Freight, Stock, and Material Movers, Hand 53-7062.

(2) Mid-level management Marines (SSgt to GySgt) holding mid-level management ranks perform the related duties from the entry level ranks with the following additional classifications:

- (a) Training and Development Specialists 13-1151.
- (b) Budget Analysts 13-2031.
- (c) Financial Analysts 13-2051.
- (d) Statistical Assistants 43-9111.

(e) First-line supervisors of transportation and material moving workers, except aircraft cargo handling supervisors 53-1048.

(3) Senior-level management Marines (MSgt to MGySgt) holding senior-level management ranks perform the related duties from the previous classifications with the following classifications:

- (a) General and Operations Managers 11-1021.
- (b) Computer and Information Systems Managers 11-3021.
- (c) Financial Managers 11-3031.
- (d) Transportation, Storage, and Distribution Managers 11-3071.
- (e) Training and Development Managers 11-3131.
- (f) Operations Research Analysts 15-2031.

f. Related Military Skill

- (1) Supply Chain and Materiel Management Specialist, 3143.
- (2) Inventory Management Specialist, 3151.
- (3) Finance Technician, 3432.

5. MOS 6694, Aviation Logistics Information Management System (ALIMS) Specialist (MGySgt to Pvt) PMOS, DC AVN

a. Summary. Aviation Logistics Information Management Systems (ALIMS) Specialist responsibilities encompass a broad spectrum of network infrastructure and information systems installation, operation, administration, maintenance and security in support of Marine Corps and Naval Aviation. ALIMS Specialists are directly responsible for the deployment of tactical local area networks to any theater of operation (from garrison to

shipboard to forward deployed joint- service environments) to include hardware, software and organic system administration resources that enable network connectivity, communication, operations and management of Aviation Information Systems (AIS). ALIMs Specialists support an array of computer and network operating systems (O/S) to include: Linux, Microsoft Windows Server, CISCO IOS and ALCATEL XOS/AOS in support of a diverse catalog of program of record AIS. ALIMs Specialists are responsible for the maintenance, repair, and secure operation of all AIS organic to the Marine aircraft group (MAG). Systems include but are not limited to: naval tactical command support system (NTCSS), optimized organizational maintenance activity (OOMA), autonomic logistics information system (ALIS), mission planning environment (MPE) systems, F/A-18 automated maintenance environment (FAME), integrated barcode system (IBSONE), NAVAIR fleet system array (NFSA), expeditionary pack up kit (EPUK), collaborative automated maintenance environment optimized (CAMEO), integrated mechanical diagnostics system (IMDS) and all associated portable electronic maintenance aids (PEMA). Administrative tasks include but are not restricted to the following: primary central point of contact for AVLOG IT related issues, ensuring AIS confidentiality, integrity and availability and providing continuity of operations through high availability disaster recovery procedures. Marines in this MOS may be assigned to a BIC within their occupational field that has been coded with one or more DoD cyber workforce framework (DCWF) work role codes. Please reference DoDI 8140.10, DoDM 8140.10, and the MOS roadmap for additional training and certification requirements associated with the work role codes.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Security requirement: secret security clearance eligibility.
- (3) Must have normal color perception.
- (4) Must possess a GT score 110 and EL score of 115 or higher.

c. Requirements. Complete the Aviation Information Systems (AIS) Specialist Pipeline Course (N0562Z7), NAVSTA, Newport, RI.

d. Duties. For a complete listing of duties and tasks, refer to reference (cd), Aviation Logistics Information Management Systems Department SOP.

e. Related Standard Occupational Classification (SOC) Title and Code

- (1) Computer and Information Systems Managers 11-3021.
- (2) Network and Computer Systems Administrators 15-1142.
- (3) Computer Network Architects 15-1143.
- (4) Computer User Support Specialists 15-1151.
- (5) Computer Network Support Specialists 15-1152.
- (6) Computer, Automated Teller, and Office Machine Repairers 49-2011.

f. Related Military Skill

- (1) Network Administrator, 0631.
- (2) Network Chief, 0639.
- (3) Data Systems Administrator, 0671.
- (4) Data Systems Chief, 0679.

3145. OCCUPATIONAL FIELD 68, METEOROLOGY AND OCEANOGRAPHY (METOC)

1. Introduction. The METOC Service OccFld is responsible for collecting, assessing, and disseminating METOC information relevant to friendly and enemy force strengths and vulnerabilities for the planning and execution of operations necessary to characterize the battle space. This includes atmospheric, space, climatic, hydrologic, and littoral oceanographic information for use in the production of Tactical Decision Aids (TDA) and METOC effects matrices. The METOC OccFld is comprised of MOS 6842, METOC Forecaster. Marines entering the 6800 OccFld will complete formal training and receive MOS 6842. As their skill enhancing training progresses, they become eligible to attend MOS 6862 instruction. Billet assignments include: marine expeditionary forces, marine aircraft wings, marine divisions, marine logistic groups, marine expeditionary units, intelligence battalions, marine air control groups, marine air control squadrons, marine corps air stations, Training and Education Command, Chemical Biological Incident Response Force, and instructor duty at MARDET Keesler AFB, MS.

2. MOS 6842, METOC Analyst Forecaster (MGySgt to Pvt) PMOS, DC AVN

a. Summary. Typical duties of the METOC Analyst Forecaster include observing, collecting, recording, validating, processing, disseminating, and assimilation of METOC data and information to formulate forecasts and environmental assessments. METOC Analyst Forecasters use and perform preventive maintenance on METOC sensors, information technology systems, and equipment.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 105 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Must have normal color vision.

c. Requirements

(1) Meteorological and Oceanographic Analyst Forecaster (MOAF) Course students will submit a security pre-screening with the Headquarters Marine Corps (HQMC) Intelligence Department Special Security Officer (SSO) within 30 days of starting the course. Marines with favorable screenings and orders to intelligence battalions will submit a single scope background investigation (SSBI)/T5 investigation package prior to graduation.

(2) Complete the Meteorological and Oceanographic Analyst Forecaster (MOAF) Course (F02WAK1) at MARDET Keesler AFB, MS.

d. Duties. For a complete list of duties and tasks, refer to MCRP 2-10B.6, MAGTF Meteorological and Oceanographic Operations and NAVMC 3500.38C, Meteorological and Oceanographic Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Atmospheric and Space Scientists 19-2021.

f. Related Military Skill. None.

3. MOS 6862, METOC Senior Forecaster (MGySgt to Cpl) NMOS (6842), DC AVN

a. Summary. Senior Meteorology and Oceanography (METOC) Forecasters predict environmental conditions and the effects of these forecasted conditions in support of the MAGTF platforms and operations. These Senior Forecasters serve as a team leader and Senior Instructors (SI) within reference (af), Meteorology and Oceanography Training and Readiness Manual. Senior METOC Forecasters are proficient in the use of environmental sensors and plans which characterize the physical environment. This MOS is assigned only as an NMOS to qualified METOC Forecasters.

b. Prerequisites

(1) Must hold MOS 6842.

(2) Must hold the senior instructor (SI) designation per the MAWTS-1 Command, Control, and Communication (C3) Course Catalog.

(3) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

c. Requirements. Complete the Aerographer's Mate Class C1 Course (F02WBF2) at MARDET Keesler AFB, MS.

d. Duties. For a complete list of duties and tasks, refer to MCRP 2-10B.6, MAGTF Meteorological and Oceanographic Operations and NAVMC 3500.38C, Meteorological and Oceanographic Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. All Other 25-3099.

f. Related Military Skill. METOC Analyst Forecaster, 6842.

4. MOS 6877, Weapons and Tactics Instructor (WTI) METOC (MGySgt to SSgt) NMOS (6842), DC AVN

a. Summary. Weapons and Tactics Instructor Meteorology and Oceanography (METOC) Forecasters train personnel on environmental characterization and effects in relation to aviation operations in support of the MAGTF and aviation ground equipment, sensor, and weapon system performance in relation to enemy threats. WTI METOC Forecasters are proficient in the development of environmental sensing plans to characterize the physical environment and operational orders development required for designated staff billets. This MOS is assigned only as an NMOS to qualified METOC Forecasters.

b. Prerequisites

(1) Must hold MOS 6842.

(2) Must complete aviation career progression model (ACPM) via Marine Net:

(a) MAWTS8000X ACPM-8000 MACCS.

(b) MAWTS8020X ACPM-8020 ACE.

(c) MAWTS8040X ACPM-8040 Threat.

(d) MAWTS8060X ACPM-8060 MAGTF.

(e) MAWTS8080X ACPM-8080 Joint Air Operations.

(3) Must hold the senior instructor (SI) designation per the MAWTS-1 Command, Control, and Communication (C3) Course Catalog.

(4) Security requirement: must have a current single scope background investigation/T5 investigation and adjudicated for sensitive compartmented information (SCI) eligibility.

c. Requirements. Must successfully complete the MAWTS-1 Weapons and Tactics Instructor Course (M149721) Yuma, AZ.

d. Duties

(1) Management of local or subordinate METOC technical training programs.

(2) Identify technical training shortfalls that prevent or hinder the development of METOC products in support of decision makers.

(3) Develop or assist in the development of technical training that improves METOC support to decision makers.

(4) Identify new or emerging METOC doctrinal support methods through Marine Corps Lesson Learned.

(5) Develop or assist in the development of new METOC tactics, techniques & procedures (TTPs) from Marine Corps lessons learned.

(6) Develop the Annex H of a MAGTF or MSC operational order or plan to support Marine Corps, Joint, or Coalition operations in support of contingencies.

(7) Develop MAGTF environmental collection plans that integrate with joint coalition environmental sensing strategies to support Marine Corps operations in support of contingencies.

(8) Identify METOC sensitivities for MAGTF systems and operations to establish METOC thresholds to support all elements of the MAGTF by understanding the impact of the physical environment.

(9) Identify METOC sensitivities for enemy systems and operations to establish METOC thresholds to determine opportunities for exploitation of the physical environment by friendly forces.

e. Related Standard Occupational Classification (SOC) Title and Code. All Other 25-3099.

f. Related Military Skill. None.

3146. OCCUPATIONAL FIELD 70, AIRFIELD SERVICES

1. Introduction. Marines entering this OccFld will receive MOS 7000, Basic Airfield Services Marine. In addition to the required basic technical skills of each particular specialty, Airfield Services Marines must have the ability to work as a team and have the aptitude to learn all facets of equipment, clerical, and administrative procedures unique to the MOS assigned. Formal training is provided to Marines entering the 7000 OccFld. The Airfield Services OccFld includes the performance of Expeditionary Airfield (EAF) Systems Technician (MOS 7011), Aviation Operations Specialist (MOS 7041), and Expeditionary Firefighting and Rescue (EFR) Specialist (MOS 7051). Weapons and Tactics Instructor, Aviation Ground Support MOS (7077 MOS) is an advanced qualification designed to assist squadrons with planning, tactics, and readiness necessary to ensure higher level Marine Wing Support Squadron Training and Readiness events and Mission Essential Tasks are accomplished. In addition to the required basic technical skills of the particular specialty, Airfield Services Marines must have the ability to work closely with others and must have the aptitude to learn all facets of equipment, clerical, and administrative procedures unique to the MOS to which assigned.

2. MOS 7011, Expeditionary Airfield Systems Technician (MGySgt to Pvt) PMOS, DC AVN

a. Summary. An EAF Systems Technician provides the Marine Air Ground Task Force (MAGTF) the capability to rapidly deploy and establish survivable, self-sustaining airfields in support of a wide range of military and humanitarian operations. Marines in this occupational field operate, inspect, and maintain, Emergency Arresting Gear Systems for high performance Marine Corps, Navy, Airforce, and North Atlantic Treaty Organization (NATO) Tail Hook Aircraft. These specially trained technicians are responsible for the design of expeditionary AM-2 airfields employed for military operations and humanitarian aid. Marines of the 7011 occupational specialty also provide expeditionary lighting systems for Marine Expeditionary Units (MEUs) and conduct Tactical/Assault Landing Zone Surveys for Naval and Marine Corps Tactical Aircraft.

b. Prerequisites

- (1) Must possess an MM score of 95 or higher.
- (2) Vision correctable to 20/20 and normal color acuity.

c. Requirements. Complete the Marine Expeditionary Airfield Equipment Course (N2370D2), NAS Pensacola, FL.

d. Duties. For a complete listing of duties and tasks, refer to reference (bx), Expeditionary Airfield Systems Technician Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Aircraft Launch and Recovery Specialists 55-3012.

f. Related Military Skill. None.

3. MOS 7041, Aviation Operations Specialist (MGySgt to Pvt) PMOS, DC AVN

a. Summary. To provide the Marine Corps with trained personnel in MOS 7041, Aviation Operations Specialist (AOS). Selected Marine Corps personnel, male and female are provided with the basic duties of an Aviation Operations Specialist. This includes drafting correspondence; assisting in the preparation of orders, maintaining orders of flight time in both master and individual flight files in accordance with current Marine Corps standard systems and software applications; maintaining files of extended flight; storage and dissemination of flight information publications (FLIP); posting radio and landing facility charts, flight information manuals, maps, and preparing aviation operations safety reports. Additional duties include supporting air tasking order (ATO) production within a Tactical Air Command (TACC), coordinating airfield services to include Air Traffic Control (ATC), Meteorology and Oceanography (METOC), Aircraft Rescue and Firefighting (ARFF) transient Aircraft, Flight Planning, Fuel Services, Airfield Maintenance in accordance with Federal Aviation Administration (FAA) guidelines and restricted airspace management for tenant and non-tenant activities. Although this training is not all inclusive, graduates will be able to function at all levels of command. MOS 7041 is assigned upon completion of the Marine Aviation Operations Specialist Course (MARAOS) and meeting all required prerequisites.

b. Prerequisites

- (1) Must possess a CL score of 100 or higher.
- (2) Security requirement: secret security clearance eligibility.
- (3) Must be a U.S. citizen.

c. Requirements

(1) Complete the Aviation Operations Specialist Course (N3370C1), Meridian, MS.

(2) Basic PC operations/word processing and be able to enter characters in word processing at the following rates: MGySgt to Sgt-35 NET WPM; Cpl-30 NET WPM; LCpl to Pvt-25 NET WPM.

d. Duties. For a complete listing of duties and tasks, refer to reference (bx), Expeditionary Airfield Systems Technician Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Airfield Operations Specialists 53-2022.

f. Related Military Skill. None.

4. MOS 7051, Expeditionary Firefighting and Rescue (EFR) Specialist (MGySgt to Pvt) PMOS, DC AVN

a. Summary. EFR is a unique capability within the ACE. EFR provides Aircraft Rescue and Fire Fighting services in support of airfield operations (AirOps) at forward operating bases and support installations. EFR Services include: Incident Command, Fire suppression and extinguishment, extrication and rescue, basic emergency medical services, salvage and overhaul operations, and immediate hazardous material operations level response.

While supporting a Forward Operating Base, the EFR platoon is also responsible for the effective implementation and management of fire protection and prevention programs.

b. Prerequisites

- (1) Must possess an MM score of 95 or higher.
- (2) Minimum height requirement to be classified a 7051 is 59 inches (actual height).
- (3) Valid state driver's license.
- (4) Must meet the medical standards as required per reference (bc), The National Fire Protection Association (NFPA) 1582; and reference (cq), The Occupational Safety and Health Administration (OSHA) 29 Code of Federal Regulation (CFR) 1910.234.

c. Requirements

- (1) Complete the Fire Protection Apprentice (Air Force) Course (F0764T2), San Angelo, TX.
- (2) Must meet the medical standards as required per reference (bc), The National Fire Protection Association (NFPA) 1582; and reference (cq), The Occupational Safety and Health Administration (OSHA) 29 Code of Federal Regulation (CFR) 1910.234.
- (3) Vision correctable to 20/20, maximum vision impairment of 20/50 and normal color acuity.

3147. OCCUPATIONAL FIELD 72, AVIATION COMMAND AND CONTROL OPERATIONS

1. Introduction. The Air Control, Air Traffic Control, Air Support, And Antiair Warfare OccFld includes the operation and management of the air command and control functions associated with the Marine Aircraft Wing. Qualifications required include manual dexterity for man-machine interface, highly developed visual/auditory skills, the ability to communicate effectively with radios, and the leadership and skills to work effectively as a member of a command and control team. The duties involve skills and procedures that are initially acquired through formal schools and further developed by individual and team training. Air Control, Air Traffic Control, Air Support And Antiair Warfare Marines will be required to learn the emplacement, cabling orientation and operation of air command, control, traffic control, and antiair warfare defense systems and equipment. Entry-Level Assignments Include LAAD Gunner, Air Command and Control Operator, Air Traffic Controller, and Air Support Operations Operator. A wide variety of FMF billets are available in the OccFld in the active and reserve forces at group, squadron/battalion, or battery level. Numerous Non-FMF assignments also exist at the Marine Corps Systems Command, Marine Corps Air Stations worldwide, as instructors at MOS-producing schools. Marines will participate in routine air command and control functions while training for a designated MOS within the OccFld. (See figure 3-38 for additional information concerning the career/grade structure and schooling of these Marines).

2. MOS 7212, Low Altitude Air Defense (LAAD) Gunner (MGySgt to Pvt) PMOS, DC AVN

a. Summary. LAAD Gunners serve in Ground Based Air Defense (GBAD) units, with the mission to provide surface-to-air fires in support of MAGTF critical assets from threat unmanned aerial systems, missiles, and fixed and rotary wing aircraft. Gunners are responsible for employment and maintenance of all equipment and weapon systems inherent to a LAAD Battalion. Gunners will provide air base ground security when not engaged in air defense operations.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 90 or higher.
- (3) Must possess a valid state driver's license.
- (4) Cannot be left eye dominant.
- (5) Security requirement: secret security clearance eligibility.
- (6) Must have normal color vision.
- (7) Must have 20/20 vision (may be correctable to 20/20 with eyeglasses or contact lenses).
- (8) Hearing loss no greater than 15 dB between 500 Hz and 2000 Hz.
- (9) At least 64 inches in height.

(10) Must meet Initial Strength Test standards associated with PEF assignments as listed in the glossary (pg xiv) prior to shipping to recruit training.

(11) Must meet MOS Classification Standards as listed in the glossary (pg xiv) prior to graduating from recruit training.

c. Requirements. Complete the Basic Gunner (LAADGC) Course (M092141).

d. Duties. For a complete listing of duties and tasks, refer to reference (ag), Low Altitude Air Defense Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Artillery and Missile Crew Members 55-3014.

f. Related Military Skill. None.

3. MOS 7236, Tactical Air Defense Controller (MGySgt to Pvt) PMOS, DC AVN

a. Summary. Tactical Air Defense Controllers advise on effective use of battle management assets. They provide functional expertise and input for activating, employing, deploying, or deactivating battle management systems. ACO manage assigned forces and air operations using voice and data communications and radar systems. Tactical Air Defense Controllers advise on weapons control capabilities. To facilitate MAGTF operations; Tactical Air Defense Controllers conduct analysis to determine optimum emplacement of AC2 ground units, Surface-to-Air platforms, and positioning of airborne assets. ACO's provide appropriate types of positive and procedural control or direction of friendly aircraft in Combat Airspace. Tactical Air Defense Controllers direct aircraft in the execution of the six functions of Marine Aviation. Tactical Air Defense Controllers coordinate and integrate kinetic and non-kinetic aviation fires into combat airspace. This includes control of Defensive Counter Air (DCA), Offensive Counter Air (OCA), and Armed Interdiction (AI) flights. They also coordinate and direct Close Air Support (CAS), Deep Air Support (DAS), Assault Support (AS), Medical Evacuation (MEDEVAC), Casualty Evacuation (CASEVAC), Electronic Warfare (EW), Aerial Reconnaissance (AR), and Aerial Refueling missions. During Amphibious Operations Air Control Operators can also be selectively employed in the Navy Tactical Air Control Center (TACC Afloat), Supporting Arms Coordination Center (SACC), and Landing Force Operations Center (LFOC).

b. Prerequisites

- (1) Security requirement: secret security clearance eligibility.
- (2) Must have normal color vision.
- (3) Must possess a GT score of 105 or higher.
- (4) 12 months time in service remaining at expected graduation date.
- (5) Must be a U.S. citizen.

c. Requirements. Complete the Air Control Electronic Operator Course (M0972P1), Twentynine Palms, CA.

d. Duties. For a complete listing of duties and tasks, refer to reference (o), Tactical Air Operation Center Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Command and Control Center Specialists 55-3015.

f. Related Military Skill. Air Battle Manager (AFSC B1), 0318 Navy Operations Specialist.

4. MOS 7242, Air Support Operations Operator (MGySgt to Pvt) PMOS, DC AVN

a. Summary. Air Support Operations Operators perform duties that support the integration of aviation with the Ground Combat Element (GCE). They are responsible for processing immediate requests for close air support, casualty evacuation (CASEVAC) and medical evacuation (MEDEVAC), and assault support; integrating aviation with other supporting arms and ensuring safety of flight for aircraft throughout the MAGTF area of operations. Their efforts support the management of combat airspace and the delivery of kinetic and non-kinetic aviation fires in support of ground forces. They also coordinate air missions that require deep air support (DAS), electronic warfare (EW), aerial refueling and designated aerial reconnaissance (AR). They are also responsible for the preparation, movement, emplacement and operation of air support equipment and tactical data systems. During operations they normally work in the Direct Air Support Center (DASC) which is co-located with the GCE or the Tactical Air Command Center (TACC) which is the operational command post for the ACE. During amphibious operations Air Support Operations Operators can also be employed in the Navy Tactical Air Control Center (TACC Afloat), Supporting Arms Coordination Center (SACC), and Landing Force Operations Center (LFOC) as required.

b. Prerequisites

- (1) Must be a U.S. citizen.
- (2) Must possess a GT score of 100 or higher.
- (3) Security requirement: secret security clearance eligibility.
- (4) Must have normal color vision.

c. Requirements. Complete the Air Support Operations Operator Course (ASOOC) (M0967L1).

d. Duties. For a complete listing of duties and tasks, refer to reference (t) Direct Air Support Center Training and Readiness Manual.

e. Related Standard Occupational Classification (SOC) Title and Code. Military Enlisted Tactical Operations and Air/Weapons Specialists and Crew Members, All Other 55-3019.

f. Related Military Skill. Tactical Air Defense Controller, 7236.

5. MOS 7251, Air Traffic Controller-Trainee (Sgt to Pvt) BMOS, DC AVN

a. Summary. While undergoing instruction under general supervision, trainees pursue qualifications in Air Traffic Control, MOS 7257.

b. Prerequisites

a. Summary. Special Operations Capabilities Specialists (SOCS) provide specialized capability in support of the special operations core activities of foreign internal defense (FID), security force assistance (SFA), direct action (DA), special reconnaissance (SR), counter-terrorism (CT), support to Military Information Support Operations (MISO), support to unconventional warfare (UW), and support to countering weapons of mass destruction (CWMD) as part of the Marine Forces Special Operations Command (MARFORSOC). SOCS possess high levels of maturity, experience, judgment and the ability to rapidly apply critical thought to operational objectives. They are capable of operations across the entire spectrum of special operations, from employment in isolated and austere locales with little-to-no conventional support to operations as fully integrated units in a variety of joint task organized configurations. (1) SOCS B Summary. The SOCS B is the Commander's link to Joint Fire Support across the Range of Military Operations. SOCS B specialize in requesting, planning and controlling assault support, surface to surface, sea to surface, air to surface, kinetic, non-kinetic, manned and unmanned fire support or Intelligence Surveillance and Reconnaissance (ISR) assets. The SOCS B is eminently qualified to plan request and control fires from any domain in any environment. (1) SOCS C Summary. SOCS C are trained multi-disciplined, tactical, technical, communications professionals able to expose, consume, and exploit communications to enable the Operational Commander to make rapid, and fully informed decisions at all levels of command. SOCS C's must seize opportunities presented by emerging technologies that successfully leverages innovation in automation and artificial intelligence. By managing communications platforms, and data as a critical asset, they better inform the decisions making cycle while positioning Special Operations Forces (SOF) to exploit cutting edge analytical techniques. SOCS-Cs at the MSOT/MSOC/SOTF/CJSOTF are able to plan, install, operate, maintain, and defend joint networks, services and information required to support the full spectrum of distributed Special Operations, which includes Joint, Interagency, Intergovernmental, and Multinational operations. (1) SOCS D Summary. SOCS D are Multi-Purpose Canine

(MPC) handlers that provide the following K-9 capabilities: explosive detection, tracking, searches, controlled aggression and psychological deterrence. (1) SOCS E Summary. SOCS-E are manned, trained, and equipped to support all SOF Core Activities and operations assigned to MARSOC. SOCS E provide the four pillars of MARSOF EOD support: Assault support, Technical Support and Technical Surveillance, Support to SOF Sensitive Site Exploitation (SSE), and Support to theater CWMD efforts. (1) SOCS F Summary. SOCS-F Marines are team-oriented, but are trained and ready to operate independently or as members of an element, team, company, battalion or regiment. At the team level, the SOCS-F Marine provides intelligence support to planning, force protection/indications and warnings, foreign intelligence collections, and support to targeting. At the company and battalion level, the SOCS-F Marine coordinates SOF SIGINT/EW support for all assigned SOF, conducts SIGINT analysis and reporting, provides intelligence support to planning, and coordinates electronic warfare operations. The SOCS-F will communicate and coordinate between foreign and interagency partners throughout the execution of their mission. The SOCS-F is a multi-disciplined intelligence Marine who will train in and be capable of utilizing other intelligence and non-intelligence techniques in order to enhance their primary mission of SIGINT/EW support. (1) SOCS G Summary. SOCS-G Marines are team-oriented, but are trained and ready to operate independently or as members of an element, team, company, battalion or regiment. At the team level, the SOCS-G Marine is able to provide imagery and geospatial intelligence support for mission planning, support to targeting, provide intelligence surveillance (ISR) reconnaissance tactical control of unmanned aerial vehicles, and manage collection requirements. At the company level and battalion level, the SOCS-G coordinates collection operations and leverages national, theater and local level ISR to support mission planning and targeting, and provides geospatial intelligence support for mission planning and targeting for all assigned SOF. The SOCS-G will communicate and coordinate between foreign and interagency partners throughout the execution of their mission. The SOCS-G is a multi-disciplined intelligence Marine who will train in and be capable of utilizing other intelligence and non-intelligence techniques in order to enhance their primary mission of geospatial/imagery support. (1) SOCS H Summary. SOCS-H Marines are team-oriented, but are trained and ready to operate independently or as members of an element, team, company, battalion or regiment. At the team level, the SOCS-H Marine provides intelligence and sensitive activities support to planning, force protection, insider threat, collections against foreign intelligence entities, and support to targeting. At the company and battalion level, the SOCS-H Marine coordinates SOF CI/HUMINT and sensitive activities support for all assigned SOF, conducts CI/HUMINT analysis, and provides intelligence support to planning. The SOCS-H will communicate and coordinate between foreign and interagency partners throughout the execution of their mission. The SOCS-H is a multi-disciplined intelligence Marine who will train in, and be capable of utilizing other intelligence and non-intelligence techniques in order to enhance their primary mission of CI/HUMINT support. (1) SOCS I Summary. SOCS-I Marines are team-oriented, but are trained and ready to operate independently or as members of an element, team, company, battalion or regiment. At the team level, the SOCS-I Marine provides fused multi-disciplined intelligence in support of collections, force protection/indications and warnings, mission planning and execution, and targeting. At the company and battalion level, the SOCS-I Marine coordinates and directs the multi-disciplined intelligence support for all assigned SOF, conducts intelligence analysis and reporting, provides intelligence support to planning, targeting, and coordinates intelligence

operations. The SOCS-I Marine will communicate and coordinate between foreign and interagency partners throughout the execution of their mission. The SOCS-I is a multi-disciplined intelligence Marine who will train in and be capable of utilizing other intelligence and non-intelligence techniques in order to enhance their primary mission of All Source Intelligence support.

(1) SOCS L Summary. SOCS L are multi-disciplined logisticians and supply professionals who are able to execute: Operational-Level Theater Mobility & Distribution planning; Joint Automated Information Systems; Field Ordering Officer(s)/Pay Agent(s); Service & Special Operations-Peculiar Ammunition management and handling; and joint sustainment planning. (1) SOCS M Summary. SOCS M are multi-disciplined MARSOF mechanics who are able to diagnose, repair, and maintain a wide range of service common, non-standard, or indigenous automotive vehicles, and engines or generators. (1) SOCS O Summary. SOCS O are MARSOF armorers who are trained to maintain service common and SOF unique equipment. (1) SOCS U Summary. The SOCS U operates, instructs, and evaluates on all organic Group 1/2 Unmanned Aircraft System (UAS), Echelon 0 Organic Precision Strike, Counter UAS, and Unmanned Ground Systems (UGS) in support of small units at the tactical edge conducting distributed operations.

CHAPTER 4

ENLISTED CONVERSION GUIDANCE

4001. IMPLEMENTATION OF MOS CONVERSION1. Deputy Commandant, Manpower and Reserve Affairs

a. Director, Manpower Plans (DC M&RA (MP)). Modify models to reflect MOS changes shown in figure 4-1.

b. Director, Personnel Management Division (DC M&RA (MM)). Modify models and other supporting information systems to reflect MOS changes shown in figure 4-1. The Type Transaction Code (TTC) conversion for the Marine Corps Total Force System (MCTFS) will convert MOSs (BMOS) and (PMOS) and add requisite Non-PMOS (as applicable) for active duty components. Action will be accomplished by the DC M&RA (MM) on 1 October 2021 to convert the present MOS codes being revised as listed in the table of MOSs to the new MOS codes listed (refer to figure 4-1).

c. Director, Management Information Systems Division. Update the MCTFS MOS Tables prior to the DC M&RA (MM, RA) submission of the TTC conversions that will occur on 1 October 2021.

2. Commanding General, Marine Corps Recruiting Command. Ensure MOS conversions are entered into the Marine Corps Recruit Information Support System (MCRISS) on 30 April 2021.

3. Commanding General, Training and Education Command. Conduct a final coordination meeting and then release an advisory to Marine forces, which will announce revision of this Manual and serve as the source document on 30 April 2021.

4. Director, Total Force Structure Division (DC CD&I (TFS)). Update Total Force Structure Management System (TFSMS) to reflect the MOS conversions contained in figure 4-1 in or about February 2021.

5. Commanding General, Training And Education Command. CG TECOM, MAGTF Training and Education Standards Division (C 466), will release an advisory to Marine forces, which will serve as the source document on 15 April 2021.

6. Marine Corps Reserve.

a. DC M&RA (RA). Coordinate retraining of Prior Service MOS Retraining Program" (PSMRP) Marines and Active Reserve (AR) Marines as required for MOS conversion, subject to the availability of funds.

b. The Commander, Marine Forces Reserve (COMMARFORRES). Coordinate retraining of SMCR Marines as required for MOS conversion, subject to the availability of funds.

c. The Commanding General (CG), Individual Reserve Support Organization (MIRSO). Make appropriate SRB entries for Individual Mobilization Augmentees, Individual Ready Reservists, and Standby Reservists using as authority the DC M&RA (MM) conversion action appearing on the RUC's DFR with an origin of "HQ".

4002. COMMANDING OFFICER'S RESPONSIBILITIES

1. Active component units verify appropriate conversion actions appearing on the RUC's Diary Feedback Report (DFR) with an origin code of "HQ".
2. Commanding Officers will ensure that no unit diary entries are submitted based on the revisions of this Manual until after the 1 October 2021 batch change performed by DC M&RA (MM). Omissions from the batch changes should be coordinated with DC M&RA (MM) before changes are submitted by the unit.
3. Directors of Marine Corps formal schools and commanders of training detachments will award current MOSs until directed by MARADMIN to implement new conversions (usually coinciding with new fiscal year).
